They never made a cigarette like this in my day—

The Camel idea wasn't born then. It was the exclusive expert Camel blend that revolutionized cigarette smoking.

That Camel blend of choice Turkish and Domestic tobaccos hits just the right spot. It gives Camels such mellow mildness and fragrance!

The first time I smoked Camels I knew they were made for me. I knew they were the smoothest, finest cigarette in the world, at any price.

Nobody can tell me anything different.

IN MASSACHUSETTS.

Vice President Coolidge is now under fire for having, while governor of Massachusetts, advocated the purchase by the State of a subway system in the city of Boston which has turned out to be a very unprofitable investment.

The whole matter is under investigation by a legislative committee, which has found that a number of members of the assembly were speculating in the stocks of a corporation that was effected by their votes. Speculation has not been proven against Mr. Coolidge, and it is to be hoped, on account of the high office which he now holds, if for no other reason, that this will not be done.

The present probe, however, seems to indicate, as an exchange suggests, that so far as legislators go, the Bay State does not stand upon the lofty pinnacle of Puritanical virtue where she is popularly supposed to dwell.

There should be some method devised for conserving the energy wasted by some people in keeping away from work.

There are some people in the world who know more than they think they know. But they are few and far between.

A scientist says more married men than bachelors have heart trouble. Sure. It was heart trouble that caused them to be married.

In the summer time the average white man envies the average negro, who can always find an excuse for not working when he wants to loaf.

When married people begin picking fruit from under some other vine and fig tree than their own, the devil puts a couple extra strokes on the job.

Prayers are most often answered after you have given up waiting for the Lord to wait on you and have taken pick and shovel and gone out after what you want.

If the old man who induces a girl to marry him for his money had always shown as poor judgment in his investments, he would not have accumulated enough wealth to have induced the girl to have married him.

WILL ERECT RESIDENCE.

Mrs. B. H. Wear has purchased a building lot on 6th street, we learn, and will in a short time commence the erection of a five room cottage.

BRIDAL SUPERSTITION.

According to old belief it is an omen of good luck—a long and happy married life—for a bride to slip as she passes up the aisle on her way to the altar.

HANDKERCHIEF SHOWER.

Miss Mary Lily Blalock entertained last Tuesday afternoon in honor of Miss Frances Johnston, bride-elect. The attendance was quite large and a most enjoyable afternoon was spent. Delicious refreshments were served.

SUPERIOR COURT.

Superior court is in session at Halifax this week, Judge Cranmer, presiding. There are a great many whiskey cases on the docket. There are also fifteen divorce cases to be disposed of. The March term of this court had nineteen divorce cases on the docket.

DOING THINGS.

God made us to do things, and there is no tonic like that which comes from doing things worth while. A clear conscience and a clean life are far more to be desired than money. Real happiness without the achievement of some aim is unthinkable.

DON'T FORGET IT.

When the next election rolls around, please remember that the present members of the Corporation Commission, placed there by your votes, do not represent the people, but the corporations, entirely. Cut this out and paste it where it will be convenient to refer to.

SHOT IN THE HEAD.

On Friday of last week while hunting rabbits on Vinson's island, Charlie Powell, colored, shot at a rabbit at close range, hitting his brother, Sam Powell, in the head. Dr. D. B. Zollicoffer was called and ministered to the injured man. The wound was not thought to be dangerous.

SCHOOL MATTERS.

There seems to have been a mistake about the ages of two of the young ladies who were graduated this spring. Margaret Anthony, 17 years of age and Ethel Crew, 16 years of age.

All pupils who were conditioned on any subject and who expect to do any studying this summer will please see me before Friday of this week.

A TREAT IN STORE!

On next Sunday morning at 11 o'clock, Judge Cranmer who is now holding Superior court at Halifax, will conduct the services at the Methodist Episcopal Church in this place. Judge Cranmer is a fluent speaker and a most jovial Christian gentleman, and all those who hear him next Sunday will be greatly pleased. Every one cordially invited.

WAS SUNDAY YOUR BIRTHDAY?

People born on this day may not live long, but will achieve many great things and win much renown while they do. They will learn many trades and will make and spend much money, their chief trouble coming through their marriage. They will be subject to headache, toothache and fever, and may be in danger from fire and plagues. They will be much beloved, will marry more than once and will be lucky in dealing with horses.

WILL GRANDDAD EXPLAIN?

A little girl who had been beseeching her grandfather with an endless succession of questions during the evening had still one more question to ask before she went to bed.

"Granddad," she said, "were you in the ark?" "Why, no," he exclaimed smilingly.

"Then," she said, regarding him with innocent wonder, "why weren't you drowned?"

SHOWER FOR BRIDE-TO-BE.

Cards have been received by friends in Weldon, which read as follows:

Miss Ida Sledge
At Home

Wednesday, June 8, 1921
Guest of Honor

Miss Margaret Frances Johnston.
Miss Johnston will on June 22 be married to Mr. Earl James, of Ekin, N. C.

THE TELEPHONE RATES.

Referring to notices of the Telephone Company of twenty-five per cent. increase in local rates, following notoriously rotten service, should not be sanctioned by the patrons. It is known that on previous rates the Telephone Companies made large earnings, and putting into effect an increase equaling twenty-five per cent. at a time when all business is suffering from long depression and continued declines, it is not right that the public service companies should sock the public for unprecedented increases. Every phone should immediately be discontinued and remain so until the service can be improved at fair prices.

ENJOYABLE MEETING.

On Wednesday, June 1, 1921, Roanoke Chapter, No. 81, Royal Arch Masons, held its regular convocation in Masonic Hall, Weldon. The Chapter was opened at 4:30 P. M., and seven candidates were given the Past Master and Most Excellent Master Degrees, after which all the members present, numbering forty, repaired to the New York Cafe, where an elegant supper was served to the members by Mr. Gus Pappas, the genial and hospitable owner of the Cafe. After all present had enjoyed the supper and the hospitality of Mr. Pappas, they again returned to the lodge hall and the Royal Arch Degree was conferred upon the following candidates:

From Weldon—John B. Sledge, Dr. H. Grady Lassiter.

From Littleton—Garland Bost Daniel, Henry Anderson House, Wiley Frank Harvey, Frank Vernon Jones.

Roanoke Chapter No. 81 has about eighty members and has many applications on the waiting list yet to be initiated. Dr. Job Taylor, the High Priest, is planning a series of educational lectures for the Chapter next fall and those who have heard him lecture know they have a treat in store when the Chapter resumes work next fall, after the hot summer months have passed. They are looking forward with pleasure to the time when these lectures will be given.

YOUR HOME TOWN, AND YOU.

The Kiwanis Clubs, of which there are a good many in the country now, have as their motto: "A town that is good enough to live in is good enough to boost."

This is a good motto for anybody to use, and as there is no copyright on it we might all adopt it with profit to ourselves and for the general good.

And why should not a man speak well of a town in which he lives? If he cannot speak well of it, why should he live in it?

There is a bird that defouls its own nest, but it is the lowest of all the feathered tribes. It is held in abhorrence by all other birds that fly.

And most men, even if they try to conceal the fact, despise the man who knocks his home town. They know that the real trouble is not so much with the town as with the man himself.

Boasting your town may not make your neighbors boost you, but it will at any rate keep them from knocking you. And when your neighbors get down on you, you had just as well move.
