NEWS SUMMARY.

The news from Louisiana continues to improve and there is a strong probability ahead of an early adjustment. — War has not yet been formally declared in Europe, but Russia is expected to take the initiatory steps at once. — Boss Tweed has made a full confession which implicates many prominent New Yorkers. — The ten Lowndesville murderers, who were to have been hanged on Friday, have been respited for two weeks by Gov. Hampton. — The Montenegrin delegates have left Constantinople for their homes, and the Russian embassy will probably take its departure to-morrow. — Prominent banks in the country complain of a glut of silver. — Three hundred persons are to be discharged to-day from the Bureau of Printing and Engraving. — The steamer Dispatch will sail shortly for Constantinople for the use of the United States Minister there. — The Treasury will pay all sums under five dollars in silver when desired; otherwise dollar bills will issue. — Four persons in Greene county, Pa., and two in St. Louis, making a combination of counterfeiters, have been arrested. A large amount of the qucer was captured. — The Cabinet yesterday discussed the question of an extra session. It had been concluded to call the session on June 4th, but to-day the question of calling it May 15th or dispensing with it altogether was discussed at some length, without ordering any change in the original programme. The situation was decided that no present action would be proper. — Extensive improvements are contemplated in the New York Times building. The roof is to be raised and an additional story built. — The Saratoga Street Methodist Church in East Boston, has closed its doors to the Rev. W. R. Clark, who was appointed its pastor by the recent Conference. The trustees of the church wanted a minister from New Hampshire, but the Bishop disappointed their expectations, and they refused to open the building. — The Paris Union affirms that Cardinal Ledochowski's extradition was really demanded, and granted by the Italian Government, but the Pope gave him asylum at Vatican. — At a meeting of the Gold Exchange the Treasurer reported that the cash assets of the Exchange on the 31st of March were \$110,340. This is to be divided among 451 members, giving to each one about \$260. — The brickmakers in Trenton N. J., are on a strike. — The soldiers of the Russian fleet in New York received a year's pay last Saturday. — A coroner's jury is investigating the St. Louis horror. — Robert M. DeWitt, a well known New York publisher, is dead. — Dr. R. B. Green of Hoosick, N. Y., was thought to be dead, and his body was placed in a vault about two weeks ago. As he had narrowly escaped burial while in a trance several years ago, his wife was requested to visit his body until no doubt of death existed. It is said that last Saturday signs of life were noticed, and the body was removed from the vault. Attending physicians pronounce it a case of suspended animation.

The People Want Proof.
There is no medicine prescribed by physicians, or sold by Druggists, that carries such evidence of its success and superior virtue of BOMBER'S GERMAN SYRUP for severe Coughs, Colds settled on the breast, Consumption, or any disease of the Throat and Lungs. A proof of that fact is that any person afflicted, can get a Sample Bottle for 10 cents and try its superior effect before buying the regular size at 75 cents. It has lately been introduced in this country from Germany, and its wonderful cures are astonishing everyone that use it. Three doses will relieve any case. Try it.
Never put much confidence in such as put no confidence in others. A man prone to suspect evil is mostly looking in his neighbor for what he sees in himself.

The portable floor for dancing parties is to be put down in the Opera House this week, the dramatic season which didn't open here this winter having about closed.
We understand that Judge Seymour, who is to hold Superior Court here next week, will not arrive until Monday night, and the Court will not open, therefore, until Tuesday morning.
An inebriated Wilmington man told his wife last night that his shoes had just been half soled and were slippery, and she said perhaps they were mended by a sherry cobbler.

Youth vanished, manhood flies; soon old age is ours, and then, like children weary with the day's amusement, and tired of petty annoyances and disappointments, we are glad to lie down, and sleep.

The Board of Audit and Finance for this city is now fully organized and will have regular meetings on the first and third Mondays in each month. Mr. Norwood Giles is Chairman and Mr. James F. Gause, Clerk.

If sea water, having its usual constituents, should penetrate through a cavity in the earth to a depth where it would meet high temperature and metallic sulphides, the conditions would be present for forming petroleum.

Very Much Improved.
The *Newbernian* comes to us this week enlarged to nearly twice its former size, and very much improved in every way. It presents 28 columns to the reader and its editorial and news departments evidence much care and ability. Published at Newbern, by S. M. Carpenter, at \$2.25 a year in advance.

City Court.
The following cases were disposed of by the Mayor this morning:
Antoni Swain, charged with disorderly conduct, was found guilty but judgment was suspended on payment of costs.
Victoria Swain, for disorderly conduct, was fined \$20 and costs or 30 days work on the streets.
Hattie Lee, for the larceny of \$5, was bound over to the Criminal Court in the sum of \$200, justified bond.
The same, for living in a house of ill-fame, was fined \$20 and costs or 30 days work on the streets.

The Post Office Approaches.
Second street, between Chestnut and Mulberry, on the west side, is in an awful condition, left so as a result of the recent grading operations carried on in that quarter. In fact, all of the approaches to the Post Office are bad at night, the crossings in the immediate vicinity on account of their condition and the sidewalks on Chestnut and Second street because of the want of light.
Second street, between Princess and Chestnut in especial, which is now one of the most prominent thoroughfares in the city, is as dark as Erebus every night when the moon is not shining clearly.

The Cape Fear.
The water in the river is now falling very fast, and it was only about 17 or 18 feet above low water mark early yesterday morning. It is disappearing rapidly from the low lands along the river between this city and Fayetteville, and farming operations will soon begin in earnest. Instead of an injury it has proved a blessing as it has left the river lands covered with the rich sediments brought down from the interior, and it will not be necessary to fertilize such land to produce fine crops this year. With good seasons, and with no more very large freshets this summer, the planters along the river may expect to reap rich harvests this year.
Some idea of the fertility of these lands and of the beneficial effects of a Spring freshet may be obtained from the fact that a prominent citizen of Bladen county, one who farms largely on the river, told us once that he could afford to lose his crop every other year by the floods, so great was the yield in these swamp lands, especially after having been inundated by a Spring freshet.

The Advance in Breadstuffs.
Breadstuffs have advanced, and no mistake, but it is not altogether owing to the war news from Europe. The advance in flour, for instance, was begun some two months ago, and has gone on steadily ever since, and it had its origin in the scarcity of wheat, consequent upon a short crop, but there is no doubt that the late war news has had something to do with the increase in value of late. The advance in flour has been from \$2 to \$2 25 per barrel. Grades which sold here two months ago for \$7 a barrel are now \$9 and those which sold at \$7 50 are now \$9 75, and it is the opinion of dealers that there will be a still farther and a heavier advance, consequent upon the war news from Europe. Corn, we all know, has advanced very considerably in price, while meats are strong and about the same. Coffee is low with an upward tendency. Sugar is firm at the usual prices, and rice is steady and with indications of advance, consequent, in a great measure, upon the damages to the rice plantations in South Carolina by the recent floods.

Life Time Misery.
Has often been established from dyspeptic stomachs, received in childhood by the use of bad bread, heavy biscuit and indigestible pastry. No family now need curse its children with such an inheritance. In DOOLEY'S YEAST POWDER is found the absolute preventive.
The missing light ship stationed at Frying Pan Shoals which was driven off during the recent gales, has gotten back safely.

To the Work House.
The following prisoners, convicted at the recent term of the Criminal Court for this county, have been turned over to the Superintendent of the Work House, viz: Henry Whitted, 3 months; William Phinney, 3 months; William Price, 4 months; Henry Bryant, 12 months. All colored.

Picture of Gov. Vance.
From our friend Mr. J. S. Tomlinson, of the *Hickory Press*, we have received a beautiful lithographic representation of Gov. Vance. The picture is furnished by Mr. Tomlinson to anyone desiring it for 50 cents or in a neat walnut frame at \$1.50. Agents can obtain territory for its sale on application to Mr. Tomlinson at Hickory N. C.

The Spring and Summer.
We invite attention to the large and attractive advertisement of Mr. M. M. Katz, the popular Market street merchant, which appears for the first time in this issue. Mr. Katz has but recently returned from the North with a full line of the newest, latest and most desirable styles of goods for the spring and summer wear, to which he invites the attention of all, but particularly of the ladies.
His prices are down as low as they can be gotten, and he pledges himself to duplicate the same terms on any bill ordered from abroad.

Knights of Honor.
As has been before stated, a Grand Lodge of Knights of Honor for the State of North Carolina will be established in this city to-night, Marsden Bellamy Esq. has been chosen on the part of Carolina Lodge to deliver the address of welcome to the visiting delegates who are composed of P. D's of the order. The following delegates have arrived:
Rev. T. J. Allison, of Tarboro, Dr. H. Tull, of Kingston, Dr. D. Cogdell, of Goldsboro, Messrs. W. G. Brinson, of Newbern, C. R. Jones, of Charlotte, and P. C. Carlton, of Statesville. Others are expected to arrive to-night including Mr. J. A. Ege, Supreme Dictator of the order in the United States.

Off for the Penitentiary.
Sheriff Manning left here this morning for Raleigh with the following prisoners, sentenced to the Penitentiary by Judge Meares at the recent term of the Criminal Court, viz:
Samuel Mack, 10 years; John Smith, 2 years; Handy McAllister alias Lou McAllister, 5 years; Henry Bone, 4 years; George Poisson, 10 years; Thomas Johnson, 10 years; John Melvin, 2 years; Martha Williams alias Martha Melton, 5 years. All colored.

Sheriff Manning is accompanied by three deputies, making a stronger guard than is usually sent up with prisoners. This was rendered necessary from the fact that there are several very desperate characters in the gang, among them Thomas Johnson, the notorious rascal who yesterday made such a desperate and unsuccessful attempt to escape from jail by overpowering the jailer and his assistants.

Soiree Last Night.
We stopped in a few minutes last evening to witness the soiree given by Prof. Agostini's dancing class, expecting to see only the ordinary exercises of such occasions, but were very much surprised to find the very great degree of proficiency which the little ones evinced in the Terpsichorean art. The Little Folks' quadrille, composed of children from 3 to 5 years of age, was simply wonderful. The Highland Flieg, Fishers Hornpipe, and some other fancy dances with which we were not familiar were embraced in the evening programme and were handsomely executed by the scholars. We hardly think we could too highly praise the entertainment and we know every one present will endorse us when we say it was wonderful. By night, Prof. Agostini danced Fishers Hornpipe, which we are free to admit, it has never been our pleasure to see more handsomely and gracefully executed. The Prof. retired amid tumultuous applause and should feel highly complimented by the genuine pleasure and surprise evinced by the large audience.

Schr Traveller, Hodges, for St. Pierre Martinique, put in here to-day, in distress. Some damages to her rudder will be repaired when she will proceed on her way.

I Scream.
Mr. Lumsden's Ice Cream Saloon will be open to-morrow for the season. A sure sign that Spring has come at last. All know how good and pure his cream is, and if they don't, it is very easy for them to find out. Orders left with him on Saturday for cream on Sunday will always be promptly filled.

Standing Committees.
At a meeting of the newly elected Board of Managers of the Produce Exchange, held this noon, the following appointments were made and confirmed:
