NEW ENGLAND ANIMAL SHOWS
"Cattamount," "Sapient Dog" and "Pig of Knowledge" Delighted Our Ancestors.

Shows were forbidden in early New England. But in the eighteenth century animal exhibitions began to be advertised. The Boston Gazette of April 30, 1741, contained this announcement:

"To be seen at the Greyhound Tavern in Roxbury a wild creature which was caught in the woods about 50 miles to the Westward of this place called a Cattamount. It has a tail like a Lyon, its legs are like Bears, its Claws like an Eagle, its Eyes like a Tiger. He is exceedingly ravenous and devours all sort of Creatures that he can come near."

"Whoever wishes to see this creature may come to the place aforesaid paying one shilling each shall be welcome for their money."

Salem had the pleasure of seeing a "Sapient Dog" who "can light lamps, spell, read print or writing, tell the time of day or day of the month. He can distinguish Colours, is a good arithmetician, can discharge a loaded cannon, tell a hidden card in a pack, and jump through a hoop."

A Mr. Pinchbeck exhibited in the same town a "Pig of Knowledge," supposedly able to do all the same things.

PINK SNOW ON MOUNT RAINIER
Scientific Explanation of a Beautiful Mount Rainier National Park Phenomenon.

Some of the areas in Mount Rainier National Park near Tacoma, Wash., are sometimes covered with a microscopic plant, *Protococcus nivialis*, growing in occasional patches beneath the surface of old snow, and which gradually emerges with a pink glow which sometimes covers acres. The result is a stretch of what appears to be pink snow. On the tongue its flavor suggests watermelon.

No doubt many other microscopic plants thrive in snow-fields and glaciers which remain invisible for lack of color. Others also inhabit these glaciers. There are several *Thyrsanura* which suggest the sand-flies of our seashores, but are seldom noticed, because of their small size.

More noticeable are the *Mesenchytraeus*, a slender brown worm which attains the length of an inch. They may be seen in great numbers on the lower glaciers in the summer, but on warm days they retreat well under the surface.

THE MIDNIGHT SUN
At certain seasons of the year, owing to the position of the earth, there is a territory in the Arctic circle where the sun is above the horizon for weeks or months, continuously, shining at night as well as during the day. Thus, at North Cape, Norway, the sun is above the horizon continuously from May 19 to July 29, and at Bodo, not far from the Arctic circle, from June 8 to July 7. Even in the extreme south of Norway there is no darkness from the end of April to the middle of August. In the winter, on the other hand, the sun is not visible at the North Cape from November 18 to January 23, and at Bodo from November 18 to December 27. There is only a twilight at midday. In the extreme south of Norway the sun is above the horizon for 24 hours daily at midwinter.

HERE'S A TWO-YEAR CLOCK
One of the limitations of the ordinary desk clock is that, frequently through oversight, it is not wound up, and consequently stops. This generally causes annoyance and perhaps, the loss of a business engagement. A new electric clock has been designed to overcome this. It is arranged to run for two years on a small battery of dry cells. The clock is of the average desk type and has two wires leading to the batteries. These occupy small space and may be placed in the bottom drawer of the desk. The clock, it is claimed, will require no attention until the batteries give out.

READY TO HELP OUT
It was the fog-end of a tedious evening. At the close of the third twenty-minute lapse he said plaintively: "I wish I had money. I'd travel."

"Well," she replied, as she began to unroll her stocking, "how much do you need?"—Massachusetts Tech Yoo Doo.

LOOKING FORWARD
"What in the world are you staring at that married couple so intently for?" asked one young lady of another on the train.

"Oh!" said the other girl with a start and a sigh. "It's so natural for us girls to contemplate matrimony, you know."—Boston Evening Transcript.

BRUDDER SHINPAW'S OPULENCE
"Brudder Shinpaw has done mighty well, ain't he, seh? He must be worth all of \$200."

"Yassah! And I was 'quainted wid dat gen'tleman when he didn't know which his next chicken was comin' f'm!"—Kansas City Star.

"Kind sir, will you give me a dime for a test?"
"Well, see the bed first!"
The young freshman said.

Cause of Appendicitis
When the bowels are constipated, the lower bowels or caecum become packed with refuse matter, that is made up largely of germs. These germs enter the vermiform appendix and set up inflammation, which is commonly known as appendicitis. Take Chamberlain's Tablets when needed and keep your bowels regular and you have little to fear from appendicitis.

IN A HELLUVA SHAPE!
Teacher: "What is the shape of the earth?"
Willie: "Pop says it's in a hell uva shape."

Same Old Story But a Good One
Mrs. Mahan Bixen (Lawson, Mo., relates an experience the like of which has happened in almost every neighborhood in this country, and has been told and related by thousands of others as follows: "I used a bottle of Chamberlain's Cough and Bronchitis Remedy about one year ago and it cured me of this ailment. I had another attack of the same complaint three or four years ago and a few doses of the remedy cured me. I have recommended it to dozens of people since. I just used it and start continue to do so for I know it is a quick and positive cure for bowel troubles."

LEFT ALONE
"His wife charged desertion."
"For another lady?"
"For golf."

Hunger, the Best Sauce
"Sauce is used to create an appetite or relish for the food. The right way is to look to your digestion. When you have a good digestion you are certain to relish your food. Chamberlain's Tablets improve the digestion, create a healthy appetite and cause a gentle movement of the bowels."

BOYCOTT THEM.
"Now, children," beamed the Sunday school teacher, "who can suggest the lesson we are taught by the downfall of Samson. Very well, George."

Hot Weather Diseases
Diseases of the bowels are extremely dangerous especially during the hot weather of the summer months, and in order to protect yourself and family against a sudden attack, get a bottle of Chamberlain's Cough and Bronchitis Remedy. It can be depended upon. Many have testified to its excellence.

FIFTY-FIFTY.
"Love," declared the professor, "furnishes the power that moves the world."
"Yes," replied the cynic, "and divorce is the wrench that often jams the works."

Catarrh Can be Cured
Catarrh is a local disease, greatly influenced by constitutional conditions. It therefore requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system. Hall's Catarrh Medicine destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work.

HOSPITALITY PLUS.
"And what did you think of the savages, Mr. Meek?" the missionary was asked.
"Oh, they were most kind—most kind indeed," he replied beaming. "They wanted to keep me there for dinner."

BIRD'S
Art-Craft Roof
TILE DESIGN

A Bungalow with Art-Craft Tile Design Laid Horizontally Directly on New Roof Boards
