The City Expenses.

Wilmington has had four Republican Mayors since the days of Radical "Reconstruction," Mr. Neff, Mr. Martin, Mr. Wilson and Mr. Canaday. Some adminless, and by actual comparison with the figures now before us, we find that the necessary running expenses under - Mr. Canaday, the present Mayor, have been much less than either of his predecessors. The regular expenses under Mr. Neff were about \$94,000 a year, under Mr. Martin \$81,085.05, under Mr. Wilson, \$82,800, while under Mr. Canaday, for the year ending October 31st, 1876, they were \$51,461.81, which is \$29,623.24 less than in 1870, the lowest of any year in which Mr. Canaday's Republican predecessors were in office, a fact which certainly makes a creditable showing for the present Mayor. These figures, be it remembered, are on record and can be studied and compared by any one so disposed.

But even this last reduced amount \$51,461.81, is too much for the pockets of the people and it is hoped that whoever has the management of affairs during the immediate future will endeavor to bring the expenses, both ordinary and extraordinary, still more on a level with the ne-

Candlemass.

This, the second day of February, from Christian time immemorial, has been cele brated as the Festival of the Purification of the Virgin, and in the Roman Catholic and Episcopal churches in this country and elsewhere is very generally observed. Candlemass day has connected with it many foolish, though innocent, supersti tions. Among? these is one to the effect that all Christmas evergreens that yet remain in houses must be taken down, o the inmates, and especially the young la dies, will in the course of the year see as many goblins as there are leaves on the branches.

Another very popular superstition i that the weather of the day has a controlling influence upon the weather of the The call for a meeting to be held this remainder of the winter.
