

# THE DAILY REVIEW.

VOL. 2 WILMINGTON, N. C., MONDAY, JUNE 25, 1877. NO. 132.

confirmed. The following gentlemen were appointed Local Board of Managers: Messrs. E. J. Lilly, Wm. C. Troy and J. H. Myrver. The first session will begin the 1st of September 1877. A program will be published in a few days, giving full information in regard to the operations of the College, &c.

"The Democratic party is responsible for the record of the Legislature." *Raleigh Register.*

Yes. It is responsible for the establishment of the Agricultural Department, worth millions of dollars to the farmers; responsible for the establishment of normal schools, one of the greatest blessings that ever befell this State; for the Inferior Courts bill, whereby speedy justice can be administered to the greater protection of life and property; for the appropriation whereby the Western North Carolina Railroad will be completed; for the convict labor bills, by which so many needed works of internal improvement can be carried on; for many other good laws and reformatory measures, which will enable the State to recover somewhat from the injury inflicted upon it by the infamous Republican Legislature of 1868-'69. The Democratic party will cheerfully bear the responsibility of the Legislature of 1876-'77. *Raleigh News.*

[Heldville Times.]

## Major Engelhard's Canvass.

No wonder Maj. Engelhard, the Secretary of the State, led the ticket by a thousand majority. He bearded the worst Radical sections he could find and spoke for his cause in strong and striking style. We remember it was in Mitchell county, at a wild radical precinct, called Big Rock, that Engelhard heard of, and struck straight for, despite the warnings of his friends that there would be a row. Sure enough he was pinning the facts home, according to figures, on the ravenous rascals, when a drunken party from Bakersville drove up headed by a revenue chap named Deaver. They sat in the wagon, a short distance from the stand, and played the fiddle and sung vulgar songs. But Engelhard kept on. Then Deaver approached the crowd and several times interrupted with very foolish questions. Twice Engelhard answered his questions quietly and politely. But the third time he stopped speaking and marched deliberately up to the bully and thus addressed him face to face: "I am not afraid of you; I have heard of you. But like little boys whistle when they pass a grave yard I propose to turn in now and abuse you like the devil—fellow citizens! (pointing Deaver in the face) this is the worst thief in the revenue roost," &c., &c. Engelhard drew the crowd, and at his bid, they would have strung the fellow to a tree. Now the result. At this one recent fifty-six of the eighty-six radical votes were given the Democratic ticket.

## The Mails.

The Mails close and arrive at the City Postoffice as follows: Northern through mails - 4:15 P M Northern through and way mails - 6:15 A M Mails for the N. C. and A. & N. C. Railroads, and routes supplied therefrom - 4:15 P M Southern mails for all points South, daily - 3:00 P M Western mails (C. C. R. W.) daily (except Sunday) - 3:00 P M Fayetteville, and offices on Cape Fear River, Tuesdays and Fridays - 1:00 P M Mails for points along line of Chesapeake and Delaware R.R. - 11:30 A M Fayetteville by C. C. R. W. daily (except Sunday) - 6:00 A M Mails for points between Florence and Charleston - 11:30 A M Onslow C. H. and intermediate of Smithville mails, by steamboat, daily (except Sundays) - 8:00 A M Mails for Easy Hill, Town Creek, every Friday at - 6:00 A M ARRIVE. Northern through mails - 12:15 P M Northern through and way mails - 3:30 P M Southern mails - 4:30 A M Carolina Central Railway at - 6:30 A M Mails delivered from 6:00 A. M. to 7:00 P. M., and on Sundays from 8:30 to 9:30 A. M. Stamp Office open from 8 A. M. to 12 M., and from 2 to 6 P. M. Money order and Register Departments open same as stamp office. Stamps for sale at general delivery when stamp office is closed. Key Boxes accessible at all hours, day and night. Mails collected from street boxes every day 8:45 P. M.

## LOCAL NEWS.

**New Advertisements.** CHAS. D. MYERS & CO.—Brougham's Cooked Meats—Large Profits. S. JEWETT—Magazines for July. JOHN WERNER—The Excursion and Pic Nic Season Continues.

Full moon this morning at 37 minutes past 11 o'clock.

Yesterday was decidedly pleasant and last night was good for sleeping.

Capt. Brock, Chief of Police, is scattering the disinfectants around with a liberal hand. The indications are that we will have a healthy summer, but it is always well to remember that "an ounce of preventative is worth a pound of cure."

**Good Material is Always Requisite** to great results. You may have the best flour, eggs, milk, shortening, butter, and still have poor bread, cake, pastry, &c. Why? You didn't use DOOLEY'S YEAST POWDER. With this last mentioned element to give order, harmony and union to the rest, the result is a mathematical certainty. Try it, and be convinced.

And now they don't want any more rain. In a week it will be we have had too much dry weather.

Of all the various methods proposed for the reduction of postage none is so practical as this—get married.

The wheat crop is reported from almost every section of our State to be unusually good, and a large yield promised.

Very small numbers of green corn, politely called "wasting ears," are held without takers at 50 cents a dozen.

A toper complained, in a melancholy strain, that he had ruined his eyesight looking for work as he sat in a bar-room.

A new cook book proposes to tell housekeepers "how to make coffee right." We suppose you can make coffee write; we have often seen beans stalk.

The church congregations yesterday were slim, owing to the fact that so many persons have already left the city for the summer.

A dispensation has been issued by Grand Master Munson establishing a new Lodge of F. & A. M. of the order to be called "Acacia," at Belle Voir, Chatham county.

Through a strange inadvertence in our last issue was dated Wednesday, June 23d instead of Saturday 23d. We console ourselves with the reflection that mistakes will happen sometimes.

Clothes don't make the man, but some of the worst looking old smoked ham ever out to the American public are covered in a way to make a man's mouth water.

Soon, now, if a man wants to know what true inwardness is let him try some early cucumbers and top off with a couple of slices of the first watermelons of the season.

The *Raleigh Observer* says: Grand Master H. H. Munson, of Wilmington, arrived in this city yesterday afternoon on his way from Oxford, and will spend the Sabbath with his Raleigh brethren.

From Messrs. Edward A. Oldham, of Wilmington, George M. Carr, of Rose Hill and R. A. Richardson, of Newbern, the Committee on Invitations, we acknowledge the reception of an invitation to attend the meeting of the Press Association of the amateurs of North Carolina, to be held at Goldsboro on Friday next the 29th inst.

We have been requested to call attention to the piles of trash which do not ornament the street on Seventh between Mulberry and Walnut, and Market between Sixth and Seventh, and to suggest that they be removed as soon as they can be shovelled up and carried off.

## The New Telegraph Company.

From a private letter received by a gentleman in this city, we learn that the new Atlantic & Pacific Telegraph Company, whose wires are now working as far South as Petersburg, will have a line finished to this city during the next sixty days, say on or before September 1st. They expect to reach Charlotte by the 15th of September, and hope to have the line completed through from New York to New Orleans by next January 1st.

## Order Kersher Shel Barzel.

At a regular meeting of the above order held June 24, the following officers were elected for the ensuing term:

- H. H. Kasprowitz, President.
- S. H. Fishblate, Vice President.
- J. Weill, Secretary.
- Isaac Bear, Assistant Secretary.
- S. Hanstein, P. P.
- R. Greenberg, Treasurer.
- D. Greenwald, Conductor.
- M. Hanstein, Assistant Conductor.
- N. Greenwald, Guardian.
- I. Furmanski, Outside do.

## Death of Capt. Sykes.

We regret to learn of the death of Capt. W. H. Sykes, for a long time past a conductor on the Wilmington, Columbia and Augusta R. R., which occurred at his residence in Timmonsville, S. C., last Friday night. Capt. Sykes was about 48 or 50 years of age at the time of his death and had been employed on the road for more than twenty years past, first as a conductor on the old Wilmington & Manchester R. R., and since the war first as section master and more recently as conductor on the same line, now the Wilmington, Columbia & Augusta. He was one of the most accommodating and polite of the many gentlemanly conductors who have run on that road and in his death the Company have lost a trustworthy official.

Something over 3000 taxpayers have thus far listed. There are many delinquents who may have a hard matter to get in without paying double taxes.

The highest range of the thermometer last week was 92. This was in the doorway of Messrs. T. W. Brown & Son's on Market street, which opens to the South.

It is when a man is carrying a pound of honey on one arm, a bag of eggs on the other and leading a bull dog by a string, and attempts to brush a fly off his ear; that he feels no man can be an expert in all things.

When business is dull, advertising is needed most and should be most energetically used, because people are most attracted at times to the houses who take pains to invite their trade, and advertisers then get the largest share of what is doing.

## A Sad Death.

Yesterday a Spanish sailor from one of the Spanish vessels in port died at the Marine Hospital after a short illness. The unfortunate man was carried to the Hospital on Saturday. He seemed to have been overcome by the sun, but being unable to speak and his companions of the vessel being in ignorance as to his condition or its causes, it could not be definitely ascertained what was the cause of the man's death. Dr. W. W. Lane, the physician in charge of the Hospital, did all in his power to save the poor man's life. It was a sad death; a stranger in a strange land, unable to make his wants or sufferings known.

## The Thermometer.

From the United States Signal Office at this place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock:

- Augusta, 79; Charleston, 80; Corsicana, 88; Galveston, 83; Indianola, 83; Jacksonville, 85; Key West, 87; Mobile, 84; Montgomery, 80; New Orleans, 81; Norfolk, 81; Punta Rasa, 83; Savannah 83; St. Marks, 78; Wilmington, 78.

## Geo. W. Price's Suit.

The case in which Geo. W. Price, Jr., claims the position of Chief of Police for this city, by virtue of an election by the Board of Aldermen, comes up in the Superior Court at 4 o'clock this afternoon. Price will be represented by Hon. R. S. French and Adam Empie, Esq., while Capt. Brock, the Chief of Police, who has been made defendant in the suit, will be represented by A. T. London, Esq.

Price claims to have been elected by having received a majority of all the votes cast on the sixth ballot at the election held on Friday, the 8th inst., at which Capt. Brock was elected. The vote on this ballot stood Price 5, Brock 1, and blank 1, and the result will therefore probably hinge on the question as to whether a blank should be counted as a ballot. There is no doubt of the fact that the blank was cast as a ballot as Alderman Vellers acknowledged that he put it there and the only thing to be decided is whether this blank should be counted in that ballot or thrown out, a question which the Supreme Court will be called upon to decide as an appeal will certainly be taken by the losing side. The impression which we find prevailing that the Supreme Bench has already decided a blank ballot to be a vote is erroneous as such a question has never yet been before that tribunal.

## The Grey Moss.

MR. EDITOR REVIEW: In a recent number of the REVIEW, I read an article on our grey moss in which some evidence was given to prove that it was not a parasite. In corroboration of that statement I will mention that I have had some of this moss hanging from brackets and around picture frames in our parlor for over a year, and in that time it has grown so rapidly as to require constant rearranging, and has almost doubled itself in quantity. It is now, and has been for some time, in full flower.

Respectfully, A LADY.

## Sensible Advice.

You are asked every day through the columns of newspapers and by your Druggist to use something for Dyspepsia and Liver complaint that you know nothing about; you get discouraged spending money with but little success. Now to give you satisfactory proof that GREEN'S AUGUST FLOWER will cure you of Dyspepsia and Liver complaint with all its effects, such as Sour Stomach, Sick Headache, Habitual Constiveness, Palpitation of the Heart, Heart-burn, Water brash, coming up of food after eating, low spirits, &c., we ask you to go to your Druggist and get a Sample Bottle of GREEN'S AUGUST FLOWER for 10 cents and try it, or a Regular Size for 75 cents; two doses will relieve you.

## Letter (from Col. Waddell.

An admirable communication from Hon. A. M. Waddell, Congressman from this District, relative to the duty of the Press and the people of the South as regards Mr. Hayes, written in response to a request from us, will be found on the second page of this issue.

## Cistern Water.

In our climate, where rain is abundant during a considerable portion of the year, the water falling upon the roof of any house, if properly collected and stored, is ample for the whole supply of the family which that roof shelters. This water as it falls is ordinarily free from any impurity that can affect its taste, and from every source of serious fouling; though after a long continued drought it is well to divert and discharge upon the surface of the ground the first ten minutes' flow of a shower—so that the impurities of the air and the dust of the roof may be first removed. After this first dash, lead to the cistern all that follows. There are numerous systems for making filters in cisterns, but no one is so simple, nor so durable and satisfactory as the separation of that part of the cistern from which the suction pipe leads by a wall of brick and cement. It is simply necessary to build a wall of brick set on edge (two and a half inches thick), so as to include about one quarter of the area of the bottom, sloping it back so as to terminate against the side of the cistern at a height of from four to six feet. This wall should be so well cemented at its joints that water can only pass through the material of brick, and for strength its form should be slightly bulging. A wall of this sort, measuring say six feet at its base and rising to a height of six feet at its highest point, will transmit an amount of water sufficient to supply the demand of the most constant pumping that any domestic use can require.

## Drowned at Sea.

We learn from Captain Derickson, of the *Schr. Sunny South*, which arrived here from New York Saturday evening that when his vessel was about 5 miles from the Fryer Pan Light Ship bearing S. E. by E. that four of the crew were sent out on the jibboom to rig the flying jib, and that two of the men fell overboard. The cry of man overboard was immediately sounded on the ship when every exertion was made to rescue the unfortunate men, hatches were thrown overboard, the lashings of the boats were cut away and the boats lowered and manned as soon as possible. The vessel was immediately put about at the same time and came up with one of the men just in time to save him from the fate of his unfortunate companion who unfortunately sunk before aid could reach him.

The name of the drowned man is Jergen Rasmussen, a native of Denmark. The accident occurred about half-past eight o'clock Saturday morning. The Captain reports the wind being brisk at the time but no gale.

## "Making Old Bones."

People who neglect their minor ailments rarely live to make old bones. The secret of a hale and vigorous old age, lies not only in taking care of one's health in early life, but in the observance of sanitary rules, but also by judicious medication when the premonitory symptoms of bodily disorder manifested themselves. Indigestion, bowel and liver complaints, are fruitful causes of injury to the constitution. These diseases should be, therefore, checked without delay. The best medicine for the purpose is Hostetter's Stomach Bitters. This standard preparation disciplines the digestive organs, gives renewed impetus to the billious secretive function, and exerts a beneficial influence upon the organs of urination. It has no rival as a remedy for and preventive of chills and fever and billious remittents, infuses vigor into the debilitated frame, and is an excellent appetizer and nerve.

## The Review for the Summer.

Persons leaving the city for the various watering places, country residences or resorts, or those going abroad, can have the DAILY REVIEW mailed to any address by ordering the same at this office, at 15 cents for one week, 25 cents for two weeks, 40 cts for three weeks, 50 cents for one month, \$1.50 for three months, \$3, for six months, payable in advance at this office. United States postage prepaid.

The June Term of Superior Court, His Honor, Judge Seymour, presiding, convened here this morning.

A quart of peaches for every man, woman and child in the county, is the estimated crop from Delaware alone this season.

Some few peaches have been seen here at "two for five cents."

## PLEASE NOTICE.

We will be glad to receive communications from our friends on any and all subjects of general interest but:

The name of the writer must always be furnished to the Editor.

Communications must be written only on one side of the paper.

Personalities must be avoided.

And it is especially and particularly understood that the editor does not always endorse the views of correspondents, unless so stated in the editorial columns.

## New Advertisements.

**The Excursion and Pic Nic Season Continues**
