THE FRENCH CRISIS.

A Threatened State of Siege—A German View of the Situation.

LONDON, May 25.—The *Times*' Paris despatch has the following: "It is said that a note has been communicated to all the Conservative provincial newspapers, saying that during the three months' interval between the dissolution of the Chamber and general elections President MacMahon is perfectly entitled to decree a state of siege. Signatures are solicited among Paris tradesmen to a petition to the President representing that the recent events are paralyzing trade."
The *Times*' Berlin despatch says: "The Ministerial *Post* contends that the conspiracy which upset the French Cabinet is principally directed against Germany. French armaments having been carried to the highest pitch, the mask is thrown aside and an attempt made to profit by the latest European complications for gaining allies. What the monarchial conspirators immediately aim at is restoration of the Papacy through the humiliation of Germany." The *Times*' correspondent points out that the *Post* is the same paper that two years ago published an exciting article on the imminence of the war.

BERLIN, May 25.—The *Tagblatt* says that the Duc de Cazés, the French Minister of Foreign Affairs, has sent to the French Ambassadors at Berlin, St. Petersburg, Vienna, and London identical despatches, notifying them of the recent change of ministry, and pointing out that it in no wise affects the foreign policy of France. Regarding the Eastern question in particular, France will maintain neutrality. A somewhat different and more extended despatch was addressed to the Ambassador at Rome. This touched upon the religious question, and gave reassuring explanations. The despatch to the Ambassador at Madrid gives friendly assurances concerning the attitude of France in regard to Carlism.

The *North German Gazette*, commenting on the French assurances of pacific intentions, says: "For the present only one thing can be regarded as beyond doubt, namely, that the German Government devotes the most serious attention to the further development of matters in France and to symptoms of any connection of affairs there may have with the clerical policy. The eagerness with which the French Government sends assurances of peaceful intentions cannot remove the distrust attaching to the influence and circumstances under which the change of Cabinet was brought about. The mixture of Orleansism with Ultramontanism in the new Government is most suspicious."

PARIS, May 25.—President MacMahon visited the Exhibition buildings to-day. In conversing with Commissary-General Kranz and others, he said: "The rumors of the postponement of the Exhibition have induced me to pay this visit. The Exhibition will open May 1, 1878, as announced. I am especially desirous of protecting the freedom and security of this great national enterprise."

At a reception yesterday at the Elysee the President said: "I am conscious of having fulfilled a great duty. I have remained and shall remain absolutely within the bounds of legality. It is because I am the guardian of the Constitution that I acted as I have. To attribute to me an intention of assailing the Constitution is a misconstruction of my character. The country will soon comprehend that my sole aim is the salvation of France and the Government she has given herself."

The *Moniteur* announces that important changes of judicial authorities are expected. Minister Fourtoul has ordered the stoppage of several telegrams to Republican provincial newspapers. In Republican circles belief is expressed that a plot will shortly be discovered in Paris, Lyons, or Marseilles which will serve the Government as a pretext for acts of severity.

CAROLINA.

Corn 66 and 67 cents in Newbern. Forsyth county has just sent in ten railroad hands.
Frost all along the R. & O. R. R. on Friday morning.
The peach crop in the Weldon section will be a very large one.
The water in the Roanoke is so clear that rockfish can't be caught.
The Episcopalians at Weldon have ordered an organ for their church.
Wake county Criminal court is working hard. It sent up 9 convicts a Saturday.
Over fifteen hundred barrels of green peas shipped from Edent on thus far this season.
The local of the Edenton *Times* keeps the flies off with a cabbage leaf 20 inches in length.
Bishop Hood, of the A. M. E. Church, has written a letter to the citizens of Raleigh in favor of prohibition.
The Sunday School children, teachers and friends connected with the Episcopal Church at Goldsboro, pic-nicked at Little River bridge, on the N. C. R. R.
Raleigh News: An eloping couple from Richmond arrived at Weldon (Virginia's Gretna Green) Friday night, and were married, returning yesterday morning.
Raleigh News: Farmers in the city yesterday reported that they had been forced to plow up their second planting of cotton, it having been ruined by the cold water of last week, and had planted corn in its stead.

Newbern Market—Chickens, 30 to 40 cents per pair; eggs, 8 1/2 cents per dozen. Irish potatoes \$1 per bushel; sweet potatoes, 50 cents per bushel; dressed pork, 6 to 7 cents per pound; strawberries and blackberries, 5 cents per quart; green peas, 50 cents per bushel; clams 10 cents per peck.

Raleigh News: One thousand tons of iron for the Raleigh & Augusta Air-Line Railroad have been received at Portsmouth, and will pass through this city about to-morrow on its way to the head of the road for which it is intended. Only twelve miles are to be laid to effect a junction of the Raleigh & Augusta road with the Carolina Central, and we judge that the work of filling this gap will be begun at once.

Newbernian: At the close of Republican rule, over our municipal affairs, being May 1st, 1873, the debt of Newbern was \$8,802.21, with \$1,822.84 cash, in the hands of the tax-collector, city marshal, and cemetery agent, which was paid over to the Democratic treasurer upon his qualification to that office. Since May 1st, 1875, the city government has been controlled by Democrats, and the result is, during the two years ending May 1st, 1877, the city debt has been reduced \$6,369.08; leaving our present indebtedness \$1,833.13.

Raleigh Observer: From a gentleman who arrived in the city from Franklinton we learn of the termination of a feud of 12 months standing, the result of which it is supposed will be the death of one of the parties. Two men, named Shoffman and Brown, had a misunderstanding some twelve months ago, and since then there has not been a good feeling existing between them. One day this week the two were in the town of Franklinton and remained there during the day drinking until both were considerably intoxicated. At a late hour in the evening the two men, accompanied by a boy who had a hoe, started for their home, about three miles in the country, but before reaching home they began quarreling, when Shoffman seized the hoe and inflicted three ugly wounds in Brown's head. Brown was taken home at once, and has since been in a somewhat critical condition, and today, when our informant left, a magistrate with witnesses had gone to the wounded man's residence to take his dying declaration. Shoffman fled the locality after his rash act, and has not been heard from since.

NEWS SUMMARY.

Don Carlos was not expelled from France, but went voluntarily to save the French Government embarrassment.
John Young Brown pronounces it a preposterous lie that any Southern Democrats had agreed to support a Republican for Speaker. The Turkish government has restored Corinna library, which was carried off by them, when the Turks overran Hungary. Advice from Crete report a terrible state of affairs, women are insulted, ravished and debased by the Turks. It is rumored that British protection has been solicited. The Secretary of the Treasury has ordered the sale of one million in gold at New York on 31st inst. Col. John Staples, of North Carolina, pronounces the report false that the visit of Gen. Leach Judge Settle and himself to the President was a political one. The Russian army which captured Ardahan was 70,000 strong. Intelligence has been received here that the Russian bombardment of Kars has slackened. The Russians continue to advance on Erzerum, and a battle is expected shortly. The New York weekly bank statement shows a loans decrease of \$2,375,000; specie decrease \$500,000; legal tenders increase \$1,125,000; deposits decrease \$1,250,000; reserve decrease \$1,000,000. A Turkish ironclad destroyed the earthworks at Nikopolis, driving the Russians out, who left forty dead. The Russian army which captured Ardahan was 70,000 strong. A portion of this force has reinforced the Russians before Batoum, which is seriously imperilled. Russia will respect the neutrality of Servia. Her independence is a matter which will be settled by agreement with the Great Powers. Justice Bradley has granted an injunction restraining Gov. Drew from selling certain railroads for non payment of interest on bonds. The Western North Carolina road and the Florida Central Jacksonville, Pensacola and Mobile roads are implicated. Two million dollars is involved. A Russian attempt to throw a bridge over the river before the Turkish lines at Batoum was repulsed with loss. The *Star* says Senator Morton's letter is seriously commented upon by the politicians. The radical Republicans say that it cannot be dignified with a first-class growth. It is generally considered as a double-edged, susceptible of any construction one wishes to place upon it. The condition of affairs within the Turkish qual-

ralateral, composed of Verna, Shumli, Rusluck and Silistria is satisfactory. The Turkish army in Asia, however, is spoken of as deficient in everything but bravery and enthusiasm. It is not considered necessary at the War Department that additional troops be sent to Utah. Official statements from there do not sustain the warlike demonstrations on the part of the Mormons reported in the papers.

The present style of dress is so tight that nearly every fashionable woman has a corn on her knee-cap. Striped stockings will be fashionable this season. The stripes, however, will be narrower than formerly. Lace cuffs a quarter of a yard deep, and worn upon the outside of the sleeves, are now regarded as en regle. Freckled goods are all the fashion for the ladies. As summer advances, they will admirably match some faces. It is expected that there will be quite a large attendance from this city. Mr. J. L. Westcott, treasurer of Brunswick county, on Friday last drew \$173.84 from the State Treasury. T. of the State of North Carolina, will lecture in this city on Wednesday evening, the 30th inst., at Temperance Hall. The authorities of the Wilmington and Weldon Railroad have introduced air brakes on some of their trains. These will in a short time entirely supplant the old hand-brake. We invite attention to the advertisement of the Novelty Store on Market street one door West of Exchange Corner. Cigars of all grades, tobacco, good, choice and sweet, and candy, oranges, &c., will be found there at the very lowest prices.

The History of Civilization Might be written in the gradual processes of improvement wrought out in articles of food. Every progressive step is a public blessing. To no one article is more due than to DOOLEY'S YEAST POWDER. This, with proper care, insures the most delicious and digestible bread, biscuits, party, etc.

The Thermometer. From the United States Signal Office at this place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock: Augusta, 62; Charleston, 65; Corsicana, 66; Galveston, 70; Indianola, 79; Jacksonville, 70; Key West, 80; Mobile, 72; Montgomery, 64; New Orleans, 72; Norfolk, 65; Punta Rasa, 75; Savannah, 64; St. Marks, 68; Wilmington, 68.

Orange Cake. Mix two cups of sugar with the yolks of two eggs, then add the whites beaten to a froth, next add a large tablespoonful of butter, then one cup of milk, with two teaspoonful of baking powder dissolved in it, and last of all flour; flavor with lemon extract; bake in jelly pans. Filling: Two oranges, one lemon, grate the rinds and add the juice, one cup water, one cup sugar, tablespoonful of corn starch; boil until smooth; cool before putting between cakes.

City Court. Ed. Turner, charged with disorderly conduct, was found guilty but judgment was suspended on payment of costs. Julius Bull, for the same offence, was fined \$10 and costs or 30 days work on the streets. Milly Bradley, disorderly, was fined \$20 and costs or 30 days work on the streets. Wm. Casey, charged with drunkenness, was fined \$5 and costs or 10 days work on the streets.

A Calico Dress. "We are glad to see it stated that calicoes are again coming into favor as walking dresses. With all admiration for the ingenuity and taste of the sex, we are bound to say that the dear angels have never yet struck upon a costume which gets away with a calico dress and a white apron," thus sayeth the *Raleigh News* and if any endorsement is wanted to the above, we are on hand. There is nothing that looks better, sets better and helps better (to a bean and cost less) than a sweet calico dress and therefore we add our mild endorsement to the above.

Interesting Letter from Col. Waddell. Hon. A. M. Waddell has just communicated to the *Raleigh Observer*, a lengthy and very interesting article on the Liberty of Congress, embracing a brief sketch of its history and contents. We have read the article with much interest and only regret that it is too lengthy for our limited space. The *Observer*, in its editorial comments, pays the following handsome and deserved tribute to our distinguished townsman: No man from the South now in Congress has seen longer continuous service there than Col. Waddell. He has served his constituents faithfully and well and we trust may long be spared to do so. With his experience in Congressional legislation and with his abilities, a bright career lies before him, especially if he shall be accorded that position in the making up of the Committees of the next House to which his services and capacity entitle him.

Poorly Done. A correspondent who signs himself "U" writes from Savannah to the *Norfolk Virginian*, pretending to give a report of the trip of the Western merchants from Norfolk to Savannah, and this is all he has to say about Wilmington: We were met very cordially in Wilmington, the address of welcome being delivered by Col. Waddell, the popular Representative of that Congressional District, which was responded to in a very happy little speech by Colonel Hollaway. Short speeches were also made by the representatives of the various portions of the West. We were then quartered at the Purcell House, and very agreeably entertained by the proprietor, Mr. Davis. The rest of the day was spent in various ways, some driving around to see the beauties of the cities by land, others taking a sail over the Cape Fear river, and not a few confiding themselves to the arms of "Murphy," as only about one-third of the party were able to get sleepers the night before. There was no sleep scarcely for those who were unable to get berths, as night was made hideous by the yells, &c., of a few hilarious souls who seemed to enjoy the discomfiture of the rest. The correspondent's sin lies much more in omission than in commission. He has done poorly by Wilmington where the excursionists were entertained as handsomely as it was possible to do in the short time they remained here. The correspondent might have done as well by jumping Wilmington entirely and hurrying on at once to Charleston and Savannah. There was a full moon last night (a little on the wane) and church goes (and pich) propped by it amazingly.
