There is no medicine prescribed by Physicians, or sold by Druggists, that carries such evidence of its success and perior virture of Boschee's German SYRUP for severe Coughs, Colds settled on the breast, Consumption, or any disease of the Throat and Lungs. A proof of that superior effect before buying the regular at 75 cents. It has lately been introinced in this country from Germany, and its wonderful cures are astonishing every one that use it. Three doses will believe any case. Try it.

Wood is very scarce in this market and orrespondingly high.

Capt. W. S. Norment, Solicitor of this Judicial District, is slowly improving.

A few quarts of of half ripe scuppernong grapes were offered at ten cents per quart in market yesterday.

A very interesting letter from Dr Bernheim, written from his native place, will be found on the third page of this

Don't forget the excursion to the forts on the barge Modoc to morrow morning. The Modoc is a an excellent excursion boat and the manager promises one of the best excursions of the season.

We understand that Mrs. Lancy Moore, who resides at Moore's Creek, in Pender county, has a duck that recently laid 77 eggs in one litter. If anybody has a duck that can beat this duck we will duck under and say no more.

The pond of water in the rear of the church on Seventh, between Orange and Ann streets, has become stagnant and is not at all conducive to health. The city authorities will no doubt attend to it at their very carliest convenience.

Since Saturday last, Health, officer, F. M. James has condemned two hundred ing for the rocks. They fished for two and fifty bunches of fish and had them hauled out by the city carts. Mr. James can detect an unsound fish as soon as full blooded terrier can a "nimble gnawer" and that's immediately.

#### City Hall Items.

Annie Hunter, an old offender, was put in the guard house again yesterday afternoon for drunkenness, but the Mayor pro tem ordered her discharged this morning owing to the fact that the woman complained of being sick and is considered in | ing at 7:31 o'clock : a delicate condition.

Isaac Baker, who was arrested over two weeks ago on a complaint of Mr. W. H. Biddle for trespass and sentenced to 20 days solitary confinement by the Acting Mayor, was to-day released after having served 16 days, but was immediately arrested on a warrant from a Magistrate Pittsburgh, 69; Punta Rassa, 80; Savanand committed to jail in default of bail for his trial at the next term of the Criminal Court for this county,

### Military Matters.

The Adjutant-General of the State having ordered an election to fill the vacancy occasioned by the resignation of Lieut. Cololonel Haigh, of the 2d Battallion of N. Elder, for the Wilmington District, Meth- C. S. G., to be held in Charlotte on the 31st inst. Major M. P. Taylor, of the 2d Battallion, together with Captain Walter Coney and Lieut. N. H. Sprunt, of the W. L. I., will leave by the train this evening at 7 o'clock for the purpose of being in attendance at the election in Charlotte to-

Capt. Coney carries the proxy of the Whiting Rifles and also of those other officers of his Company who are unable to attend.

The officers who attend this election are required by orders from the Adjutant-General to appear in full uniform.

## Something New.

We are informed by Capt. Gordon of the Whiting Rifles, that he has had one of the state rooms on the Modoc thoroughly cleaned and carpeted, and furnished with Sample Bottle for 10 cents and try its conveniences necessary to make it a comfortable dressing room for ladies. An ex perienced chambermaid will have charge of this room and none but ladies will have access to it. A table will be set in the centre of the large saloon on which will be served hot coffee and tea, sandwiches, pickles, sardines, ice eream, cake, &c, &c There will be a soda fountain on board, from which fresh ice cold soda water will be drawn to order.

Prof. F. M. Agostini has been engaged as floor manager for the dances.

Monsieur De Barraton, a celebrated banjo picker and comic singer will make fun for the crowd. Persons going on the excursion are requested to be at is very important. This article is among the boat early, so as to leave as soon after | the most valuable of the day in its beareight o'clock as possible. This will very probably be the last excursion of the forts this season. Capt Gordon has spared no trouble to make it attractive to all and we hope a big crowd may go down and help the Whitings to purchase their uniform.

#### A Straddle.

A party of ladies meandering about the streets yesterday were overtaken by a cow. "Girls" said the matron of the party, "the antipathy we have for this animal makes it imperative that we emulate certain political newspapers, so I recommend we get on the fence." And it was just as jolly a sight to see them straddle that fence as it is to look at some of the Hayes admirers in the same sort of

#### Maultsby's Point.

We have had numerous excursions to the Forts this season, but none to the woods. Friday next Capt, Dick Paddison's boat will take excursionists to Maultsby's Point on Black River and, from our knowledge of Capt. Dick, we think it will be a success. He never does anything by halves and those who would like to take a trip up Black River will do well to avail themselves of the opportunity. A ramble though the woods and a good quiet day is something that the most sedate or the most lively among us can enjoy. See ad.

#### Some Fishing.

Saturday afternoon five of the young gentlemen working in the shops of Messrs. Hart, Bailey & Co. left the city on the yacht Rosa Lee for Smithville and the fishing grounds. Six gallons of ice water, two lemons, ten pounds of ice and a little saccharine matter were sent aboard ahead of them; the party was not far behind the refreshments and the yacht was soon sailing gaily down the stream. The festive party left Smithville early Monday mornhours, and succeeded in catching three hundred and fifty fish with hooks and lines. This is no snake story, for the gentlemen do not youch for the correctness of the statement; all we have to say about it is that we neither saw nor counted the fish.

### The Thermometer.

### House Rochery.

Last night, about half-past nine o'clock, Mr. P. Heinsberger discovered upon entering his residence on Third street, that some one had made a forced entrance through a side or back door of his house by prizing off a panel in the door, which made room enough for a man to crawl in.

Upon investigation, Mr. Heinsberger also discovered that the burglar had rifled every desk, bureau drawer and trunk in the house, in search as it is supposed of valuables, which, however, Mr. Robber failed to secure, owing to the fact that Mr. Heinsberger took the precaution to remove all such articles to a place of safety when his family, who are spending the summer on the Sound, moved out of town.

What the loss is Mr. H. is unable to determine yet and cannot tell until his family returns home. Much clothing, both of gentlemen's and ladies' wear, is supposed to have been stolen.

The thief broke into the drawer that upsetting all the books in his library and occasionally expectorating his tobacco juice upon the floor. Exactly what time the robbery occurred cannot be determined, as Mr. H. left home on Saturday, for the Sound, and did not return to his house until last night, when he made the above mentioned discovery. We trust that some clue may be furnished the authorities so that they will be able follow the matter up until the guilty party can be arrsted

#### A Colored Poet.

The members of the class of '53, and others at Chapel Hill, will recollect a colored individual who figured there at that time by the name of George Horton, more readily known among the students as "the poet Horton," who resided a short distance from the city. Horten was industrious, but not sober and self-educated but not self-denying, for like so many men of genius or talent, he sometimes yielded to a too inordinate use of the ardent.

As an evidence of his ability we publish herewith a copy of some stanzas composed by him and addressed to the twilight, which have been kindly handed to us by a gentlemen of this city, a member of the class of '53, who has preserved them through all of these years. They are as follows:

SUMMER EVENING DITTY AT TWILIGHT.

ireat King, thy step-matron with fire Has lighted her tapers from thee, Still streams of refulgence its wonders in

When thou hast descended thy throne And furled thy sweet pinions of light, Fair Cynthia, thy Empress, sits smiling alone And bids thee with pleasure good night, good

The owl in the hollow wakes up The whipoorwill strikes up her glee, the eagle which gazed from the tall moun-Now hovers her nest on the tree.

I hear not the bell of the cow Which browsed thro' the woods with delight The horse with his harness makes haste from the plough, And bids to the stubble good night, good

The meteors begin now to play
Thro' the deep azure ocean of fire,
Whilst Luna glides mild thro' the uncloud-Which the world must by nature admire.

The small bird retires to her nest And closes her pinions of flight. The beefrom the gay valley flies home to rest And bids each flower good night, good night,

Heaven grant me my skill to display In genius, in labor or lore, And thus travel on to the close of my day And think of my troubles no more.

When I with this life shall have done, And death has o'er clouded my sight, Let me say without sorrow, "my short race is run," And bid to this world good night, good night.

### Colored Educational Convention.

Prominent colored men from sixteen counties in the State have issued the following call for a general convention of the colored people of the State:

Feeling and believing that our educational, mental and moral advancement as a race at the present juncture are and should be with us paramount to all other issues. contained Mr. H's. private papers, besides and therefore demand and should receive our immediate consideration, and feeling that these ends can be better served by united action on our part, we therefore issue this call for a Convention of the colored people of North Carolina, to meet in the city of Raleigh, on Thursday, October 18, 1877, at 10 o'clock, a. m., for the purpose of organizing and devising some plan by which the objects as above set forth may be accomplished. The ratio of representation will be, that each county will be allowed twice the number of delegates to which they have members of the House of Representatives. We hope each county will appoint delegates ac-
