## General Assembly.

### SENATE.

SATURDAY, Feb. 3.

Troy introduced a petition from the town of Fayetteville, asking the passage of a bill extending the limits of that town, so as to take in the lands known as Haymount Hill, adjacent to said town and thickly settled with private residences. He also presented a counter petition from several ladies living on the hill, praying that no action should be taken. Troy said his people without regard to party were very much divided the property and justice of the act, desired both sides of the question have a fair and full hearing in the Senate before the bill would be taken up for the present. Mr. Coke introduced a bill increasing the number of members of the University. Calendar. Troy: Bill to amend the charter of the University. Placed on calendar. Mr. Coke: Bill to regulate the attendance of the clerks of the Superior Court. Committee on Judiciary. Mr. Johnston: The bill is suspended, and the bill trans- ferring the Western North Carolina Railroad, between Warm Spring and Tennessee line, to the Morristown of the East Tennessee and Georgia Railroad, was taken up, and passed third reading. Mr. Coke, the bill in relation to county government was taken up and passed. Mr. Johnston moved to reconsider the bill, which he laid on the table. The latter motion prevailed. Mr. Holt introduced the resolution in relation to the establishment of an Agricultural Department at the University, which was taken up and on Monday Mr. Holt introduced a bill to amend the charter of the University, which was taken up and passed.

### Ran Short.

Our yesterday's edition ran short several quires and was therefore not mailed to many of our country subscribers, as well as all of the exchange list. It was caused by a miscout in wetting down the paper and was not discovered until too late to repair the error. We regret it exceedingly but do not think that it will occur again.

### Some Cold Weather.

Sixty years ago was a year without a summer. Frost occurred every month in the year 1815. Ice formed half an inch thick in May. Snow fell to the depth of three inches in the interior of New York, and also in Massachusetts, in June. Ice was formed of the thickness of common window glass throughout New York on the 5th of July. Indian corn was so frozen that the greater part was cut down in August, and dried for fodder and farmers supplied themselves from the corn produced in 1815 for the seed of the spring of 1817.

### A Confederate Caught.

Alonzo Elvi, colored, the party who was caught selling some of tools stolen from Mr. Reeves' shop, was yesterday turned over by the Mayor to Sheriff Manning who committed him to jail. On the way from the City Hall to the Court House, Elvi espied another colored man by the name of Prince Richardson whom he had persistently charged with selling him the tools and for whom the police had been looking. He at once gave notice of the fact when Richardson was taken into custody and conveyed to the guard house where he will await a hearing before the Mayor. Elvi claims that Richardson owed him \$5 50 and that he gave him the tools in payment of the debt.

### County Commissioners.

The regular monthly meeting of the Board of County Commissioners was held last night, present Mr. Wagner, the Chairman, and Commissioners Worth, Grainger, Nixon and Holmes. The minutes of the last meeting were read and approved, with the following correction, to-wit: Ordered further, that the bill of costs against R. F. Eyden be referred to a committee, consisting of I. B. Grainger and B. G. Worth, as to its legitimacy, to report thereon at the next meeting. Application of Eda Larkins for assistance, was referred to the Poor Committee. J. C. Munds, having put in the lowest bid to furnish prescriptions to the out-door poor, the contract was awarded to him by the first of January, 1878, at 25 cents per prescription.

Several parties were granted licenses to retail spirituous liquors. The report of the Committee on Out-door Poor for January, 1877, was received and ordered on the minutes.

The report of the Committee on Work House, relative to property belonging to the county, was received and ordered on the minutes.

Commissioners Wagner and Holmes were appointed a Committee to see that the property turned over to the Messrs. Mathes Bros. by the Commissioners, be returned to the Workhouse, and that what is not needed be sold at auction. Commissioner Wagner offered the following:

Resolved, That as it has been reported to this Board, by its committee, that the tax-payers of the county, in convention assembled, and, at the request of said committee of this Board, appointed a committee of their number, consisting of W. L. DeRosset, Henry Nutt and Edward Kidder, for the purpose of investigating the management of county matters, it is hereby ordered by this Board that all county officers are hereby instructed to give all information desired by said committee of tax-payers, and every other facility for investigation will be given by us, as we feel that the affairs of this county have been properly administered at our hands.

It was ordered that Sheriff S. H. Manning be instructed to pay over to John J. Hewlett, Treasurer of Masonboro township, all township taxes collected by him for the year 1876, and take proper receipts for the same.

It was ordered that the Finance committee be instructed to ascertain what amount of fines, forfeitures and penalties has been collected by James Hason, Clerk of the Superior Court, for the past twelve months, and report the same at the meeting of the Board.

Two hundred and five (205) coupons, valued at \$18 each in gold, amounting to three thousand and seventy-five (\$3,075) dollars, having been paid, were burned in presence of all the Commissioners.

The Board then adjourned.

### Ink Stains.

The best means to remove ink stains from linen or any white material is to immerse the spot in milk and keep it there until the ink disappears, changing the milk when it gets thick.

### Getting Ready.

A venerable citizen of this place has had his grave prepared at Oakdale. It is a vault, nicely bricked in and looks as comfortable as such things can be made to look. The gentleman is now in good health and strength and will probably last twenty years or more, although already a septuagenarian.

### For The Public Benefit.

For the convenience of the public Mr. Jno. H. Allen will place a clock in the show window of his jewelry establishment which will be run by electricity. A wire from the Western Union Tel. Co's office will be attached to the clock and at twelve o'clock daily, the Washington City time can be gotten by all who wish to avail themselves of the opportunity.

### One Thousand-Dollar Counterfeit.

The Treasurer of the United States is sending to Assistant Treasurers throughout the country a photographic copy of the new one thousand dollar counterfeit note, and also copies of the genuine note, in order to make easy detection of spurious notes of this denomination. There is very little difference between the genuine and counterfeit note the principal defect in the latter being the extensive flourish in the signatures.

### Death of Mr. Lloyd.

We regret to learn of the death of Mr. Salter Lloyd, a venerable and respected citizen of Brunswick county, which occurred at his residence on last Sunday after a painful and protracted illness. Mr. Lloyd was 69 years of age at the time of his death and was one of the most prominent citizens of this section of the State, he having at various times filled offices of high trust. He was a gentleman of the old school, refined and cultured in his manners, courteous and kindly in his deportment and upright and honorable in every department of life.

### City Court.

The following cases were disposed of by the Mayor this morning:

A. Parsline, A. Volbay and O. Tonison, all Norwegian sailors, charged with disorderly conduct, cursing and fighting, were each fined \$10 and costs or 30 days on the streets.

A party whose name we suppress, was charged with assault and battery but the case was dismissed on payment of costs.

Alonzo Elvi, charged with the larceny of tools, the property of Mr. Sol. Reeves, was ordered to give a justified bond in the sum of \$500 for his appearance at Superior Court, failing in which he was turned over to the Sheriff who committed him to jail.

### Historical Society.

The regular monthly meeting of the Historical and Scientific Society was held last evening in the rooms of the First Presbyterian Church.

The principal feature of the evening was the reading by Hon. Edward Cantwell, the regularly appointed lecturer for the occasion, of a paper prepared by him on "The Colonial History of the Cape Fear Region," the main reference of which was to Barnwell's Expedition against the Tuscaroras in 1711-12, which was heard with intense interest by those who were present, it being replete with important historical facts not easily obtained and evidencing much care and research in its preparation.

A request from the Ladies Benevolent Society that Col. J. G. Burr be permitted to deliver in public, for the benefit of the Association, the lecture delivered by him last month relative to the local history of the Cape Fear, was acceded to.

Hon. Edward Cantwell and Messrs. W. B. McKay and Norwood Giles were appointed a committee to make the necessary arrangements for the removal of the remains of Cornelius Harnett from the old St. James' Churchyard to the place prepared for them in Oakdale Cemetery.

Dr. A. J. Rosset, Col. W. L. DeRosset and Rev. C. M. Payne were admitted as members of the Society.

Hon. Hugh Waddell was announced as the lecturer for the meeting to be held in March, Dr. Thos. F. Wood for that to be held in May and Mr. W. F. Wepzel for that to be held in June.

The Society will apply to the Legislature for incorporation, the permanent organization to date from the 20th of May.

Dignity is expensive, and without other good qualities is not particularly profitable.

For very cold weather a frieze overcoat is generally preferred, and in hot weather a melton.

Hot drinks should be avoided in day time during cold weather, as they have a tendency to weaken the lungs and affect the throat.

The box sheet for the Concert next Friday evening is being rapidly filled up and those who want good seats should lose no time in securing them.

Some one without the fear of the law or regard for the welfare of mankind has removed a plank from the bridge over the gutter, at the south west intersection of Third and Chestnut streets, which makes a very ugly and dangerous hole. No better man-trap could be invented.

### The Hedge-Hog Superstition.

The New York World has another version of the popular legend. To-day, says *The World* of the 2d inst., is the feast of St. Groundhog. Yearly on the 2d of February the *arctomys monax*, the Old Probabilities of the animal creation, celebrates his St. Swithin's day. He comes forth from his hole and scans his shadow with even greater interest than the laborer in the Bible. If it is clear and the shadow is readily seen, he concludes that the probabilities favor a rising barometer, gentle breezes and fair weather, and certifies to his joy by frisking merrily on his light fantastic toes; but if it is invisible atmospheric disturbances are to be looked for, and he returns to his lair to sleep, perchance to dream, the stormy season through. In rural parts great is the fame of the woodchuck, whom the farmers are prepared to back against Brigadier-General Myer for the championship, 100 single predictions; nay, he is regarded as even more eminent authority as to the weather than the compiler of the patent medicine almanacs. We have no doubt that he merits the trust reposed in him, and if he, unlike the average young weather prophet, is able to give a forecast of conversation than the weather, we should like to have his prognostications concerning the Presidency. The ground-hog in politics!

## Wonderful Success.

It is reported that Boschee's German Syrup has, since its introduction in the United States, reached the immense sale of 40,000 dozen per year. Over 6,000 Druggists have ordered this medicine direct from the Factory, at Woodbury, N. J., and not one has reported a single failure, but every letter speaks of its astonishing success in curing severe Coughs, Colds settled on the Breast, Consumption, or any disease of the Throat and Lungs. We advise any person that has any predisposition to weak Lungs, to go to their Druggists—and get this Medicine, or inquire about it. Regular size, 75 cents. Sample Bottle, 10 cents. Two doses will relieve any case. Don't neglect your cough.

## DIED.

HARILEE—At Melrose, Marion County, S. C., on the morning of the 6th inst. Mrs. A. M. HARILEE, relict of the late Dr. Robt. B. Harilee, in the 66 year of her age.
