The Crop Year.

From tables compiled by the Secretary of the Produce Exchange, we glean the following items of interest relative to the crop year ending Saturday last, the 1st

Drowned.

Capt. Henry, of the steamer Coloille, which arrived here last night on her regular trip from Bannerman's Bridge, reports the loss by drowning, about three miles above the city, of his steward, a colored man by the name of Thomas Dudley. Near the point in question Capt, Henry had hauled up to the bow of the boat a lighter which he had been towing alongside and from which he transferred wood to the boat, and it was about this time it is supposed that Dudley was lost. He had been passing over the lighter during the day and it is thought probable that he may have forgetton that it had been moved and had stepped from the boat overboard; either this or that he had stumbled and fallen into the river. He could not swim at all and it is thought that the wheel must have struck him, as the boat was rounding a curve at the point named. He was not missed until the steamer reached her wharf, when he was called for but could not be found only his hat was discovered in the cook's galley. Deceased was only 22 years old; Aldermen Myers offered the following, he was a native of Onslow county and has a wife and child living at Bannerman's. Capt. Henry pays a high tribute MR. EDITOR: to his worth; he has had him in his emrequired to keep their road bed up to the ploy for four years and has always found him sober, reliable and strictly honest.

Somewhere in the neighborhood of 4 1877: o'clock all having arrived, they put out, the "Bessie Lee" in the lead, followed respectively by the "Little Sister" and "Spray". We noticed that the two last soon commenced to dive; we enquired the cause of this from a well burnt individual close at hand, who informed us that it was owing to their having no "jib" and called our attention to the fact that the foremost boat did not do it. The "Spray" seemed fond of the sport for she went down so deep that nothing more of her was seen for an hour or so. On went the "Bessie" and "Little Sister" rounding the Mott's channel buoy in splendid style, but when they reached the main channel they encountered such a sea that they labored heavily, especially the "Bessie", and as she passed us we were reminded of the "nick-name" given her last Summer, "Animated Bath Tub" and recognized our old friend Oliver, of Masonboro, whose time it seemed to have been to take his bath-in up to his waist, armed with a half gallon water gourd. The young gent at this time was amusing himself by throwing the water from his tub, and he was not very particular as to whether he threw it on those who were sitting somewhat in a semi-circle around him, or not. We also recognized Mr. Gleaves, (more familiarly known as "Berry") whom the Captain on starting had introduced to a "Life Line".
