I am stronger than the combined forces of the universe and I am more wise than all the doctors in the world. I know what medicine and I know how to use it. ### Fewer Eggs are required with ROYAL BAKING POWDER

In many recipes the number of eggs may be reduced with excellent results by using an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following recipe is a practical example:

**Chocolate Sponge Roll**

1/4 cup flour  
1/2 teaspoon salt  
1 cup sugar  
2 eggs  
2 squares melted chocolate

2 tablespoons melted shortening  
1/2 cup hot water  
1 teaspoon vanilla  
2 tablespoons Royal Baking Powder

The old method called for 4 eggs and no baking powder.

**DIRECTIONS**—Sift flour, baking powder and salt together three times. Beat whole eggs. Add slowly sugar, then boiling water slowly; add next vanilla, melted chocolate and melted shortening, without beating. Sift in dry ingredients, and fold in as lightly as possible. Pour into large baking pan lined with oiled paper, and bake in slow oven twenty minutes. When done, turn out on a damp, hot cloth, spread with white icing and roll.

Booklet of recipes which enumerate in egg and other expensive ingredients mailed free.

### WARN AUTO OWNERS TO SAVE HUMAN LIFE

INSURANCE COMPANY TELLS OF CLAIMS PAID ON ACCOUNT OF CARELESSNESS.

From the publicity department of one of the large accident insurance companies of America comes the following warning to automobile owners, which is rather to the point in that the insurance company tells what the company suffered by having to pay claims for the lives of the careless parties.

It precedes the review of the claims paid, with some advice for the garage as follows:

"Don't run your engine in the garage with the doors and windows closed.

"It is death to do this.

"Exhaust gases from gasoline engines contain carbon monoxide in DANGEROUS QUANTITIES.

"One-fifth of one per cent carbon monoxide in the air will produce FATAL RESULTS.

"Not one person in one hundred knows the danger.

"Spread this warning for the saving of human life."

Then the company explains the cases upon which it had paid claims as follows:

A lawyer in Sioux Falls, South Dakota, had taken his family to a theater but instead of taking them him took the car to a garage to have the lights repaired. Later in the night the family saw the lights burning in their own shed but thought nothing of it. The next morning they made an investigation and found the lawyer dead beside the car.

A forty foot launch containing a three cylinder engine was owned by a real estate dealer in Bellingham, Washington. In the expectation of laying the boat up for the winter he was working on the engine indoors and was suddenly overcome by the gas from the exhaust and died in a few moments.

While trying to put a new license tag on his automobile an assistant to a railroad president in Philadelphia was overcome by gas and died.

**WE LIVE TO LEARN.**

Learn to Know That Right Will Prevail.

There is much in saying, "We live to learn." Some live to learn little. Much learning may be had from books, much more from men. Could a man at twenty have the knowledge he had to live forty years to gain, what a wonderful career he must shape for himself.

Do you know that there is nothing within the range of that a man cannot achieve, if he will.

The knowledge a man has at forty can be yours at twenty if you will but learn.

Learn to know that right will prevail. Look about you, observe the men who spent thirty, forty, fifty years in learning that it is not too late. Ask some of them to tell you of the things they learned that you, who are twenty, may also learn. Every man has his destiny within himself. The thing a sane man can conceive of, that thing he can do.

The power to accomplish lies with himself. The fact that he can conceive himself doing it is a positive proof of ability. Live as nature directs. Every act against nature has its retributive sequence. If you muddle your brain with whiskey you are going against nature. If you are a drug fiend and and continue to remain so, soon you will be an imbecile.

This is the price you pay nature. Nature always demands and receives payment for transgressions against the law. It is natural to be honest; nature's laws are honest; obey them and you prosper; ignore them and you fail. "Honesty is the best policy," just as it reads, no other way can be understood. Can you realize the advantage you have if you are honest? When thieves need a treasurer they seek an honest man.

Every man wants a certain amount of this world's goods and many have no scruples as to the means employed in getting them.

Men do not realize until too late that there are other things to be had, more precious than money. The respect of your fellowmen, the satisfaction of having striven honestly to achieve your purpose and the contentment that is yours through the knowledge that you have done unto men as you would have them do unto you; these things that count. When you take leave from here to get a new grip on yourself, remember some of the things you learned while here. Know that you cannot change the things to suit your own purpose. According to the laws of God set yourself a task; strive honestly for its accomplishment and you will be surprised at the wonderful progress you will make.—Youth's Companion.

### A PROCLAMATION

CLEAN UP WEEK.

To All Officials and Citizens of North Carolina:

As your State official charged with the prevention and suppression of fires, I would proclaim the first week in May as

**FIRE PREVENTION WEEK**

and invite and urge upon all officers, especially those charged with the duty of protecting the lives and property of our cities and towns to co-operate with me in using the first week in May as "Clean Up Week" for the removal of all trash, rubbish and in fact everything from their premises that is liable to cause a fire.

Untidy conditions and carelessly kept premises, whether in our homes or business buildings, are responsible for much of our loss by fires.

**FIRE WASTE**

Our fire waste is immense—starting. The fire insurance companies pay annually in losses in North Carolina over \$2,500,000. Add to this the loss not covered by insurance, certainly \$1,500,000, and we have an annual fire waste of \$4,000,000, to say nothing of the loss of life, or the cost of fire premiums, fire departments and other means of fire loss prevention. Why should every family lose on an average from \$10 to \$15 annually when it can be prevented by the exercise of ordinary care.

**APPEAL.**

Let every Mayor and his associates observe this week looking after the conditions of their buildings and all means used for fire protection and prevention.

Let the chief of each fire department and his men examine their fire apparatus to see that it is in proper condition and inspect all premises in their city or town.

Let each business man examine his premises and remove all trash and rubbish and inspect all heating apparatus.

Let each woman inspect her home, clean out the basement, attic and all closets. Remove all trash and rubbish from the premises and see that the chimneys, flues and pipes are sound and safe.

**CIVIC BODIES.**

Let every Board of Trade, Chamber of Commerce, Rotary Club, Woman's Club, Troop of Boy Scouts, as well as all school children under the lead of their teachers observe this "Clean Up Week" and make it a memorable and profitable one in the history of their city and homes aiding in the prevention of fires and loss of life.

### THE BOOST THE MADAM GIVES.

There isn't any boost like the boost the madam gives. When your heart has grown discouraged and you feel a little down As you wander home at twilight from the tumult and the fret Or the turmoil of the office and the town. Just her gentle faith and fondness and her way of throwing light On the future, with its promise of a better state of things— Ah, how it lifts you up from out your shadow and your pligh! Till again the morning courage in your spirit soars and sings!

The praise of all the universe is nothing to compare With the tender faith she utters when you wander to her bower. And are telling her your trouble and your shadow and your care. And she makes you feel the summer shine again with bird and flower. Just her clinging and devotion and her patience with it all. Her tenderness and cheering, as she helps you look away From the sombre side of living. Ah, it saves you many a fall And brightness with its beauty many an hour that threatened gray!

A fellow's not a coward, and we face our strife like men. Most of all of us, most all the time, indeed; But we like a little jolly when we get back home again. And there's something in a woman's love the bravest of us need: Something more than anything the outside world bestows, Something that forever in the heart and spirit lives; Something like the coming of the spring time with its rose— There isn't any boosting like the boost the madam gives!

All people are bored when they are out of their place or out of their time.

### HAPPINESS AND ITS SHADOWS.

Are You Getting the Genuine Article.

The great purpose of life is happiness—at least the nearest approach to it that is possible. It is for happiness that we toil, aspire, cultivate ourselves, love, marry, accumulate property and perform all the wholesome duties of life.

Yes, too, it is for happiness that some loaf, cheat, lie, steal and commit sins and crimes. There is no other ultimate aim known to the human mind than happiness. Our conception of happiness determines our lives. There is the true happiness, the substance, and the false happiness, its shadow. The one lures us upward, through noble endeavors. The other is a mocking will of the wisp that leads us into morasses of disappointment.

Are you getting the genuine article, or a spurious imitation? There is this to be remembered: Genuine happiness does not cost anywhere as much as the false variety. Perhaps the only one really to be envied, and yet the least one envied, is the one whose ideals are humblest and best fit into the heart. For true happiness consists not in the multiplication of material wants, but in the simplification of them. True happiness lies not in what the eyes may see, the ears may hear, the palate taste and the hands hold, but in the soulfulness that senses these things.

### NOTICE TO SICK WOMEN

Positive Proof That Lydia E. Pinkham's Vegetable Compound Relieves Suffering.

Bridgeton, N. J.—"I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound for inflammation and other weaknesses. I was very irregular and would have terrible pains so that I could hardly take a step. Sometimes I would be so miserable that I could not sweep a room. I doctored part of the time but felt no change. I later took Lydia E. Pinkham's Vegetable Compound and soon felt a change for the better. I took it until I was in good healthy condition. I recommend the Pinkham remedies to all women as I have used them with such good results."—Mrs. MILDRED T. CHAMBERS, 322 Harmony St., Penn's Grove, N. J.

Such testimony should be accepted by all women as convincing evidence of the excellence of Lydia E. Pinkham's Vegetable Compound as a remedy for the distressing ills of women such as displacement, inflammation, ulceration, backache, painful periods, nervousness and kindred ailments.
