The Best Yet.

T. B. Peterson & Brothers, Philadelphia, Pa., are now publishing a new edition of Charles Dickens' novels, which for beauty and cheapness far surpasses any ever before issued. It is called "Peterson's American Edition," printed on fine white paper, from large clear type, leaded, with some of the original illustrations as selected by Mr. Dickens and designed by Phiz, Criukshank Browne, Maclise and other artists, and bound very gorgeously in red vellum, gold and black, with the cover filled with the anthor's principal characters, which he has made so world famous. There in one corner is the immortal Pickwick, in an ther the well-known Micawber, the learned Capt. Cuttle, poor little Oliver Twist, the misguided Grandfather, the mean, hypocritical Pecksniff, the mercenary Squeers, Boots, The Beadle, etc., and all of this fo the small sum of \$1.25. This edition will be found for sale at all book stores, news Stands, and on all Railroad trains, or any person sending the Publishers \$12.00 will receive the first twelve volumes as fast as published, by mail, postage paid, and at this low price every one that is fond of a city and that Dr. Curtis, Quarantine Phyhandsome book ought to subscribe. City Court.

MAYOR FISHBLATE presiding:

An obstreperous son of old Neptune who yesterday took occasion to go overlandwise, was overhauled by officer Bender in a very precarious condition, being loaded to the ground with so much benzine that he could'nt navigate. He was conveyed to the city prison by means of a horse and dray, and this morning His Honor, the Mayor, pronounced a salvage of \$2 50 and costs for the cruise and capture, to be awarded to the City Treasury.

Sunset Hill.

We had occasion a short time since to allude to the elegant structure then in process of erection on Sunset Hill and learn that in consequence of our remarks, a great many persons strolled in that direction to see it. Soon afterwards work was suspended but we understand that it has since been resumed and that the elegant building is now rapidly approaching completion.

The Court took the motion under consideration.

Last Call.

The Mayor will cause warrants to be issued on Monday for all delinquent taxpayers for the s ecial and license tax, some of whom have not paid for lo! these many months. So look out! take notice, as the Temple of Israel.

This evening the Rev. S. Mendelsohn will lecture on The Dawn of Monotheism. Services begin at 7:45 o'clock. The public are cordially invited to attend.

#### Speer's Wine.

We have had laid upon our table a bottle of Speer's Port Grape Wine, manufactured from the Oporto grape by Mr. Alfred Speer, at Passaic, N. J. It is a truly delicious wine and will be found acceptable to invalids as well as a pleasant addition to the table. Efforts which are certain to prove successful, are now being made to introduce it extensively in the South.

#### The Barque Violette.

We understand from Mayor Fishblate that after a careful consultation with two prominent physicians he has given instructions that the German barque Violette, from Rio de Janerio, now at quarantine, on board of which there were two deaths at sea from yellow fever, will not be allowed under any circumstances to come up to the Further than this, the Mayor asserts that if a cargo should be lightered down to her those who loaded the vessel will not allowed to return be to the city.

This decision of the Mayor may to some seem a harsh one but we do not see how Landmark and General Agent of the Penn | he could do less and at the same time fulfill the measure of his duty towards the married in Goldsboro on Wednesday to people of Wilmington. Competent Miss Caroline Wayne Wright, one of medical authority has stated positively that the course of safety requires that the strictest measures should be adopted both summer and winter to provide against the introduction of this terrible disease. Two instances which well illustrate the perteracity with which the germs of the disease will cling to houses, LANCY ARTICLES, TOILET SOAPS, or clothing, or even to old letters we will relate here. In 1821 the little town was sorely afflicted by a visitation of the yellow fever, woich was brought here from the West Indies in the brig John London. The affrighted inhabitants fled the town and only returned when they felt sure that The Post-Office Department will pre- it was perfectly safe for them to do so. One vent the use of rubber cancelling stamps of these, a, gentleman on his return been closed for months past, and sad to relate, was shortly after taken with the disease, which was also communicated to his brother, and both died. The second instance is a more recent one. A few years ago a prominent citizen of this place was taken ill. He was attended by one of the oldest and most experienced physicians in the city. His symptoms at first were puzzling and the physician was loth to believe that it could really be yellow fever until he was forced to admit that it was undoubtedly a case of this terrible disease. The symptoms were all there, even to the black vomit. In conversation afterwards the gentlemen admitted that just previous to his illness he had been examining a bundle of old letters which might have become impregnated with the disease which raged here
