WILMINGTON, N. C.

TUESDAY, OCTOBER 16, 1877.

VIEW AND REVIEWS.

The Russians have 320 cannon in the vicinity of Plevna, frequently all in active use at present.

At a recent personal interview with the German Ambassador the Sultan denounced the Russian atrocities, and the Ambassador in reply spoke of Turkish atrocities. The Sultan replied that if such were committed it was due to soldiers ignorant of the Geneva Convention, and that measures had been taken to prevent their recurrence. He had been forced most reluctantly into the war, and regretted as much as any one the horrors it had brought upon the world.

A Boston woman is reported to have had her dead black and tan dog laid out in a fine rosewood coffin covered with flowers and ornamented with a silver plate bearing its name and age. Then she tried to get it buried in Mount Auburn Cemetery, but, being refused, a physician to make out a burial certificate that "Leo Gilman died of spinal meningitis," and, with the assistance of a fashionable undertaker, had the dog buried in Cambridge Cemetery, the officers thinking the body to be that of a child.

The French Free Masons have long been divided upon the question as to whether a belief in "The Grand Architect of the Universe" should be a dogma of their Order. At the recent Masonic Convention in France, the second clause of the constitution, which ran thus: "Free Masonry holds to the principle of the existence of God and of the immortality of the soul," was altered by an immense majority to "Free Masonry holds to the principle of an absolute freedom of conscience and to the brotherhood of mankind." It excludes no one on account of his belief.

The Observer, a journal published in Rome, declares in a recent issue that on the preceding evening its editor had "thrice seen Pope Pius and kissed his hand, and afterwards enjoyed his amiable conversation up to a late hour." From this it would appear that the reports of the Pope's approaching dissolution must be untrue. He is in his eighty-sixth year, however, and life, always uncertain, is particularly so in such a case. In this connection it will be borne in mind that a short time since Dr. Pezagallo, one of the physicians to his Holiness, was dismissed from the service by Cardinal Sincaioni for, as it was alleged, telling people outside the Vatican some particulars about the condition of the Pope's health. The statement has often been made that it is the purpose of the Vatican family, in the event of the Pope's death, to keep it secret as long as possible, so that a successor may be chosen before it is known to the outside world.

The New York Bulletin speaks of the late persistent downward tendency of gold as a "seemingly eccentric movement." It believes that it is partly owing to the forwarding of the new cotton and grain crops which causes the exchanges to rule in favor of the United States. In addition, however, to these favoring commercial movements, there happens to be just now a special element at work. The stock speculators find it difficult, under the uncertainties that overhang the money market, to borrow from the banks upon the very large amount of stocks they are holding, and they have, therefore, borrowed from foreign bankers large amounts of sixty days sterling bills, which, being thrown upon the market, depress the rates of exchange. These operations were occasionally resorted to by operators to tide over the pressure of the fall money market in years preceding the panic; but since 1873 they have been unknown, and the fact of the revival shows how closely the money market is approaching its antipanic condition.

It will have been observed in the proceedings of the Episcopal General Convention last week that the Rev. Dr. De Koven succeeded, after a spirited debate in securing the reference to a committee of his proposition to change the legal title of the Protestant Episcopal Church. It is understood that the party represented by Dr. De Koven, who is an uncompromising High Churchman, desire the name to be "American Church." Should the committee report favorably—which does not appear at all—and the two Houses of the Convention assent to the change—which is still less likely—all the Diocesan Conventions, forty-five in number, will have to vote upon the action, and a majority of the Conventions must vote affirmatively before the change can be effected. The most decided opposition is being manifested to the movement, and the probabilities all are that a large majority of American Episcopalians prefer the present time-honored title to their church.

THE STATE FAIR.

Indications all point to the fact that the State Fair which opens in Raleigh to-day will be the most successful thing of the kind ever known in the annals of this State. The exhibition promises to be a superb one, and the streets of Raleigh will be thronged and its hotels and boarding houses crowded, during the next four days, with an assemblage larger, perhaps, than the Oak City has ever known before. Every part of the State will be represented and there will be throngs of visitors from all of the adjoining States. The success of the exhibition is already assured and people now only awaits the details.

THE SOUTH ATLANTIC.

We have received from the publisher, Mrs. Cicero W. Harris, copies of the first number of her new magazine, the South Atlantic, and must congratulate her upon the auspicious inauguration of her enterprise, attended as it has been, with difficulties of no ordinary nature. The table of contents presented to us is a very attractive one. Capt. Maffit gives us the first part of a very interesting biographical sketch of the late Admiral Semmes, the gallant spirit which has so recently passed away from all worldly strife; President Batts writes of the University of the State, a paper which will be read with interest everywhere; Paul H. Hayne, the "Southern Laureate," has a short, but charming and suggestive poem, and there is a happy little poem once written by John H. Boner, a native (we believe) of Salem, in this State, but, in our humble opinion, crude though his verses were, one of the best poets in the Southland, although his hand is now palsied forever in death. There is also a very caustic yet clever critique upon "Lowell's Earlier Poems," which certainly does not do that gentleman any injustice and the first part of what promises to be a very charming serial story. The editorial department also presents some very pleasant papers.

The mechanical part of the publication is worthy of commendation. The magazine is from the presses of Messrs. Jackson & Dell, of this city, and the printing and binding are neat attractive and durable.

CONGRESS IN SESSION.

The organization of the new Congress was made yesterday, and that body will proceed vigorously to work to-day. Mr. Randall was formally re-elected Speaker of the House, Mr. Garfield having been nominated by the Republicans. The vote stood 147 for Randall and 132 for Garfield. The other officers of the House, all of whom are Democrats, are as follows: George M. Adams, of Kentucky, Clerk; John G. Thompson, of Ohio, Sergeant-at-Arms; J. W. Polk, of Missouri, Doorkeeper; Jas. M. Stewart, of Virginia, Postmaster; and Rev. Dr. John Poisl, of Maryland, Chaplain.

Mr. Randall on assuming the Chair said: Gentlemen of the House of Representatives—Elevated for the second time by your generosity to the exalted dignity of Speaker of this House, I thank you with a grateful heart. I shall endeavor, with even temper and rigid firmness, to perform the duties of the office and respond adequately to the confidence placed in me, by conforming my action to the clearly expressed will of the House; yet, fully realizing the delicacy and difficulty of the position, I solicit your advice and assistance, feeling sure of your forbearance and indulgence.

We meet under circumstances imperiously demanding that all considerations of class, section and party shall be subordinated to the loftier and more patriotic object of doing what is best for the whole country and all its people. Since the adjournment an Administration has been inducted into office which is obeyed as the actual government, regardless of the grave events which marked its birth, and this House, animated by a spirit of due patriotism, desiring first the public tranquility under the law, will frankly approve any sincere and permanent policy looking to complete pacification and the advancement of all constitutional methods of the general public welfare, and it should be your sacred duty to provide legislation which will render impossible a repetition of the wrongs which have occurred and of the dangers which threaten us.

I assure you I will take no step backward in the work of retrenchment and reform so auspiciously begun by the last House. Under a mature and definite plan of reduction of the expenses of the government, to have an honest administration it should be frugal. Never before was it more urgent than now. With general financial distress and labor depressed, when the iron rule of hard necessity darkens every house in the land, extravagance on the part of the people's servants would be an unpardonable crime. It is partly because this wholesome policy was faithfully carried out, that I am permitted to speak from this place. Invoking for our deliberations that tolerance of opinion which secures harmonious action, that right and clear judgment, which purifies legislation, and that mutual confidence and respect which subsist between the House and its presiding officers, I am now ready to take the oath provided by law.

A building has been erected near Brigham Young's grave for the shelter of a party of men who keep a continual guard over it, both day and night. Excavations for the tunnel under the channel between France and England have already been begun on the French side.

SOUTH CAROLINA OUT OF CONGRESS.

Every eye in South Carolina will turn with anxious interest to the Senate and House of Representatives at Washington, says the Charleston News & Courier, for it rests with those bodies, each judging of the election returns and qualifications of its members, to decide whether this State shall have any representation in the Senate and a full (and) complete representation in the House.

Gen. M. C. Butler was elected Senator by the General Assembly, in whose presence the election of Governor Hampton was declared. There is no question that he was, and is, the choice of a majority of both branches of the State Legislature. The claims of his competitor are not worthy of a moment's serious consideration. Of what use is it to send Gen. Butler back to South Carolina for the enthusiastic re-election that would await him? One thing we have a right to insist on, and it is that the Senate shall make its decision quickly. Procrastination and postponement will be a denial of representation in the Senate to South Carolina. Let the Senate act at once!

In the House of Representatives Messrs. O'Connor, Tilman and Richardson protest the election and contest the seats of Cain, Smalls and Rainey. They will show that they received a majority of the legal votes cast at the election, and that the apparent majorities of their opponents are due to violence and fraud. If Messrs. O'Connor, Tilman and Richardson were not elected, there was no valid election in their districts. Where there is any serious doubt as to the popular verdict, it is safe to remit the whole question to the people for their decision. As we said in regard to Senator Butler, an early determination of the protests and contests is both desirable and necessary.

[Charlotte Observer.] Interesting Law Case.

A singular and interesting case was disposed of in the Inferior Court yesterday. Two days ago, a deaf and dumb negro, known as Christopher, was arraigned before the court on a charge of assault with a deadly weapon. His counsel submitted that, being afflicted by a visitation of Providence, he was not responsible. An examination of previous decisions revealed the fact that there had been only one similar case before the courts of North Carolina, to wit: the State vs. Harris, in which the Supreme Court, following the usage of the English courts, directed a trial on "the preliminary question." Accordingly, when the counsel made the above mentioned objection, the court ordered a trial to determine this question. A jury was impanelled, and Capt. H. D. Stowe acting as interpreter, the case was investigated. The jury rendered a verdict of sanity, and the regular trial on the bill of indictment was proceeded with, resulting in the conviction of Christopher, who was subsequently sentenced to two years hard labor.

Shutting Out the Enemy. It is better to shut out the enemy, disease, than to battle with him after he has entered the fortress of the body. Therefore, if health is endangered by hurtful influences, such as a malarious atmosphere, unhealthy occupations, sedentary pursuits, and those which necessitate undue physical or mental exertion or exposure in rough weather, it is the part of wisdom to protect it by the use of reliable preventive. No article sold, advertised or prescribed is so well adapted for this purpose as Hostetter's Stomach Bitters, an agreeable and efficacious tonic, recommended by physicians as a medicinal stimulant and corrective, botanic in its derivation, and having for its spirituous basis old rye of the purest quality, which preserves in an undeteriorated form the potent vegetable juices and extracts combined with it. Fortified with this benign preventive, the system may bid defiance to disease, no matter how unfavorable the conditions.

Street Cars.

ON AND AFTER MONDAY NEXT the STREET CARS will commence running at 6 o'clock in the morning, and run every 15 minutes, each way from the Market House, until 8.30 o'clock, except Saturdays, when they will run until 10.30 o'clock.

The Cars will alternate between the Cemetery and Brooklyn.

There will be a Car to the Cemetery every 30 minutes, also one to Brooklyn every 30 minutes.

There will be a sign on the rear of the Car just over the dash board, designating which place the Car is going—either Brooklyn or the Cemetery.

Persons wishing to take the cars on either of the three routes, will find it to be the best and the cheapest and most comfortable way of reaching them. Persons arriving in the city will always find a car at the upper end of Front street near Union Depot, which will take them to any of the Hotels for 5 cents, or to any other part of the Street Car Line.

Price from Castle and Sixth streets, to the Cemetery or Hilton, only 5 cents, for very near the three miles of road, and return for 5 cents. The very cheapest fare in the United States.

Persons are requested to report any negligence on the part of the drivers to the Superintendent, WASHINGTON KING, at 211 Superior Street.

Spectacles and Glasses. THE LARGEST ASSORTMENT EVER offered in this city at prices ranging from 25 cents to \$10. Call and examine for yourselves. June 19 J. H. ALLEN.

Steamship Lines, &c.

DOCTOR PIERCE'S Golden Medical Discovery

THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in harmony more of Nature's sovereign curative properties, which God has bestowed into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of Bronchitis, Severe Coughs, and the early stages of Consumption, it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and purifies the blood. By its great and thorough blood-purifying properties, it cures the severest Blood, Pimple, or Eruption, Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a perfect constitution established. Erysipelas, Salt-rheum, Fever sores, Scaly or Rough Skin, in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallowness of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from Torpid Liver, or "Biliousness," and it cures you. "Liver Complaint" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal. It effects a perfect cure, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT \$1 PER BOTTLE.

Prepared by R. V. PIERCE, M. D., Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

DR. PIERCE'S Fountain Nasal Injector, OR DOUCHE.

This instrument is especially designed for the perfect application of DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented which will find medicine can be carried high up and perfectly applied to all parts of the affected nasal passages, rather than the ordinary communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities, or chambers, by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child may use it.

Full and explicit directions accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of "Cold in the Head" by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, pain in ears, deafness, ringing and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twinge, offensive, or impaired or total deprivation of sense of smell, vertigo, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with Dr. Pierce's Nasal Douche, and accompanied with the instructions contained in which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect cure for this loathsome disease, and is pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, by all Druggists.

R. V. PIERCE, M. D., Prop'r, N. Y. BUFFALO, N. Y.

APPLETON'S AMERICAN CYCLOPEDIA

NEW REVISED EDITION.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with several thousand Engravings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPEDIA was completed in 1873, since which time the wide circulation which it has secured in all parts of the United States and the signal developments of science, literature and art, have induced the editor and publisher to submit it to an exact and thorough revision, and to issue a new edition entitled THE AMERICAN CYCLOPEDIA.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs have kept pace with the discoveries of science and the fruits of modern thought. The industrial and useful arts and the conveniences of life have undergone revolutions have occurred, involving national changes of recent date. The civil war of our country, which was at its height when the last volume of the old work appeared, has happily ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new and most interesting facts in every one's mouth, and of whose lives every one is curious to know the particulars.

Great battles have been fought, and important changes of recent date, which the details are as yet preserved only in the newspapers or in the transient publications of the day, and which ought now to take their place in permanent and authentic history.

In preparing the present edition, the editors have accordingly been the more anxious to bring down the information to the lowest possible rates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give succinct and original records of the progress, political and historical events.

The work, as then begun after long and careful preliminary labor, and with the most accurate care, and carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming, in fact, a new Cyclopaedia, with the same plan as the original, but with a far greater pecuniary expenditure, and with such improvements as the position has shown to be suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition have been added not for the sake of ostentatious effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and natural history, and depict the most remarkable features of scenery, architecture, and manufactures. Although intended for instruction rather than amusement, no pains have been spared to insure their artistic excellence; the cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopaedia, and worthy of its high character.

This work is sold to subscribers only, payable in advance. The volume is now nearly completed in sixteen large octavo volumes, each containing about 900 pages, fully illustrated with several thousand Wood Engravings, with numerous colored Lithographic Maps.

Price and Style of Binding. In extra Cloth, per vol. \$5 00; In Library Leather, per vol. \$6 00; In Half Turkey Morocco, per vol. \$7 00; In Half Russia, extra gilt, per vol. \$8 00; In Full Morocco, antique, gilt edges, per vol. \$10 00; In Full Russia, per vol. \$11 00.

Thirteen volumes now ready. Succeeding volumes, until completion, will be issued once in two months.

Specimen pages of the AMERICAN CYCLOPEDIA, showing type, illustrations, etc., will be sent gratis, on application.

First-Class "Canvassing" Agents Wanted. Address the Publishers.
