

INDIANS RISING IN OREGON

Capt. Miles Fighting the Redskins near the Agency—Alarm in Pendleton.

PORTLAND, Or., July 14.—The following startling news has just been received here from J. E. Keeney, dated Pendleton, July 12. The day patch is directed to Gov. Chadwick:

"Yours just received; will try and get escort for the wagon in the morning. We have been having exciting times here to-day; hostile Indians are in force on the reservation. George Coggan of Portland and Al Bunker of La Grand were shot this afternoon about sixty miles from here on the Stager road to Cayuse. Coggan was killed, and Bunker is supposed to be mortally wounded. Fred Foster was with them, and only got away by luck. Bunker rode with him about two miles after he was shot, when they were compelled to part. Foster brought the news, and we started a team, with fourteen men as an escort, to go for Bunker. They got as far as Chief Wincemont's farm, where they were attacked and driven back after exchanging a number of shots. The Indians are about 150 strong, and the Umatillas are undoubtedly fighting with them. Major Conroy was with the party, and thinks they killed one Indian, as he was seen to fall from his horse. The Coyuse House was pillaged and burned. Our stage station was not burned at dark. Capt. Miles's command will reach the Agency to-night. His soldiers are exhausted, and should they go to the Agency, thinking the Umatillas are all right, they may get the worst of it. Our families are at the mill and Court House, and the town is well guarded."

The following letter has just been received by Gov. Chadwick at Umatilla, by courier from Pendleton: "The troops under Capt. Miles are now fighting Indians about two miles above the Agency. They have been fighting for the last two hours. The Indians are on the river, near their general camping place. Almost all the Umatillas are supposed to be in the fight. Al Bunker has just got in. Coggan has not been found yet. Should the Indians get the best of Captain Miles, we will all undoubtedly have to fight. There are over 100 men here who have to arms of any kind."

LONDON, July 14.—The arrangements for the reception of Earl Beaconsfield, on his return from Berlin next Tuesday, will be extensive. A special train for his conveyance from Dover to London will be provided, and a committee of the Carlton Club will meet him at Dover and accompany him to town. At Charing Cross station another committee of the club and many of the members will meet him, and popular enthusiasm will manifest itself in various ways. The time for the banquet at the Carlton Club has not yet been fixed. It will depend upon the state of Earl Beaconsfield's health upon his return. It is said to-day that his indisposition had been rather serious, but that he was now as well as usual. The railway authorities are heartily co-operating with the committee of Carlton Club in making arrangements for the reception of the Premier. The reception will fall but little short of that given to the Prince of Wales on his return from India. Platforms of great size will be covered with carpet. Vast quantities of native and tropical plants and flowers will be placed in rows, and rows of seats will be arranged for those invited to attend. Many of the houses along the route will be handsomely decorated.

A New Professor in the University. He arrived Thursday morning. His ancestors to the fifth generation have been officers in the University of North Carolina. His father is now a professor; his maternal grandfather is now a professor; his paternal grandfather was a professor; his own great-grandfather, his mother's maternal grandfather, his own great-grandfather, his father's maternal grandfather, his own great-grandfather was steward; and his maternal grand-mother's paternal grandfather (by marriage), was the first President of the University. He has been represented in the Faculty by his father, his two grandfathers, two great-grandfathers, and one great-great-grandfather. His great-great-great-grandfather signed the Declaration of Independence in 1776, and his great-grandfather was present at the Centennial in 1876. At present he is in the department of literature; his speciality being elementary sounds. Weight ten pounds.

Prince Bismarck's Closing Speech. BERLIN, July 14.—Prince Bismarck, in his speech closing the Congress on Saturday, declared that he did not hesitate to affirm that this Congress deserved well of Europe. The plenipotentiaries would have the consciousness of having, as far as was possible, restored and assured peace. He entertained a firm hope that the European understanding would remain durable, and that the cordial relations among the plenipotentiaries would consolidate good relations between their governments. Prince Bismarck incidentally remarked, that his health was such that he had scarcely hoped to preside over the Congress until its conclusion.

Count Andrassy started for Vienna on Saturday, and Lord Beaconsfield left for home to-day. The young people of Faison are preparing for a grand Charade and Tableau to come off on Thursday, the 18th inst., to conclude with a grand Ball at night.

Work Restored to Twenty Thousand Miners.

PORTSMOUTH, Pa., July 14.—There will be a general resumption of mining to-morrow morning, after a suspension of two weeks. The miners of this region will return to work with a fair prospect of continued steady work for the balance of the shipping year. The prospect for steady employment and slightly advanced wages creates a much better feeling among the workmen here, and an improvement in business is generally looked for throughout the coal regions by the employment of the 20,000 men and boys in the various mines and railroads engaged in the trade.

Yellow Fever in New York.

NEW YORK, July 14.—Yellow fever has made its appearance in this port, there being a number of cases in the Quarantine hospital. Four patients were taken from the steamer Niagara, which arrived here from Havana a few days since. One of these, a fireman, died yesterday. There are altogether about eight cases in the hospital, but the health officer says there is no cause for apprehension.

CAROLINA.

Newbern is to have another big box race to-morrow. The Young Men's Christian Association in Charlotte had a book reception last Friday night and received 129 volumes, all standard works.

Newbern Anticell: Saturday was probably the warmest day we have had this summer. At night a heavy rain fell, which was much needed, and which cooled the atmosphere to such a degree as to make yesterday and last night delightfully pleasant.

Charlotte Observer: Col. John E. Brown exhibited, yesterday, 60 penny-weights of gold which was taken, during last week, out of a mine on a place of his near the city, which is being worked on a small scale.

Charlotte Observer: Mr. John Springs Davidson, of Hopewell, brought into the city yesterday and shipped by express to the Agricultural Department at Raleigh some beautiful specimens of white oats, red clover and wild rye grass. The oats measured 5 feet in height, the clover 4 feet 9, and the rye grass 6 feet.

Goldsboro Messenger: Duplin county is cursed with a few independent candidates. A Mr. Cavonagh offers to sacrifice himself for the Legislature, and the irrefragable B. H. Kornegay would like to occupy the Clerk's office, but the present efficient incumbent of the office, J. D. Southland, will distance him at least 800 votes.

Chapel Hill Ledger: The prospects for a brilliant commencement at the close of the Normal School are bright. There will be a Kindergarten exhibition, theatricals, and an intellectual feast to be given by the Debating Society. Some prominent speaker will deliver an address, and no College commencement will afford a more interesting occasion. We will publish a full programme in our next.

Goldsboro Messenger: There is not the best feeling on the part of Col. Humphrey's congressional friends towards Mr. O. Hubbs of Craven. It is openly charged that having been selected chairman of the Congressional Convention by the friends of Col. Humphrey, and supposed to be an Humphrey man, he yet did all in his power to defeat the Colonel.

Charlotte Observer: Capt. S. E. Bell, county Treasurer, has nearly completed the payment of the July interest on the bonds of the Wilmington, Charlotte and Rutherford Railroad Company. There are now outstanding only about \$40,000 worth of these bonds, about \$20,000 of them having been taken up during 1875 and '76.

Goldsboro Messenger: The Radicals of Jones county want a colored man for Superior Court Solicitor in this District. At their county convention they adopted the following resolution, viz: "Resolved, That we endorse Geo. T. Wassam of Wayne county as our choice for Solicitor of this Judicial District and urge his nomination to said position." Wassam requests us to say that he will not be a candidate.

Passed Down the Line.

Three car-loads of Georgia water melons stopped and dished out at this place last night. Citizens flocked from all corners to get the first of this season. A tall, pale, agitated-looking man, who is literary and pious and has an exceedingly large family, strolled out with his umbrella for a walking cane, to buy a fine melon for Melinda. He bought a large one and handed it to a small colored boy to "hold for him," till he could make the change to pay the carman. Now, there were just 47 little factory negroes all in a row, and all pointing for watermelon. "Pass it down de line, Zee ke, quick, and take it to de pines," said number one, and like a flash the end boy had it and was off to the thick cluster of pines. The pale man soon returned and asked for his melon. But the nig was up to snuff. "Boss," said he, "mammy called me, an' I gub it to Zeke, an' Zeke, he's got a sore foot, an' he gub it to Ike, an' Ike and to go for a pair of water, an' he gub it to dat nigger you see dar, he can't big 'nuf now to nuss a baby, an' he let it fall an' squish it. I-ee sorry for it, boss, but tain't no fault ob mine, mammy called me, yer know, but I don't charge yer nuth'n for what I done, I loves to help a friendly man."

"Tut, tut," said the pious looking man, and he walked sadly home and let Melinda and the children pull his hair for half an hour. But there was an old time melon eating in the pines last night.

Hot Weather in St. Louis.

ST. LOUIS, July 14.—This has been another hot, scorching day, and the death rate was terrible. Fully fifty cases of sunstroke have occurred to-day, and about twenty deaths, including a number of the cases of yesterday and Friday.

At the White Sulphur.

GREENSBORO, White Sulphur Springs, W. Va., July 14.—The meeting of the American Sanitary Commission, which was to be held this month at the Warm Springs, has, for the present, been indefinitely postponed. The Military Commission will meet on the 22d inst. Judge Wayne MacVeagh is here, and Gen. Joseph E. Johnston is at the Warm Springs.

Dr. Helmbold a Lunatic.

PHILADELPHIA, July 14.—In the Common Pleas Court yesterday Judge Ludlow delivered the opinion of the court on the application of Dr. Henry T. Helmbold to sequester the commission in lunacy which was some time ago appointed. The court decides that the petitioner is a lunatic with lucid intervals, and declined to grant his petition.

A Mob Fired Upon by Troops.

NEW YORK, July 14.—A Herald special from Montreal says: "As the Sherbrooke and Richmond troops were leaving here yesterday for home a large crowd gathered to see them off. The crowd taunted the soldiers with having come to Montreal to see Protestants beaten under their noses, and as the train pulled out an Orange handkerchief was shook in defiance at the mob, which immediately stoned the train, smashing windows, &c. Fifty shots were then fired into the mob, and two men wounded, probably fatally. General Smyth ordered that the men should be arrested who fired. He will investigate the whole affair."

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail by addressing with stamp, naming this paper. W. W. Sherar, 149 Powers' Block, Rochester, New York. je 18-4w
