The prayer of the Norman might suit the spirit of our own time. It was: "Kind Heaven, I do not ask for wealth; only to be placed in arm's length of some man who has it."  
The Prince of Wales gave King Alfonso a handsome cimetar as a wedding gift. The friends of Mrs. Alfonso should chip in and purchase her a cavalry sword, for in a warm discussion with Alf. in relation to who shall get up first and make the fires she will find that the rolling-pin or a broomstick will not stand long against a cimetar.  
There is at least one man in Wilmington who hasn't forgotten his New Year's resolutions. He was observed at a late hour holding an earnest argument with a tobacconist's sign, and was heard to close the discussion with the remark: "I tell you snuse; shure of smokin' and drinkin' lash new-yearsh."

Since the doctors have raised the howl that the bits of wash leather and india-rubber used in the manufacture of mince pies are unwholesome, if not absolutely injurious, the mince-pie industry has been almost revolutionized, the manufacturers using pasteboard and bass-wood veneering, instead of the objectionable ingredients.  
To an already well established reputation, are constantly added the warmest praises of travellers who have enjoyed the hospitalities of the Grand Central Hotel, New York.

**Another Convict.**  
The Raleigh papers tell us that Sheriff Edward W. Taylor, of Brunswick county, arrived there on Wednesday, bringing with him one of the 15th amendments recently convicted of larceny, Abram Hall by name, and sentenced to one year's imprisonment at hard labor in the penitentiary.

**Value of Different Foods.**  
The comparative value of horse-feed is found to be as follows: 100 pounds of good hay is equal in value to 56 pounds oats, 57 pounds of corn, 275 pounds of carrots, 54 pounds of rye or barley and 105 pounds of wheat bran. Such tables, however carefully prepared, are too indefinite to be of any practical value, and besides, they are too liable to be affected by attendant circumstances to be accurate.

**Counterfeiters Preparing.**  
It is reported at the Secret Service Bureau at Washington City that leading counterfeiters are making their arrangements so that they will be able to supply fac-similes of the new silver dollar within a few days after the Philadelphia mint begins operations. The silver dollar is an especially easy subject for counterfeiting. Some of the most successful counterfeiters are silver coin, and it would be well for everybody and scan closely the dollars of their daddies when they get any.

**Don't Understand It.**  
The Raleigh Observer says that a petition is in circulation on the streets of Raleigh, sent there by parties in Newbern, for the return to the waters of Eastern North Carolina of the revenue cutter *E. A. Stevens*.  
This movement is news to us. Of course, if the *Stevens* is sent here the *Colfax* must go elsewhere, a fact which few of our people who know anything of the gentlemanly officers of the *Colfax* or their efficient services will contemplate with pleasure. Why the signatures of the Raleighites who live so far inland and must know but very little in regard to the practical services of either boat should be called into requisition is something we are at a loss to understand.

**City Court.**  
Ambrose Moore and Eliza Merrick were arraigned for disorderly conduct—fighting in the Market House. The case was continued by the acting Mayor until to-morrow morning.

**Temple of Israel.**  
This (Friday) evening the Rev. S. Mendlesohn will lecture at the Synagogue, corner of Fourth and Market streets, on the "Evolution of Theology." Service at 7.45. The public are cordially invited to attend.

**For the Review.**  
**Sabbath School Entertainment at Burgaw.**  
Mr. EDITOR:  
There was a large and intelligent audience assembled here last evening to witness the finest public entertainment given since the selection of this growing town as the permanent seat of justice for Pender county. This demonstration combines with other unerring indications in showing that the progress of Burgaw is substantially onward and upward. And then the noble object of this entertainment—to advance the interests of our Sunday School—reflects credit upon its originators and all those who took part in these highly entertaining theatrical performances here last night.  
The following programme was substantially carried out and to the delight of the very appreciative audience:

Song—Good Night..... By the Company  
Valedictory Address—Dr. S. S. Satchell.  
Nine-tenths of those whose names appear above had never seen a theatre—never been upon a public stage before, and yet they all performed their respective parts so well that the performance would have reflected credit upon experienced actors, and secured rounds of applause from the best audiences of any of our towns and cities. There was decided talent and genius manifested here last night, by the leading spirits, in theatrical power and skill, that deserves praise and appreciation from a generous public. There was decided enthusiasm manifested by the crowded house and a general wish expressed that the whole should be repeated here and elsewhere at no distant day.  
The spirit of improvement is manifest at Burgaw. One step succeeds another in the elevation here of public taste; of public morals, of educational advancement, and of material progress.  
In alluding to these matters it would be unjust not to mention the high claims to consideration and patronage of the gentlemanly proprietor of the Burgaw Hotel, Mr. A. H. Williams. Much of the life and refinement, of the grace and dignity of the place is owing to the presence of himself and of his intellectual and cultivated family. They are ornaments to any community. His talented and accomplished daughter, Mrs. N. H. Lindsay, recently from High Point in this State, will open school here on Monday next. If the citizens of Burgaw and vicinity do not rally around and sustain this competent teacher, they will not show that appreciation of merit which they profess to have.  
A SPECTATOR.  
Burgaw, N. C., March 7th, 1878.

**Bobbed Again.**  
Last night or early this morning the chicken coop in the yard of the residence of Capt. J. M. McGowan, on Orange, between Seventh and Eighth streets, was visited and twenty-one laying hens and one turkey were carried off. The thieves first attempted to effect an entrance through the top of the coop, but being unsuccessful in this attempt, next tried to prize the hasp from the door, and finally broke the lock. Yesterday was the anniversary of Capt. McGowan's birthday, but instead of being a recipient he was the loser of the chickens. Strange to say the thieves did not interfere with his fine breed chickens but probably the twenty-two they carried off was about as much as they could conveniently handle and will go again for them. A kind invitation is extended to them to come again.

**Mothers, Mothers, Mothers.**  
Don't fail to procure Mrs. WINSLOW'S SOOTHING SYRUP for all diseases of teething in children. It relieves the child from pain, cures wind colic, regulates the bowels, and by giving relief and health to the child, gives rest to the mother.  
New River oysters sold as low as forty cents per gallon yesterday afternoon.

**For February**  
From the records in the possession of Dr. A. E. Wright, Superintendent of Health, we glean the following report of vital statistics for the month of February:  
Births—12 whites, 9 colored; 10 males, 11 females. Total, 21.  
Marriages—5 white couples, 11 colored couples. Total, 16.  
Deaths—Dropsy, 1 white; diphtheria, 2 whites; heart disease, 1 white; typhoid fever, 1 white; cholera infantum, 1 white, 1 colored; marasmus, 2 colored; cerebro spinal meningitis, 1 colored; phthisis, 1; white, 1 colored; paralysis, 2 whites, convulsions (infantile), 1 colored; gastritis, 1 colored; cystitis, 1 colored; old age, 1 colored. Total, 9 whites, 9 colored.

**Will Reopen.**  
We are glad to know that Mr. F. A. Schutte, who was burned out a few days ago, has rented the first and second story of No 3 Granite Row and will get in a new stock of furniture from "top to bottom." He goes to New York in a few days to select his goods and we venture the assertion that his new stock will be one of the handsomest in the State.

**Sheldon's Renovator.**  
We invite attention to the advertisement of Mr. James T. Sheldon, as it appears in this issue, setting forth the merits of the patent renovator now operated by him on Front street, one door north of the Purcell House. He appends a list of some of the most prominent names in this city in testimony of the excellent work done by his renovator. As we have already stated in these columns we have seen some of the results of its working and can add our own testimony to the fact that it is all that it is claimed to be.  
Good seasoned split ash wood retailed from flats to-day at two dollars per cord.

**Consumption Cured.**  
An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure of consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe in German, French, or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. W. Sherar, 126 Powers' Block, Rochester, N. Y. 4w

IMPROVED  
**Steam Feather, Hair and Furniture RENOVATOR.**  
The attention of the citizens of Wilmington is called to a new patent process for **Cleansing both Feathers and Hair**, which in its superiority for purifying, drying and restoring to original elasticity, removing all disagreeable odors from both old and worn feathers, and destroying all moths and worms, needs only to be tested to be appreciated. The introduction of superheated steam is, in our judgment, the only effectual method of ridding hair, feathers and furniture of moths, and we guarantee to accomplish this result without injury to the most delicate fabrics.  
The patentees, who are connected with the business, will be on hand between the hours of 9 and 12 A. M., and take pleasure in showing how the work is done. All are invited to call and examine the process and leave their orders.  
All work called for and delivered without extra charge, and returned the same day.  
For further particulars and prices see bills, which will soon be in circulation.
