The name of the writer must always be furnished to the Editor.

Calisthenic Exercises.

Upon the invitation of Misses Burr & James a pleasant and appreciative audience assembled in the Rankin Hall last evening to witness the calisthenic exercises of the pupils of this school. The little ladies were becomingly dressed in calisthenic uniforms and presented a very fine appearance. It was wonderful to see them going through the exercises with a precision which could not be expected and this fact alone spoke well for the discipline of the school which is prompted through love, and not fear of the ladies who have so long conducted this school. The exercises tend to develop the muscles and give that grace to woman which is so much admired by the sterner sex. The exercises have been recommended by several prominent physicians of the country and we are delighted to see that they are being introduced into our schools generally. The instrumental and vocal music of some of Mrs. Cushing's scholars was also very fine, and gave great satisfaction to the audience who expressed their delight by well deserved encores. After the exercises were concluded the little ladies and their guests indulged in Terpsichorean delights and at a seasonable hour the dancing ceased and the guests and pupils parted, expressing themselves well pleased with the evening's pleasure.

Postal Ruling.

A stamped envelope cut, open and used as a wrapper for a newspaper loses its original value, and a package so enclosed cannot be so transmitted through the mail unless postage is prepaid thereon by a postage stamp of the proper denomination affixed. After a letter has passed from the mailing office the delivery of it cannot be delayed; but if the writer thereof requests the return of a letter placed in a post-office which has not left in the mail, the postmaster may deliver it, provided he is furnished with proper evidence that the party applying is the writer. In the case of a letter in transit between this and any foreign nation the aforesaid regulation would only govern until said letter was placed in the hands of the postal officials of the foreign nation, where it would be subject to postal regulations of such foreign nation.

Now that we are on the ragged edge of spring, the man who remarked last fall that this would be a winter of unusual severity is entitled to the floor.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure of consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe in German, French, or English, with full directions for preparing and using. Sent by mail by address with stamp, naming this paper, W. W. Sherar, 126 Powers' Block, Rochester, N. Y. 4w

Who Knows?
There is an advertised letter in the Postoffice in this city for George Washington. As the father of his country has been dead for over 70 years we call upon his next of kin to go up and get the letter as they way hear of something to their interest. There is no telling about anything in these days of the "materialization of spirits." Suppose, though, that the F. of his C. should be "materialized" and be walking around the country, don't you think that Zach Chandler, Stanley Matthews and the "visiting Statesmen" would get it "side of the head."

Coming South.
Sometime since Messrs. A. Rawson and H. Britton, of Whitingville, Mass., were sent out on an inspecting tour through Virginia and North Carolina by parties at Whitingville who proposed emigrating to the South.
After carefully looking through Virginia and the Western portion of this State the gentlemen decided to locate in the old North State, stating as their reason of preference that the climate suited them much better; that the farm lands were better adapted to their wants and that the mineral resources of the soil were very rich, and when deepened, as they would be at no distance, that wealth, intellect and industry would concentrate themselves in Western North Carolina. They were particularly pleased with the water-power of the mountainous country, which together with the fertile lands and good pasturage would eventually make North Carolina one of the wealthiest and most prosperous States of the Union. A large tract of land near Charlotte was bought by Mr. Britton and Mr. Rawson left a few days ago for Massachusetts to make arrangements to bring his party out to their new homes. They will bring their horses and cattle with them and Mr. F. W. Clark, General Freight and Transportation Agent of the C. C. Railway, has offered to give them any assistance in the power of his road and will cheerfully do all he can to expedite their coming and comfortably settle them in their new homes among our people.
An experienced traveller says: "After a week's sojourn at the Grand Central Hotel, I have no hesitation in saying that it is the best and cheapest first-class hotel in New York."

Capt. I. B. Grainger, Receiver, being present, was invited to address the meeting relative to a petition for the extension of the Carolina Central Railway wharf. That gentleman came forward and addressed the Board, and the petition was granted.
The Finance committee, in the matter of the petition from the lawyers, reported that their petition would be considered in the next tax levy.
Same committee reported in the matter of D. M. Dart, recommending that he be paid at the rate of \$50 per month. The report was amended so that Mr. Dart be paid at the rate of \$90 per month, and then adopted.

London for payment for legal services rendered the city, the committee recommend that he be paid one hundred and fifty dollars in full, and further recommend that in the future no sum greater than one hundred dollars be allowed for the prosecution of any suit or suits before the Supreme Court of the State, or any United States Court, held outside of the city of Wilmington.

The citizens of the thrifty town of Lillington (Long Creek) in Pender have petitioned for a semi-weekly mail in the place of their weekly mail from Rocky Point. Our Representative in Congress, Hon. It will go into operation on the 16th inst., and will be a great convenience to the people along the route as well as to the inhabitants of Lillington and other sections. Other improved mail facilities are in prospect for the new county, as Col. Waddell informs the good people of Pender. Richly do they deserve them and Col.
