VIEWS AND REVIEWS.

Ex-Congressman Vance, of Ohio, who mysteriously disappeared, and was found in San Francisco, is described as really insane. He is perfectly harmless and tractable, and claims to be unable to remember anything about his recent journey.

The Shah of Persia is to assist at the opening of the Paris Exposition. There was a slight revolt lately in a portion of largely in arrears, and stones were thrown by soldiers at his carriage and at those of his Ministers. Ten of the offenders were instantly beheaded, ten others were cruelly mutilated, and order was restored.

Gov. Irwin of California does not believe in hanging on Good Friday. He reprieved John Runk, a murderer sentenced to be hanged on that day, giving as a reason "a respect for the religious sentiments of a very large number of citizens, that a revered religious holiday should not be profaned by fixing upon it as a day for the infliction of capital punish-

Gen. Ignatieff is blessed with a wife as remarkable for her talents as for her beauty. During all the years that he served at Constantiuople as Secretary of Legation and subsequently as Minister, Madame Ignatieff was the cynosure of the court circles, where her address and fascinations contributed in no small degree to the diplo matic triumphs of her husband. "You have but one rival General," once remark. ed M. Legremond, the French Ambassa dor, "and that is Madame."

A convict in the Erie county penitentiary, known as William Freeman, turns out to be a woman. Her real name is Mary Ann Schafer, and she has worn male attire, she says, since she was eleven years old. She adopted at first boy's dress in order to get employment on a farm and has worked out, of doors so long that her face and hands are unfeminine, as are her walk and manner. She is 23 years old.

Mr. E. A. Buck, editor of the. Spirit of the Times, wrote to Sothern, with a hint that a new clock to replace one that had been stolen from his desk, would be accepted if offered. The property clock used in the first scene of the "Crushed Tragedian," which is an imposing affair ten feet high, but only a shell of painted canvas on a wooden frame, was immediately boxed and shipped by Mr. Sothern. Accompanying the gift was a letter assuring the recipient that though perhaps a little large for a desk ornament, the clock was absolutely reliable, and was warranted "not to vary a second in ten years."

Life risking performances are yet numerous here, notwithstanding the tragical endingof one of them recently in Pawtucket, Rhode Island. In the Bowery Theatre Buffalo Bill is displaying his marksmanship with the rifle, though a part of his performance was considered so dangerous in Brooklyn that Mayor Howell required theatre in Broadway, the woman who fatally wounded another woman while trying to split an apple upon her head with a rifle ball, upon the stage in Pawtucket, is a conspicuous star. In another variety theatre a man who claims extraordinary skill with the sabre, and who cut a not long ago, while essaying to halve an apple with the sabre, without touching her neck, figures conspicuously. PRIVATEERING.

As was anticipated, says Macon Tele. graph, Russia is fully on the qui vive, in the event of the breaking out of hostilities with England, as to the importance of damaging the commerce of her adversary. The United States refused to sign the declaration submitted at Paris in 1856 that "privateering was abolished." Neither upon examination do we find Russia mentioned as a subscribing party to the agreement. Most of the second rate powers of Europe

signed it. But even if our government set its face against sanctioning the acceptance of these letters of marque by any of her citizens, it would be difficult to see how they could be prevented enlistarmy on account of the pay being ing as Russian sailors and soldiers in Russian bottom; procured by purchase or othewise, and regularly commissioned under the flag of that nation. Just as Irish, German and other foreign companies and brigades were commissoned and placed in service by the United States government in the late war, could Russia accept the aid of Americans if regularly enlisted and commissioned by her sovereign. Of course those thus employed would, however, forfeit claim to and become to all intents and purposes Russian belligerents.

Does not the same many people think that there was some truth in the stories; his denial of them and the expression of his determination to return have removed doubts and satisfied the public generally that the Bishop can readily dispose of the charges against him. It has become known that the person who claims to have discovered the correspondence is exported foots up to several hundred one George McConnell, a printer, once a beau of the Fanny Richards with whom, it is alleged, the Bishop was improperly connected.
