Stricken With Paralysis.

Mr. Thomas Bullard, a prominent citizen of Sampson county, while on his way to this city, on board the steamer D. Murchison, from Fayetteville, last night, about 1 o'clock received a stroke of paralysis, from which he is still suffering and in a very critical condition.

It seems that Mr. Bullard was seen to move in his berth uneasily, when one of his fellow passengers in the cabin, discovering that there was something wrong, went to the berth, and spoke to him, failing to receive any answer, he tried to rouse him by shaking, which he partly succeeded in doing, the Captain and Steward of the boat were then called in, and, together, they all lifted the sick man, who is very stout, to the floor, and laid him down on a pallet. There being no physician on the steamer, nothing in the way of medical attention could be rendered until the boat reached Wilmington, at 3 o'clock this morning, when Dr. Thos. F. Wood was called in; who pronounced the case one of apoplexy, succeeded by paralysis. At 7 o'clock the sick man was moved, to the Rockspring Hotel, on Chesuut streetwhere he now lies in a very critical con dition. But little hopes, we regret to say, are entertained for his recovery.

Mr. Bullard has a large family, and several married children and is well and favorably known throughout his county, and to many citizens of Wilmington. The family have been notified of his exremined the generous people of Wilmington that he is now prepared to show an elegant and clean stock of BOOTS AND SHOES doubt arrive by the first boat after the receipt of the sad intelligence.

Among the articles which attract our non-professional eye is the one by Dr. M J. DeRosset on "Early Recognition of Lunacy," and the Hemorrhagic Malarial Fever reports by Dr. Shepard of Scott's Hill, and Dr. Love of Wilmington. We know what a terror this disease has become, and we are glad to see that our own physicians seem to have mastered it. The letter of the eminent Paris correspondent, Dr. Edward Warren (Bey) gives the first announcement of the great chemical event of the closing of 1877, the liquefaction of oxygen, and further on we see under another head the liquefaction of nitrogen

hydrogen and atmospheric air. The physicians of the State need not take our word for it, but send for a specimen number and satisfy themselves.

For the Review. The Peanut Question Again.

MR. EDITOR: In your issue of the 25th inst., we notice under the signature of "A Peanut Farmer," an article, entitled the "Peanut Question," in which the writer does gross injustice to the peanut dealers of Wilmington, and endeav-

ors to create a wrong impression among the peanut producers of this section. He asks: Why is it that our North Carolina peanuts are so low in Wilmington, only commanding 40 to 50 cents per bushel, while the same quality readily sells in Baltimore and other cities at \$1.00 to \$1.40 ? If such to-morrow night in the vacant store opposite was the case, Mr. Editor, speculation would indeed be rife among us, but as Parker & Taylor's. it can be shown by actual sales, that no such prices can be obtained in Baltimore, or any other Northern or Western city, we think it would be well for our "Peanut Farmer" before parading before the public figures obtained from correspondents no better posted

than himself, to come "to town" a little oftener and get some reliable inormation on the subject. We deem it unnecessary to mention the various lots of Wilmington peanuts now held in New York, Chicago and other market-, which, if sold, would not net the shipper's cost, nor of the almost futile efforts of our dealers to obtain orders even at present low prices; an extract from a letter recently recived from a commission merchant in New York, a former resident of this city. who handles the .bulk of Wilmington peanuts shipped to New York, covers and \$2 per dozen. No such what I can do with Wilmington pea- inducements held out elsewhere. nuts in this market, and must say that I never found so few buyers before. Speculators will not touch them at over 50 cents, and the trade only venture as high as 75 cents." The prices to be had in other markets will not vary from these. If then our Down With High Prices. our "Peanut Farmer" believes , that such a disparity in prices exist be-tween this and other markets, and that there, is such a "big bonanza" in it, we can suggest to him a plan, whereby he or any of his friends can in a short while acquire quite a fortune.
