VOL. 2. WILMINGTON, N. C., THURSDAY, FEBRUARY 8, 1877. NO. 11.

## THE COMMISSION.

The following is a telegraphic report of the proceedings of the Presidential Commission yesterday afternoon:

The Commission took a vote at about a quarter to four o'clock on a resolution declaring that they would take no further testimony upon certificate No. 1 (Hayes and Wheeler). The resolution was carried by a vote of 8 to 7, Judge Bradley throwing the deciding vote. The Commission next voted on a resolution to take testimony in the case of the alleged ineligible Republican elector, (Humphreys) and it was agreed to take such testimony by a vote of 8 to 7, the three Judges voting in favor of the resolution being Judges Clifford, Bradley and Field—Judges Strong and Miller voted against it. The five Democratic members of the House and Senate voted in favor of the last resolution, and also in favor of going behind the returns. The Commission meets at 11 o'clock to-morrow.

(Official).—On motion of Mr. Justice Miller, it was ordered that no evidence will be received or considered by the Commission which was not submitted to the Joint Committee of the two Houses by the President of the Senate with the different certificates, except such as relates to the eligibility of T. C. Humphreys, one of the electors. The vote was yeas 8, nays 7.

On motion of Mr. Abbott, it was resolved that in the case of Florida, this Commission will receive the evidence relating to the eligibility of Fred C. Humphreys, one of the persons named in certificate number one as elected. Yeas 8, nays 7.

The Secretary of the Commission was instructed to inform counsel on the respective sides that at 11 o'clock to-morrow it will be prepared to hear argument on the question of the eligibility of Fred C. Humphreys as an elector. Humphreys is one of the Republican electors, and the question raised as to his eligibility is that he was, at the date of his election, a United States Shipping Commissioner, which is alleged to be such an office of trust or profit as to disqualify him from acting as an elector, but which office, it is asserted by Republicans, he resigned before the election.

The case of Rev. Solomon Pool against the trustees of the University of North Carolina, was decided in the Superior Court on Monday in Raleigh. The plaintiff had brought an action against the trustees for his salary as President of the University from 1860 to 1872—the time when it was re-organized upon its present basis—and upon other grounds. The plaintiff accepted a compromise judgment for 4,000.

The *Raleigh News* says: For many years past the State has paid out between \$35,000 and \$40,000 for the support of insane persons in the several counties of the State, who were denied admission to the Insane Asylum. The *Charlotte Observer* says: We hear a street rumor, and we give it for what it is worth, that a gentleman of this city proposes to open a cigar store and barber shop in a manner and style which may be considered a new departure. The front of the establishment is to be fitted up as a cigar store, in first-class style, and instead of the Indian girl sign, it will be presided over by a beautiful Indian maiden, in the flesh and blood. The work of the tonsorial department is to be performed by five beautiful girls, all to be imported from New York, regardless of expense.

The *Raleigh Observer* says: Some time ago one H. W. Parsons was here, claiming to be a minister of the gospel and a missionary from England, to institute Temperance Lodges among the colored people of this State. He has, like all the missionaries among that class of people who have come from abroad, proved to be an impostor and vile slanderer of our people. Since Parsons' return to England he has declared in a public speech that he was, during his stay in North Carolina, in danger of his life, and that we were opposed to the advancement of the colored race. This man confined his associations strictly to the colored people while in North Carolina, and they gave him no confidence, leaving him to his endeavoring to "draw" from them their hard-earned dollars, and finding that he could not succeed in that, goes home and slanders the whole people of the State.

### A Business Art.

Advertising is an art which comparatively few people understand,—and one of the greatest mistakes made is to economize in this direction when the times are dull and business slack. What a business man wants is trade, and if he is shrewd he will not neglect the proper mediums to draw it to him. There is no way in which this can be so well accomplished as by judicious newspaper advertising,—and the diller the time the greater the necessity to use this agent to help you. An exchange well expresses the idea, when it says, the world believes in those who advertise, and it puts dollars in their pockets. Such are live people; and in these live days nobody wants anything to do with and but your live, men and women. Our advice to everybody,—except in matrimony—is to advertise. It is sure return largely, increase your reputation as a business man, make hosts of friends and add to the number of shrewd and sensible people in the world; of which there has never been an overstock.

### The Festival Last Night.

The Festival given last evening by the ladies of the First Baptist Church in the vacant French store, on North Front street, was largely attended and successful in every way. There was a beautiful display of articles of fancy work for sale and the tables were loaded down with things good to eat as well as good to look at. The "Gallery of Superfine Arts," located in the sky parlor, was presided over by a talented and "genius" youth, and more genuine A. No. 1 laughs exploded there than the Haverlys are wont to get credit for. There were some very rich and original designs and among them an *Evening Review*, which—well, the least said is soonest mended. We don't want to laugh any more now. We thank the ladies for their kindly remembrance of us, sent in last night, on a silver waiter by a sable waiter which, alas, found us not at home but which doubtless tickled some other and less appreciative palate, another something at which we don't feel like laughing any more just now.

We are glad to learn that the Festival was a happy financial success.

## Bank of New Hanover.

Pursuant to notice the regular annual meeting of the Stockholders of the Bank of New Hanover was held this day at their Banking House.

The meeting was called to order by the President, on whose motion A. H. Neff, Esq., was called to the Chair and Robert Henning, Esq., requested to act as Secretary. A Committee was then appointed to ascertain the amount of stock represented, and on their reporting that there were 3,108 shares represented in person and 3,560 by proxy, the Chairman declared that the meeting was ready for business, as a majority of the 12,000 shares of the Bank was represented.

The minutes of the previous meeting were read and approved.

The President of the Bank then made a report stating, among other things, that although the past year had not been a very favorable one for the general business of the country, the business of the Bank had been steadily progressing, the amount of deposits being much in excess of what they have ever been heretofore, and had declared two semi-annual dividends of four per cent. each and had made no losses whatever during the year. He submitted a detailed report of the condition of the Bank and each of its branches.

On motion the report of the President was received and adopted.

On motion an election of directors for the ensuing year, was gone into, (J. W. Atkinson, and William Calder being appointed tellers), resulting in the election of the old Board, unanimously, as follows: I. B. Grainger, John Dawson, D. R. Michelson, Donald McKee, H. Volders, R. R. Bridgers, J. W. Atkinson, C. M. Stedman, J. A. Leuk, B. F. Little, E. B. Borden, M. Weddell.

On motion the meeting adjourned.
