WILMINGTON, N. C.

TUESDAY APRIL 9, 1878.

VIEWES AND REVIEWS.

Austria's peace establishment is put down at 267,005 men and 47,972 horses; in war 780,026 men and 148,120 horses. George, King of Greece, is never happy except at the billiard table. Billiards is the only thing in which he is proficient. It has taken him years to acquire a smattering of modern Greek.

Over \$2,000 a year is the value of the suds of a Bonanza miner's wash. The dirt washed from their shirts has been found to assay \$250-10 to the ton. What a fund for Nevada washer-women!

In Madagascar there are over one thousand Christian congregations, with about 45,000 in the Sunday Schools. The work is largely done under the auspices of the London Missionary Society.

In San Francisco there are 45,000 voters, 30,000 of whom pay no taxes. Of this last 30,000 there is a large percentage of men who are sitting with folded hands waiting for something to turn up.

The Germans are the healthiest class of New Yorkers. Vital statistics show that the rate of mortality among them is nearly thirty-eight per cent. less than that of other citizens, while their increase by births is larger.

St. John Chrysostom, speaking in general of Christian professors, says: "There is no painter, there is no sculptor, no artist, be he who he may, that can be compared with the man who knows how to form the minds and hearts of youth."

According to "Poor's Manual" 194,836 miles of railway were in operation at the close of 1876. Of these, to select but a few instances, 12,722 miles were in France, 13,702 in Russia, 17,253 in Great Britain, 5,219 in the Dominion of Canada, 2,498 in Australasia, 7,152 in British India, 18,229 in Germany and 77,400 in the United States.

The Stewart Woman's Hotel, New York, was the scene of a crowd and crush, Monday night, such as has not been witnessed in that city in years at any opening. Mrs. Stewart had issued over thirteen thousand invitation tickets, each admitting gentleman and lady. It is estimated that over twenty-five thousand people inspected the immense building between seven and ten o'clock.

The Courier Journal says if the horse trade in this country and Canada doesn't improve it will not be the fault of the British. They are buying right and left, and as our English cousins are very superior judges of horse flesh for military purposes, no spavined animals can be put off on them and they will take the pick of the field. One month ago the cavalry regiments and batteries in the United Kingdom only had 6,000 horses, and the government decided to buy 22,000 more. They are buying not less than 40,000 horses now in this country and Canada.

A despatch from Montreal states that the war fever prevails there. A large number of officers have tendered their services to the Home Government. The same despatch says: The demand for a certain class of horses for England is increasing. Several car loads of from eighteen to thirty each are being taken over the Grand Trunk Railway daily, destined for Europe. They are intended for military service, and are branded with the letter "S." The country east and west is being searched for suitable horses for war purposes. Large shipments of cattle are also being forwarded from the lower provinces.

The Charleston Journal of Commerce says the shipments by the South Carolina Railroad for the month of March just ended, have been the heaviest for any one month since the phosphate trade had a beginning, footing up 15,019 tons against 10,710 tons for the same month last year, 8,491 tons in 1876, 11,156 for March 1875, and 13,719 tons in 1873. The entire shipments through this source for the season, up to April 1st, have been 37,684 tons against 30,154 tons for the same time in 1877, 33,687 tons in 1876, 30,337 tons in 1875; 28,779 tons in 1874; 36,986 tons in 1873; 26,291 tons in 1872; 15,824 tons in 1871, and 20,648 tons in 1870.

Immigration at the port of New York thus far this season has been much larger than it was last year. The increase is composed chiefly of Germans. The number of immigrants since January 1 is 3,219, against 2,331 in the same time last year. The increase is said to be due to the anticipation of a European war and the encouragement given by friends already in this country. One of the noticeable features among the immigrants is that those who are able-bodied leave at the earliest possible moment for the West. It is thought that the total immigration to this country the current year will exceed that of last year by 20,000 at least.

PEACE OR WAR?

Any one who has anything of a reputation as a prophet would hardly care to risk it in stating the result of the European complications, as to whether it is to be peace or war. An understanding seems as far off as ever. In the case of individuals this would actually argue in favor of peace as by delay comes wisdom and a congress of friends who could discuss the matter at issue and patch up the differences between the two parties, but with nations the reverse may be considered as true. England and Russia have been secret enemies for a long time past, and the people of either country are now bristling with war. They have been nursing their wrath for a long time past and the longer it is restrained the fiercer it gets. What the end will be depends more, perhaps, upon the diplomatist of another country, the greatest of the age, than upon the parliamentaries of either nation. Prince Bismarck, it is said, has undertaken to negotiate a peaceful understanding between the two peoples, and if the report speaks true there will probably be no war as Bismarck rarely fails in his undertakings.

PROF. OTIS F. MANSON, M. D.

The scores of North Carolinians now in their distant homes who once enjoyed the blessing of being carefully nursed and cared for in Moore Hospital, Richmond, will here with great pleasure the announcement of any promotion of their old surgeon, Dr. Otis F. Manson. Since the war Dr. Manson was appointed the professorship of Pathology and Pathological Anatomy, and on the retirement of Dr. J. J. Jones, he succeeded that eminent gentleman in the chair of Physiology. It surprised us no little while at the same time it gratified us to know that Dr. Manson was elected to the Common Council of the city of Richmond and afterwards made President of the Board, for he is not a politician, unless a man can learn the dark arts of that calling by a life-long devotion to the study of disease at the bed-side, and by a most persistent and labored application to the literature of the healing art. We take it therefore that it was a discriminating good taste which induced the voters to call for him to the rather too exclusive domain of physics, a man whose devotion to his duties is always paramount.

Our State was unfortunate in losing Dr. Manson, but the work which called him to Richmond was one that was well worthy the devotion he gave to it, viz: the cure of the sick and wounded North Carolinians. The inmates of that Hospital never knew what a struggle Dr. Manson had to maintain it at its high standard of excellence;—it was a round of little fights with the Surgeon-General and many lesser lights, which gave the Tar-Heel soldiers the comfort rarely seen in other like institutions. Dr. Manson was complimented by Gov. Vance over and over for his assiduous devotion to his charge, and we make an extract from a letter from the Governor: "Dr. Manson by his kind attention to the North Carolina sick and wounded troops, rendered himself dear to me and to the whole State."

It was in North Carolina that Dr. Manson showed the stuff he was made of. While a callow stripling in physic he undertook the charge of a small-pox hospital which had been refused by his over cautious elders, and the way he acquitted himself there has been the key to all his subsequent success. He was a resident of this State twenty of the prime years of his life, and we trust that there are as many more of honor before him in his native Richmond.

Congressman Wood is reported very confident that his tariff bill will pass both Houses of Congress without very material changes, and says: No one bill can give the country what it needs more than anything else—thorough and complete tariff reform—but my bill is a step towards the right end, and I think will receive the attention of every thinking member of the House. I feel quite sure that there are 152 members who will vote for the bill, and it will be carried through the Senate unless I am greatly mistaken.

Incurring a Tremendous Risk.

They incur a tremendous risk who sojourn or emigrate to reside in districts where malarial disease is prevalent, without medicinal means of fortifying their systems against the periodic scourge. The danger to bilious subjects, and to those who lack bodily stamina, is particularly serious. A preventive and curative agent of known anti-malarial efficacy should be frequently used and constantly kept at hand by such persons, and on none can they rely with such certainty of protection and aid as Hostetter's Stomach Bitters. This grand specific roots out every vestige of the malarial poison from the system, and ends it with an amount of vital activity and repelling power that nullifies the influence of miasma. It also prevents and remedies disorders of the stomach, bowels and liver, which are particularly prevalent in malarial regions, and is an incomparable general invigorant.

THE INLAND WATER-ROUTE.

It is truly gratifying and encouraging to see public sentiment setting in stronger and stronger in behalf of the magnificent enterprise of a ship canal along our coast. The matter is now before Congress. There are two local companies in our section, that are pushing forward this great work, both the New River Canal Company and the Steam Navigation Company. The terrible disasters on our coast last winter, liable to be repeated every fall, winter and spring with still greater destruction of human life, are among the best arguments that can be used in favoring this great scheme. We do not enter the list of disputants as to the best route. That should be determined by an able, experienced and disinterested Board of Engineers of the general government, incapable of being swayed by any other than the highest motives of duty, and having no axe to grind. We are in possession of reliable information from a high and authoritative source in Washington City, as to the prospects of construction of this inland-communication along our coast by the general government. That information authorizes us to say that while such a ship canal will not be constructed at once, it will be made before a great while. It is a mere question of time. Its great benefits to commerce, and to Wilmington and to all these Eastern counties, as well as to North Carolina, are already awakening the liveliest interest in the people of the whole State, especially of our land owners and business men in the East. It would double and sometimes treble the price of land in Eastern North Carolina, and would bring millions of acres of the best lands now idle and of little value into market and under the immediate dominion of the axe, the spade and the hoe. It would attract and receive a strong and continuous stream of immigration to these eastern shores. Labor and capital would flow here in such number and strength that our fertile lands and magnificent eastern plains would bloom and blossom: the rose and our granaries and wharves would literally groan under the immense loads of our own products from year to year. All this would of course increase the assessment as well as the value of real estate here and so increase the receipts from taxation as to cause such an augmentation of the State Treasury that would import new life and vigor and a brighter career of progress to the old North State. This is no Utopian view. Already does our national legislature regard this enterprise with increasing favor which predetermines the construction of the canal. Our Senators in Congress are working like beavers for it. Senator Merrimon is warmly enlisted in the cause of this great scheme, so full of hope and promise to our people, and will give to its success all the powers of his splendid abilities and high patriotic devotion. All our Representatives will doubtless do all in their power for its success. Petitions by the thousand should go up to Congress in its favor from all our eastern countries. Let the subject be agitated upon the stump, by all our newspapers, and in every way, by private and public effort. It would be the most effectual method of reclaiming the public swamp lands of the State, as no other favor or advantage than the right of way would be expected or asked of North Carolina by the general government in digging this ship canal. Thus would our public school fund be greatly augmented in the increased value of our public domain. Surely our next Legislature will not fail to strongly and unanimously support this great measure of relief and to petition Congress to construct the canal.

AN OPEN LETTER.

ROCKPORT, Mass., April 2, 1877.

MR. EDITOR:—Having read in your paper reports of the remarkable cures of Catarrh, I am induced to tell "what I know about Catarrh," and I fancy the "snuff" and "inhalant-tube" makers (mere dollar grabbers) would be glad if they could emblazon a similar cure in the papers. For 25 years I suffered with Catarrh. The nasal passages became completely closed. "Snuff," "dust," "ashes," "inhalant-tubes," and "sticks," wouldn't work, though at intervals I would sniff up the so-called Catarrh snuff, until I became a valuable tester for such medicines. I gradually grew worse, and no one can know how much I suffered or what a miserable being I was. My head ached over my eyes so that I was confined to my bed for many successive days, suffering the most intense pain, which at one time lasted continuously for 168 hours. All sense of smell and taste gone, sight and hearing impaired, body shrunken and weakened, nervous system shattered and constitution broken, and I was hawking and spitting seven-eighths of the time. I prayed for death to relieve me of my suffering. A favorable notice in your paper of Dr. Sage's Catarrh Remedy induced me to purchase a package, and use it with Dr. Pierce's Nasal Douche, which applies the remedy by hydrostatic pressure, the only way compatible with common sense. Well, Mr. Editor, it did not cure me in three-fourths of a second, nor in one hour or month, but in less than eight minutes I was relieved, and in three months entirely cured, and have remained so for over sixteen months. While using the Catarrh Remedy, I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. I also kept my liver active and bowels regular by the use of his Pleasant Purgative Pills. If my experience will induce other sufferers to seek the same means of relief, this letter will have answered its purpose.

Yours truly,
S. D. REMICK.

A CLOUD OF WITNESSES.

The following named parties are among the thousands who have been CURED OF CATARRH by the use of Dr. Sage's Catarrh Remedy:

A F Down, New Geneva, Pa; D J Brown, St Joseph, Mo; E C Lewis, Rutland, Vt; Levi Springer, Nettle Lake, Ohio; Chas Norcross, North Chesterfield, Me; Milton Jones, Scriba, N Y; J E Miller, Bridger Station, Wyo; J C Merriam, Logansport, Ind; M M Post, Logansport, Ind; J W Bailey, Tremont, Pa; H B Ayres, La Porte, Ind; Jessie M Sears, Fort Branch, Ind; L Williams, Canton, Mo; W A Thayer, Onarga, Ill; S B Nichols, Jr, Galveston, Texas; Jonas F Reinert, Stonesville, Pa; S W Lusk, McFarland, Wis; Johnson Williams, Helmick, Ohio; Mrs M A Currey, Trenton, Tenn; J G Joslin, Keene, N H; A J Casper, Table Rock, W Va; Louis Anders, Gaysport, Ohio; C H Chase, Elkhart, Ind; Mrs Henry Haight, San Francisco, Cal; Mrs E M Gallusha, Lawrenceville, N Y; W J Graham, Adel, Iowa; A O Smith, Newnan, Ga; Chas E Rice, Baltimore, Md; Jesse M Sears, Carlisle, Ind; D N B Miller, Fort Wayne, Ind; Mr Minnie Arnaise, 290 Delaney Street New York; H W Hall, Hastings, Mich; Wm F Mars-ton, Lowell, Mass; I W Roberts, Maricopa, Ariz; Chas S Delaney, Harrisburg, Pa; M C Cole, Lowell, Mass; Mrs C J Spurrin, Camden, Ala; Chas F Kaw, Fredericktown, Ohio; Chas Lucy Hunter, Farmington, Ill; Capt E J Spaulding, Camp Stambaugh, Wyo; I W Tracy, Steamboat Rock,

Miscellaneous.

DR. PIERCE'S STANDARD REMEDIES

Are not advertised as "cure-alls," but are specifics in the diseases for which they are recommended.

NATURAL SELECTION.

Investigators of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law that vouchsafes thrift and perpetuity. Does not the same principle govern the commercial prosperity of man? An inferior cannot supersede a superior article. By reason of superior merit, Dr. Pierce's Standard Medicines have outrivaled all others. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported foots up to several hundred thousand more. No business could grow to such proportions and rest upon any other basis than that of merit.

Golden Medical Discovery

Is Alterative, or Blood-cleansing.

Golden Medical Discovery

Is Pectoral.

Golden Medical Discovery

Is a Cholagogue, or Liver Stimulant

Golden Medical Discovery

Is Tonic.

Golden Medical Discovery

By reason of its Alterative properties cures Diseases of the Blood and Skin as Scrofula, or King's Evil; Tumors; Ulcers, or Old Sores; Blisters; Pimples; and Eruptions. By virtue of its Pectoral properties, it cures Bronchial, Throat, and Lung Affections; Incipient Consumption; Lingerling Coughs; and Chronic Laryngitis. Its Cholagogue properties render it an unequalled remedy for Biliousness; Torpid Liver, or "Liver Complaint," and its Tonic properties make it equally efficacious in curing Indigestion, Loss of Appetite, and Dyspepsia.

Where the skin is sallow and covered with blotches and pimples, or where there are scrofulous swellings and affections, a few bottles of Golden Medical Discovery will effect an entire cure. If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from Torpid Liver, or Biliousness. In many cases of "Liver Complaint," only part of these symptoms are experienced. As remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
