THE STATE FAIR.

CONDENSED FROM RALEIGH OBSERVER.
SECOND DAY.
The second day of the Fair opened auspiciously, the weather was delightful, and as a consequence there was a large turnout. All the special trains were jammed, and at 10 o'clock the city was crowded to excessive overflowing. We were pleased to observe a larger number of farmers than was ever on the Fair Grounds before. Nash, Granville, Chatham, Wilson, Franklin, Warren, Person, Caswell, Randolph, Guilford, Rockingham, Harrett, Johnston and Wayne are all here, to say nothing of a large sprinkling from all the other counties.

We actually believe that 80 of the 94 counties in the State are represented. The crowd by the grounds yesterday was generally estimated at 5,000, and hundreds came in on the evening trains. It is reasonably supposed that the crowd in attendance to-day will be the largest ever known on the grounds.

At the invitation of Col. A. B. Andrews, Superintendent of the North Carolina R. R., we boarded a special train with a committee appointed by Col. Andrews to meet His Excellency Governor Hampton at Morrisville station. The committee consisted of Judge A. A. McKoy, Col. H. B. Short, Dr. Eugene Grissom, General W. P. Roberts, Col. Wharton J. Green, Capt. S. B. Alexander, F. H. Busbee, Col. V. V. Richardson and Maj. J. A. Engelhard. The members of the press that accompanied the party were W. A. Davis, Oxford Trenchard, R. T. Fulghum, Raleigh News, and E. C. Woodson, Daily Observer.

At Morrisville we met the special train of Governor Hampton, and our car was attached. Judge McKoy made the welcoming address. Governor Hampton made a brief but pleasant reply, in which he said that he always felt himself at home in North Carolina. The train then sped rapidly to Raleigh, and arriving at the Central Depot, Gov. Vance entered the car and welcomed our distinguished guest to our capital. The carriage containing the two Governors and Col. T. M. Holt, President of the Society, drove to the Yarrowburgh House and the Governors spoke one unto another.

At 2 o'clock the grand military review came off. The 1st Regiment and 1st, 2nd, and 3rd Bataillons of Infantry, Wilmington Light Artillery, Raleigh Light Artillery and Bingham Cadets were drawn up in line and extended nearly across the open space in front of the Grand Stand. Governor Hampton, Governor Vance and staff then proceeded to review the troops. It was really one of the finest military displays we ever witnessed, and as that old rebel yell went up as Hampton passed each command, we were strikingly reminded of the good old times of yore.

After the review came the presentation of the flag to the Fayetteville Independent Light Infantry, won by them in the competitive target shooting at the last State Fair.

At 3 o'clock the firemen paraded before the Grand Stand, the Rescue Steam Fire Company in advance. Next, the Raleigh Hook and Ladder, No. 1, and in reserve (the post of honor) the Danville, Virginia, Pace Horse Company.

At 4 o'clock the contest came off in Octagon Hall, and excited much interest. The premium offered is \$15 to the successful man and \$5 to the second best. There were four entries. The type used was small pic, 25 ems measure, time one hour. Mr. Carleton Pool, of the Raleigh Observer, got in 1,496 ems, and Mr. Harper Elam, of the Charlotte Observer, measured up 1,406 ems. The matter of the other two contestants was not measured up. Swiftness alone does not decide the matter; cleanliness of proof and spacing are to be considered. Up to a late hour last night, the committee, Gov. Holden and W. J. Yates, Esq., had not made a decision.

Necessity compels us to reduce our report of the races. There were three trotting races, none of which were made in less than three minutes, except the last race of the day in which Blue Wing won the second race in 2:53. There was a very pretty running race between Wyche's bay filly and James Norwood's Daisy Rufin. The race was a single dash of a mile, and was won by the bay filly at a neck's length in 1:58 1/2. John Dunham and Hope had a half mile dash, and Dunham proved the victor, making his time in 57 seconds.

At 11 a. m., grand parade of stock around the track. 11:30 a. m. to 12 m., skirmish drill of the cadets of the Bingham school, Col. Robert Bingham commanding. 12 m., target practice and competition for the champion flag of North Carolina, by the teams selected from the various companies of volunteer troops of the State. 1 1/2 p. m., oration by His Excellency Wade Hampton, Governor of South Carolina. At 3 o'clock, p. m., 1 1/2 m's and repeat,

Speaking of dancing; a clergyman hits the nail on the head with the remark that "people usually do more harm with their tongues than with their toes."

An old bachelor seeing the words "families supplied" over the door of a grocery down town stepped in and said he would take a wife and two children.

The more a hat resembles a cart wheel in size, a vegetable garden in decoration and a millinery establishment in general "make up," the more pleasing it will be to the average female wearer.

Geology has proved the existence and located the position of ancient lakes that are now absolutely dry, while the artesian wells teach us that there are vast collections of fresh water in the solid crust of the earth.

They were courting clandestinely over the fence, and she had just remarked: "Yes, love, the eyes are the windows of the soul," when suddenly the old man closed in on him with a club, and his soul hasn't been able to see out doors since.

If a man gets a boil on his nose his wife calls it a rum blossom, and deals out her sympathy by the two cents' worth; yet if she notices a premonitory symptom of a dimple on her nose, she hysterically declares it a cancer, sends for two doctors, and covers her face with a plaster as big as a soup plate.

"When does a man most feel the value of a true wife?" asks a writer. That depends upon what the writer means by value. It means estimated value, we should say just after he gets her; if intrinsic value, when he pays his first bill for the Christmas presents she has made him.

It is said that nature intended that persons should sleep with their feet to the equator. But when your wife comes back from starting the fire on a December mornning and deposits her cold feet against your equator, doesn't it seem as though the intention of nature in this respect must have been misinterpreted?
