## LATEST NEWS.

### HARD FIGHTING AT PLEVNA.

#### Honored Repulse of the Russian Centre With Heavy Loss.

LONDON, Sept. 26.—It seems probable that the Turkish accounts are correct that Plevna was recaptured and reconquered on the 23d inst. by twenty battalions of infantry, two batteries of artillery, 2,000 cavalry, and an immense quantity of food and ammunition. Several correspondents mention that rainy weather is impeding operations. Osman Pasha's position is believed to be centre, and the impression at Constantinople and Sofia is that the Russians and Roumanians are withdrawing gradually from the attempt against Plevna. The Standard's correspondent, telegraphing from Orhanis, under date of Monday, says: "Another immense country of provisions, munitions of war, and forage is about to start for Plevna, escorted by a division. Many merchants and other inhabitants of Plevna, who left the town when the Russians first advanced, are accompanying the convoy, as Plevna is looked upon as safe from capture. The road is reported to be entirely free of Russians as far as Dubnik, at which place we hear Ahmed Hzi has arrived. There is no necessity for the retention of a large force here or at Sophia. It is too late for the Russians to attempt a dash on the latter, and even could they do so an army could scarcely force this pass if held by three or four thousand men."

### THE MEXICAN QUESTION.

WASHINGTON, Sept. 26.—The first Cabinet meeting in a fortnight was held at the White House to-day, and a brief discussion of the Mexican question sprang up. It was generally agreed, however, that it would be unwise to take any action while the reported resignation of Gonzales and Trevino rested only on rumor. Meanwhile, affairs are slowly drifting nearer some overt hostility by Ord; at least that is the opinion of army officers upon the ground. One of Ord's subordinates, writing to a friend here, also an army officer of distinction and himself of experience on the Mexican frontier, says that Ord has concentrated twenty-three companies in the neighborhood of the Nueces, and intends to distinguish himself under orders recently issued to him—orders of which the public is as yet entirely ignorant, but which may have results as startling as the orders issued thirty years ago to an American commander on the Nueces.

### THE WISCONSIN DEMOCRATS.

MILWAUKEE, Sept. 26.—The Democratic State Convention met here to-day, and was presided over by James G. Jenkins, of Milwaukee. The resolutions declare that the Democratic and reform party of Wisconsin renews its pledges of devotion to the Union and the Constitution with all its amendments. It declares its firm belief that the will of the people was defeated in the late Presidential election by fraud and chicanery, under the protection of the Federal military, and through the ballot box will express its condemnation of the act and the actors. It declares for the freedom of the ballot unswayed by the bayonet, insists that military interference in regulating and controlling elections is subversive of the first principles of free government.

### A Family's Snug Berth.

John D. Defrees is the Government Printer. He receives a salary of \$3,500 per annum. Thomas D. Defrees, his son, is a clerk in the Post Office. He draws \$1,400. John D. Defrees, Jr., is employed in the Government Printing Office at a salary of \$1,200.

### The Patent Office Fire.

WASHINGTON, Sept. 26.—The Patent Office fire and the losses occasioned thereby was an important subject before the Cabinet to-day. There was a long consultation upon the condition of the public buildings generally, and it was finally decided that the Secretary of War and Secretary of the Treasury should select a commission of three prominent engineers and architects to examine all the public buildings in Washington, and report as to whether they are fire-proof or not, and make such suggestions as they may deem proper to render these buildings safe against conflagrations. The commission will be announced after the Cabinet meeting on Friday.

### A Chicago Bank President in Jail.

CHICAGO, Sept. 26.—Sidney Myers, President of the Merchants' Farmers and Mechanics' Savings Bank, is in jail. The position of depositors for a receiver was granted by Judge Williams on Thursday last. S. D. Wards was appointed receiver, with bonds at \$350,000. There were about 2,500 depositors, their accounts aggregating nearly \$500,000.

### Patterson Greets Hayes.

WASHINGTON, Sept. 26.—Several visitors called at the White House to-day to greet the President upon his return to the Capital. Senator Patterson had an interview with the President. The members of the Cabinet arrived about noon, and were laden with numerous papers referring to matters requiring attention in Cabinet Council.

### Along the Bolivia Coast.

PANAMA, Sept. 18.—The health of Mr. Henry Meigs is reported as somewhat improved. Shocks of earthquakes are continuously felt in some of the southern parts. One of the most alarming nature was experienced at Cobija, Bolivia, on the 23d ultimo, and one at Iquique. A few days before, at Copiapo, there was a similar visitation, and the inhabitants left their dwellings almost terror-stricken. The shock felt at Cobija is said to have been more severe than that on the memorable 9th of May last. The Pacific Steam Navigation Company's steamer Ayacucho, Commodore King, was at anchor at Cobija, and all on board were alarmed at its extreme violence. There was no agitation of the sea.

### The Many Thousands.

who are constantly using DOOLEY'S YEAST POWDER all speak in unbounded praise of its reliability, uniform strength, and merits in producing excellent rolls, biscuits, bread, &c.

### The Private Bottle.

RICHMOND, VA., Sept. 27.—The opposition to the Moffitt bill is taking a practical turn, and the private bottle is on the increase. By buying as much as five gallons, the special tax of 40 cents a gallon is avoided, and drinking at home is more popular. So are the private club rooms more popular. The only temperance journal of this city is opposed to the law, and anti-Moffitt candidates for the Legislature are called for in the cities and towns of the State. All agree that the revenue from the tax will be considerable, but very few have any notion of the measures resorted to in the early days of the law to evade the registration of drinks sold. In a good assortment of call bells for offices and hotels the true friend of the Moffitt bill is so readily found that it will not be necessary to invent an imitator. One saloon keeper, instead of turning his crank, goes through the motion all the same, sounding a call bell concealed under an old hat near the register. When a party enters an adjoining room and orders oysters and straight whiskey, and pays for them in the room, who can say whether the register is turned or not? One bartender has been reported to the Grand Jury of the present term. Richmond, Norfolk, and Manchester have been furnished with the register, and they are being made as fast possible.

### Attacking the French Government.

PARIS, Sept. 26.—The Radical-Socialist Republicans of Paris have issued a manifesto attacking the Government and the supporters of Gambetta. The manifesto demands amnesty for the Communists, the abolition of the Budget of Public Worship, the expulsion of the Jesuits, the substitution of the armed nation for a standing army, and of a single progressive tax for all existing taxes, and the abolition of the Presidency and the Senate.

### The Worst of the Yellow Fever.

JACKSONVILLE, FLA., Sept. 26.—There have been no deaths at Fernandina in the past twenty-four hours. Five new cases have been reported, among them Capt. J. E. Grossman, Collector of Customs, and one of the most active workers on the Sanitary Committee. Dr. McFarland thinks the worst is over if the people can be deterred from returning before frost. At Oldtown, a suburb of Fernandina, over half the population is down with fever.

### Death of a Naval Officer.

PHILADELPHIA, Sept. 26.—Commodore James Madison Frailey, United States Navy, died this evening, aged 67 years.

### Cole's Circus will pitch their tents in Charlotte on the 19th proximo.

Local news is as scarce to-day as greenbacks and they are as scarce as sinners' prayers.

Gov. Vance has issued a proclamation offering a reward of \$50 for the capture of Jerry Forbes, and \$100 for the capture of Thomas Johnson, both escaped colored convicts and both from this county.

We were pleased to receive a call to-day from Mr. J. L. Garrett, of the *Western Courier*, published at Hendersonville in this State, who visits Wilmington in the interest of his paper.

We have received a copy of the *North Carolina Amateur*, published at Rose Hill, Duplin county, with Messrs. Geo. M. Carr and Edward A. Oldham, as Editors and Publishers and Mr. W. B. Southerland as Associate Editor. We wish it success.

In the list published yesterday of the officers of the Second Battalion N. C. S. G., we accidentally left out the name of First Lieutenant N. H. Sprunt, Adjutant of the battalion, which should have followed that of the Major.

It is said that P. T. Barnum, with his great hippodrome, will come South this season. This has been regularly stated, generally by request of Mr. Barnum, every Fall for the past five years and the great hippodrome has not got here yet.

The storm signal from the Observer's office was thrown to the breeze this morning and from present appearances persons who intend changing their places of business and residence will have a very unpleasant time as the equinox seems to have broken upon us.

A gentleman informed us a few days ago of a beet raised by him in Columbus county which was 36 inches in diameter. He states that after the petiole came out of the beet he set a hen in it on eighteen eggs. We thought to complete the story, those eggs should have been laid by a turtle.

### Battalion Drill.

We are requested to state that if the weather will permit there will be a Battalion drill to-night as well as Saturday and Monday nights, and Lieutenant Colonel Taylor, commanding, orders every man to his post.

### Death of Mrs. W. H. James.

We spoke yesterday of the illness at Wadesboro of Mrs. James, wife of Capt. W. H. James, of this city, and now we regret to learn of the death of this esteemed lady, which took place last night, the disease being diphtheria. Capt. James was in Wadesboro with her when she died.

### Amount of Rainfall in this Section.

The amount of rainfall since yesterday afternoon at 4:30 o'clock to 7:30 this morning in this vicinity is 3.84 inches; from the commencement of the storm at 6:45 yesterday morning until half-past 7 this morning the entire rainfall was 7.40 inches.

### The Thermometer.

From the United States Signal Office at this place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock:

- Augusta, 72; Cairo, 67; Charleston, 72; Cincinnati, 64; Corsicana, 67; Fort Gibson, 63; Galveston, 74; Indianola, 73; Jacksonville, 74; Key West, 80; Knoxville, 64; Lynchburg, 71; Memphis, 67; Mobile, 69; Montgomery, 70; Nashville, 64; New Orleans, 76; New York, 67; Pittsburgh, 64; Punta Rasa, 78; Savannah, 73; Shreveport, 72; St. Louis, 65; Vicksburg, 66; Washington, 69; Wilmington, 70.

### Cooke's Combination.

Mr. F. H. Bardwell, Agent of Cooke's Combination, which shows here on the 3d and 4th proximo, is in the city making arrangements for his troupe. Of Prof. Cooke the *Boston Herald*, in a complimentary article, says:

The performances of this gentleman and assistants are simply immense. Nothing approaching to them has ever been seen here before. Other exposures sink into simple insignificance beside them. They are what they should be—convincing to all fair-minded people, and any one not besotted with superstition cannot fail to be cured by them of all faith in or respect for physical manifestations. Professor Cooke is doing a grand work, and he is doing it so thoroughly that society must be under lasting obligations to him. Everybody should see him.

### Statistics in New Hanover.

We are indebted to Messrs. Grady & Morris, Tax Listers, for the following valuations and statistics in the county as derived from the tax books:

There are 1,116 white and 1,145 poll taxes entered; 91,748 acres of land, valued at \$397,405; town lots valued at \$3,338,492; 477 horses, valued at \$55,150; 210 mules, valued at \$18,453; 193 goats, valued at \$161; 2,334 cattle, valued at \$18,348; 8,069 hogs, valued at \$3,449; 362 sheep, valued at \$470; personal furniture, clothing, arms for muster, &c., valued at \$192,383; money, \$27,682; solvent credits, valued at \$25,597; stocks in incorporations, valued at \$203,338; personal goods, wares, merchandise, &c., valued at \$677,996; a total of \$5,747,109. Income, \$62,100; franchise, \$2,103; State tax, \$24,601.43; county tax, \$61,301.78; city tax, \$99,724.16; a total tax of \$185,627.37.

### The Rains.

Too much rain by half. All around in this section, it seems to have fallen without intermission during the past thirty-six hours. The water courses are full to overflowing and the farmers are beginning to fear serious damages to corn and cotton and an entire destruction of the present prospect.

Prince George Creek, about one mile this side of North East Ferry, is impassable, as a party who attempted to cross there this morning was compelled to turn back. The water in this creek is higher now, it is said, than it has been since 1869.

### Personal.

Col. Ricketts, of Wilkes-Barre, Pa., who visits this State on a prospecting tour among the iron interests, is in the city, and favored us with a call to-day. Col. Ricketts commanded a battery of artillery at Gettysburg, and thinks that there were a few North Carolina troops left in the army of Northern Virginia at that time, inasmuch as they captured and spiked two of his pieces on that occasion.

### Another Big Fire in Goldsboro.

Just before going to press we learn of another disastrous fire, which occurred in Goldsboro this morning on a block in Main street, just South of that facing the Humphrey House and on the West side of track. It caught in the upper story of a hardware store, and when the train passed there it was burning furiously with the prospect of the destruction of all of the contiguous houses and stores.

### Adjutant General Jones will visit Wilmington next Tuesday for the purpose of inspecting Companies "C" and "D" of the N. C. S. G.

### Sensible Advice.
