## THE STATE FAIR.

THIRD DAY. Yesterday was another beautiful day and proved most auspicious for the success of the fair. The special trains with largely increased passenger accommodations, were in at 10 o'clock laden down with passengers, and at 12 o'clock the grounds were almost packed. As to the number present we cannot determine, as there is so great a space for scattering, but from the gate receipts we may safely say there were over 15,000.

## PARADE OF LIVE STOCK.

The first in order at the grounds yesterday was the parade of live stock upon the race track. In the long line which we looked at were noticed many fine specimens of blooded bulls, cows and calves. At the stalls we noticed a large number of fine hogs, sheep and other animals which were not taken out. The great distance of the live stock stalls from the main grounds is a sad defect in the laying off the fair grounds as it prevents all but lovers of blooded stock from seeing the display. The stock exhibition, however, is very creditable to the State.

## THE BINGHAM SCHOOL.

Promptly at 11:30 a. m., Col. Robert Bingham marched the Bingham school cadets into the area inside of the race track, and for one hour handled the boys in a most efficient manner, putting them through the many movements of the drill. The drill of the cadets was brought to a close by the announcement that the hour for Governor Wade Hampton's speech had arrived. Everybody rushed for the judges' stand, and Governor Vance in a few words, paying a well deserved compliment to the true patriot and statesman, introduced the speaker of the day, General Wade Hampton, who spoke to the vast multitude before him.

## THE GUSH AND JAM.

In the various halls was something wonderful. This continued from the opening of the gates to almost the going down of the sun. The crowd was rather a heterogeneous one. Silks and calicoes, broad-cloth and homespun mingled in a truly republican fashion. The country belle sucked her stick of cinnamon candy, and cast tender glances upon her swain regardless of the surroundings, while the dainty city couple fastidiously picked their way through the crowd—considerably disgruntled by the jostlings.

## THE PRINTERS' CONTEST.

Yesterday the committee in regard to the swiftest and best type setting, consisting of ex-Governor W. W. Holden, Col. J. D. Cameron, John Spelman, Esq., and which took place Wednesday, made a decision. They awarded to Mr. Carleton F. Pool, a compositor in the *Observer* office, the first prize, \$15 for the swiftest and best type setting, cleanness of proof spacing, &c., and to Mr. Harper Elam, of the *Charlotte Observer*, the second prize of \$5.00.

## GOOD ORDER.

Considering the large crowd present, it may be truthfully said that excellent order was maintained. During the earlier hours several drunken men created some disturbance in one of the halls, but were promptly expelled by the vigilant police. It is only just to say of the police that they discharged their full duty and are entitled to the thanks of the Society and the people generally. There were several cases of pocket-picking, but they took place outside of the grounds.

## THE TARGET PRACTICE.

As was announced the contest for a beautiful stand of colors, took place upon the grounds just west of the race track. The firing began at about 10 o'clock a. m. and continued till nearly 4 p. m. The select marksmen from companies A, B, C, D, E and F of the First Battalion and companies A, B, C, D, E, F, G, H, and I, of the Second Battalion were promptly on the spot and the firing commenced. In addition to the flag to be presented to the company doing the best shooting there was another prize, a splendid rifle, which was to be awarded to the best single shot.

The result of the contest for the stand of colors was in favor of the *Wilmington Light Infantry*, (Co. C, 2d Bat) making a score of 47, beating the *Fayetteville Independent Light Infantry* (Co. A, 2d Bat.) but 1, the latter company scoring 46.

The rifle prize to be given to the best single shot was awarded to Private Grant, of Company C, 2d Battalion (*Wilmington Light Infantry*). Three plumes to be given for the best single shot made after the general contest was over were awarded to Private Parris, of Co. F, 1st Bat., Private Troth, of Co. H, 2d Bat., and Private Separks, of the *Raleigh Light Infantry*.

## THE RACES.

The only racing that we witnessed worthy of a report was first a trotting race one mile and repeat with the following entries: Joe Kelley and Billy M. Joe Kelly won the first heat and Billy M. the second in 3:05, and the third in 3:21. Running race 1 1/4 miles and repeat. Purse \$250. Dr. Barlow, of Edgecombe, entered Jeniper. C. Wyche, of Northampton, entered Hobkirk. It was an exciting race throughout. Jenifer won the first heat in 2:51. The second heat was declared by the judges to be a dead heat, whereupon the owner of Jenifer withdrew him from the race.

## Unavailable Letters.

The following is a list unavailable remaining in the city Postoffice: Rev Joseph Boyzman, Weldon N. C.; Aaron Brown, 917 Atlantic St., Brooklyn, N. Y.; Shipley, Hoover, & Co., no address.

## Personal.

First Lieutenant H. W. Harwood, of the revenue cutter *Cofax*, has been ordered to Philadelphia to command the revenue steamer *Tenche Coxe*. Lieut. Harwood left this morning for his new command. We regret to learn of Lieut. Harwood's departure, but trust that the Rock Spring water, which he imbibed quite freely, will exert its magnet influence over him.

## Removed.

We invite attention to the advertisement of Miss S. A. Strook, which appears in this issue. Miss Strook has lately removed to the brick building on Princess street three doors from Front, where she is now prepared to display to the ladies a beautiful assortment of fine French millinery, recently purchased by her in person in New York. Miss Strook also manufactures all kinds of hair work to order.

## The Thermometer.

From the United States Signal Office at this place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock:

Augusta, 65; Cairo, 67; Charleston, 71; Cincinnati, 66; Corsicana, 53; Fort Gibson, 50; Galveston, 59; Indianapolis, 60; Jacksonville, 70; Key West, 79; Knoxville, 62; Lynchburg, 60; Memphis, 66; Mobile, 72; Montgomery, 70; Nashville, 67; New Orleans, 71; New York, 59; Pittsburgh, 57; Punta Rasa, 75; Savannah, 67; Shreveport, 56; St. Louis, 61; St. Marks, 67; Vicksburg, 65; Washington, 70; Wilmington, 62.

## A Cure for Diphtheria.

Says the *Greensboro Patriot*: Below we give a remedy for this disease, which has proved successful in the hands of a very eminent physician of Mecklenburg county, N. C., Dr. J. M. Strong. It is handed us for publication by Dr. R. K. Gregory, who received it from Dr. Strong, who has used it in his practice in Mecklenburg county, and out of a large number of cases saved nearly all. Try it; it is simple and can be easily used by any one:

Boil two drachms of plug tobacco in one quart of water down to one pint, then add one drachm of powdered red pepper, one teaspoonful of salt and ten drops of carbolic acid. Shake well and apply with a feather, brush or mop to the throat every hour, or gargle the throat of the patient.

The diet should be rich and nutritious, such as milk, eggs, beef or mutton essence, chicken soup &c.

## The Blondes.

That was a large gathering of the stag element which assembled at the Opera House last night to greet the "Dizys" on their first appearance in Wilmington. There was not a yard of calico in the house—that is on the audience side of the footlights, but there was not any room for it in the orchestra chairs, every one of which was filled by a masculine sight-seer, to say nothing of the seats behind and those in the dress circle. Of the performance we shall have but little to say. Some parts were very pretty, some very funny and some very plain to the view of the audience. There will be another and last performance to-night, on which occasion we are told that the programme is to be changed.

## Light, Well-Raised Bread, Biscuits, Cakes and pastry, digest easily and conduce to good health.

Good health makes labor of all kinds easier and prolongs life. DOOLEY'S YEAST POWDER will always make all these productions light and wholesome. It is warranted to make better, lighter, sweeter, more toothsome and nutritious biscuits, cake, bread, etc., than any other baking powder. Mr. J. W. Spaulding, formerly of this city, is here now as agent for the Blonde Troupe.

## Fashion Items.

Marabout ruches are new and elegant trimmings. Cloth round hats, matching the cloth Carrick ulsters, are new for traveling attire.

Autumn leaves in moss and olive tints are wrought in new black laces for trimming and for scarfs.

New cravat bows, of white or pale-tinted china crape, are trimmed with the colored pompadour laces.

Velvet galloons with embossed or stamped designs upon them are the rich trimmings imported for dresses and cloaks.

Fringes are more fashionable than ever, since the thick brocaded and rough threaded materials cannot be cut up in self trimmings.

Skull caps for infants are again the fashion. They are of muslin, finely tucked by hand, feather stitched, and trimmed with a lace ruche.

Sheer linen cambric, instead of thick linen, is used for wide round collars, and the Anne-of-Austria cuffs, that are to be worn outside of sleeves.

Maroon red, which is much darker than cardinal, is a favorite color in France for visiting toilets, rivaling the moss and olive hues that will probably soon become common here.

The prevalent Paris styles of dress have long, straight coats or great redingotes for overdress that hang plainly all around, and depend for their beauty on their rich fabric, or else on the flat galloons and gimps with which they are trimmed.

Vest collarette of valenciennes lace, shaped like long Breton vests, are beautiful for wearing over dark-colored and black silk dresses. Coiffures of square shape or else pointed triangles in Marie Stuart style, are sold with the collarettes.

Skirts of stiff-barred muslin with small springs of bones inserted just below the belt in the back, take the place of bustles, to give a slight curved fullness from the belt half way down. To be stylish these must be so small as to appear part of the human figure, and not add anything to the apparent size.

A remarkable variety is shown in buttons for dresses and cloaks. These are no longer confined to silk and crocheted buttons, but consist of fancifully colored pearl, bone, metal, composition, tortoiseshell, filigree gilt or silver, round-faceted balls of jet, wooden balls, inlaid pearl, and shaded buttons, showing every hue in the dress.

Among recent importations from Paris is a very plain and economical style of dress called the Empress. It is the Princess dress, with this difference: It is not caught up in buffant drapery, but hangs in graceful folds from the waist to the foot. This change in the draping of dresses is said to be due to Worth, who desires to see the rich brocades fall in natural folds, instead of being crushed and bunched up in paniers.

Warm again to-day and straw hats and linen clusters are reappearing on the streets.

## The People Want Proof.

There is no medicine prescribed by physicians, or sold by Druggists, that carries such evidence of its success and superior virtue of BOSCHEE'S GERMAN SYRUP for severe Coughs, Colds settled on the breast, Consumption, or any disease of the Throat and Lungs. A proof of that fact is that any person afflicted, can get a Sample Bottle for 10 cents and try its superior effect before buying the regular size at 75 cents. It has lately been introduced in this country from Germany, and its wonderful cures are astonishing every one that use it. Three doses will relieve any case. Try it.
