We are glad to see that a strenuous effort is to be made to put down this miserable hog nuisance. The City Marshal had this morning a sale of impounded hogs and is laying plans to catch more of John Fisher, charged with disorderly them. The owners of these hogs have been in the habit of allowing them to run at large during the night and getting them in at daylight, so as to escape the city impounders. In this way their hogs are fattened and kept fat at other people's expense, it requiring about \$100 worth of flower garden to make one pound of hog. A few nights since a man living in the southern part of the city had his potato hills entirely gutted by these nuisances of the night and there are frequent complaints of their depredations.
