Fair boating water in the river is the report now.

"Men should be careful lest they cause women to weep, for God counts tears," says the Psalm.

"The demand for trade dollars continues," says an exchange. Well, we should say so. The demand for all kinds of dollars in "these parts" is always ahead of the supply.

He came in cautiously, like a novice, fooling around a boiler, and inquired, "Can the cackling of hens properly be called hensthusiasm, or is it a sign of delay or henanything else?" We stop the press to say that he sleeps sweetly, with his head still in soak.

The man who leaves two-thirds of a cigar in a dark corner of the front stoop when he goes to see his girl will make a thrifty husband.

We were pleased to receive a call this forenoon from Dr. Rice, travelling agent for the Raleigh News, who visits our city in the interest of his paper.

An article on "Discipline in American Colleges" by Dr. McCosh, President of Princeton College, is to appear in the May-June number of the North American Review.

All Wilmington men who have lived to sixty and upwards, will be surprised to learn that they have spent seven months of their lives buttoning on their shirt collars.

A cotton cloth saturated with a solution of alum and water, and applied to a burn, will soon relieve the pain. The cloth should be constantly replaced by fresh ones until the desired effect is produced.

This has been a fearful day for a fire and when the bell rang this morning the wind was blowing its wildest. There was much relief felt when it was ascertained that there was no danger of a serious conflagration.

Capt. Jno. H. Allen has on exhibition in his show window a rare and beautiful plant known as the "Veiled Nun." In the center of the flower, which somewhat resembles a tulip in shape, is a perfect face covered by a thin veil.

The body of Mr. Chas. Geeb, the gentleman who died at the Purcell House yesterday morning, was moved to St. James' Episcopal Church yesterday afternoon. Friends of the deceased are expected to arrive this afternoon and will then decide whether to take the body North or inter it here.

Combination Costumes

Combination costumes, says Harper's Bazaar, remain in fashion. Out of fifty French dresses exhibited, those of black silk were the only dresses that were entirely of one material, and these were elaborately ornamented with jet, fringe, lace and bows of satin ribbon. The combinations are of two materials of one shade, and also beautiful contrasts are shown by trimming bourettes and gauzes with silk or satin pipings of two or three oddly blended colors. The newest combination dresses are less patchy-looking than those lately in vogue, with alternate gores of different materials the whole length of the over-dress. They now return to the simpler fashion, first introduced, of having the entire over-dress of a lighter color, and the skirt of darker silk. True, some of the skirt material appears in the over-dress, but it is only as a vest or plastron, with collar, pipings, pockets, in many cases sleeves, and, when the garment is very long, in the side trimmings or panels that are now so popular. The materials for such overdresses are damasks of most indefinite designs and small figures; Louisine silks of quaintly combined colors, with each thread of different hue from that next it; and the loosely woven woolen stuffs in less defined pattern than the basket cloths and diagonals of last year.

Mothers, Mothers, Mothers.

Don't fail to procure Mrs. WINSLOW'S SOOTHING SYRUP for all diseases of teething in children. It relieves the child from pain, cures wind colic, regulates the bowels, and, by giving relief and health to the child, gives rest to the mother.

Killed in a Railroad Accident.

This morning a telegram was received by Mr. A. A. Hartsfield, from the Superintendent of the Atlanta & Chattanooga R. R., announcing the sudden death of Mr. Jno. W. Hewlett, formerly of this city, and a son-in-law of Mr. Hartsfield. Mr. Hewlett was an engineer, and was at his post when his engine plunged headlong down a washed culvert, killing him instantly. He leaves a wife and three children. His remains will be brought to this city by Mr. R. B. Hartsfield. There were no further particulars conveyed in the telegram.

Ho! For Burgaw on the First of May!

The assemblage at Burgaw on Wednesday, May the 1st., promises to be large. The managers of the festival in aid of Academy there are busy at work. The committee of arrangements for the railroad meeting have invited the speakers, and are making other proper arrangements. The invited speakers are Major Charles W. McClammy, of Pender; James G. Scott, of Onslow; Rev. John N. Stallings, and John D. Stanford, Esq., of Duplin. These gentlemen are expected to be present and deliver addresses on the important occasion. The railroads have agreed to carry passengers to and from Burgaw for one fare. Let us all turn out and have a fine time. Mary will be there from Pender and all the surrounding counties. The ladies will be there in large numbers. Music and dancing will enliven the day.

The Fire.

The alarm of fire this noon was caused by the burning of a lot of loose cotton in Messrs Hayes & Noland's junk shop on South Water street. The cotton was on the second floor, near the front of the building, and the only explanation of its origin is from the surmise that it caught from a spark from some passing steamer which was carried into the open window. The damage to Messrs Hayes & Noland's stock by fire and water is estimated to be about \$150, on which there was no insurance. The building is the property of Mr. Luhr Volders and is insured in companies represented by Mr. Norwood Giles, sufficient to repair all damages caused by the water. The Cape Fear Steam Engine was first to throw a stream through the Hook & Ladder boys were at work with buckets when the stream was thrown.

Onslow Speaks for the New Rail Road.

The subjoined letter from that able and eloquent gentleman, James G. Scott, Esq., of Onslow, is but a reflection of the sentiments of his county. It will be seen that he will address the people at Burgaw on the 1st of May in behalf of a Railroad from there into Onslow, in obedience to an invitation extended to him. The people of Onslow are evidently anxious for the road. They are in much need of such an inlet and outlet. Mr. Scott is very popular in Onslow and his people doubt less reciprocate the fine sentiments he utters. The two counties will doubtless pull together with entire accord, in behalf of the enterprise. Read the letter:

JACKSONVILLE, N. C. } April 19th, 1878. } DR. S. S. SACHRELL, Rocky Point.

My Dear Sir:—Your kind invitation to attend and address a Railroad meeting, at Burgaw, on the 1st of May, is received.

It will afford me pleasure to attend on such an occasion, and if I can say any thing in favor of the construction of a railroad from the W. & W. R. R. to any point in Onslow county, which would aid in the slightest degree that enterprise, I esteem it a privilege to co-operate by word and act with its friends in Pender. You well know my sympathy with the people of Pender county. I heartily recognize the importance of entire unanimity of thought and action on the part of both Pender and Onslow counties in this important movement.

Very truly yours, JAMES G. SCOTT.

Strawberry Short Cake.

One quart flour, one teaspoon salt, two teaspoons Dooley's Yeast Powder, three tablespoons butter, one egg, two tablespoons white sugar, and about half pint sweet milk. Sift the flour, powder and salt together, rub in the butter, cold; add the egg slightly beaten, then the sugar and milk, and mix into a smooth dough, just soft enough to be easily handled; roll out in two pieces quite thin, to size required; lay one on top of the other and bake in a hot oven, in a well-greased pan, about fifteen minutes, and separate while yet warm—not hot. Use one for the bottom crust, cover with a layer of berries, then lay on the other piece and cover as before. Serve with powdered sugar and cream. The above will make a large cake; half the quantities will make a fair size one.

Police Report.

In the Police Report at the City Hall for the past ten months administration, from June 4th to March 31st, we find that the total number of arrests for the ten months aggregate 1,050—of these 675 are white males, 30 white females, 287 colored males and 58 colored females. But of the 675 white males 524 applied for and were furnished lodging at the guard house; of the white females 18 applied for and were furnished lodging at the guard house. Of the colored males 75 applied for and were furnished lodging at the guard house, and of the colored females only one applied for and was furnished lodging at the guard house. The property recovered during these ten months administration and delivered to the rightful owners, consisted of one box of dry goods, one bbl. molasses, one bbl. kerosene oil, one lady's fur muff, one keg, one overcoat, one velocipede and two horses. One single barrel gun still remains unclaimed, and two bushels of meal and six chickens that no rightful owner could be found to claim, were turned over by order of the Mayor to the Ladies Benevolent Society.

In addition to the foregoing two colored infants (foundlings) were picked up on the streets. There have been eleven dogs killed by the city authorities—two that were mad, one for biting a horse, seven for biting persons and one that was in heat. The following is the disposition of prisoners who were arrested:

City Court.

Wm. Murphy, an umbrella and parasol patcher, was arraigned this morning for drunkenness. In fact the testimony proved that he was very drunk, so drunk that a dray had to be employed to haul him from Brooklyn where he was discovered, lying on the sidewalk, in a beastly state of intoxication, to the guard house.

When asked by the Mayor where he hailed from, and what his business was, he promptly replied that he was "from Montgomery, Ala." that he was "an umbrella mender, and only a short time in the city." He admitted that he was very drunk yesterday, but if His Honor would only let him off this time, he would promise that he should not be troubled with him again. The Mayor pronounced sentence of \$5 fine or five days in prison, but subsequently remitted the fine on condition that the defendant would pay for his ride to the guard house yesterday, and quit the city immediately, which was promptly agreed to. And so now the places that have known that umbrella fellow nuisance for the last week or ten days will know him no more. Exit Murphy, on the Little Bridge Road.

Two colored boys, Larry Williams and Benj. Clark, by name, were arrested this morning in the lower part of the city for fighting. Williams was released and Clark required to pay the costs of the Court. And this ends another chapter of the Mayor's Court for the City of Wilmington.

The patronage among the first-class hotels in New York is constantly changing from one hotel to the other. The Grand Central Hotel has recently incited the direct wrath of its competitors by offering the same accommodations for one and two dollars per day less than the others.

What Smoking Does for Boys.

A certain doctor, struck with the large number of boys under fifteen years of age whom he observed smoking, was led to inquire into the effect the habit had upon the general health. He took for his purpose thirty-eight boys, aged from nine to fifteen, and carefully examined them; in twenty-seven of them he discovered injurious traces of the habit. In twenty-two there were various disorders of the circulation and digestion, palpitation of the heart and a more or less marked taste for strong drink. In twelve there was frequent bleeding of the nose, ten had disturbed sleep and twelve had slight ulceration of the mucous membrane of the mouth, which disappeared on ceasing from the use of tobacco for some days. The doctor treated them all for weakness, but with little effect until the smoking was discontinued, when health and strength were soon restored. Now, this is no "old wife's tale," as these facts are given on the authority of the British Medical Journal.

Superior Court.

W. J. Duffie and wife, trustee, vs. the City of Wilmington. Injunction prayed for on the ground that the City of Wilmington exempted from taxation for the year 1877, 1st. Solvent credits to the amount of several hundred thousand dollars; 2d. City bonds to a like amount, and 3d. Stocks of banks and other corporations to an amount of several hundred thousand dollars. Plaintiffs contended that under art. vii sec. 9 of the constitution requiring all taxation to be uniform and ad valorem, that the city had violated said constitution and rendered the tax illegal and void. The Judge continued the injunction and ordered a reference to the Clerk to ascertain the amount of taxable property the city had then exempted, and to ascertain approximately the amount of the tax which was legal; that portion of the tax which was illegal he would enjoin the collection of perpetually. Brinkly vs. Brinkly, for divorce. Judgment for plaintiff. James Wilson vs. Jeff James, for possession of property under landlord and tenant act. Verdict for plaintiff.
