NEWS SUMMARY.

President Grant and party arrived at Washington on the 12th inst. from Weisbaden. They were received at the station by the American Legation and a reception committee. The American residents hoisted flags from their homes in honor of the occasion. The Reception Committee to-day conducted a grand procession through the Roemer (the King of the Diet) and the cathedral square of the city. A banquet at Palmgarten was given this evening in honor of the general. A special dispatch from Alexandria to the Daily News says that an Englishman who has just arrived from Adowa, in Abyssinia, reports that a force of 14,000 men, with 11,000 Remingtons, are leaving Adowa for the front to encounter the revolted tributary King Menelik. A great battle is imminent. The King of Abyssinia has expressed his willingness to resign in favor of the late King Theodore. Capt. J. Waddell, late of the City of San Francisco, lost by being on a rock in the Pacific ocean, having appealed from the decision of the Local Board, and being granted a rehearing, the case has been reopened before the Superior Inspector Bemis. In consequence of the cessation of the plague at Bagdad the army corps has left there for the Crimea. The schooner New Bedford, twenty feet long, which sailed from New Bedford on May 28, for London, with Capt. Crapaudin wife, the only passenger on board, was spoken on the 6th inst. in latitude 46 north, longitude 20 west. All were well. The little vessel had encountered six gales. The State states there is no foundation for the Daily News' assertions about Earl Beaconsfield's anxiety to retire on account of ill health. His resignation was never contemplated. Medical papers give most hopeful accounts of the condition of Mrs. Tilius. The British Medical Journal says she is expected to return to London in a few days, and will sail on July 26. The Marquis of Darnley has been appointed Minister of Finance, at Madrid. North Carolina affairs are red hot. Marshall Douglas filed his final answer to charges filed against his deputies by Special Agent Hester. John Nicholls, Superintendent of the Deaf and Dumb School at Raleigh, N. C., is making an effort to have Col. I. J. Young, the present Director of Internal Revenue for the Fourth District of that State, removed. President Hayes said to a Kansas politician that no political service can be rendered by a government employe at any time, even though it does not interfere with his duties, as it is his intention to remove divorce politics and the civil service as far as in him lies the power. Sam Ward don't believe the President said so. The Cabinet was mostly engaged on the New York custom house. No definite action in any respect. The Secretary of the Navy informs Capt. Howate that he cannot detail civil officers or loan instruments belonging to the navy for his proposed expedition to the North Pole. The Bolivia, from Glasgow, July 7, for New York, returned to the Clyde with her machinery disabled. The Bolivia's mail, passengers and cargo were transferred to the steamer Devonia, to sail for Glasgow to-morrow. Wm. Leonard Baron Von Kettelen, Bishop of Metz, is dead. Mukhtar Pasha and the commandant of Kars are preparing a combined attack on the Russian garrisons, consisting of 45 battalions of infantry, two regiments of dragoons, six regiments of Cossacks, and thirteen field batteries. More than thirty siege batteries are in position 1,000 metres northeast of Kars. The following official telegram from Bayazid was published yesterday: The besieged Russians have refused to surrender. The bombardment of the garrison has therefore been re-opened. General Tergukasoff is near Gineck. The Russian advanced detachments have captured Gaharva, near the southern boundary of Bulgaria. It is declared here that although the investment of Kars is interrupted, the siege has not been abandoned. Many Mussulmen, with their wives and children, fleeing before the Bulgarians, have been killed by Bulgarians at the Khazbagz defile, between Turnova and Kezarlik. The Russian Telegraph Agency says: Prince Bismark has declared it to be his opinion that any intervention is at present impossible. It is denied that a convention has been concluded between Roumania and Servia.

"Pshaw, no ocean foam for me; it's mere sham," said an impatient woman, discussing the merits of baking powder. Not thus, however, did she talk of DOOLLY'S YEAST POWDER. The latter has been found to surpass all others in its magic leavening powers, and to be indispensable to the well regulated kitchen.

THE DAILY REVIEW.

VOL. 2. WILMINGTON, N. C., SATURDAY, JULY 14, 1877. NO. 149

Fine Sailing.

Capt. D. W. Manson has three of the finest boats at Smithville. They are water tight, competent, safe and fast, and the ladies seem to prefer them to all others. To those who contemplate making a visit to Smithville we can recommend Capt. Manson and his boats. His charges are very reasonable.

Mechanics Liens.

As a matter of interest to some of our readers we publish below a few extracts from the law relating to the Mechanics' and Laborers' Liens as amended by the last Legislature. The law says: "All claims against personal property of two Hundred dollars and under, may be filed in the office of the nearest magistrate. If over Two Hundred Dollars, or against any real estate or interest thereon, in the office of the Superior Court Clerk. Sec. 2. Notice of the Lien shall be filed at any time within 60 days of the completion of the labor or the final furnishing of materials. Sec. 3. The Clerk of the Superior Court shall keep a book in which he shall enter all notices of Liens filed in his office. **Meeting of the Board of Aldermen.** The Board of Aldermen were again in session yesterday afternoon. The meeting was called to order by His Honor, the Mayor. The first question considered was the tax ordinance, which was discussed at length and finally passed. Five hundred copies were ordered printed. Alex. Oldham received the contract for keeping the city horses, mules and carts. The barbers petition for the re-enactment of the Sunday law, which was laid on the table at the last meeting, was re-considered and the ordinance re-enacted. It was ordered that the Chief of Police have all sign boards projecting over the sidewalks removed at once. The petition of Jos. W. Taylor, for erecting a frame house on his lot, was granted. The Board adjourned to meet on Tuesday next at 3 P. M.

Letter from Admiral Semmes.

We are kindly permitted to publish the following letter from Admiral Semmes, the gallant Confederate privateer captain and Commander during the war of the dreaded *Alabama*, written to Mr. Eugene S. Maffitt, of this city, acknowledging the receipt of the numbers of the DAILY REVIEW containing Capt. Maffitt's address upon the life and services of the late Capt. James W. Cooke, of *Albemarle* fame, in our little Navy during the war. We know that anything from the pen of the brave Admiral Semmes, the Nelson of the Southern Navy, will be read with interest by all who once sympathized with him in his wild career upon the deep blue sea. If every military Commander on the Southern side during the war would follow Admiral Semmes' plan of giving a true narrative of the events in which they participated, as the Commander of the *Alabama* has done in his admirable book of "Services Afloat", we might soon have a correct history of the war from a Southern standpoint. But here is the letter: MOBILE, July 9th, 1877. MY DEAR SIR:—Your letter of the 5th inst., containing a copy of your father's memorial address upon the life and services of Captain James W. Cooke, of your State, reached me in due course of mail, for which I thank you. I have read the address with great pleasure, both because of its excellence as a literary production and because it will embalm the memory of a worthy Confederate naval officer, whose well-earned fame was in danger of sinking into oblivion. I knew Captain Cooke well, and indorse all that your father has said of him as to his honorable and chivalrous nature; and I thank your father for the graphic description which he has given in this address of the career of our mutual friend during the late war between the States—a war which, tested, as by fire, the characters of those who bore a prominent part in it, separating very effectually the dross from the pure metal. As a general rule it is only deeds which produce great results that are commemorated in history. Many that are heroes whose deeds are really grand and chivalric, but which are without important results to the cause in which he is engaged, sink into the tomb, eclipsed in point of fame by men who are his inferiors, but to whom fortune has been more propitious. Hence I am not surprised that the people of North Carolina knew so little of Cooke before your father's address. I trust now that they know more about him, that they will revere his memory and give him an enduring place in the history of the State. Remember me very kindly to your father, and accept for yourself the affectionate greetings of your old commander. RAPHAEL SEMMES. MR. E. S. MAFFITT, Wilmington, N. C.

Quarantine Commissioner Appointed.

The Raleigh Observer says: Lorenzo Frink, of Wilmington, was, on yesterday, commissioned by Gov. Vance Quarantine Commissioner for the port of Wilmington. This is a good appointment and as we are assured one that will give universal satisfaction.

Superintendent Appointed.

We understand that Mr. Theo. D. Kline, the present Assistant Superintendent of the W. C. & A. R. R. has been appointed Superintendent of the C. C. & A. R. R. from Charlotte via Columbia to Augusta. This road is nearly 200 miles in length. Mr. Kline has proven himself quite a competent officer on the W. C. & A. R. R., and will no doubt prove quite as efficient in his new field of operations.

To Our Injury.

We have been informed by one of our North Water street friends, who is generally up to the times upon all commercial matters, that it has been reported to the injury of this port at Charleston and at New York also, that vessels drawing only 12 feet of water can load at our wharves, and that our port charges are excessive. Now, the facts are these: Vessels drawing 13 1/2 to 14 feet of water can load with ease at our wharves at any time, and by having their cargoes lightered to them between the rip and the bar can load to a depth of 16 feet of water. While the stevedores charges are four cents less on the barrel in Wilmington than in our sister city of Charleston. Our charges are only 2 cents per barrel while the Charleston rates are 6 cents per barrel. In the matter of lightering we believe the Wilmington rates are as cheap if not cheaper in proportion to the distance that the articles are transported than in any other city on the Atlantic coast. The Chamber of Commerce, we understand, has taken or is about to take some action in the matter and will endeavor to have this false report corrected.

A Boa Constrictor Loose on Board an English Vessel in Port.

A fine specimen of a young boa constrictor brought here by Capt. George, of the British brig *Affred*, from South America, was confined in his cage on board, and was there when last examined, at night. This morning though when the owner went to look for his pet to see if he needed more food (he having eaten nothing for about thirty days,) to his astonishment he was gone. Considerable consternation ensued among the crew and laborers about the vessel; but after searching some time he was discovered by the action of a little dog, who had apparently either a rat or something at bay, it proved to be the snake. How to secure him was now the puzzle. A pair of blacksmith's tongs, with long handles lashed to make them the required length were rigged up, and by the force of two strong men he was disengaged from his new lodging place, and secured again in his old cage. It transpires now that he had been loose all night, and the sailors entirely ignorant of the fact were sleeping as sweetly and innocently as a new born babe, totally unconscious of how near they were to being folded in the embrace of a boa constrictor and quietly huggled to death.
