**NAVY ELECTRICAL SCHOOL.**

Taking machines apart to see what makes them tick is just as interesting as making them go after they're put together.

In the Navy gas engine school shown above, some of our future aviators are investigating the ignition devices on an airplane engine.

The sailors get a thorough training in the gas engine and have lots of opportunities to perfect themselves in this specialty during a four-year enlistment. They are paid during the entire course, and when they finish their enlistment period they can either continue in the service or go back to civil life, well qualified to do high class garage work.

**"ACEY-DOUCIE."**

No indeed, they're not shooting craps. They are playing "Accey Doucie," a perfectly safe and sane pursuit.

Whenever there are men of the sea you will find a game of "Accey Doucie." It's one of the favorite diversions of Uncle Sam's sailors.

An "Accey Doucie" tournament de velops almost as much excitement as a good stiff boxing match. If you would be real salty you must learn to play it.

**Helps Sick Women**

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, ... and the pains were very severe. A friend told me I had tried everything else, why not Cardui? ... I did, and soon saw it was helping me. After 12 bottles, I am strong and well."

**CARDUI**  
**The Woman's Tonic**

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered--it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

All aboard! Let's go! We're starting from Manila, the great picturesque, Americanized Oriental city, and will travel by automobile 200 miles to the north to Baguio, the summer capital of the Philippines. The trip can also be made by train.

We have ahead of us one of the most scenic, spectacular and thrilling automobile trips in the world. We will have excellent roads all the way. The Philippines are, in fact, a paradise for motorists, possessing 3,500 miles of fine macadamized roads.

The first part of the trip is through typical small towns and then across the central plain of Luzon and through several rich and fertile provinces, where tropical vegetation is seen at its best. Here one is impressed with the great agricultural wealth of the Philippines, which represents one of the East's greatest producing areas, with the advantage of immense natural resources for the development of further production. It is regrettable that even in the United States there is far from any real understanding of the potentialities of the islands.

At some points rice fields, looking in the distance like the greenest of green lawns, stretch away as far as the eye can see. If you want color, if you want to feel the romance and mystery of an Oriental twilight, pass this way as the red eyed sun at the end of the dying day is slowly sinking behind the unending expanse of green fields. At first you cry out in ecstasy at the gorgeous scene. But as you ride along, your eyes fastened on the panorama of tints and colors, and with the impenetrably black Oriental night coming on fast, you become entranced. You no longer try to express your feelings. You cannot. You realize that those new fast changing, colorful masterpieces in the heavens and on the landscape are pictures that no man can adequately describe nor human hands duplicate. So what's the use of trying!

True, these are but impressions, but the traveler considers himself justified in mentioning them, for they are a part of the trip to Baguio and return. Indeed, the gorgeous sunsets in all parts of the Philippines leave an impression on the mind of the tourist that is everlasting.

We leave the palm and tropical foliage and enter the zone of rugged pine. We pass from the soft, incense laden air of the warm lowlands to the crisp, invigorating ozone of the temperate zone, all within a few hours' time.

For mile after mile the road now follows the tortuous course of a river, the road lying in the bottom or on the rocky sides of a granite canyon.

The Philippines are rich in hydroelectric possibilities. This power is the cheapest power on earth. And it is everlasting. Your traveler is not ether a prophet nor the son of a prophet, but he predicts that one day there will be innumerable Philippine government owned hydro-electric plants in this canyon we are now passing through. Think of the possibilities of such a project! Today the trip from Manila to Baguio is too expensive for the average Manila worker and his family, many of whom may live and die without beholding the wondrous beauties of their own island of Luzon. Think of what a blessing it would be to Philippine mothers and children to feel upon their fevered brows the cool, invigorating breezes of the mountain tops, now so near and yet so far! With the Philippine government owning its own electric railways and hydro-electric plants it would be possible to bring

the trip to Baguio within the means of hundreds of thousands of Filipinos. Not only is there sufficient power to this river to electricity a line from Manila to Baguio, but to operate the street railways of Manila, light the city and furnish power for manufacturing concerns.

But we have now arrived at Camp One. From this point the scenery rapidly changes as the elevation increases. We are traveling over the famous Benguet road, the construction of which through the mountains is a most remarkable engineering triumph. At places the road is blasted out of the solid granite. Riding on the edge of a 100 foot precipice makes one feel like

rolling the bones.

Calomel is a dangerous drug. It is mercury--quicksilver; and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work.

Take "Dodson's Liver Tonic" Instead!

Have you any money? Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful tonight and you'll feel better tomorrow. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them take anything afterwards.
