all failures to receive their papers regularly.

THE DAILY REVIEW.

VOL. 2. WILMINGTON, N. C., THURSDAY, SEPTEMBER 20, 1877. NO. 207

PLEASE NOTICE
We will be glad to receive communications
from our friends on any and all subjects of
general interest but
The name of the writer must always be
furnished to the Editor.
Communications must be written only on
one side of the paper.
Personalities must be avoided.
And it is especially and particularly under-
stood that the editor does not always endorse
the views of correspondents, unless so stated
in the editorial columns.

The Coal Miners' Strike.
WILKESBARRE, Sept. 18.—The excitement among the miners of the Lehigh and Wilkesbarre Coal Company continues unabated, and for thirty-six hours they have held under advisement Mr. Charles Parrish's overture for inducing them to go to work. Yesterday, in view of Mr. Parrish's evident anxiety to resume operations, the men were quite firm in their demand for the 25 per cent. advance, but a more conciliatory spirit has since been developed, and the negotiations will beyond doubt bring forth a satisfactory result. A full consideration of the questions involved in the strike has taken place between Mr. Parrish and his employees, and a much better feeling all around has been manifested to-day. The demand for 25 per cent. advance cannot be entertained, and the men were frankly told so by their employer, who signified his determination to withdraw his last offer of ten per cent. advance if it was not promptly accepted, and fall back upon a proposition of ten per cent. advance on a sliding scale whenever work should be resumed. The subject was fully discussed at a meeting held at Sugar Notch this afternoon, and it was unanimously resolved to make Mr. Parrish an offer to resume work at 15 per cent. advance, without any regard to a sliding scale or the price of coal at tide-water. This compromise measure will be submitted to Mr. Parrish, and it is believed that the deal lock in this quarter will be so far broken by its acceptance. Should this be the case, all the mines of the Lehigh and Wilkesbarre Coal Company will be in operation.
There seems to be no change in the policy of the Delaware, Lackawanna and Western Railroad Company, the Delaware and Hudson Canal Company, and the Pennsylvania Coal Company, and the contest in the northern part of the county will be carried on to the bitter end.

LOCAL NEWS.

New Advertisements.
JNO. L. BOATWRIGHT—Hams! Hams! A. DAVID—Still in the Lead.
MAY. B. J. BURGESS, Principal—Cape Military Academy.
Sol Smith Russell plays in Raleigh to-night.
Grapes are plentiful but do not get much cheaper very fast.
Chinquapins are becoming plentiful and the coic is on the increase.
Skipjack fishing and marsh hens shooting are said to be very fine now on the Sounds.
Autumn—All fruit is ripening! Almost time to pick the oysters and dig the ulsters for our Winter supply.
Fever and ague pills, i. e. the tail end of the watermelon crop, are offered for sale now at reasonable prices.
The water in the river at this point is deeply discolored, evidencing considerable of a freshet in the upper Cape Fear.
The steam-tug *Wm. Nyce* was hauled on the marine railway this morning to receive the fall and winter coat of paint.
Now get ready for that splendidiferous drink, "lip." Beer with a dash of sugar, mixed in a mug, and heated by ramming a red-hot fire poker into it.
It is gratifying to observe that sweet potatoes, which many class among the positive luxuries of life, are plentiful this season, and of excellent quality.
It is easier for a camel to go through the knee of an idol than for a man to predict, this time of year, what sort of weather to-morrow will bring forth.
The run of mullets this season is said to be very small and unless there is a decided change in a very few days our fishermen will not get "a half crop."
In some portions of the city the gay and festive mosquitoes are so abundant that a compressed hurricane fan or pair of hand-bellows has to be used on them in order for a man to see how to light his pipe.
The *Magnolia Record* gives the time made by Mr. Charley Divine, between this city and Weldon, a report of which we published some day's since, at 3 hours and 50 minutes for the 162 miles. Capt. DeLeon Pillsbury was the Conductor.
The *Magnolia Record* tells us that Mr. Felix Reichman, of Clinton, aged forty-eight years, died on the night of the 14th inst., of malarial fever with chronic ulceration of the stomach. Mr. Reichman leaves a large family of young children. His remains were brought here for interment.
Callender's Georgia Minstrels, the famous genuine Ethiopians, will appear here Sept. 29th. At their opening on Monday night in Richmond, "long before the hour" says the *Sate* "the street in front of the theatre was packed with people and the house was jammed; twice the box office was closed up and many were turned away. We have never before seen such a sight."

Appointed.
We are pleased to learn that Gov. Vance yesterday appointed Daniel Shaw Esq., a Commissioner of Pender county, in place of A. Gumberg, resigned. Gov. Vance has done well and the people of Pender could not have secured a more competent or a more faithful official.

Personal.
Mr. James M. Drill, Assistant General Freight Agent of the Northern Central Railroad of Baltimore, is in the city looking after the interest of his Company. He is a gentleman of high standing in railroad and social circles and is universally esteemed wherever he is known.

Rather Unhealthy.
Unless something is done to conduct the water off from the pond near the corner of Sixth and Church streets there will be a pestilence in that portion of the city. We are informed that a few days ago three persons living in the neighborhood were taken with bilious fever and others are moving to avoid the fever.

A Shoe Maker Comes to Grief.
A few days ago a pair of shoes was left with Sandy Stewart, (col.), a shoe maker by trade, who was doing business on Front, between Church and Castle streets for repair but Sandy being hard up sold the shoes instead of returning them to the owner. A warrant was sued out for his arrest and yesterday he was sent to jail for embezzlement, to await a hearing before the next term of the Criminal Court.

Dry Goods Found.
A box of dry goods marked J. H. Mashburn, Angola, N. C., steamer *Colville*, was found by the police last night at the foot of Princess street and is now at the City Hall where it awaits the claim of the owner. The *Colville* left her wharf at Princess street, yesterday afternoon for Banner's Bridge and it is supposed that the box was either stolen from the cargo on her deck before her departure or that it was accidentally left on the wharf unshipped.

A Good Samaritan Wounded.
One of the members of Mt. Airy Lodge of Good Samaritans, Wm. Toomer by name, we are sorry to learn, met with quite an accident this morning while chopping some wood in a private yard on Third between Market and Dock streets, by a glance from the axe that he was using, which inflicted two severe gashes on his left foot from one to one and a half inches long.

New Medical Monthly.
We are pleased to learn that the *North Carolina Medical Journal*, an anti-bellum publication of much value and interest to the profession in this State, is to be revived and that the first number will appear in January next. It will be under the conduct of Drs. M. J. DeRosset and Thos. F. Wood and this fact alone will be taken as an excellent guarantee that the publication will prove true to its avowed mission. We know of no two members of the profession in this State more thoroughly calculated to conduct a medical journal than our Doctors DeRosset and Wood. The prospectus of the new enterprise will probably appear in our columns in a few days.

Stolen Goods Recovered—An Attempted Assassination.
About one month ago the store of Messrs. Sutton & Bostic, of Shelby, was robbed and about five hundred dollars worth of goods were carried off, and up to a few days ago there was no clue as to the perpetrators of the theft, when a young gentleman working near Shelby found some of the goods in a quarry. Suspicion pointed to one Ed. Wilson, colored, and a search of his effects was made. About fifty dollars worth of the stolen articles were found in Wilson's possession and his confession led to the arrest of three other colored men. During the preliminary examination last Tuesday at Shelby, Wilson was on the stand as State's witness, when the lights were blown out and an attempt to assassinate Wilson was made. A deep gash was cut in his throat, but fortunately for the furtherance of justice the wound was not very serious. As yet there is no clue as to the would-be assassin.

The Latest.
Ladies Linen Cuffs and Collars. A beautiful assortment in all the newest styles for Fall and Winter wear.
Brown & Roddick, 45 Market St.
The storm signal floats again to-day. The equinoctial weather is upon us but it is all rain and no wind

City Court.
Alderman Planner, Mayor pro temp. presiding.
There were two cases of arrest before this tribunal this morning which were disposed of as follows:
The first case was that of a colored man charged with beating his wife. Case continued until to-morrow morning owing to the absence of witnesses, and defendant required to give bond in the sum of \$50 for his appearance to-morrow morning at 9 o'clock.
The next case was that of a white man charged with disorderly conduct, and arrested at a house of ill-fame in the lower part of the city. The defendant appeared in court with his arm in a sling, having received, as he averred, a wound with a knife at the place where he was arrested—per contra several policemen testified that at the time of his arrest, all appearance he had received no wound. A physician had to be called in at a late hour last night to dress the wound, from which the blood was flowing copiously.
The fact that the man was wounded was not known until a fellow prisoner discovered him bleeding and called to the Janitor that the man was bleeding to death, having fainted from loss of blood.
The sentence of the court was ten dollars fine or ten days' imprisonment. The city physician, Dr. A. E. Wright, was sent for this morning and will attend to the wounded man while he is under arrest. There being no further business the court adjourned.

A Successful and Delicate Piece of Surgery.
Below we make a few extracts from the *Maryland Medical Journal*, published in Baltimore and edited by H. E. T. Manning, M. D., and T. A. Ashby, M. D.
The article refers to a very delicate operation performed in this city several months ago by our talented townsman, Dr. M. J. DeRosset.
The operation was quite a successful one, and we would like to have chronicled the fact at the time, but could not get at the facts of the case as Dr. DeRosset declined to furnish us with them for publication, these M. D.'s having an idea that such things are unprofessional. The case of extracting the end of a whip-lash from the eye is but one of many scientific operations that Dr. DeRosset has performed upon the eye and ear in this city since the war. Dr. D. has made the eye and ear a specialty in the practice of his profession, and we wonder that persons who are anyways afflicted with the eye or ear should go farther North than Wilmington to be treated. Dr. DeRosset has been a successful practitioner for about fifteen years, and we must say that if success is any test of merit Dr. D. must have talent a plenty. It was Dr. DeRosset's good fortune, while studying for his profession, to spend several years in Europe.
The following are the extracts from the *Medical Journal*:
S. H. T. a farmer, residing in Duplin county, N. C., while driving cattle, June 12th, 1877, cracked his whip and received a severe blow on the right eye. All vision was immediately lost for a few days, when distant vision improved a great deal, and near vision remained dim. Had applied cold water, etc. He came June 29. Right upper lid swollen and red, and presenting above the inner corner, an unhealthy suppurating oval wound. The eye ball was projected prominently forward, scarcely covered by the swollen lid; there was a divergence of three lines.
The wound was carefully explored with a probe, and at the depth of one and one-half inches from the external wound backwards and outwards, there was imparted the sensation of a foreign body. A delicate pair of forceps, introduced to the same depth and in the same direction, seized and drew out with little difficulty, a soft leather through one and one-half inches long, and one-sixth of an inch thick, slightly curved, as if in conformity to the contour of the eye ball. This evidently was a piece of a whip-lash, which doubtless when the injury was received, had been projected violently with a sling-like movement against the lid, penetrating deeply. It lay across the upper part and behind the eye-ball, the near end being but slightly in front of the equator, probably not touching the optic nerve as the deep end was to the outer side of that. But there was decided parietic condition of the superior muscle particularly as to its inner fibres, as subsequently appeared from the crossed double images.
The recovery of the patient was perfect; no swelling, and vision perfect. As the case was one of unusual interest, the complete history is worthy of record.
Owing to a difficulty that occurred last night at a disreputable house in the southern portion of the town, the acting Mayor has given the Chief of Police orders that there must be no more permits granted for balls or dances at such houses.

A New Lancers.
The rage of the ball room at Cape May this summer was the new set of Lancers introduced by the New Haven master, Professor Loomis, who conducted the Congress Hall amusements this season. The *Daily Star* publishes the figures as a piece of great journalistic enterprise. The salient feature of the new dance is its "minute grace and stateliness." The music of the regular lancers will "go with the new ones. The following are the figures:
First Figure—First four lead to right and bow, take side lady and fall back to opposite places and bow, forward and back six, forward and turn partners, balance to corners and turn, first four repeat, which brings head couples to places, sides the same.
Second Figure—All move forward, giving ladies right hand, and back, forward, leaving ladies in centre, facing partners, all chase, turn partners to places, all promenade, repeat four times.
Third Figure—All join hands, forward and back, forward again and bow, four ladies grand chain, repeat four times.
Fourth Figure—Fast four lead right and bow, exchange partners, and form two lines, facing own partner, bow to lady on right, forward and back, turn partner and bow to corner, repeat four times.
Fifth Figure—Bow, commencing with grand square. First four in centre, sides separate, sides in centre, then first four separate partners to places. Repeat figure with sides in centre, first four separate, etc., taking thirty-two bars of music. First couple lead out, sides in centre, all chase, march, gents and ladies down the outside, gentlemen passing round the ladies, forming two lines on opposite sides, all forward and back, turn partners to places, repeat four times, ending with grand square.

VOCAL MUSIC and **CALISTHENICS** free of extra charge. For terms, &c., address the
sept 15-20-18 PRINCIPALS.

What Mr. Morrissey Says.
Senator Morrissey said last evening that the accusations made against him by Mr. Tweed were made in 1866, when he was a candidate for Congress in the Fifth District. At that time he published a letter, in which he said that when he was a boy only 16 years of age, a few friends had an altercation with a party of young men, and a door of a house was kicked open. He was accused of having broken open the door, and he was indicted for burglary and assault and battery, but the indictment for burglary was never tried. He was tried for the assault and battery, and found guilty. Mr. Morrissey said that he suffered the slight penalty for his boyish frolic. He also said in his letter: "I have had, during the last eight years, business relations and connections with many of the best men of this city; and not one of them will say that I am either than I am, a man of my word and of strict integrity. I have endeavored by my conduct to atone for the mistakes of my youth. During my whole life no man can say that I have ever wronged him or defrauded him of a dollar."

Storm on the Texas Coast.
GALVESTON, Sept. 18.—A very severe wind and rain storm visited the entire coast yesterday. At this point rain and high wind prevailed all day Sunday and Sunday night, increasing in severity from 7 o'clock on Monday morning until noon of that day. The wind blew at the rate of fifty miles per hour, and rain fell in torrents. The water in Galveston bay in some places reached the wharves, and lower and more exposed parts of the city were under water for two or three hours. At about noon the wind moderated, and the waters began to recede, and before night the sky was clear, with a strong, cold norther blowing. Very little damage was done in the city considering the severity of the storm. Three of the compresses lost parts of their walls, and three unoccupied blocks were considerably damaged. No loss of life has been reported, and no disaster to shipping, except to the smaller coasters. The railroad bridges across the bay were badly damaged, and it will be several days before trains will run regularly.
A news special from Rockport says that the storm at that point was severe, and that the the propel or: Myrtle is missing.
A despatch from Brazos, Santiago says, half of that island is submerged.

Mr. Tilden's Movements.
ALBANY, Sept. 18.—Recent letters received by E. J. Apgar, Assistant Clerk in the office of the Secretary of State, indicate that Mr. Tilden will not return to New York before the 20th or 25th of October. He announces that he will sail on the 10th of that month, and will be accompanied by Mr. Bigelow. According to this they will not arrive until two weeks or more after the State Convention.

Delicious Cookery.
The lightest, sweetest, most wholesome and delicious Vienna rolls, tea biscuits, bread, muffins, flannel cakes, crullers, and all articles prepared from flour, are always possible to every table by using DOOLEY'S YEAST POWDER. This celebrated Baking Powder has stood the critical test of the best housekeepers and the consuming public generally of America for twenty years. It is absolutely pure, and always of uniform strength. The genuine is put in cans. Most all good grocers sell it.
