CAROLINA.

Eleven prisoners in jail at Weldon. — Rev. N. B. Cobb has removed to Liles- ville. — The canal basin at Weldon was frozen over last Wednesday. — The revenue officers have been removed from Asheville to Statesville. — Mr. W. T. Robertson, of Asheville, has invented a washing machine. — L. M. Long has been elected Mayor of Weldon, vice T. L. Emory, resigned. — Mr. John G. Marler, Senator from Surry and Yadkin, died last Wednesday. — Wm. Carl Brown, the artist, is painting a portrait of Lieutenant-Governor Jarvis. — Dr. H. E. T. Manning, of Weldon, has gone to Danville, Va., where he will probably locate. — One negro girl tried to poison another in Charlotte by giving her powdered glass in a cone of bread. — The newly appointed Penitentiary Board will meet and organize on the 1st of February. — Mrs. Sarah Rosannah Lee, wife of Col. Stephen Lee, died at Asheville, on the 19th inst. — The unmarried members of the Legisla- ture will shortly give a hop complimentary to the young ladies of Raleigh. — The girls of the Baptist Female Seminary visited the Governor, last Saturday. — The ladies of Weldon are getting up a dramatic entertainment for the benefit of the Episcopal Church at that place. — The Governor has appointed Hodges Gallup, Esq., of Currituck county, a commissioner of wrecks for the third district of North Carolina. — Fayetteville has a dry law in operation now on Sunday and so at 12 the old soakers go to sleep on Saturday night with their noses in a bung hole. — On Saturday Gov. Vance issued his pardon to James A. Paul, convicted at the Fall term of 1876 of Person Superior Court on a charge of larceny, and sentenced to five years' imprisonment in the Penitentiary. — The dwelling house of Jno. Rand, Esq., eight miles south of Raleigh, at what is known as Rand's Mills, was entirely destroyed by fire Thursday night about 11 o'clock. Loss \$3,000 and no insurance. — The Danville News says that Mr. P. Ball sold 1,544 pounds of tobacco in that city at an average of \$26.84 net, per hundred, and Mr. D. M. Well 752 pounds at \$26.80 net. This tobacco was raised in Buncombe county, in this State. — Gen. Clingham is out in a letter in which he strongly advocates the election of Magistrates by the Legislature, and the election of county officers by the Magis- trates. He says he does not know of any material opposition to this plan in Bun-combe. — The Charlotte Observer says: We were shown a number of samples of checked and striped cotton goods just from the Pee Dee Manufacturing Company at Rockingham, Richmond county, which, for elegance of finish and strength of fabric, cannot be excelled by any similar goods of the kind that we have seen. — The following novel announcement appears in the Durham Plant: — In the Baptist Church Thursday evening, February the 1st, at 6 1/2 o'clock, our townsman Mr. John L. Markham will be married to Miss Ella B. Blackwell, Rev. C. Durham officiating. Friends and acquaintances are invited to attend.

New Advertisements.

GILES & MURCHISON—Watt Plows. J. T. VANN—You Bet. A. SHRIER—Rare Bargains. — Our friends and patrons will please understand that carrier boys are not allowed to sell copies of the REVIEW. Please do not buy of them or encourage them to sell as it will positively cost the boy his situation when detected. — Monograms for lockets will be in rubies or pearls. — Gloves with the slit in the side are coming into style. — Steamships Benefactor and Regulator arrived in New York on Friday. — The oldest inhabitant is almost unanimously predicting an early spring. — Superior Court enters to-day upon the fourth and last week of its term. — There has been a greatly increased sale of postal cards during the past six months. — Traveling flasks are made long and round so that they can be carried in a music roll. — Dan Rice has just had still another show sold out by a Kentucky sheriff. It must pay. — Steamship Regulator, Donee, cleared from New York for this port on Friday last. — An exchange wants to know who drinks the most whiskey. Don't all speak at once. — Many people join benevolent lodges in order to come in for some of the benevolence. — Judging from the number of notices strewn over the floor of the Post Office lobby, somebody owes box rent. — German barque Lydia Peschan, Fechter, sailed from Amsterdam, Jan. 24, for the United States, (probably for this port). — The different committees appointed by the various Democratic Ward Clubs, will meet in joint convention in the hall over Munds' drug store, this evening, at 7 1/2 o'clock. — It was a sausage—a big hog-sausage—and it passed through the Post office here the other day. What next will you sent by mail? — J. N. Bennett, Esq., Representative from Brunswick county, is on a short leave of absence and passed through the city on Saturday en-route for his home. — In some countries common tree frogs are used as barometers. The frog is placed in a tall bottle with a light ladder. In fine weather the animal always climbs up the ladder, and always comes down when a storm is approaching. — Rev. Charles Curtis, of St. Matthew's Church, Hillsboro, preached yesterday morning in St. John's Church, this city, a most eloquent sermon and one especially applicable to the present time. — Whiskey, it has been discovered, if given in sufficient quantities, is an infallible cure for lock-jaw. The fact must be born in mind, though, that it acts only as an antidote, not as a preventive. You must have your lock-jaw before you take your whiskey. — Two turkeys escaped from a coop in front of Messrs. Grant & Hinton's store in Hillsboro and flew up to the top of Hall & Pearsall's, from whence they were both brought to the ground by Mr. Preston Cumming, with a small saloon rifle, one of the turkeys having been shot directly through the head, the spot aimed for. A Creedmorian could not have made a better shot. — Second Ward Committee. — The following is the committee for the Second Ward, appointed to confer to-night with committees from other wards relative to the city question, viz: Capt. C. D. Myers, A. T. Landon, Esq., Capt. John P. Divine, J. G. Honey, Esq., and James C. Munds, Esq. — This Morning's Fire. — The alarm of fire about half past 4 o'clock this morning was caused by the burning of an old frame building on South Front street, corner of Queen, known in ante-bellum times as the "Palo Alto." It was occupied by colored people and was entirely destroyed. The building belonged to the Glendon Iron Works' property and the loss was hardly more than \$100. — Our merchants will soon be going North for the purchase of their spring stocks.

LOCAL NEWS.

Messrs. H. A. Bagg, Wm. J. Yopp, R. F. Langdon, Jas. F. Post, and Jas. McLaurin, are the committee for the third ward appointed to confer with committees from other wards. — Temperance Meeting. — The Marine Temperance Society will hold their regular weekly meeting at the Seamen's Bethel at 7 1/2 o'clock this (Monday) evening. The ladies and citizens generally are cordially invited to attend. — About Dr. Deems. — The New York Sun says: Mr. B. Dilks sends us a story which we are very glad to hear about the Rev. Dr. Obas. F. Deems. About two years ago, a poor drunkard went in distress to Dr. Deems, who quickly took in the situation, and without much ado said: "You are broken, and need mending, but you need a coat the worst of all"; whereupon Dr. Deems took the coat from his own back, handed it to the poor drunkard in distress, and told him to wear it; and this very coat was worn for over a year by the poor drunkard, who, we hope, turned from his evil ways. — Forecasting the Year. — It is a common belief that the character of the weather from Christmas day to January 6th or from then to Old Christmas, forecasts the weather for the year, each day standing for a month. Estimating according to the weather which prevails during this time, the following is the forecast of the general character of the weather during the months of the year: January, 1877—Cold and snow; February, 1877—Rain, cold and disagreeable; March, 1877—Mild, clear and cool; April, 1877—Rainy and cool; May, 1877—Cool and little rain; June, 1877—Clear and warm; August, 1877—Hot and dry; September, 1877—Clear, dry and sultry; October, 1877—Clear, dry and pleasant; November, 1877—Clear, cool and dry; December, 1877, Clear and cold. — A Discovery. — Science never stays its progress. Nearly every day of the year it adds some scrap of information to the great volume of human enlightenment. One of its latest triumphs is the discovery that fermentation can be prevented by the use of salicylic acid. One ounce, it is said, added to forty gallons of sweet cider, will make the yeast settle and the cider become perfectly clear in forty-eight hours. If it is then drawn off into other barrels or bottles, it will remain sweet and clear for an indefinite length of time. — It has been a question with horticulturists what to do with their super-abundance of fruit, much of which has hitherto gone to less. Under this process grapes and apples can both be worked up, and the resultant juices either be put upon the market or consumed in the family as beverages, free from intoxicating effects. — Mathematical Curiosities. — A good employment for the mathematically inclined readers of the REVIEW, during these long Winter evenings, now fast getting shorter, will be to test the accuracy of the following arithmetical assertions: — The multiplication of 987654321 by 43 gives 4244444445. Reversing the order of the digits and multiplying 123456789 by 45 we get a result equally curious, 5555555595. If we take 123456789 as the multiplicand, and interchanging the figures of 45, take 54 as the multiplier, we obtain another remarkable product, 666666666. Returning to the multiplicand first used, 123456789, and taking 54 as the multiplier again, we get 53,333,333,334—all three except the first and last figures, which read together 54, the multiplier. Taking the same multiplicand and using 27, the half of 54, as the multiplier, we get a product of 26,666,666,667—all sixes except the first and last figures, which read together give 27, the multiplier. Next interchanging the figures in the number 27, and using 72 as the multiplier with 987654321 as the multiplicand, we obtain a product of 71,111,111,112—all ones except the first and last figures, which read together give 72, the multiplier. — Cut this Out—It May Save Your Life. — There is no person living but what suffers more or less with Lung Disease, Coughs, Colds or Consumption, yet some would die rather than pay 75 cents for a bottle of medicine that would cure them. Dr. A. Boschee's German Syrup has lately been introduced in this country from Germany, and its wondrous cures astonish every one that tries it. If you doubt what we say in print, cut this out and take it to your Druggist, and get a sample bottle for 10 cents and try it, or a regular size for 75 cents.

LOCAL NEWS.

For the Ladies. — Cardigan jackets to wear under wraps are much sought after by the ladies. — Beautiful ribbons of plush, with satin linings, are among the latest imported novelties. — Cardinal red, so long used, is to be replaced by lighter colors, such as pale rose or pink coral. — Bonnets mostly worn by young ladies are in the Capote shape, with soft cap growths and close fronts. — Woolen stockings come in the long English shapes in drab colors, and are far handsomer in finish this winter than ever before. — Hand embroidered pocket-handkerchiefs are the rage at present, and many young ladies are indulging in the pleasure of embroidering these articles. — Polonaises that are to be worn in both the house and street, are provided with an extra lining, extending below the hips, of gray, red or white flannel, which is basted in for street wear. The lower edge of this lining is simply pinked. — The City Finances. — We publish to-day, on the fourth page of this issue, a very interesting statement in detail of the receipts and disbursements of city funds, compiled from the books of the Treasurer, Mr. T. C. Servoss, and running from May 12th, 1873 to January 9th 1877. The statement has been managed so carefully and systematically that anyone may see at a glance both the receipts and disbursements, each under its own individual head, for any month during the period indicated. The total receipts for this period have been \$611,407.36, which, added to the cash on hand received from the previous administration, makes \$612,394.69, while the total expenditures have been \$608,29,06, with a balance on hand now of \$4,165.63. Of this amount streets have cost \$54,790.36; police, \$59,085.64; hospital and poor, \$8,234.13; salaries, \$31,850.40; fire department, \$30,993.79; public buildings, \$11,041.74; miscellaneous, \$23,678.22; prisoners, \$696.80; small pox hospital, \$6,978.71; street improvements, \$80,300.76; light department, \$31,955.09; Mayor's Court, \$5,346; printing, \$7,096.56; construction, \$5,258.08; elections, \$920.89; sanitary measures, \$14,48.24 and yellow fever, \$1,340.24. These have been the ordinary expenses of the city government for the past three years and a half while the extraordinary expenses, nearly all of which were entailed by former administrations, are as follows: Interest, \$132,312.82; sinking fund, \$6,900; injunctions, \$5,264.81 and loans and discounts, \$80,564.94. — In addition to the above there is also due the city now in real estate, personal, poll and special taxes, for the years 1872-'73-'74-'75-'76, \$65,280.11 and for unsettled street and sidewalk assessments, \$18,441.55, less damages unpaid by the city, \$225, in all nearly \$85,000 now due for taxes. — MUD MARKET, Jan. 30, 1877. — DEAR REVIEW.—There was an epoch in our municipal finances in the year 1872, a period not too far distant to have become indistinct in the memories of some interested citizens, when Durfee, I believe, made city checks and receipts beautiful by unique and ornamental chirography. At any rate it was an epoch, I adhere to that, for the cash record at the City Hall was lost or mislaid, among other queer things done that year. Don't be startled, for this is an authoritative statement, which I prove, because it sheds great light on modern finances, and the coming Treasurers everywhere will be enabled to apply the remedies to fill a depleted treasury. — I will select three notifications issued by "W. P. Canaday, Mayor," calling upon certain delinquent tax-payers to pay their poll-tax, with the usual polite reminder of what would happen if they failed. — No. 1. Mr. Thos. Jefferson Capps, a resident of Onslow county, has never resided here, his longest sojourn being when a member of his family was here under medical treatment. — No. 2. Mr. G., well known as a citizen long passed the date of exemption from poll-tax. — No. 3. Mr. H., a young man who cast his maiden vote for Tilden, was in arrears three years. — The 1873 delinquents are almost countless, but the memory of the clerk of the department of taxes is good. What does it matter to him that the former Treasurer and Clerk destroyed the record, and carried away the gold pen with which he set off so beautifully the checks and other papers of the city? Easy as wink he rubs his noddle, corrugates his brow, fixes his eye glasses, inclines his right eye to the proper angle, and presto! off goes a basket full of yellow enveloped duns to the wretches who for four years have well-nigh ruined the city by delinquency. So '72 was an epoch, but thanks to a clerk
