And here's another. The gold chain and locket advertised as lost, in last Monday's Review, was recovered by the owner yesterday. The finder saw the advertisement and brought it to this office.

We direct attention to the advertisement of Mr. T. C. DeRosset as it appears in this issue. He represents first-class insurance companies and is prepared to take marine risks, coastwise or foreign, at lowest current rates.

ic Gentle Legislator.

Dime parties in Raleigh refresh ye weary legislators-that is when they practice at the bar. New motions (little finger and thumb manuel) are in order every few thinutes and the call for the previous question is generally sustained. The eyes and nose have a good deal to do with it and the legislative Bills can't pass any private prohibition laws. They are generally, incorporated in an omnibus (all on a big bus') bill. In fact, prohibition, as applied to self-practice with ye modern legislator, is not worth a d-ime party

Will Attempt a Difficult Feat.

We publish the following from the Chalotte Observer for the benefit of our Wilmington firemen : The Pioneer Fire Company will appear on the streets this evening on parade and attempt the feat of running two hundred yards, reeling off a hundred feet of hose and throwing a stream of water one hundred feet-all in the space of two minutes. This we believe is considered the shortest time which the feat can be accomplished, and should the Pioneers succeed indoing it, will indicate an excellency of training rarely attained by fire companies.

Special from Raleigh.

A special to the REVIEW from Major Engelhard, dated at Raleigh this forenoon, states that Col. J. G. Burr, of this city, has just been appointed a Director of the Insane Asylum and Capt. V. V. Richardson, of Columbus, Director from this Dis-

It will be remembered that Capt. I. B. Granger was nominated to this position by the Chamber of Commerce of this city, composed of gentlemen who last Summer gave some \$12,000 worth of iron to the Road. We have nothing to say against the appointment of Capt Richardson, but | it does seem that the recommendation of our Chamber might have been respected in this instauce. Governor Vance has shown very little consideration for the people of Wilmington, and according to the way of the world those who give much should expect but little in return.

The Criminal Court.

We are especially gratified in being able to state that Hon. O. P. Mearcs, of this city, has been nominated by the Democratic Legislative caucus as Judge of the new Criminal Court for the county of New Hanover, the nomination being equivalent to an appointment. This result has, it is true, been foreshadowed, as it was understood from the first that Judge Meares was to have this Court, but the fact that the matter has at length been decided, will be received with much gratification by all. The appointment is an eminently wise and judicious one and will so be considered by the Democratic residents of this city and county.

Col. B. R. Moore for Solicitor and Maj. Jao. W. Dunham for Clerk, both good men and true and both excellent nominations, have been agreed upon for Solicitor and Clerk, respectively, of the new Court

He is fair and and just in all his dealings, and none but After some discussion it was resolved the guilty fear him. We are glad to have to go into an election at once and a ballot Judge McKoy in our district, even for a little while, for we feel that he has already

The Mayoralty.

The fact that the act of Assembly, under which the municipal election is to be held in this city on the 22d inst., fails to make any provision for the election of a May or is accounted for by the fact that the provisions of section 6, of the act ratified February 3d, 1875, amending the charter of the city of Wilmington, are still in force, and by this section the Mayor is to be selected from among the Aldermen.

Testimonials from five inspectors and a adjustors of losses by fire in cities in which it has been in successful operation are displayed. Mr. W. II. Harrison, the general agent for this State, has the matter in charge, and will take pleasure in showing the modus operandi to any who wish a cheap and clean light.

Masculine Fashions.

The new styled of Spring silk hats is less belled in the crown than last year, and the curl in the brim is greater. Trousers will be worn a trifle smaller

at the knee and a little larger at the bottom, so as to fall over the boot. There is no lack of variety in the new goods for the coming season, which are

elgant in design, beautiful in color, and superb in quancy. Morning coats will principally be

made to button three buttons, moderately well cut away from the lower one, of medium length in the waist, and rather shorter in the skirt than has been worn during the winter. The one and two button morning

coats, both with and without flaps on the hips, though older in style still find much favor, and will be generally preferred by those desiring a quieter style of dress, and who do not readily adopt the latetest modes.

The prevailing styles of new goods for spring and summer wear are striped patterns and fancy mixtures for entire suits, with checks and stripes for trousers. In checks the patterns are not so large as have been worn herctofore, but are very clear and bright in color.

The double breasted frock coat is preeminently the only garment in which a gentleman who desires to be well dressed will fell dresssed. It will be cut rather shorter in the skirts than has recently prevailed.

The New Court

The bill for this Court, as passed by the Legislature, has not yet come to hand, but we are enabled to glean a few points as to its features. It provides for six regular terms of two weeks each during the year to be held in alternate months, the first term of the year to be held in February, with authority vested in the Judge of the Court, to call an extra term whenever The following is the list of Magistrates it may in his judgment be necessary, a precautionary provision, but one which will rarely, if ever, be necessary. The that issue. Those marked are Repub- first term will commence on either the first Monday, or the second Monday, in April. It is, as its name would indicate, for the trial of criminal cases exclusively, and for this purpose has the same jurisdiction now vested in the Superior Court. Appeals can be taken directly to the Supreme Court, and its jurisdiction is confined exclusively to the county of New Hanover. As no civil cases can be eity and Smithville are down. heard in the Criminal Court, so can no criminal case from this county be heard in the Superior Court, unless removed but apart from the westing of the floor from some other county to this for trial, in which case the Superior Court will have jurisdiction.

The establishment of this court will be salutary in removing the presure of criminal cases from the Superior Court docket, in expediting the hearing of civil cases and

THE STORM KING.

Wind, Rain, Thunder and Lightning .- The Elements Let Loose-Many Small Losses, but no Serious Disasters Reported.

The storm which passed over this city last night was not altogether unlooked for, as notice had been given day before yesterday of its coming. The storm signal to the south of us were run up yesterday though the signal at this place was not hoisted until last night as the storm was not expected to reach us until to-day It was at its height from 4:15 to 4:30 o'clock this A. M., at which time the velocity of the wind, which was from the southwest, was at the rate of fifty-two miles per hour. The storm of last night was not as severe as the big blow in September last, the maximum velocity of the wind at that time being at the rate of sixty Machine, which is on exhibition in the miles an hour and lasted a great length of time, though the damages sustained in blown down and in some houses window It is an automatic gas machine appara- sashes were blown out, and many houses tes requiring no skill to manage it and flooded by the rain beating under the

THE RIVER

Was very rough and a number of small boats were beaten to pieces and quite a number of skiffs and lighters were driven from their moorings and swept off by the wind. The yacht Dolly Varden left her moorings but was afterwards secured. A small schooner parted her hawser at the foot of Chestnut street and was stopped at the railroad wharf where she was made fast. The Nor. barque Lloyd, which was loading with naval stores at Williard Bros. wharf on the west side of the river parted her spanker and was blown on the sand shoal abreast of the W. & W. R. Leslie's Monthly. Memorable American Duels, from the

Hamilton-Burr to the Bennett-May affairs, as described and illustrated in PRANK LES-LIE'S POPULAR MONTHLY for March, are especially apropos. The Monthly is certainly a marvel of excellence and cheapness. There are also interesting papers by Henry Barton Baker, Colonel Thomas W. Knox, and Professor Charles A. Joy ; poems by Robert Browning and Ada Vrooman Leslie, and a number of stories, short articles, etc., by other writers of recognized ability. Within a year the POPULAR MONTHLY has gained a circulation exceeding that of any other American magazine. It must be pronounced the favorite family monthly of America. Our readers will do well to send \$2.50 to FRANK LESLIE, 537 Pearl Street New York, and receive the MONTHLY for one year, or 20 cents for sample copy, postage free.

Man Drowned.

Last night, as the steamer .1. P. Hurt was at Indian Wells, about thirty-seven miles above this city, she was struck by the storm and blown diagonally across the river. In order to impede the progress of the steamer Capt. Worth had a line tied to the shore and instructed a deck hand, Simp Council, colored, to take a half bitch with the rope around a deck cleat at the bow of the steamer. In obeying orders descriptions. Council lost his footing and went into the river foot foremost; as he was not seen after the stocks. EDITOR OF REVIEW.

Permit me to suggest to the voters of the Third Ward the name of George Harriss Esq, as a candidate to represent said Ward as a member of the Board of Aldermen. I do this, believing Mr. Harriss eminently qualified for the position by reason of his etxensive business experience, he being a native of Wilmington, and in every way thoroughly identified with the varied interest of our city, being himself a large property holder.

I think Mr. Harriss will ensure not only

his own party vote, but will enlist the more liberal element of the Republican party in his behalf. SENEX. March 9th.
