ISAAC W. KING—For Sunday's Dinner.
Rev. B. R. Hall lectures at Temperance Hall this evening.

If a raft of lumber contains several million feet, how many wooden legs will it produce?
Every age of the world has enjoyed its own peculiar boons and benisons. The pre-historic boy couldn't whistle.
A girl of metal: One with silvery voice golden hair, brass in the face and tin in the pocket being led to the altar.
Contentment is undoubtedly better than money; still a moderate amount of hard cash rather conduces to contentment than otherwise.
"C-o-l-o-r-s," said a Sunday school boy slowly spelling it out, "coat of many collars—why did it have so many collars teacher? So they could lift him out of the well easy?"
Somebody remarks that young ladies look on a boy as a nuisance until he is past sixteen, when he generally doubles up in value each year, until, like a meerschau pipe, he is priceless.
The paper read last December before the Historical and Scientific Society, by Col. Jas. G. Burr, entitled "Old Times in Wilmington," is published on the second and third pages of this issue. It will well repay perusal.
The Committee of the Veteran Corps, appointed to revise the records and roll, request that all errors or omissions, if any there be in the list of names published to-day, be promptly reported to Col. Jno. L. Cantwell, Chairman of said Committee.
A Child Drinks Kerosene.
A colored child about a year and a half old, the offspring of Caroline Hullard, living on the corner of Castle and Fifth streets, yesterday afternoon got hold of a bottle of kerosene and drank a considerable quantity before the mother discovered it. Dr. G. G. Thomas was immediately called in and administered the proper remedies, but the child it is thought will not recover.
The Postal Party.
We published a few days since a telegram received by the Savannah News last Sunday which stated that the Postal Excursion party were unable to obtain transportation from Cedar Keys to Havana, in consequence of the loss of the packet steamer, and that the party must therefore return to Washington City at once. The result indicates, however, that the News' information was incorrect, as later advices are to the effect that the party have gone to Havana.
For the Governor.
Mr. G. W. Winberry, of New River, brings to this market some of the very finest oysters raised anywhere on the Atlantic coast, and Mr. John Carroll, at the Cosmopolitan, sells them for him. He brought in a lot of them to-day which, taken altogether, are in our opinion the finest oysters seen in Wilmington since the war. We tell him to a gallon bucket of them themate to which was reserved by Mr. Winberry to be sent to Gov. Vance, along with a lot of the same oysters in the shell, as specimens of what New River can do in the way of raising oysters.
The Queen of the Oven.
A breakfast-biscuit or tea-roll made with DOOLEY'S YEAST POWDER is certainly the queen of the oven—so light, white and delicious. You lift it tenderly, break it open gently, spread it daintily with fresh, sweet butter, waiting to be gracious. After breakfasting on biscuits made with DOOLEY'S YEAST POWDER, what man would contemplate suicide, or grumble because his wife asked him for money?

Bishop Atkinson.
The venerable Bishop of the Diocese will spend his Easter Day with the Church in Tarboro. On that Day the Bishop will be present at Calvary Church, in that town, at both morning and evening services.
At the morning service an ordination to the Diaconate will take place, and in the evening the Confirmation will be administered. Mr. Jcs. B. Cheslire, son of Rev. Dr. Cheslire, Rector of Calvary Church, will be ordained as Deacon.

Fickle April
There is an old superstition that there is generally no real summer weather until Whitsuntide, which falls this year on the 9th of June, but if this is to be true 1878 will rank as an off year as it was decidedly and unmistakably warm enough yesterday for summer clothes, although the atmosphere hereabouts early this morning was cool enough for blankets and overcoats. To day has been one of the loveliest fickle Aprils in its calendar.

The Burgaw Meeting.
The communication below shows that the people of Onslow are alive to the benefit of the proposed Railroad from Burgaw down into Onslow county. The proposition to Pender surely will arouse the people of that county to bestir themselves and to take wise action in the very beginning of this project. There is no county in the state more entitled to railroad advantages than Onslow. We hear from different sections in Pender and Onslow that there will be a large crowd and a big time at Burgaw on Wednesday the first of May. Let the people turn out. Excellent speakers are invited and fine speaking may be expected in behalf of the proposed railroad and the cause of education and material improvement. Pender and Onslow are both rural counties and are not only joined geographically but are in close alliance in sympathy and interest. Let them also be united by the iron bands of a railroad. We expect to meet many Pender and Onslow friends at Burgaw on the 1st of May. We learn that quite a number from our own city are arranging to go up to the meeting, and to spend the gala-day at the new and coming town of Burgaw. The Wilmington and Weldon Railroad will have one or more representatives at the meeting, and is of course warmly in favor of the proposed plan of developing the splendid resources of Onslow. Read the communication herewith.
JACKSONVILLE, April 11th, '78.
EDITOR REVIEW:
DEAR SIR:—We take this occasion to say that there is no more welcome visitor to our county than the staunch old Wilmington JOURNAL, now so ably edited by you. The Democracy of Onslow were always fond of it, and never more so than now. It has great influence here.
We are beginning to be stirred up on the railroad scheme to connect Onslow and Pender at the new county site of the new county. Our people are in favor of it. They regard it as feasible, practical, and much needed. It would double the value of our lands and give us a fine outlet for our surplus products. You are aware that our lands are fertile and cheap. We hope the meeting to be held at Burgaw first of May will prove a success. Onslow sends cordial greetings to Pender and a readiness to do a full share in substantial subscriptions to the railroad. The other surrounding counties should also subscribe and doubtless will. The enterprise meets with warm favor in all parts of Onslow. Let a suitable charter be obtained from the next Legislature, after the first and foremost step to all, a survey. Public meetings will, of course, be held, as the year advances, and suitable working committees inaugurated. Of course we shall insist, as a right, upon at least two hundred convicts from the next Legislature, to build the road. We shall be the more persistent in this application, because the East furnishes at least two-thirds of the convicts now upon the public work in the Western part of the State, and receives no benefit. It is time to claim and to have our own convicts upon our own local public works for a few years, at least.
MANY CITIZENS.

Wine for Evening Entertainments.
The Port Grape Wine of Alfred Spear of Passaic, New Jersey, is generally pronounced the most reliable wine to be obtained, and is now being used by those fashionable and families who are the most choice in the selection of wines for evening entertainments.

Meeting of the Veteran Corps of the Wilmington Light Infantry.
At a called meeting of the Veteran Corps of the Wilmington Light Infantry, held at the Armory of the W. L. I., on the evening of the 11th inst., there were present W. L. DeRosset, Chairman, E. D. For the Ladies.
Mrs. E. A. Lumsden has returned from the fashion markets in the northern cities and is now busily engaged with her lady assistants in unpacking and arranging the many new and pretty things purchased by her for this market. They will soon be ready for exhibition and an announcement of the fact will be made in a day or two in our advertising columns.

Churches in North Carolina.
From the "Tabulated statement of Industries and Resources of North Carolina," issued by the Agricultural Department, we gather the following as to the number of churches in the State. The Methodists lead off with 1,177, the Baptists next, with 1,167, then Presbyterians 196, Episcopalians 90, Lutherans 76, German Reformed 30, Christian 24, Quakers 20, Catholics 9, Campbellites 5 Union 3, Dunkers 3. Total 2,800.

The New Dollars.
The change that has been made in the coinage of the new silver dollar very much improves its appearance. The much abused eagle is still there, but below the general surface of the coin. The Goddess of Liberty's head on the other side has also been depressed, to prevent constant friction and wearing away. The newer coins are made convenient in one important respect. They can now be piled upon one another without toppling over, as was the case with the first issue. They are also of finer finish and smoother appearance than those first turned out of the mint.
By the exercise of the most judicious management, the Grant Central Hotel, New York, has very cleverly turned the tide of trade in its direction, not less by the sweeping reduction of its rates than through its excellent management.
Prosperity, says the Preacher, is apt to spoil us, but most everybody would like to see wot much it would require to produce that effect.

River News.
From Capt. Albert Worth, of the steamer *Gov. Worth*, we learn that there was quite a storm of rain, accompanied by hail, up the river, about thirty miles this side of Fayetteville, on yesterday. Capt. Worth also reports that the river commenced rising at Fayetteville Thursday night, and had risen four feet when he left there yesterday morning.

Yesterday's Storm.
The short-lived but violent rain-storm which visited this city yesterday afternoon seems to have been pretty general in this section. In the interior it was accompanied by hail, and reports from the lines of the W. & W. and W. C. & A. and the C. C. R. W., represent the hail stones to have been thick and heavy. The storm also extended for some distance up the Cape Fear river. It seems, however, to have found its greatest violence on the line of the W. & W. R. R., in Duplin and Wayne counties, some of the stores there, according to the testimony of an eye witness having been as large as pullet eggs. Fortunately, the crops are not yet advanced enough to be injured, and the damage to the fruit is reported as very slight.

A Vicar Apostolic to be Appointed.
It appears from our Washington correspondence that Rev. Father Keane, who has recently been appointed bishop of Richmond, was not appointed vicar apostolic of North Carolina as well. Hitherto the two offices have been one and Bishop Gibbons, up to the time of his acceptance of the archbishopric of Baltimore, administered both. They have, however, been disconnected, and the vicar apostolic of this diocese is yet to be appointed unless, indeed, Father Janssens, of Richmond, who was appointed to succeed Bishop Gibbons temporarily, shall hold over in the charge of this diocese.—*Raleigh News.*

In view of the approaching election in August next, when Commissioners for the county are to be elected, and Inferior Courts are to be taken into consideration, would it not be better for the Magistrates of our county to meet together at the county site some day previous for the purpose of consulting together for the best interest and good of the county? What say you, other Townships? Caswell proposes the first Monday in May. Let us hear from you.
