M. to 6:45 P M, and on Sundays from 8:30 to 9:30 A. M. Stamp Office open from 8 A. M. to 12 M., and from 2 to 5:30 P. M. Money order and Register Departments open same as stamp office. Stamps for sale at general delivery when stamp office is closed. Key Boxes accessible at all hours, day and night. Mails collected from street boxes every day at 5:45 P. M.

No Stranger.

Mark Johnson, who was arrested yesterday for the larceny of a pair of shoes from the store of Mr. Thos. H. Howey, Jr., on Christmas Eve night, is said to have had a great banking after chickens, and no doubt some of the missing fowls could be accounted for by him.

Another Circus.

And still another "Serkis" seems to be heading this way. VanAmburgh's big show is booked for several places in South Carolina, moving northward. They are to appear in Orangeburg on the 6th, Columbia on the 7th, Sumter on the 8th, Timmonsville on the 9th, Winnesboro on the 11th, Chester on the 12th and Charlotte on the 13th.

Important Case.

The only case of interest which occupied His Honor Judge Eure's attention during the present term of the Superior Court of Brunswick county, was that of H. Von-Glahn against the stockholders of the Cape Fear Bank. Evidence was taken during court and the case will be argued at chambers in this city on Friday next, to-day week.

Good Step.

We notice that Capt. Grainger has had new trees set out in front of his residence on the corner of Market and Fifth streets in the place of those which were planted by the city last year and which have since died. He is also continuing the double row of trees on Fifth street opposite his property. Many of the trees set out by the city have died and we think it would be a good plan for owners of property to plant others, as it will add very much to the beauty of the street, and in time to come, enhance the value of the property.

Another Canine.

There is a very ferocious and dangerous dog on the corner of Eighth and Dock streets which seems to delight in springing over the fence at passers-by. Our informant states that persons going to and from St. James' Mission Home at night are almost, invariably attacked. Put a well chain on your belligerent canine. As a patent has been applied for, on the sentence "chain up your dog" we are deprived from using it.

The Juniper.

The steamer Juniper, which has, for some time past, been used for transportation on the Cape Fear River, has been recently bought by Mr. Chas. Gillican, who is now having her thoroughly repaired by Messrs. Cassiday & Ross. Mr. Gillican proposes to run the Juniper on the Waccamaw river, between Georgetown and Conwayboro, S. C., as a freight and passenger steamer. She will be run in connection with a line of schooners from New York and Georgetown and will hail from Conwayboro. She will leave for her new waters in about a week.

Meteorological.

From the U. S. Signal Office at this place, we obtain the following report of the weather for the month of February: Mean barometer, 29.997; mean thermometer, 51.2; mean humidity, 66.6; highest barometer, 30.342 (6th); lowest barometer, 29.568 (10th); monthly range of barometer, .774; highest temperature, 71 (22nd); lowest temperature, 31 (12-19th); monthly range temperature, 40; greatest daily range temperature, 30 (20th); lowest daily range temperature, 6 (15th); mean maximum temperature, 56.9; mean minimum temperature, 40.1; mean daily range of temperature, 16.8; total rainfall, 4.07 inches; prevailing direction of wind, N. E.; number of clear days, 11; number of fair days, 7; number of days on which rain fell, 8.

Renovating Feathers.

Mr. Jas. T. Sheldon, the patentee of Sheldon's patent renovator, gave us a call the other day and exhibited to our gaze a small phial containing lots of little creeping things crawling over a few ather which were corked up in a phial; these he said were called moths, insects which inhabit all feather beds and pillows unless they are carried through the regular process of renovating. The gentleman exhibited to us at the same time samples of feathers that had been put through the process of renovating by his machine, which were beautiful and clean, and, at his earnest solicitation, we allowed him to try some of our own property on his patent "which we will here take occasion to remark" i. e. in regard to the work—that it was done excellently well.

Dr. Mendelshon will deliver the third of his series of lectures at the Temple of Israel this evening. Subject: "Is the doctrine of eternal punishment a necessary evil?"

The Silver Bill.

The President yesterday vetoed the silver bill and the two houses of Congress promptly passed it over his veto by more than a two-thirds vote in each house. The silver bill is now a law. Score one for the people in this contest with the bondholders.

Last Evening.

The Festival given last evening by the ladies of Front Street M. E. Church was, as it deserved to be, a very successful affair; as successful, in fact, as it was pleasant, and a nice little sum must have been the result. We thank the ladies for their kindly remembrance of us and assure them that no one could have appreciated "that oysters and those cake" more than did we.

Good Ones.

By reference to our advertising columns it will be seen that Mr. Jno. Werner has taken Mr. A. Prempert, of Goldsboro, in his business. This firm is a good one and is a hard team to pull against. Mr. Werner has established a good reputation for himself and Mr. Prempert is known throughout the State, and by a good many of the traveling public, as one of the best workmen in the country.

Sad Indeed.

Our community were shocked late last evening to hear of the sudden death, from paralysis, of Mr. Richard H. Grant, one of the most prominent citizens of Wilmington. He died very suddenly at his residence on Seventh between Chestnut and Mulberry streets about 5 o'clock in the afternoon, aged about 60 years. He was a valued citizen of Wilmington and leaves many warm personal friends who will share the great grief felt by his family in their irreparable loss.

To Polish Shell Combs.

Take a chamois skin, put a teaspoonful of sperm oil in the centre and add rotten stone, as much as the oil will take up. Polish your comb, or other shell work, with the rotten stone and oil and finish with dry rotten stone, using the dry part of the chamois. Never wash your chamois; keep it for polishing; it will last for years. In delicate machinery, fine locks, jewelry, &c., never use olive oil, or any other vegetable oils, nothing but the best sperm; all others are drying oils, and instead of lubricating leave a gum that will ruin a machine or lock.

Harbor Master's Report.

From Capt. Joseph Price, Harbor Master, we have the following list of vessels arrived at this port during the month of February together with the amount of tonnage: AMERICAN VESSELS ARRIVED. Steamers 10—tons 7,528. Brigs 1—tons 189. Schooners 12—tons 2,906. FOREIGN VESSELS. Schooners 1—tons 139. Brigs 2—tons 515. Barquentines 1—tons 323. Barques 10—tons 3,478. Total number of vessels American and Foreign 37—tonnage 16,078.

Good News.

Those who held claims against the Carolina Central Railway for services rendered prior to the passing of the road into the hands of receivers on April 5th, 1876, will read with interest the advertisement of Capt. I. B. Grainger, Receiver, published elsewhere. Nothing in the world can speak better than does this fact for the fair intentions of the financial management of this road and their determination to pay every just claim against them. Now let those to whom the Road has been owing a trifle and who have traded on this fact so freely for years past in declining to pay their own bills, in turn pay the money out to their creditors and help to keep the currency in circulation.

Very nice sidewalks are being constructed on Mulberry street, East of Fourth.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure of consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, "has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe in German, French, or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. W. Sherar, 126 Powers' Block, Rochester, N. Y.

Educational Convention.

We publish on the first page of this issue, an editorial article, relative to a matter in which all are interested, that of education, and we hope that all will read the article carefully. As stated there the object in view is to obtain action by Congress, setting aside certain of the proceeds of the sale of the public lands for the benefit of the Southern schools. To this end a Committee of fifteen members were appointed by the Convention to meet in Washington City on the 20th inst, and to memorialize Congress upon the subject. Dr. S. S. Satchwell, of Pender county, has been chosen as the member of the Committee from this State, and we do not think that the mantle could have fallen on better shoulders. He is identified thoroughly with the cause of education in this State, a cause which we know him to have warmly at heart, and we are assured that he will spare no effort to advance the interests of the very laudable object in view.

For the Ladies.

Hang pictures with copper or silver wire. The new bows of ribbons worn on the left side of the waist are called chatelaine bows. Among new ornaments in silver and gold filagree are large gaddies with jewels for eyes. A new bonnet is called the Marie de Medici, and has the front shirred on wires. A heavy cording of silk is the only finish upon the edge, of the handsome polonaises.

Birch bark canoes are the newest flower holders. They are suspended in the window by bright colored ribbon. Evening dresses are given an antique appearance by short, high puffed sleeves, or Medici fills, in the armhole and around the neck. One of the prettiest of the new trimmings brought out this season is the marabout ribbon, made of woven swan's down; it comes in all colors and shades, and in pure white.

Any damask diaper, buckabuck or plain linen is equally suitable for dressing-table and sideboard cloths, though for the latter damask may be preferred. The newest wedding dresses are made of corded pearl—white silks trimmed with platings of English crape. Frequently sleeves of crape take the place of silk sleeves. Chenille and silk fringes are the most fashionable trimmings at present. The former has had a long run, but it continues popular for dresses and cloaks.

Basque with overskirt simulations are much demanded by young ladies just at present, this form of dress being well adapted to the figured gauze, etc., which are worn over light silks.

Religious Notes.

The Southern Methodist church managers are trying to fund their debt by issuing bonds to the amount of \$150,000. A paragraph in the Baptist Weekly states that Unitarianism and Universalism have no organized existence in Virginia. The Christian World of London says that "Presbyterianism in England, with a few exceptions, favors a revision of the confession of faith." An ecclesiastical authority estimates that in round numbers there are in England and Wales 13,000 church benefices, and that their annual net value is \$15,000,000.

Seven years ago Methodism was first introduced into the dominions of Brigham Young. Now there are six Methodist churches and fifteen Sunday-schools in Utah. The Seaman's Friend society is now sending libraries to the United States life-saving stations on the coast and lakes. This is a useful work, even if the books are somewhat dull, for the time of the men hangs so heavily on their hands that they are willing to read anything no matter how dry. During the intervals between disasters these men have almost nothing to do. Eighty libraries have thus far been sent, containing over 3,000 volumes.

The Germans of New Haven have petitioned the board of education for a separate school, where their children may be taught English, so that they may be able to attend the public schools. According to the Evangelist more than 43,000 were added last year to the Presbyterian church in the north. Sixteen churches received more than one hundred members each. Four of these were Chicago churches.

No Northern through mail received here this morning, the Petersburg train having failed to make connection at Weldon last night. The festival given by the ladies of the Presbyterian Church in Goldsboro on Monday and Tuesday evenings, was well patronized. The proceeds, we learn, amount to something over \$100.

PLEASE NOTICE.

We will be glad to receive communications from our friends on any and all subjects of general interest but: The name of the writer must always furnished to the Editor.

Communications must be written on only one side of the paper. Personalities must be avoided.

And it is especially and particularly understood that the editor does not always endorse the views of correspondents, unless so stated in the editorial columns.
