However the ailanthus got a good start, and is now an ornament or offense to many of our citizens, according to their tastes. At a distance it has a decidedly tropical effect, but a nearer examination of it, especially while in bloom, offends the nostrils. As we remarked in a previous paper, its greatest disadvantage and annoyance was the penetration of its roots oftentimes finding their way into the wells. Its odor, no more than that of the Jamestown weed, produces disease. Offensive odors from any source are not necessarily poisonous or unhealthy, and the ailanthus must not be condemned for its smell.

Poison.

If a person swallows any poison whatever, or has fallen into convulsions from having overloaded the stomach, an in stantaneous remedy, more efficient and applicable in a large number of cases than any half a dozen medicines, is a heaping teaspoon of common salt and as much ground mustard stirred rapidly in a teacup of water warm or cold, and swallowed instantly. It is scarcely down before it begins to come up bringing with it the remaining contents of the stomach, and lest there be any remnant of the poison, however small, let the white of an egg or. a teacup of strong coffee be swallowed as soon as the stomach is quiet. These very common tale. articles nullfy a larger number of virulent poisons than any medicines in the shops.

Twenty-four Hours Between Wilmington and New York.

A still further reduction in time has been made on the Wilmington and Weldon R. R., as will be seen by the schedule published to-day, the run between Wilmington and Weldon on the day train being brought down to 5 hours and 45 tween Wilmington and New York is now made in 24 hours and 5 minutes, a distance of 593 miles, or about 25 miles an time of from 33 to 35 miles an hour. Struck by Lightening.

Mr. Lawrence Vick, who is now in this city, informs us of a severe disaster which occurred by a stoke of lightning, at Sclma, Johnston county, on Friday last. On the forenoon of that day Mr. Vick was at the house of his brother, Dr. J. W. Vick, in Selma, the Doctor having been absent at the time, at a funeral, when he observed a heavy cloud coming up. As the cloud was from the South Mr. Vick hastened to close the hall door and windows opening in that direction and afterwards advanced along the hall to the northern entrance for the same purpose. As he did so the house was struck tion shattered by the effects. He, himself, was stunned by the shock and was unconscious for an hour and still feels the effects. Others in the house felt it also, but none so seriously as himself.

Wilmington and Raleigh.

A new schedule was to have gone into effect to-day on the North Carolina R. R., but it would seem that it is to be confined to the day train. By it a party leaving Wilmington on the 5:35 p. m. train will reach Raleigh the same night about 2 o'clock. Returning, he can leave Raleigh the morning of the following day at 4 o'clock and arrive in Wilmington at 12 o'clock. This will give an entire day for business in Raleigh at the expense of two nights of travel and broken rest.

For the Review. Excursion. At a meeting on board steamer Colville, Mr. Jas. H. Meore was called to the chair and explained the object of the meeting to be to draft suitable resolutions expressive of the feelings of the people to Office of Gen't Superintendent Capt. R. C. Henry, for the manuer in which he has ever shown himself and for the enjoyment of the excursion so kindly given us to-day. The meeting was further organized by appointing Mr. J D. Murphy as Secretary.

A committee was appointed consisting of Drs. W. T. Ennett and R. T. Sanders, Messrs. Ed. Shaw and J. W. Sidbury. whereupon they presented the following

resolutions: Resorted Ist. That the thanks of the good people of Pender are due and are hereby tendered Capt. R. C. Henry, of the Leave Wilmington, Front St. steamer Colville, for the enjoyment of one of the most pleasant excursions ever given on this river (North East); that he will ever be remembered and hailed as a benefactor, doing more for the citizens on and adjoining the river than any other man of the age; that he has opened more resources for trade that would have ever remained downward had it not been for his energy in overcoming the obstacles at first thrown around his every move.

Resolved 2d. That we will never forget his services and will ever cherish his memory wherever his lot may be cast.

Resolved 3d. That we gratefully tender our thanks to Mr. G. Z. French for the very comfortable arrangements made at his landing which we all so much enjoyed. Resolved 4th. That a copy of these resolutions be handed to Capt. Henry

and another to the Wilmington papers and ask that they publish them. On seconding these resolutions Mr. W. T. Bannerman made some very interesting remarks on the extending of navigation by Capt. Henry and other work done by him which has been of such vast importance to our people. He spoke also for the ladies, thanking Capt. Henry for them and assuring him of their appreciation and with their approval he was safe

in every and any enterprise. Dr. H. F. Maultsby also made some pointed remarks in alluding to the Capt. and his services expressing himself taking ail in all, having his entire family with him, it was one of the most pleasant days of his life. On motion the meeting adjourned, June 6 1877.

MR. EDITOR DAILY REVIEW:

DEAR SIR: Will you give place in your valuable paper to the following lines: Sir, for 20 years I have been a close observer of street improvements in the town and city of Wilmington, and in this 20 years there have been hundreds and thousands of dollars of the people's money expended on improvement of the streets, and to-day let us tax payers stop for a moment and see the condition of the streets and see what has been done in return. Mr. Editor, it is deplorable to see to-day the condition of some of our principal streets, for instant, Mulberry, between Third and Fifth streets. The city commenced to grade and left it after killing a number of tine shade trees and such was the case also on Third, between Mulberry and Walnut streets. Do, now Mr. Editor, take a walk out on Market street and observe the grade and the turning over and regrading of this street and the condition it is in between Third and Fifth street, and let our tax-payers think over it and see if it would not pay the city to have a man at the head of this work who knows his business. . Last, but not least, take a walk to that beautiful City of the Dead, I mean Oakdale Cemetery, and ask if there is not something needed in giving the hundreds who visit this beautiful spot a good drive and walk. Princess street is also in a miserable condition. I hope the new Board will make
