Our friends and patrons will please understand that carrier boys are not allowed to sell copies of the REVIEW. Please do not buy of them or encourage them to sell as it will positively cost the boys their situation when detected.

A young man should not go beyond his means by no means.

William N. Dowden, Esq., of this city, has been appointed a notary public.

Nor. barque *Blanche*, Olsen, from this port, arrived at Liverpool on the 31st inst.

Nor. barque *Memoria*, Arvesen, arrived at Copenhagen on the 21th ult, from this port.

We are requested to say that there will be no drill of the Wilmington Light Infantry this evening.

Were we mistaken, or did we actually hear the eloquent melody of the minable mosquito, last night?

A rather pretty thing in dress, noticed on ladies, is the soft, fluffy mass of black lace worn about the throat.

Postal cards are convenient, it's true, but young ladies should remember that all effusive messages sent on them are apt to meet a thousand curious eyes.

We are indebted to Prof. F. M. Agoston for tickets of admission to a Soiree to be given this evening by the misses and masters of the dancing school under his charge.

Adjutant-General Jones is expected to arrive in the City this evening. He will be accompanied by his wife and while here will be the guest of Mrs. Thos. D. Meares.

The point of attraction to-day is the new circus posters which ornament the boards everywhere and which describe but few wonders ever attempted to be performed in this section.

Support your home mechanics. Remember when a drummer approaches to buy his wares, that every cent you spend with him goes from the city, and is directly taken from home mechanics.

The Auditing Committee of the Board of County Commissioners will hereafter meet on the second Monday in every month and those who have claims against the County will govern themselves accordingly.

This is the last oyster month. The saying is a very old one, it was written by Butler, in 1599, and ran thus: "It is unseasonable and unwholesome, in all months that have not an R in their name to eat an oyster."

The State treasury has received \$5 from Dr. W. G. Curtis, quarantine physician at Smithville, it being the fee collected from a vessel detained for medical inspection, and the News says that this is the first fee from such a source since the present administration came into power.

City Court.
But two cases were brought up before the Mayor this morning one of a party charged with "keeping a dangerous dog in the city and with other disorderly conduct" who was found \$20 and costs, and the other, a case of drunk and down, in which case the defendant was discharged on payment of costs.

The Arabs.
A party of six Arabs, who arrived here yesterday on the schooner *Mary Stetson*, from Navassa were the observed of all observers this morning. They are very dark, can speak no English and amused the boys by writing from right to left, inversely to our method and with looping characters. They are here on the lookout for work, and are under the protection of J. Loeb Esq., French Vice Consul.

Will be Repeated.
Such was the unqualified delight of those present in the Opera House last evening and so universal is the desire for repetition that Miss Manly and Mr. Haywood have consented to repeat this evening the dramatic readings given by them last night. We hope that everybody will go and witness one of the earliest efforts of one who is destined to assume a prominent position in the histrionic annals of the next few years.

Dramatic Impersonation—Miss Manly & Mr. Haywood.

Those who braved the inclement weather and visited the Opera House last night, were more than repaid by the real treat which they were favored. In all probability the audience, with few or no exceptions, anticipated a plausibly good amateur performance, but instead they were called upon to witness an exhibition of dramatic talent which would truly have done credit to mature and cultivated professionals.

Miss Manly throws herself with her whole soul into her conceptions (which are of the highest order); she has a rich and finely modulated voice and the impassioned and graceful gestulation of a born actress. The impersonations selected are such as to test thoroughly the real character of her talent and not once was she found wanting.

Mr. Haywood, like Miss Manly, is quite young, but his talent also of a very high order. His voice is rich, deep and round and his articulation distinct and musical. He has in him all the elements of a good actor. With the maturity of his physical powers will come his thorough "make up" as a dramatic impersonator. We were impressed with the opinion that his forte lay rather in comedy, while Miss Manly's true realm is the field of tragic representation.

We are glad the performance is to be repeated to-night, and we advise all who desire to behold a display of really wonderful talent to attend.

Boys and Girls of the South.

This is the title of a very handsome paper which comes to us from Atlanta, the publication of it having but recently begun. It is of eight pages, filled with reading matter carefully selected and beautiful and appropriate illustrations. It is issued monthly at \$1 a year, by John H. Seals, Editor and Proprietor, and we most cordially wish it success.

For Wakefulness.

One remedy for wakefulness at night is to have the head of the bed a foot higher than the foot, the object being to make it more difficult for the heart to throw blood to the brain. When the head is about on a level with the feet, there is an easy flow of blood to the brain, which sometimes causes wakefulness. There seems to be some philosophy in that.

The Thermometer.

From the United States Signal Office at this place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock:

Augusta, 54; Charleston, 52; Cincinnati, 42; Jacksonville, 63; Knoxville, 50; Lynchburg, 45; Memphis, 51; Mobile, 57; Montgomery, 49; Nashville, 51; New Orleans, 62; New York 38; Norfolk, 41; Pittsburg, 47; Savannah, 54; St. Louis, 40; Washington 30; Wilmington, 48.

Criminal Court.

The following cases were called and disposed of since our yesterday's report: State vs. George Poisson, charged with larceny. Defendant found guilty and sentenced to the Penitentiary for ten years.

State vs. Wright Simmons, charged with larceny. Defendant found not guilty.

State vs. James Heaton, judgment *neg.* entered. Affidavit of excuse filed and found sufficient; judgment stricken out.

State vs. Henry Boone, charged with larceny. Defendant found guilty.

In the case of Wm. Phinney, convicted of assault and battery, on Tuesday, judgment was suspended on the payment of costs, bond being required of defendant in \$100, with good security, to keep the peace and make his appearance at the next term of Court.

State vs. Daniel Mack, for larceny. Motion in arrest of judgment overruled.

State vs. John Watson, for assault and battery. Defendant submitted and was fined \$5 and costs.

State vs. James Heaton, on forfeited recognizance. Motion by prosecutor for a rehearing overruled.

State vs. John Smith, for larceny. Verdict guilty.

State vs. Edward Thomas, for assault and battery. On trial.

State vs. Hector Davis, for assault and battery with intent to commit a rape. Continued for the State until the next term of the Court.

THE PUREST CREAM TARTAR made from grape acid enters into DOOLEY'S YEAST POWDER. So with all the other components. The result is that the most satisfactory results are attained by the use of a smaller quantity of leaven and flour. Families that try it say so.

New River Canal Company.

The following report of the meeting held at the Court House on Tuesday night in the interests of the proposed New River Canal, was not ready for publication until last night and therefore too late for our yesterday's issue. The report, it will be seen, is official:

At a meeting of the Company and citizens generally, held at the Court House in Wilmington, on the 3rd inst., Henry Nutt was called to the Chair and N. Jacobi was requested to act as Secretary.

The Chairman explained the object of the meeting and invited explanations and discussion, when Major Young, being called upon, addressed the meeting at some length in a very satisfactory manner, submitting the following plan for the consideration of the meeting:

ON THE FIRST PART:

That when the New River Canal Company shall have constructed eight (8) miles of the New River, and (9) miles of the Duplin Branch Canal, and said canals and water-way shall be 35 feet wide and give an unbroken depth of five feet below tide-level from the North East River at the Sand Hills to Burton's old field, upon same river;

And that when said canals shall be so located and constructed as to take off the overflow of the swamp and overflowed lands upon the North East River from Bannerman's Bridge to Burton's old field, the overflow from North Angola Bay, (Gum Swamp), so said lands can be reclaimed for agricultural purposes by small plantation ditches;

And that when said Company shall secure to the citizens of Wilmington local rates of toll upon said trunk-line Canal and waterway as constructed from Wilmington to a point of equal distance between Wilmington and Norfolk;

And when said Company shall mortgage to the citizens of Wilmington the seventeen miles of constructed Canal, and said Company's rights, franchises and privileges, and the half of all lands drained by said Company;

ON THE SECOND PART:

Then the citizens of Wilmington shall purchase from said Company \$20,000 of said Company's ten year eight per cent. first mortgage bonds at par.

When said canal shall be extended to New River, then the said citizens shall further purchase \$20,000 of said bonds;

And when said canal is further extended to Pamlico Sound, said citizens shall further purchase \$10,000 of said bonds, making in all \$60,000 and no more.

Provided, however, that when said canal shall be completed to New River said citizens shall release from mortgage the nine (9) miles of canal of the Duplin Branch Canal.

Whereupon, it was moved by P. Heinsberger that a committee of three be appointed by the Chair (at his leisure) to consider and act upon the proposition of Mayor Young, and report to a future meeting of citizens, to be called by it when ready to report.

The meeting was addressed by Mr. Jacobi, Mr. Nutt and others, showing conclusively the importance of this work to the future prosperity of Wilmington, and secondarily to the State at large, first by overcoming to some extent the disasters to our railroad system, of late, and secondly, as inaugurating a system of improving the waste swamp lands which abound in all the low part of the State, and which are known (if reclaimed) to be as fertile as any upon the face of the earth, and thus to utilize them in the interest of our people.

On motion, the meeting adjourned, subject to the call of the committee when ready to report.

[Signed] N. JACOBI, Sec'y.

The Chairman has appointed P. Heinsberger, Jacob Loeb and John Colville as the committee under Mr. Heinsberger's resolution.

Military Notes.

The Raleigh News says: The Iredell Blues, of Statesville, the Southern Stars, of Lenoir, and the Buncombe Riflemen, of Asheville, have been assigned by the Adjutant General to the third battalion, and will participate in the election of officers of the battalion at Salisbury on the 10th inst.

The Anson Guards have been assigned to the second battalion, and will participate in the election of officers at Wilmington on the 10th.

The first battalion now consists of five companies, the second of seven, and the third of five, making seventeen white military companies now formed in the State, and others are forming.

Fifty breech-loading Springfield rifles have been sent to the Whiting Rifles, of Wilmington, a company which was organized a year ago, and made frequent unavailing applications to Gov. Brogden for arms.

A French proverb says: "We must be content with what we have while we are awaiting something better."

Not Played Out.

The cry that we so often hear to the effect that the turpentine and timber lands in this section are exhausted is nothing new. It is as old as the generation. A gentleman who formerly resided here, and who conducted a large lumber business, removed to another State a long time ago because, as he alleged, the timber lands hereabouts were exhausted. He was recently on a visit here and to the question as to why he had removed from the State replied as above, but yet was forced to the confession that more timber had been cut, more lumber sawed and more turpentine and tar produced since he removed than was the case in the entire history of the town previous to that time.

The old cry is repeated now with some slight variations. At a meeting of citizens held recently it was brought forward and all of the woes and hardships which have fallen upon us during the recent (and present) hard times, were gravely alleged to have originated from this cause. Even the reduction in the value of real estate (which is not as great as that in New York city) was laid to the roots of the sturdy old pine trees. Now let us see what are the facts in the case.

We published yesterday a very carefully compiled statement of comparative receipts and exports at the port of Wilmington during the past two years, and to-day we will reduce bales of cotton, casks of spirits and barrels of tar, rosin and turpentine to dollars and cents. The increase in receipts of cotton for the year closing with the 1st inst., as compared with the corresponding period of the previous year, was 31,708 bales, which, at 10 cents per pound and 500 pounds to the bale, would be \$1,585,400; the increase in spirits was 312 casks, which, 40 gallons to the cask and 35 cents a gallon would give \$4,688; tar increased 18,201 barrels, and this at \$1.60 per bbl., would give \$29,121.60; crude turpentine (that "played out" industry) increased 56,793 barrels (33 1/2 per cent.) which, at \$2.25 per bbl., would give \$127,784.25. These are the increases during the year and they foot up a total of \$1,740,913.85. The decrease has been 17,829 barrels of rosin, and this, at \$1.75 per bbl., would give \$30,890.75. Deduct this amount from the total above and we have \$1,710,143.10, or nearly two million dollars as the actual increase in the value of receipts at this port, and a strict calculation of prices would probably increase this to fully \$2,000,000. Taking out the cotton, we have left a net increase in the turpentine interests of this section during the present year of low values, of \$124,743.10.

This does not certainly look as though "the pine woods" were yet exhausted.

Yet this is not all. There are vast forests of virgin pine in this section of the State untouched. They are far from a market and hence are not worked, having never been touched, either for turpentine or timber. These forests are to be found at the intersection of the three counties of Pender, Duplin and Onslow, and this is the country that the people of Wilmington are interested in opening up now to a market.

Compress Company.

The annual meeting of the Wilmington Compress and Warehouse Company was held at the Bank of New Hanover yesterday. The old Board of Directors, as follows, were re-elected to serve for the ensuing year, viz: E. J. Pennyacker, I. B. Grainger, H. A. Burr, D. R. Marchison, John W. Atkinson, C. P. Mebane, E. Peschau, James Sprunt.

The new charter granted by the General Assembly at its late session was considered and accepted, and the capital stock of the Company was increased from \$50,000 to \$60,000.

Wonderful Success.

It is reported that Boschee's German Syrup has, since its introduction in the United States, reached the immense sale of 40,000 dozen per year. Over 6,000 Druggists have ordered this medicine direct from the Factory, at Woodbury, N. J., and not one has reported a single failure, but every letter speaks of its astonishing success in curing severe Coughs, Colds settled on the Breast, Consumption, or any disease of the Throat and Lungs. We advise any person that has any predisposition to weak Lungs, to go to their Druggists—and get this Medicine, or inquire about it. Regular size, 75 cents. Sample Bottle, 10 cents. Two does will relieve any case. Don't neglect your cough.

In this age of education and general intelligence, the household is hardly complete, without a Cornish & Co. Piano or Organ. Read the advertisement in another column and then send for illustrated catalogue and price list.
