NEWS SUMMARY.

ard that it will take measures to assure the safety of the Christians.

LONDON, July 6.—The Standard's Constantinople despatch reports that thirty battalions of the Turkish army of Montenegro have reached Antivari, whence they will embark for an unknown destination.

BUCHAREST, July 5.—It is said here that over 120,000 Russians have crossed the Danube at Simnizza with an immense train of artillery, comprising some pieces of very heavy calibre. The enthusiasm of the Russian troops is very great. The cavalry marches about twenty kilometres in advance of the infantry. As the Turks have no proportionate amount of cavalry to meet them the Russians are scouring the country up to the foot of the Balkans. It is probable there will be little of interest from the front until new dispositions of troops by both belligerents, made necessary by the Russian advance in the Dobruzha and operations near Simnizza are completed. The Russians have had several skirmishes with the Turkish outposts on the Jantra.

The Russian cavalry have penetrated to Plevna and Lofcha on the west and to Tirmova and Kabrova toward the Balkans. They appear to be masters of the country between the Balkans and the Danube and from the Jantra to Plevna.

Louisiana Recovering.

NEW ORLEANS, July 3.—I have just returned from a trip through the interior of the State. On my way home I passed through the parish of West Feliciana, once the home of the bulldozer. It was the picture of peace. The fields promise a heavy yield of cotton, as the negroes are working better than they have done since emancipation. In fact a wonderful change has come over the people in the last six months. I was told by several planters in one of the river parishes that their negroes were building chicken-coops and dog-kennels, besides fitting up their cabins, something they have not done since the war. During the long period of Radical supremacy they did not feel settled; they had no local habitation; but they were in one place to-day and in another to-morrow. But now they have settled down to stay; they feel that the law is strong and will protect them, and the banjo and fiddle are brought out once more from the corner where they have lain untouched for twelve years or more. Said one old negro to his employer the other day, "I now believe what you used to tell me about them Radicals. I see now that they were not our friends. What we want is less of politics and politicians and more schools and teachers. The Democrats are giving us these."—*Correspondence N. Y. World.*

River again getting very low.

Tomatoes 12 to 15 cents a quart.

Day's length, 14 hours and 26 minutes.

A regular dearth of news matter to-day.

Cucumbers 8 and 10 cents a dozen now.

We lose 38 minutes of daylight this month.

Silk stockings striped with lace are imported.

Faqs are much smaller than they were last year.

Farmers are now minding their P's and Q's.

Green corn sold to-day from 30 to 35 cents a dozen.

To-morrow is calendered as the sixth Sunday after Trinity.

An easterly wind made last night cool and pleasant for sleeping.

There was a good demand yesterday for corn and rye extracts.

This month has five Sundays, five Mondays and five Tuesdays.

It's a very difficult matter to make a paper collar hold its own this weather.

The moon is on its last quarters now and will change next Tuesday afternoon.

Some very fine watermelons, brought here from Augusta, were seen in market to-day.

Somebody wants to know if the suit of war on both sides of the Danube is not about worn out.

Messrs. Preston Cumming & Co. are now grinding at their mills, in this city, extra family flour from new North Carolina wheat.

If none but genuine christians were admitted to the Saratoga hotels one very small house would doubtless suffice for the business.

Some twenty-five or thirty churches in this city will open their hospitable doors to-morrow. There will be room and to spare for all.

Ladies who prize a clear and bright complexion would do best to let alone external applications and make themselves acquainted with the close affinity between the liver and the skin.

A flea weighs less than a grain of salt, and can jump a yard and half, and it is estimated that a man of 150 pounds with agility in proportion to a flea, could jump round the world at two jumps.

Let the ladies beware of tight lacing in such hot weather, or any other obstruction to the free circulation of the blood. In such condition the chances of a fatal sunstroke are increased ten-fold.

The Raleigh Observer, with its usual commendable enterprise, published in yesterday's issue a full telegraphic report of the Regatta on the Sound on the day previous. Eddie Engelhard reported it.

Tight lacing killed a young girl in New York the other day. The present fashionable attire for females is said to contract and distort nearly every muscle of the body. Doctors will thrive while this folly exists.

The tobacconists, and especially the cigar-makers, complain that the fashion of smoking cigarettes (which the smoker ralls himself) has spread so rapidly as to diminish materially the manufacture and sale of cigars.

Excursion tickets to Western North Carolina via Columbia and the new route to the mountains over the Spartanburg & Asheville R. R. are now on sale at Col. Pope's office, in this city.

At Exchange Corner.

We invite attention to the new advertisement of Mr. N. H. Sprunt, at Exchange Corner, which appears in this issue. Mr. Sprunt is determined to keep his stock up to the requirements of the times, and with this end in view is constantly in receipt of the newest and latest styles of those one thousand and one articles of the toilet over which the feminine mind doth ponder. The ladies will find there always a full line of millinery and fancy goods.

Foreign Bodies in the Nose.

Parents are often puzzled to help their children when they get beans, buttons, etc., in their noses. The Medical Record says: Blow the patient's nose for him, by closing the empty nostril with your finger and blowing suddenly and strongly into the mouth—an efficient method which has often succeeded when instruments have failed. The gnottis closes spasmodically, and the whole force of your breath goes to expel the button or bean, which commonly flies out at the first effort.

The Thermometer.

From the United States Signal Office at this place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock:

Augusta, 78; Cairo, 82; Charleston, 79; Cincinnati, 69; Corsicana, 75; Galveston, 76; Indianola, 86; Knoxville, 75; Lynchburg, 76; Memphis, 76; Mobile, 85; Montgomery, 80; Nashville, 82; New Orleans, 84; New York, 71; Norfolk, 74; Pittsburgh, 66; Savannah, 78; Shreveport, 83; St. Louis, 79; St. Marks, 78; Vicksburg, 86; Washington, 72; Wilmington, 74.

Pender county Superior Court His Honor Judge Seymour presiding, convenes on Monday next.

The Superior Court, Judge Seymour presiding, which has been in session here for the past two weeks, adjourned this morning for the term.

The difference between a watch and an insurance company seems to be that when you wind one up it goes on, and when you wind up the other it doesn't.

Well to Remember.

Men are drowned by raising their arms out of the water, the unbuoyed weight of which depresses the head. Other animals have neither notion or ability to act in a similar manner, and therefore swim naturally. When a man falls into the water he may move his hands as he pleases if he does not raise them out of the water and his head will rise high enough to allow him to breathe; and if he will use his legs as in the act of walking up stairs his shoulders will rise also. These plain directions are recommended to recollection of all who have not learned to swim, as they may be found useful in preserving life.

Important Military Movement on the Cape Fear.

Lieut. Alexander, of the Charlotte Grays, and Lieut. John D. Williams, of the Fayette Light Infantry, are both here on a reconnaissance in regard to a simultaneous movement that they expect to make about the 20th of this month from the up country to the sea shore. The Charlotte Grays will probably try it on at Wrightsville, at first, but will finally gravitate toward Smithville. The Fayetteville company will go direct to Smithville. Capt. Walter Coney, of the Wilmington Light Infantry, will probably try it in the tented field, on the sea beat shore, with his company, about the middle of next month. Who would't be a soldier?

The N. C. Rail Road.

We learn from a trustworthy source, that His Excellency, Governor Vance, has appointed Mr. Donald McRae, of this city, a director in the North Carolina Rail Road. The appointment is discreetly made, as Mr. MacRae is one among our oldest and most enterprising business men, and the appointment we believe will give general satisfaction to the business community of Wilmington. We also understand that Mr. MacRae has accepted the position, not because he desired it for himself, but that the citizens of Wilmington who formerly held a large proportion of the private stock in this road and who now own one-twelfth of it, may secure a representation of their interests on the Board of Directors.

Campbell Encampment.

The following were installed last evening as officers of Campbell Encampment, No. 1, I. O. O. F., for the ensuing term, by Grand Patriarch R. J. Jones, assisted by Patriarchs, J. L. Dudley, W. J. Yopp and John C. Koch:

An Old Acquaintance.

From the publishers, Messrs. H. Hallett & Co., we have received a copy of *The New Century*, a handsome 16-page literary paper, published at Portland, Me., and issued weekly at the low price of \$2 50 a year. The paper contains numerous attractive tales and other matter of interest, and bears on its first page a full length portrait of Col. Prentiss Ingraham, in his uniform as commandant of the Marine Service of Cuba. Col. Ingraham, who will be recollectd as the commander of the body of marines brought here by the Spanish steamer *Uba* (Hornet) some years ago, is a regular contributor to this paper, the number before us containing the initial chapters of a new novelette from his pen, entitled "Creola; or, The Condemned Cuban."

Yeast has now gone out of date, be it known to all busy maids and matrons. DOOLEY'S BAKING OR YEAST POWDER is the master of the field. Corn bread, buckwheat cakes, muffins, waffles, biscuits, tea-rolls, bread, cake, doughnuts, pot-pies, fruit dumplings, etc., get their highest touch of art and delicacy from its use.

Charged with Murder and Acquitted.

In last Saturday's issue we gave full particulars of the murder of a white man by the name of David Murphy, near Sugar Loaf, in Bladen county, a short distance from the residence of Mr. Robert J. Smith. This latter as we stated at the time had been arrested on suspicion of having committed the murder and we learn now that he was acquitted on the preliminary examination before a board of Magistrates. Messrs. T. H. Sutton Jr., and N. A. Stedman appeared for the defence and Messrs. R. H. & C. C. Lyon represented the prosecution.

The Superior Court Clerkship.

It is rumored that the papers relative to the decision of the Supreme Court, which elects Mr. Heaton from the Clerkship of the Superior Court, have been received here, but we can trace these rumors to no positive source, although we believe that they have been received. The appointment will rest with the Judge of this District, and it will therefore be with either Judge Seymour who is now riding this Circuit, or with Judge McKoy, who has been regularly commissioned as Judge of the Fourth Judicial District. We incline to this latter view, and we also understand that this opinion is held by prominent lawyers in the city. Rumor gives in the name of two prominent candidates for the position, one a Democrat and the other a Republican. A pretty stiff fight over the question as developed above may be expected.

Only one interment, an adult female, in Oakdale Cemetery this week.

But one interment, a child, in Bellvue Cemetery this week.

PLEASE NOTICE.

We will be glad to receive communications from our friends on any and all subjects of general interest but:

The name of the writer must always be furnished to the Editor.

Communications must be written only on one side of the paper.

Personalities must be avoided.

And it is especially and particularly understood that the editor does not always endorse the views of correspondents, unless so stated in the editorial columns.
