NEWS SUMMARY.

The strike in the Paterson silk mills continues. The failure of the Rock-Savings Bank is complete and the stockholders will not realize 20 cents on the dollar. There was a serious riot among the ship laborers in Montreal on Wednesday, growing out of a strike among the crew of the Queen of the Netherlands. The King of the Netherlands, Prince of Orange, representatives of the courts, and an immense concourse followed the cortege. It was reported that Pauline Lucca, the opera singer, has made her last appearance on the stage at Prague, in "Les Huguenots." Miss Nelson, Gen. Elihu, and Mr. John Jacob Astor sailed Wednesday in the steamer "Europe." Wm. J. Best has been appointed receiver of the German Savings Bank of Morrisania. Dr. J. H. H. was killed by a fall from a horse about 20 years of age, Sunday. The Secretary of War has received a communication from Deadwood, S. D., asking for military protection or the interests of the Black Hills. The Secretary referred the matter to Gen. Crook. There is a pressure against Hyman, who has his bond as Internal Revenue Collector for the Second North Carolina District. Kars responds feebly to the Russian fire. Mr. Layard, the British ambassador to the Porte, has been ordered to make peace immediately. All the ministers, except Pasha, Minister of War, have peace. Col. Geo. P. Kane has been nominated Mayor of Baltimore by the Democrats. Col. Kane was Marshal of Baltimore during the early part of the war, and spent some time in Fort Lafayette (War). John C. Gorman, of Ohio, who was yesterday appointed Special Deputy Collector for that district, was arrested charged with embezzlement, published in the *National Republican* yesterday, against special agent J. H. Foster, of the Department of Justice. The article was written over the signature of "Tar Heel." The death of Capt. Weller, of the 21st Infantry, is confirmed at General Howard's headquarters. The Serbian government is sending to the northeastern corner of the Serbian civil and military frontier with the Russian Empire. The statement that the occupation of Turkish territory by Austria is imminent is denied in official circles. The mobilization of an army corps is also denied. Dispatches from all quarters show a movement for the relief of St. John's. A St. John's (N. B.) dispatch says fully one half of the city was destroyed. Women and children are in the streets, crying for bread. Austrian intervention in Serbia is publicly discussed as being expected very shortly. The distress in Montenegro is likely to cause an important change in Balkan strategy. The Czar is greatly concerned as to the fate of Montenegro. M. Crispien, the Serbian representative in Turkey has renewed his declaration of Serbian neutrality. He denies that the Serbian government will allow the Russian march through Serbia.

Summer Encampment.

Capt. Walter Coney, of the Wilmington Light Infantry, yesterday received a communication from a committee from the two Fayetteville companies proposing a joint encampment at Smithville some time during the latter part of this month or early in July, to be participated in by all of the companies comprising the Second Battalion N. C. S. G. The proposition will be laid before the companies in this city.

The Wave.

The Fayetteville Gazette says: "Capt. W. A. Robinson's steamer, the Wave, of the Express Steamboat Co.'s line, swung loose from her wharf last Monday morning, and glided down the river—as handsome a craft as has rested on the bosom of the Cape Fear in many a long day. The Wave was formerly run entirely as a freight boat, but for the past few weeks she has been on 'the ways' being repaired and remodeled; and now, with a bright dress of paint and new cabins and state-rooms, presided over by the clever and courteous captain, the Wave can offer as pleasant accommodations to the wayfarer between Fayetteville and Wilmington as any of popular competitors for public favor on the river."

This is Friday, yet the Wave hasn't put in an appearance here yet. She was probably on a trial trip at the time spoken of by the Gazette.

Report on Municipal Affairs.

We have received from Ex-Mayor Canaday a handsomely printed copy (given out by Sam Hall, the champion job printer) of the "Reports of the Municipal Officers of the City of Wilmington, North Carolina, May 31st, 1877," embracing the reports of the Mayor, the Marshal, the Clerk and Treasurer, the Chief of the Fire Department and the Superintendent of Health. The Report is too lengthy for one publication in the REVIEW, but we propose to notice it more at length hereafter. It is certainly complimentary to Mr. Canaday's administration of affairs and we make bold to say this much notwithstanding the fact that we are glad that Mr. Canaday's party has passed out of power here. The Ex-Mayor makes comparisons with the last year of his administration and the year 1871, and the showing is invariably in his favor, not only as regards a reduction of expenses but in the way of substantial improvements made. As we have said we propose to notice the report in detail hereafter.

The Galaxy.

In the July number, just published, the first place is given to Titus Munson Coan, whose study on the theory of culture suggested by Matthew Arnold is worthy of all praise. An essay upon Charlotte Bronte follows, evidently the work of a loving hand; and then comes a remarkable essay on Mme. George Sand, from the pen of Henry James, Jr. In a curious article, entitled "The Embroidery of History," Mr. George E. Pond dashes to the ground some of our favorite idols in history and literature. Mr. C. P. Metcalfe contributes a very short article upon the present financial depression, taking the ground that it is severely felt only in the Northern States, and that the recent thrifty management of Southern affairs, the introduction of manufactures and raising of breadstuffs in the Gulf States, has had much to do with Northern depression and Southern prosperity. Mr. C. B. Lewis (M. Quad) gives the result of a practical study on the subject of dreams he once made by trying experiments on the patients in a hospital. Richard Grant White contributes a very readable English sketch entitled "The Heart of England." In the department of fiction we find the magazine uncommonly strong this month. Nora Perry writes a midsummer love tale called "Our Ice Man." Mrs. Richardson an exciting and mysterious story about a monkey; and there is an exquisite sketch of life on the Hudson. There are but two poems this month, and both are good, Miss Emma Lazarus and Miss Mary Ainge De Vere being the poets. The departments of Science, Literature, and current gossip are well filled and entertaining as usual.

The days are now 14 hours and 25 minutes long. From henceforth they will continue to grow shorter, until next December 21st, when they will be at their minimum, 9 hours and 44 minutes, a difference of 4 hours and 51 minutes.

The Thermometer.

From the United States Signal Office at this place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock:

Augusta, 77; Charleston, 81; Corsicana, 73; Galveston, 82; Jacksonville, 82; Key West, 82; Mobile, 81; Montgomery, 77; New Orleans, 69; Norfolk, 77; Punta Rasa, 85; Savannah 86; St. Marks, 77; Wilmington, 82.

Honors Borne Off by a Wilmingtonian.

It is with much pleasure that we record the fact that one of our young Wilmingtonians bore off the highest honors at the recent commencement exercises at the University of Chapel Hill.

Our young townsman, Mr. Frank M. Fremont, not only received the highest honors as a graduate, but also bore off the palm in oratory.

The two surviving daughters of the late distinguished Senator Wiley P. Mangum, of this State, who was one of the greatest orators North Carolina ever produced, have established a memorial fund at the University, out of which is to be purchased a handsome gold medal to be awarded to the best orator of the graduating class each year. The medal bears an appropriate inscription upon it. The idea is certainly a pretty one and the deed bears with it the beautiful devotion and affection of two dutiful children to the grateful memory of a deceased parent.

The last commencement was the first occasion in which the medal was ever awarded and it was presented by Governor Vance in a neat little speech, in which the great War Governor of North Carolina did not forget to pay a just tribute to the memory of the illustrious Carolinian.

We congratulate Mr. Fremont not only upon his well earned honors, but also upon the fact of having been the first fortunate recipient of this much coveted prize.

Some Suggestions.

The Fayetteville Gazette complains bitterly of the want of proper mail facilities between that town and Northern cities. It says that "the mail that leaves New York on Friday morning reaches Raleigh in 30 hours and Wilmington in 34 hours, while it arrives at Fayetteville, 80 miles further than Raleigh, and about the same distance as Wilmington, only after the expiration of 100 hours—actually not getting here until Tuesday morning following!"

It is but a 25 hours ride now between Wilmington and New York but the fast mail gets here at night while that which brings the papers is received at 12 o'clock of each day making, say about 30 hours. If the Postmaster at Fayetteville can make arrangements for the reception of the through Northern mail via Wilmington he can get it in half of the time it now takes. Letters mailed in New York on Friday afternoon reach here Saturday afternoon at 6 o'clock and the matter for Fayetteville, if it passed here, could go up on the C. C. R. W. train at 7 o'clock of the same evening and would therefore be received in Fayetteville on Sunday morning, about 37 hours after it left New York, while the New York papers of Friday morning, received here on Saturday noon, could be taken up on the steamer which leaves here at 2 o'clock of the same day and be received in Fayetteville on Sunday morning, in 48 hours from New York. We don't charge anything for these suggestions but merely throw them out in the interest of suffering humanity.
