The Datura.

We want everybody hereabouts to read the editorlal article in this issue on the much abused Jamestown weed, or, as the boys call it, the "Jimson weed." It was prepared for us by a gentleman who knows whereof he speaks and who thinks with us, that it is time that the absurd prejudices against this weed should be done away with, and that it shall be known for what it is. The Jamestown weed is. by the way, of the same family as the datura which adorns some few of the flower gardens in this city and which bears a magnificent white flower which blooms only at night and which gives out a delicate, pleasant odor very similar to that from the magnolia.

The Crops at Shoe Heel.

A gentleman in this city, who was at Shoe Heel, Robeson county, yesterday, and who rode some distance into the country, gives us a rather gloomy account of the farming prospects in that section. The crops are suffering terribly for the want of rain, and the land, which is of a very light soil, seems literally parching up. Unless they get rain soon some of the crops will suffer beyond repair.
