A draw game—the dentist's.  
Cloak sleeves are large and loose.  
The leaves of ivy plants should be sponged and carefully wiped weekly.

Water has been, by vote, substituted for wine in the communion service at a Congregational Church in Wolcott, Vt.

The repairs to the Revenue Cutter *Colfax* having been completed she leaves to-morrow for her regular winter's cruising along the coast.

Smoke only the "Little Flirts." They are the best five cents cigar made. Sold at Harris' News Depot, Front street. eod-1f.

A cloth made from the down of birds is coming greatly into favor in Paris. It is waterproof, and estimated to be five times lighter and three times warmer than wool.

A sort of plethora in the poultry market this morning. Dressed turkeys were all the way from ten to fifteen cents a pound. This is on account of the warm weather.

An article is going the rounds of the press under the head of "Why Some People are Poor." We haven't read it, but suspect it is because they haven't got any money or government bonds.

The ladies of St. Thomas' Church will give another of their pleasant series of Sociables at the Opera House, on the evening after Christmas, on which occasion there will be dancing and refreshments and a good time for everybody.

**Protracted Meeting.**  
We learn that the meeting which has been in progress at the First Baptist Church, for some days past, will be continued through this week. There will be no service to-night, but there will be prayer meetings every afternoon commencing at 3 o'clock and lasting one hour. Rev. F. H. Ivey is expected to preach to-morrow, (Tuesday,) night, and also every night in the week.

**Misplaced Buoys.**  
Says the *Newbernian* of the 16th inst: "The two spar buoys anchored in the eastern channel at Hatteras inlet, were carried away during the severe gale of wind which prevailed along the coast about ten days ago. As these are important marks in the entrance of the inlet, they should be replaced as soon as practicable.

Mariners take warning!  
As our steamships that ply between here and Baltimore and New York frequently go through Hatteras inlet or Slew as it is some times called, to save time and distance, we publish the above for their benefit. We suppose, however, the proper authorities will see to the replacing the buoys at once, and thereby obviate all danger to our coasters.

**True Economy.**  
It has been found that the only true economy is that which stops the little leaks and saves in trifles. For instance, one saves in milk, butter, eggs and flour by the use of DOOLEY'S YEAST POWDER, which is made from the purest cream-tartar, derived from grape acid. Good housewives have proved this by experience.

**T e a C. Line.**  
The reopening of the Atlantic Coast Line by the completion of the temporary bridge at Weldon which, according to Col. Pope's advertisement, published in this issue, is to take place on the 20th inst., will be hailed with great gratification by the business community. Next Thursday is the 20th and on and after that date we may look for the movement of freights over this line with the old regularity and dispatch.

## TRIBUTE OF RESPECT.

The Committee appointed by the Wilmington Steam Fire Engine Company, No. 1, to draft resolutions expressive of the feeling of the Company in the loss of their late comrade, NEILL S. McLAURIN, report the following:  
Whereas, in the manifold workings of a Divine Providence, and in the dispensation of a Supreme Being, whose purposes to us are unknown, it has pleased the Almighty Father to remove from us Neill S. McLaurin, our companion and fellow-fireman, who was just entering the st. life of life, and whose present career promised a brilliant future of usefulness,

Resolved, That in the death of our comrade, Neill S. McLaurin, this Company has lost a member whose faithfulness in its service we look back upon with pride, and whose genial presence has ever cheered and animated us with a sense of good feeling and consideration one to another.  
Resolved, That in unison with numerous acquaintances, but more especially his friends, who were attached to him by his kindness of heart, his urbanity of manners and gentlemanly demeanor towards all, which characterized him through his short-lived existence, and which served to mark him as one of nature's noblemen, we do mourn his early and, to us, seemingly untimely end, feeling that we have not only lost an excellent brother fireman, but the community has lost a most useful member.

Resolved, That in our time of sadness and affliction we tender to the bereaved family of the deceased our sincere and heartfelt sympathies, with the earnest prayer that God's tenderness may in time assuage the bitterness of this irreparable blow.

Resolved, That as an evidence of our respect for his memory, we will wear the usual badge of mourning for the period specified by our regulations, and a blank page in the records of this Company be inscribed with his name, age and date of death.

Resolved, That a copy of these resolutions to be sent the family of the deceased, and also furnish to the city papers with a request that they be published.  
B. F. WHITE,  
A. D. BROWN,  
E. G. PARMELEE, } Com.
