HER INTERPRETATION.

In an infant school the teacher chose the miracle of the water being turned into wine as the subject of the usual Bible lesson.

In telling the story she occasionally asked a few questions. One of them was:

"When the new wine was brought to the governor of the feast what did he say?"

A little girl, remembering what she had heard, probably on some festive occasion, called out:

"Here's luck!"

EVEN, AFTER ALL.

A suspicious-looking customer was boasting to a grocer of the cheapness of ten pounds of sugar he had bought at a rival shop.

"Let me weigh the package," said the grocer.

The other assented, and it was found two pounds short.

The man looked perplexed for a moment and then said: "I don't think he cheated me much, for while he was getting the sugar I pocketed two tins of condensed milk."

Why Mr. Joe Armstrong, Celebrated Dog Trainer, Uses Rat Snap.

BIG ARMY OF WOMEN BATTLES WITH H. C. L.

In All Parts of District They Are Forging the Fight to Reduce Costs. Budget Plan Popular.

Nearly one thousand women in the Fifth Federal Reserve District are today acting as chairmen of clubs and groups of women who are planning to fight to a finish the H. C. L. All over the states of Virginia, North and South Carolina, Maryland and the District of Columbia, women's organizations are up in arms against high prices and are working on definite programs for saving in household and living expenditures. In practically every instance the war-time slogan of "Buy Only What You Need" has been adopted by these women, as shown by reports and letters piling up at headquarters of the Women's Division of the War Loan Organization at Richmond, Va.

Savings programs that are popular among these organizations include discussions of the leaflets issued by the Women's Division, a series of sheets giving suggestions for saving materials and money by special cleaning, taking care of clothing, thrift in the use of fuel and others. The division has also distributed a model budget for regulating household expenditures that has excited a great deal of interest.

"I thought at first that I could never persuade my husband to try the budget system," one woman reported recently at headquarters, "but I showed him how thoroughly business it looked, and now he is a more ardent budgeter even than I am. Instead of merely putting the amounts allotted for food in each column, he insists on tabulating the different kinds of food we consume in order to see if we are getting properly balanced as much interested as if it were a baseball game."

The Women's Division has announced that it will be glad to send literature to any clubs or individuals desiring it.

Tremendous Food Waste

The National Association of Waste Material Dealers estimates that Americans throw away \$700,000,000 worth of food each year. If only one ounce of food is wasted or spoiled in each of the 20,000,000 homes of America, the total loss is 1,300,000 pounds a day. As much coal is wasted annually as all the mines of the country could produce in two weeks.

Thrift and saving are needed not only in materials but in labor and money. Each added individual effort will tend toward the increase of production and consequent fall in price of necessities, but physical idleness is no less an obstacle to the reduction of living costs than financial idleness. There are millions of dollars idle in the United States through lack of proper investment which should be working for the common good. These sums if put to work would constitute the new capital so urgently needed to tide over the period of reconstruction.

GHOSTS OF LOST FORTUNES IN SAFETY DEPOSIT BOXES

If the safety deposit boxes of the United States could give up their dead stores of fake securities enough wasted money would be disclosed to stagger the imagination. If a man expects his financial haven to fill up he must stop the leaks in it.

Entire numbers of fake scheme promoters and regiments of investment sharks, because of this popular ignorance, are pointing out "short roads" to big fortunes to those whose Liberty Bonds and War Savings Stamps they hope to secure in exchange for beautifully embossed but absolutely worthless stock certificates. These fakers know the value of government securities. They are anxious to get them, for they figure that they will soon be selling at par and above. But their victims do not know these facts, and so they trade the best securities in the world for some wild-cat proposition that promises a high rate of interest, but rarely pays.

In the year since the armistice was signed the Treasury Department has retired nearly a billion dollars worth of Liberty Bonds. Buy more now, while prices are favorable, at any banking institution.

Sign no armistice with waste. High priced clothes and food are high priced waste cuts their use in half. Get your money's worth and put your savings into War Savings Stamps.

In High Places

By Walt Mason.

I have bought a grand piano and a sumptuous sedan, and a lot of other goodies, on the monthly payment plan. On each thing I paid a dollar and I'll pay a monthly boss. I'm laid away and sleeping underneath a sagging stone. It is true, I didn't need them, and I haven't coin to burn, but I see my neighbors blowing every kind of need that they earn, and if they can have pianos and fine motors and such stuff, I will go as far as they do though it makes the sliding tough. Every month I'll pay a dollar on the junk I do not need, till I limp around on crutches and my whiskers go to seed, and when I have crossed the river to the shining golden shore, I will still be owing money to the Dixie Installment Store. And I fear the recollection will destroy my peace of mind, when I have a hair before me and a pair of wings behind. But my neighbors, they keep blowing every roughie, every red, and I'd be a sort of piker if I let them get ahead; so I'm buying circus wagons and I'm buying coats and my wife is wearing sables and diamond diadems, and I bought the whole catbirds on the monthly payment plan, and I'm riding to the posthouse in a super-night sedan.

THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's Vegetable Compound is Prepared For Woman's Use.

A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attend the making of this great medicine for woman's use.

Over 350,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.

The most powerful solvents are used to extract the medicinal properties from these herbs.

Every atom and tank that comes in contact with the medicine is sterilized, and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles.

It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills.

The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound, which are continually publishing attest to its virtues.

Mallory Hats

About the first question our salesmen will ask you when you try on one of our new

Mallory Hats

Is "How does it feel?" In other stores they ask "How does it look?" The difference is that we will first select a hat that will become you, and we know that a "Mallory" Hat will look right, so what we want to know is whether the hat feels right on the head. Be sure to have a look at our window this week and come in and prove what we say.
