VIEWS AND REVIEWS.

The discovery has just been made that Bishop Ravelles and other French mis sionaries are held confined in the capital o" Corea, and are in danger of death. A call has been made for their rescue,

An enthusiastic cockney has raised delicious strawberries on the roof his house 'In the Fancy Line! in London, under the very shadow of St. Paul's, and cries out in the newspapers, "Who has got anything to say about the in this age or country, was expelled Edgecombe, Northampton and Warimpurity of our foggy and smutty atmosphere now?"

A lover of old books recently made in London a lucky purchase. Between the pages of a volume costing a shilling, was found a marriage certificate of the Earl of Berkeley, which the finder sold to Lord Fitzharding for \$50, with a promise of \$1, 000, should the document prove authentic.

A growth of human hair, the longest on record, is among the curiosities to be seen at the Paris Exposition. It came from the head of a Norman girl, Merlot by name, who lived with her mother in the extremest poverty. It is seven feet long, of an exquisite golden color, luxuriant and silky.

Hattie Mosler, an orphan, thirteen years of age, being accused of stealing thirty cents, committed suicide by drowning in the Oswego and Syracuse canal, Part of the money has since been found on the floor of the store kept by the man who made the accusation, and the real thief has confessed.

At the dinner given in Berlin by the Crown Prince of Prussia to the members of Congress the table was arranged with great skill. Before each plenipotentiary flowers were artistically placed so as to represent the different National colors of his nation. The boquet placed before the Turkish envoy represented a crescent in the white camelias in the midst of scar-

The cemetery in Munich is a sight for the visitor for in buildings erected for the law before burial. None of the gloom of the grave surrounds these remains, but they are attired in every day costumes and placed in careless or half-reclining attitudes, amid fresh flowers. To the hand of each is attached a wire leading to a spring bell, so that an alarm may be given in case of resuscitation.

The returns of life insurance in England do not compare favorably with the same business in this country. The largest English company has only \$30,-000,000 of assets against \$82,000,000 in the largest American, the ten largest companies in this country have \$300,000,000 of assets against \$193,000,000 in the ten their investments, ours 6.80 per cent., in income and in the rapidity of accumulation. Of the twenty-nine leading companies in both countries, the English supported \$1,100,000,000 of risks on an income of \$48,000,000, and ours a risk of \$1,621,000,000 on an income of \$89,000 -

SAID TO BE CHOLERA.

Asiatic cholera has broken out there, and that its presence (naturally enough we think) is causing great excitement.

"Clara Draper died on Monday night. Her body turned instantly black, and the stench very soon became highly offensive in the neighborhood. Undertaker Allen ordered her burial to take place to-night. Two other deaths are reported as having occurred in this city yesterday. The most efficient precautions are being taken against the further spread of this dreaded disease."

This is all we find relative to it in any of our exchanges, and the fact is apparent, either that its presence is real, and that the authorities there are endeavoring to suppress the truth, or else that the report is entirely sensational. A discriminating public can take i's choice.

HERE AND THERE.

There was a gallant parade of troops the other day at the barracks near Newport. It was a splendid affair or, rather, it would have been, but for the fact that a terrific rain came up and drove the beautiful female spectators from the ground in a terribly wet and bedraggled condition. Col. R. T. Frank, (formerly in command at Wilmington and whom we all remember with feelings of regard) was there with his Command. At the same time, about three thousand miles to the East, there was another grand parade but not of mimic warfare nor in the presence of applauding beauty. It was a real, live Indian fight. Are there so few hostile Indians and so many Federal, soldiers in the Far West that whole companies, battalions and regiments can be spared to man the idle forts on the Atlantic Coast?

COMMODORE MAURY.

An act of tardy justice or, more right a wrong, has just been accomplished. Commodore Matthew F. Maury, formerly of the United States Navy, but a time and gallant son The nominee is Jas. E. O'Hara, a of his native State, Virginia, during the late oppleasantness, a practical worker, a scientist of an extended order of abilities, a distinguished and accomplished American officer and one who has done more to advance n aratime interests than any one man during the war, from the New York Marine Society, of which it scems that he was a member, and all because he would not draw his sword against mittee on credentials was appointed, the state of his birth, his own home and family and friends. It was an outrage, of course, and one which the proud spirit ct an honorable man like motion the temporary officers were Commodore Maury must have repelled with indignation. Now, however, the same concern which ordered his name expunged from its roll has passed an order directing that it be restored. This is what we find in the New York Times of the 9th inst:

At the quarterly meeting of the New York Marine Society, yesterday, the following preamble and resolu-tions were adopted on motion of Capt. James F. Parker:

Whereas, During the period of our late civil war a resolution was passed by this society condemnatory of the course pursued by the late Matthew F. Maury, formerly a Lieutenant of the Navy of the United States, and directing that his name be expunged from the list of honorary members of this society, and that certain resolutions that had theretofore been passed commending him for his efforts in the cause of nautical astronomy and navigation be likewise expunged from the records of the society; and

Whereas, It seems entirely proper that in the present era of returning good feeling between the people of the North and South, this society should rescied the aforesaid condemnatory resolution; therefore

Resolved, That the action of the purpose many be seen dead persons wait- society heretofore taken be revoked; ing the lapse of three days required by that the said expunged resolutions be restored to their proper place in the records as at the date of their passage; and that the name of Matthew F. Maury be restored to the list of those who have been honorary members of this society.

Commodore Maury died some seven or eight years ago and as far as his own feelings are concrened the restitution is rather late. As for his scientific world at large, we presum that the amende is a matter rather of indifference than of rejoicing as the original action of the "New York Marine Society" has not lowered him very materially in their regard, and largest English companies. The English through his labors which will live and since received such frequent and positive thence westwardly with said line of Red be remembered when the puny puis- confirmation. sance of the "New York Marine Society"will be as completely unknown 100.000 which accounts for the great difference to the world as its vindictive fulminations against one of the most accomplished men of the sge fell harmless

> "Trailing our banner in the dust" is a very pretty expression but most too venerable, a fact which we must commend to the attention of North Carolina editors.

It appears that the Khedive of Egypt A dispatch from Norwich, Conn., is uncommonly anxious to surrender his under date of the 10th, says that the authority to England, on condition that CAROLINA CENTRAL RAILhe may retain his monstrous civil list and that his son's succession be guaranteed. This cool proposition having been politely declined by the British government, his Egyptian Serenity now writes to the Prince of Wales, begging the latter to use his personal influence in favor of the project.

> [Charlotte Observer.] Luel in Highly Colored Life.

A very considerable sensation was produced yesterday afternoon by the announcement that two colored men, servants of Col. Frank Coxe, had fought a duel in the back yard and shot each other down. Crowds rushed to the scene of the tragedy and found the two men, Mose Jones and Marshall Morrison, lying near each other, apparently badly hurt. No one saw the whole of the difficulty, the family being absent at the time, and hence all the facts in the case are not known, but it appears that Morrison had insulted Jones when the latter threatened to kill him with a piece of plank. Morrisen drew a pistol and fired five shots at his antagonist, one of which took effect in his thigh. In the melee Jones struck Morrison a very severe blow on the head. The fight lasted for several minutes and both men were greatly exhausted, and as stated above, were apparently in a dangerous condition. Drs. Jones & Graham were summoned at once, and an examination proved that neither had been fatally hurt. Morrison, who was struck in the head with the plank, has apparently suffered a worse injury than his antagonist. The ball was taken from Jones' thigh, and it was discovered that no bones were

Both men were doing well last night, and it is said that each improved considerably on hearing that his antagonist was not mortally wounded.

They have borne excellent characters, and are remarkably good servants.

Goldsboro Messenger. More Crow-A Negro for Congress in

this District. The Republican Congressional Convention for this District assembled at

properly speaking, an endeavor to the Town Hall in this place yesterday, and following in the footsteps of the late Judidial Convention, held a: Tarboro, nominated a negro for Congress to succeed Governor C. H. Brogden. West India mulatto carpet-bagger, now a resident of Halifax county, the same county that furnished the 3rd Judicial District the negro Superior

Court Solicitor. The Convention, consisting of a motley crew of delegates and lashers from the [counties of Craven, Jones, Lenoir, Greene, Wayne, Wilson, Halifay, ren, was called to order at 12 o'clock with O. Hubbs of Craven, as tempor-Arrive at Wilmington..... 8 30 A M ary chairman, and E. E. Smith, colored, of Wayne, as Secretary. A comafter which the Convention took a recess till 2 o'clock. On re-assembling the committee reported a full delegation from all the counties. On made permanent, after which the Convention again adjourned to

Soon after re-assembling at 4 o'clock, the work of balloting for a candidate commenced by call of counties. On the first ballot, Humphrey received 3 votes, Mabson 2, O'Hara 2, Moore 1, published records, as we find it in the King 1, Peeples 1, Thorn 1, Harris 1, OFFICE OF GEN'L SUPERINTENDENT Stanton 1, Abbott 2. Balloting continued without any material change until on the 29th ballot, when Humphrey received 7 and O'Hara 8, and O'Hara's nomination was announced amidst the wildest disorder of the mington & Weldon Railroad will run as foldelegates. It was apparent throughout the proceedings that the negroes were determined upon nominating one their color, and no concealment of this was attempted, and on the "color line" the nomination was made.

> The nomination of O'Hara over such men as Humphrey, Brogden, Stanton, Moore and King is an insult to the people of this District, that cannot be too severely rebuked. For brazen effrontery it has no equal, and for all the colored men voted for he was supposed to be the last likely to receive the nomination. It is a bad spirit tuat has beset the colored people, but as it is not our funeral, nor the funeral of the Democratic party, we must try and do the best we can. The blacks have now drawn the color line in unmistakable terms; the whites can and must accept it.

Blindly Groping

For some medicinal alcoholic resuscitant of physical energy which should take the place of the heady, and frequently adulterated stimulants of commerce, the medical practitioners of a quarter of a century ago were electrified on first observing the reviving effects upon the system of a tonic then recently introduced, but which has since become the most popular medicine sold on this continent, viz: Hostetter's Stomach Bitters. Their astonishment and admiration were increased when experience far- National Bank of Wilmington, N. C., said friends and countrymen and the ther disclosed that this botanic remedy deed bearing date the 9th day of April 1875, effected results which the mineral drugs of and recorded in the Register's Office of New the pharmacopæia often utterly failed to produce-among others, the permanent restoration of vigor, the removal of diges- M., at Exchange Corner, offer for sale by tive, secretive and evacuative irregulari- public auction to the highest bidder that certies, and the eradication and prevention of tain not or parcel of land situate in the City periodic fevers. Geo. P. Rowell & Co's SELECT LIST -OF-

Local Newspapers.

Many persons suppose this list to be composed of CHEAP, low-priced newspapers. The fact is quite otherwise. The Catalogue states exactly what the papers are. When the name of the paper is printed in full-face type it is in every instance the best paper in the place. When printed in Capitals is the only paper in the place. When printed in Roman letters it is neither the best nor the only paper, but is usually a very good. one, notwithstanding. The list gives the population of every town and the circulation of every paper. It is not a Co-operative List. It is not a Cheap List. At the foot of the Catalogue for each State the important towns which are not covered by the list are enumerated. It is an Honest List. The list includes 970 newspapers, of which 163 are issued Dally and 807 Weekly. They are incated in 825 different cities and towns, of which 22 are State Capitals. 328 places of over which 22 are State Capitals, 328 places of over 5,000 population, and 444 County Seats. Lists Sent on Application. Address GEO. P. ROWELL & CO'S Newspaper Advertising Bureau, 10 Spruce St. (Printing House Sq.)
