There seems to have been an over issue of sweet potatoes this season. They never have been better or cheaper in this market.

Nor. barque *Malcina Schutt*, Kroger, from London, for this port, sailed from Deal, on the 21st inst.

Dock street between Water and Front is in a deplorable condition as a result of the rains. It is sadly in need of attention.

This November 23d has been like unto an April day with the same temperature and the same sort of showery disagreeableness.

Two warm for fires and too cool for ice-fixings, and the wood man and the ice man, antagonist by instinct, meet on neutral ground and sympathize with each other.

The Armory of the Wilmington Light Infantry is draped in mourning to-day out of respect to the memory of Mr. W. C. Lord, who was the Orderly Sergeant of the Company.

The Fayetteville *Gazette* publishes a list nearly a column long, of special premiums to be offered by the merchants of that town at the Sampson Fair. Do the merchants of Wilmington propose to do anything in this line?

Mr. Jas. Danforth, who resided here for a number of years since the war but who last Spring went back to his home in Vermont, has changed his mind about it and has returned to Wilmington to cast in his lot with our people.

A Puff.

Judging from a puff of—well, anything but cologne, as we passed the Market House this morning there was some beef there somewhere which should be sent out of the city and not allowed to be sold or fed to any living thing.

A Strange State of Affairs.

It's very strange, but nevertheless true. While there are 2,836,288 single—all marriageable—women in the United States the number of fools who kill themselves because they cannot get a certain girl, bachelors who are looking for a beau ideal, or adventurers who run off with other men's wives, is constantly increasing. Surely happiness is not found in the abundance of the angelic portion of mankind.

Street Railway Notes.

The street railway now, we understand, sells a ticket for one hundred rides at \$3, a liberal reduction on former rates. They also issue a mechanic's or workman's ticket which are still lower, the charge being only 60 cents for twenty-five rides. In addition to these tickets are issued to school children at the rates of two cents each ride. These are all very liberal reductions and should keep the cars full night and day.

Mail Facilities in Pender.

We learn that a strong petition is in circulation along the mail route from Rocky Point to Black River Chapel, asking for a tri-weekly mail on this route. We trust it may succeed. Such increased mail facilities are much needed. A new postoffice is also proposed on this route at Cedar Grove, or Bell's store, between Rocky Point and Long Creek.

A new route is also in contemplation leading from Burgaw in the direction of Newkirk's Bridge, or to some point in that section. Pender is wide-awake as to new postoffices and additional mail facilities.

The Wilmington Journal.

As announced by us in yesterday's issue, it is our intention to revive the weekly issue of the WILMINGTON JOURNAL and we propose to publish the first number of the new series during the first week of December. We have had this step in contemplation for a long time past, and have been incited thereto by appeals and requests from new friends and old friends coming from almost every neighborhood in this section of the State. Our prospects for a large circulation are, therefore, very flattering, and the merchants of Wilmington will find it an excellent advertising medium.

It is not necessary to say anything in regard to the politics of the new JOURNAL other than that the paper will be Democratic to the back-bone and will strive, in this respect, to follow in the footsteps of its predecessor, to emulate its example and to prove worthy of the name it bears.

German Barque Sirene Attached.

Col. Jno. D. Taylor, Clerk of the Superior Court, issued an attachment yesterday afternoon on the affidavit of E. J. Pennypacker, President of the Wilmington Compress and Warehouse Company, against the German barque *Sirene*. Capt. Albert Callies, which had been chartered and loaded by the Wilmington, Columbia & Augusta Railroad Company with cotton, and cleared from the Custom House at this port yesterday afternoon for Havre, France.

The affidavit of Capt. Pennypacker stated that Capt. Callies, who owned an interest in the vessel, owed the Compress Company \$1,252.20 for compressing 1,646 bales cotton.

The writ was placed in the hands of the Sheriff who, in company with a Deputy, boarded the vessel yesterday evening about 6 o'clock while she was lying at anchor in the stream just preparatory to her sailing on the next tide. Sheriff Manning served the writ on the Captain and then left his Deputy in charge of the vessel until this morning about 8 or 9 o'clock, when Messrs. E. Peschau and Heinrich Westermann, of the firm of E. Peschau & Westermann, gave bond in the sum of \$2,504.40 for the defendant's appearance at the next term of the Superior Court in this county, to be held on the 2d day of January next, 1878. The vessel was accordingly released and will sail on the next tide to-day for her destination.

It is but proper to state here that the barque *Sirene* claims demurrage on account of having been detained probably some 30 days over her time, owing to an accident to the machinery of the Compress, which prevented the company from compressing cotton for several weeks, and until they could order new machinery from the North. The Compress Company, we believe, claim that as they are not the charter party, the vessel has no right to claim damages out of them, while the charter party, which in this instance is the W. C. & A. R. R., claim that as they had already delivered the cotton to the Compress, they were not responsible for the delay, and furthermore, that it was the vessel's own choice in preferring to have the cotton compressed, as they did not bind or obligate themselves to deliver compressed cotton. It seems to be a matter altogether for a court of equity, as between the German barque *Sirene* and owners on the one hand and the Compress Company on the other. The case as above stated will come up at the next term of the Superior Court for this county, in January 1878. Capt. E. J. Pennypacker and Col. John Wilder Atkinson gave a justified bond in the sum of \$3,000 on the part of the plaintiff to prosecute the suit.

Eccentric.

There is an old saying, "there are many men of many minds" and as an illustration of this saying we cite a case which has come under our personal observation. Not far from this city lives a man, one far advanced in age, and who is generally held by those who know him to be one of those eccentric geniuses who go to make up the wonders of this world. But to our subject. Carefully placed under his bed is a light-wood or pine coffin which he has had for a number of years and which he says he wants to be buried in when he has "shuffled off this mortal coil." It is said when the owner of the coffin is at all sick he dresses himself up in his best clothes and then lays himself out, and quietly awaits a visitation of the Angel of Death.

He makes it his habit, twice a year to oil and otherwise look after the preservation of the wood of his coffin and is as foolish over it as a man generally is over his first baby.

The Fayetteville Fair.

We find in the Fayetteville *Gazette* a list of the premiums awarded at the recent Fair of the Cumberland county Association, held in Fayetteville last week and the people of Wilmington, we are sorry to see, are but slightly represented therein. Among the most valuable of the special premiums awarded, however, we find two offered by Mr. F. W. Kerchner and two by Messrs. Kerchner & Calder Bros., each premium being a sack of the celebrated "Bob White" brand of flour sold by that firm.

Mrs. Geo. Honnett, of this city, was awarded a special premium offered by Messrs. Otterbourg & Fishplate, for the most handsomely dressed lady at the Fair.

Steamship *Regulator*, Doane, from this port arrived at New York on Wednesday.

BROWN & RODDICK.

A Cure for Colds in the Head.

A correspondent of an English paper writes: "It would seem as if the cure for those worst of small nuisances, colds in the head, which Dr. Ferrier of King's College, London, suggested in the *Lancet*, might prove to be a remedy of great value. It is snuff—a white powder—composed of the following ingredient. Hydrochlorate of morphia, two grains; accacia powder, two drams; trisnitrate of bismuth, six drams—the whole making up a powder of which from one-quarter to one-half may be safely taken, if necessary, in the course of twenty-four hours. Dr. Ferrier says that with this he has twice cured himself of very violent colds, once, indeed by taking trisnitrate of bismuth alone, which is a very powerful remedy for catarrh of the mucous membrane, and is the most important ingredient in this snuff. Dr. Ferrier mentions two other persons who were cured of violent colds by the same snuff, and to these instances we may add that of the present writer, who having a very violent cold coming on, with the sensation of weight in the temple and the usual disagreeable feeling in the throat as well as the usual ordinary catarrh, made trial of Dr. Ferrier's remedy one evening, and got up the following morning completely free from cold, which has not since recurred. The snuff, instead of increasing the tendency to sneeze, almost immediately begins to diminish it.

For the Review.

An Intolerable Nuisance.

MR. EDITOR:—From the pains bestowed in the Wilmington papers of the health laws of your city, I did not expect to have cause of complaint of any nature in this line. But as I walked up the steps to-day of the commission house of Messrs. Alex. Sprunt & Son, an offensive stench, even in the weather, arose from the pond in the dock between this house and that of Messrs. Worth & Worth. A thick scum of foul and putrid matter covers this water that manufactures disease and death in your city. It is a shame and a disgrace to the health regulations of Wilmington. Where is your health officer? Where your health laws? The Board of Health of New Haven are invited to inspect this pond of water. That Board I am told get no pay for their services, but they are gentlemen of science and are working from pure motives. No wonder that diphtheria and typhoid fever prevail in your city, so long as these poisonous emanations arise from so many ponds and ponds in and about Wilmington. Look out for epidemics if these flood gates of disease are not closed.
