**FROM WASHINGTON.**  
The bill to reduce the number of directors of the insane asylum, and made it special order for Tuesday next. The bill for the support of the Insane Asylum, was taken up. [It provides that the sum of \$60,000 be appropriated for the support of this institution for the next two years; the sum of \$4,000 be appropriated for the year 1877 for repair of water works and other necessary repairs, and the sum of \$2,000 for the year 1878 for necessary repairs.] Bill to establish a government for the city of Wilmington, was taken up on its second reading. [The bill changes the present wards and lines of the city and redistricts it entirely.] Moore, col., of New Hanover, offered a substitute which was not adopted. The bill passed its second reading, and, upon motion of Mr. Short, was referred to the Judiciary committee. Mr. Finger introduced the following: Whereas, the action of the Electoral Commission in establishing fraud and corruption as a legal, constitutional and effective method of electing the president of the United States is an unparalleled outrage upon the rights of the people and tends to the certain and speedy destruction of our form of government. Therefore, the General Assembly of North Carolina do resolve, 1st. That it deplores the action of the majority of the Electoral Commission, and denounces it as wicked, unlawful and unconstitutional. 2d. That a candidate, who has never been elected President according to law and the constitution, but who has been rejected by a large majority of his fellow-citizens, cannot by the fraud of returning boards and the wicked partisanship of the Electoral Commission be lawfully installed as the chief magistrate of the people. 3rd. Because the Electoral Commission upholds fraud and subverts right and justice, therefore that our Senators and Representatives in Congress be requested to use all means known to the constitution and laws to prevent its action from becoming final. The resolutions occasioned a great deal of debate, participated in by Messrs. Finger, Wilson, Robinson, Polk, Mebane, of Bertie, Mebane, of Rockingham, Dunn, Thorne, Hughes, colored, Stanford and others. Mr. Mebane, of Rockingham, moved to strike out the third resolution, which amendment was accepted by Mr. Finger. The resolutions passed their second reading—yeas 21; nays 13. The engrossed House amendments to the Senate bill to establish county government were taken up and were considered *seriatim*. The first amendment, upon recommendation of the committee, was concurred in. [This amendment proposes that in some counties the treasurer may be elected by the justices of the peace, and in others by the people.] All the other amendments were reported upon favorably, and were concurred in up to the last, which provides that a future Legislature may alter the character of the bill. After a great deal of debate the Senate refused to concur. By consent, Mr. Robinson introduced a resolution instructing the judiciary committee to examine the orders and decrees of the Circuit Court of the United States in the Swazey suit, and see by whom the receiver's commissions were paid, and what amount, and if paid by the State, to report why it is and what steps, if any, can be taken to relieve the State of that burden by procuring the treasurer to act in that capacity. Adopted. Upon motion of Mr. Stanford the Senate took up and passed the bill for the relief of the tax collector of Pender county.

**CAROLINA.**  
Morganton has a juvenile military company. Salisbury has the amateur theatrical fever. Raleigh is to vote in May on prohibition or no prohibition. The Charlotte Grays have been reorganized with W. S. Hand as Captain. Capt. Thos. W. Stocumb has been elected Captain of the Goldsboro Rifles. Rev. Mr. Brazington, of South Carolina, has accepted a call to the pastorate of the Baptist Church in Monroe. The telegraph report to Washington, D. C., reports 27 copper stills and 8 distilleries captured by revenue raiders in Yadkin county this State. Dr. Henry Otis Hyatt, of Kinston, was united in marriage to Miss Sybil Miller, daughter of Dr. A. Miller of the same place, on Thursday evening last. The Raleigh Observer says: Mr. Edward Fasnach, of this city, has just received a shipment of 400,000 silk worm eggs. Mr. F., intends to commence the manufacture of silk. Six weeks ago there was only one house at Manly, on the Raleigh & Augusta Air-Line Railroad, and now, we are told there are eight, and they are preparing to build a lot. The people deal in turpentine and tar. The Charlotte Observer says: On Friday night the cash drawer of Mr. T. T. Smith, agent of the Carolina Central Railroad, was broken into and robbed of its contents. Fortunately only such money as is needed for change, is kept in the drawer over night, and the amount lost was only about \$17, in pieces from one cent to fifty. The Raleigh News says: Capt. R. A. Shotwell and Capt. Nat Atkinson are getting up a "Legislative Directory"; a pamphlet which will contain the captions of all the acts and resolutions passed by the General Assembly, together with a true sketch of each individual member of the Legislature, Senate and House. It will be a record worthy of preservation. The Hickory Press says: Mr. McDuffie, editor of the Fayetteville Wide Awake, passed up the road a few days ago on his way to Henry to take charge of the convicts at work on the W. N. C. R. B. instead of Mr. Miller of Raleigh, who has been Supervisor ever since the work began. It seems from the report of the investigating committee that Mr. Miller does not step down and out with very clean hands and a good name. The Lenoir Topic closes its account of the burning of Davenport Female College in that place on Wednesday by the statement that notwithstanding the fact that the ruins are scarcely cold, it has already been determined to rebuild the College. It has been discovered that the walls of the main building have not been so seriously impaired but that they can, with a little work on them, be used again. The President, Rev. Mr. Robey, is full of energy and will doubtless accomplish the task at an early day.

**LOCAL NEWS.**  
**New Advertisements.**  
See ad of the Bank officers.  
A. SHERIDAN—Partly-Made Shirts at 50 cents, worth \$2.50.  
A matter of form—Fitting a dress.  
Suitable dowry for a widow—Widower.  
Thursday, the 22d, being a National holiday, will be observed as such by the various banks in this city, which will be closed on that day.  
The public offices in the city, as well as the banks, will all be closed on the 22d and the day will be pretty generally observed as a holiday.  
The Phrenological Journal advises young men to be guided by the shape of the chin in picking out a wife. Inattention to this rule is probably the reason why so many husbands are led by the nose.  
By a strange mistake, the new advertisement of E. Artis, published yesterday, read "shaving 25 cents" when it should have been "shaving 10 cents." We take occasion to add here that the man who gets a shave at this saloon for 10 cents, and hair cutting for 25 cents, will get his money's worth.  
**Col. Burr's Essay.**  
Do not forget that Col. Burr's essay, for the benefit of the Ladies Benevolent Society, will be read this evening in Masonic Hall. Give the poor a little substantial aid and yourself the pleasure of hearing a remarkably interesting address on our local history.  
**In Distress.**  
A three masted schooner, name unknown, from Cedar Keys, Fla., for New York, with lumber and iron, is in below, leaking. This information is from Capt. Poster, of the steamer *Waccamaw*, who arrived up this morning, but no farther report could be had at the time we closed.

**Firemen's Parade.**  
The members of the Howard Relief Fire Engine Co. No. 1 were out this morning with their beautiful steamer, the *A. Adrian*, for annual parade. They presented, as usual, a fine appearance and looked every inch the good firemen they are. They will close the festivities of the day with a ball this evening at their Engine House.  
**Cut by a Rock.**  
A colored woman, whose name we did not learn, was passing along on upper Third street last evening, just after dark, when she was struck just over the right eye by a missile which was evidently thrown by some one in the street although to ascertain. She bled pretty freely for awhile but surgical attention was given, when it was found that it was a mere scalp wound. It is a pity but that the one who threw the rock could be caught and punished.  
**The Thermometer.**  
From the United States Signal Office at this place we obtain the following report of the thermometer, as taken this morning at 7.31 o'clock:  
Augusta, 48; Charleston, 46; Cincinnati, 26; Jacksonville, 59; Key West, 64; Knoxville, 27; Lynchburg, 28; Memphis, 32; Mobile, 43; Montgomery, 42; Nashville, 30; New Orleans, 50; New York, 22; Norfolk, 30; Pittsburg, 20; Savannah, 58; St. Louis, 28; Washington, 23; Wilmington, 40.  
**Dr. Deems in Wilmington.**  
Rev. Dr. C. F. Deems, of the Church of the Strangers, New York, is in the city, having arrived here last night on the train from the North. He is the guest of Mrs. C. G. Kennedy and to-day received many callers, among them some of those who were under his ministrations in this city during the earlier days of the war. He goes hence to Augusta to visit his daughter in that city and will leave for that point to-morrow evening.  
**City Court.**  
The following cases were disposed of by the Mayor this morning:  
Richard Martin, charged with sleeping on the streets, was fined \$10 and costs.  
Martha Williams, for the larceny of a pocket-book the property of Remus Thomas, was required to give a bond of \$100, justified, for her appearance at next term of Superior Court; failing in which she was committed to jail.  
A school boy was arraigned for discharging fire arms on the street but the case against him was dismissed.  
Two cases were continued over.

**The Sound Railway.**  
The near approach of Spring is always suggestive to us of pleasures on the coast and with the first warm days there generally comes a rush to the Sounds. The most popular of these places of resort are only eight or nine miles distant yet it is a strange fact that with our large population, which must number at least 20,000, there are but few facilities for reaching salt water. The turnpike road is for the most part in excellent condition yet this can be advantageous only to the fortunate few who have their own vehicles, or who can afford to hire them. What we want and what we really need is a line of railway to the Sound, either by steam or horses, by iron or wooden rails, and this is a something in which all of us, especially we poor people, are particularly interested. Some few years ago we were all rejoicing at the prospect of a railroad to the Sound but, unfortunately, the enterprise was not carried out. The road was marked out and graded about seven miles and now rests awaiting cross-ties and rails. Why cannot this enterprise be consummated? Surely it would pay at least expenses and a moderate interest on the money invested. For from \$15,000 to \$18,000 we understand that the road can now be completed and equipped; this would cover the cost of iron rails, but for one sixth of that amount we understand that wooden rails can be laid and a connection made with the present line of street railway. The latter would demonstrate most fully as to whether the road would pay a sufficient income to justify the replacing, in a few years, the wooden rails with iron and the horse cars with steam power. With horses the distance from the city to the Sound, or vice versa, could be run easily in an hour and with steam in half that time, and if the cars should run every two hours we believe that they would be crowded every day during the continuance of the warm season, provided the fare was placed at a low figure, say at 50 cents for the round trip.

**We are Sorry.**  
Our joke yesterday about His Honor, the Mayor, having gone to "Lady Alice" to have his fortune told was founded on an error. It was currently reported so and this misled us, although we did not suppose that he was led there through any motives of idle curiosity but more probably in an official character. We regret the publication and would not have inserted it had we imagined that it could give offence.  
The truth of the matter is that the tax was imposed with the view of prohibiting the women from continuing in the city, as the Mayor stated to the Board of Aldermen when he recommended to them that the tax be levied.  
**The Fortune Teller.**  
Our "Lady Alice," the fortune teller who made so many remarkable hits in Wilmington, and who was frightened off by the big tax levied on her big profits, has turned up in Charleston, where she is announced as the "Lady of Lyons", just arrived from Europe. How nearly she resembles Pauline Deschappelles, Bulwer's loveliest creation, may be inferred from the following description presented by an enterprising reporter of the Charleston *News & Courier*, who went in for a fortune—  
to be told.  
At a small table in the centre of the room sat a stunted woman with a head like Medusa. Through the snake-like curls which in cardinal and bushy abundance fell writhing over her drawn-up shoulders the excited imagination of the visitor could almost discern the darting tongues of unholy fire. Her face was broad and flat and red, and the corners of her mouth seemed inclined to draw high into the region of her left ear, as if to seek a close communion with the whispering of the dread future.  
The description is a vivid one and will probably be recognized very readily by the "numerous number" of those in Wilmington who paid for the honor of an introduction to the lady. If she drives as good a business in Charleston as she did in Wilmington she can afford to pay there the tax of \$50 a week required of her here.
