Does a lawyer use figures of speech in summing up an argument?

The Mercury stood at 90° in the shade this morning at 10 o'clock.

There is a great complaint of hot weather and several townships yet to hear from.

Charity enables us not to see a great many things which pass before our eyes.

A fine supply of all kinds of vegetables, at reasonable prices, in the market this morning.

A large quantity of beef and some fish were condemned and sent out of market on Saturday.

It has been remarked to-day something less than 9,999,999 times that--it is a very warm day.

There is a letter held for postage in the Raleigh post office directed to Mrs. Maria Jones Wilmington, N. C.

About a dozen per day is the number of times that the average small boy indulges in a bath these hot days.

It would take but a very little change in the style of "combination" dresses of the day to forcibly suggest a convict suit.

One trucker brought 3,988 canteloupes to market last week for which he received an average of 8 cents a piece.

It takes just nine minutes by a Connecticut clock, for a paper collar to wilt and travel down the spine this hot weather.

"Age and wedlock bring a man to his nightcap," remarked the philosopher, when his wife inquired why he chewed cardamom seeds in bed.

A Detachment of the Hornet's Nest Riflemen in full uniform will accompany the Charlotte Grays on their excursion to this place on Wednesday next.

By a special resolution of the vestry of St. James' Parish the congregation of St. John's church have been cordially invited to worship during the absence of their rector, Rev. Dr. Patterson in St. James' church.

Small Favors Thankfully Received. This city was visited by quite a shower of rain between 2 and 3 o'clock this morning, but the ground is still thirsty, and we would be thankful for still another visitation of the same kind any time to-day or to-night either.

The Reverend Doctor Patterson. The Rev. George Patterson, D. D., rector of St. John's Church, leaves the city to-night by the Southern train for the University of the South at Sewanee, Tenn. Dr. Patterson is one of the trustees of that institution, and goes to attend the regular annual meeting of the board.

We are pained to learn that Dr. Patterson is in receipt of the sad intelligence of the death of a very near relative who resided in the vicinity of Taunton, Mass. We tender the reverend gentleman our sincerest sympathies in his affliction.

Colored Excursion. About six hundred colored excursionists from Columbia arrived on in this city yesterday. Most of them attended the churches in the morning and evening, and to-day they embarked on the Passport for Smithville. They leave for Columbia to-morrow morning. The excursion was gotten up under the auspices of one of the church governments of Columbia, and the receipts will be used in erecting a building to worship in.

False Economy. It is true economy to use cheap, adulterated baking powder, which is highly injurious to health, merely because it is cheap! Common sense and experience say no! Dooley's Yeast Powder, which has been well known for twenty years as an absolute pure, wholesome, and, in every respect, reliable article, is within the reach of all those who practise true economy in this respect.

Red Hot.

The thermometer was 98° in the Charlotte Observer's office at 2 o'clock on Friday. That's along ways above our previous record, 92° being the highest report here this season.

Sold and not Sold.

The Charlotte Observer of Saturday says that the reported purchase of the Charlotte, Columbia & Augusta Railroad by the Richmond & Danville is still talked of. It was again stated on the streets that the purchase had been made and that \$600,000 was the amount paid, but the report could not be traced to a reliable source.

Effects of the Sun.

The heat on Saturday was so intense that several laborers were overcome by the rays of "Old Sol" and had to receive medical attention. Mr. Lathan Boon was the worst sufferer we have heard of, his case was much more severe than any heretofore reported this summer, and his condition was looked upon as critical.

Knights of Honor.

To-night a special meeting of the Knights of Honor will be held for the purpose of conferring degrees upon newly elected members. Twice during July have special meetings been held for this purpose, as it was found impossible to confer degrees upon all the new members at regular meetings of the Lodge.

City Court.

Annie Yancey, an old offender and a frequent attendant upon the Mayor's Court, was arraigned this morning upon the charge of disorderly conduct. Judgment was suspended, however, and the defendant discharged, in consideration of the fact that she had agreed to turn her back on Wilmington, migrate to parts unknown and seek new fields and pastures green.

This compact being agreed to by all parties concerned, and there being no further business, His Honor adjourned his light straw hat in a becoming style upon his head, and left the Chair in search, it is supposed, of a cooler spot of yearth.

The Brooklyn Sunday School Excursion.

Mr. J. W. Taylor, Superintendent of the Brooklyn Mission Sunday School, announced to the school yesterday that from the sale of tickets and other sources for the excursion on Friday last, enough was realized to pay for the charter of the boat and leave \$13.75 to be put in the Treasury of the Sunday School.

Meeting of the Board of Health.

The New Hanover County, Board of Health held a meeting at the Mayor's Court room in the City Hall on Saturday night for the purpose of considering the condition of the Quarantine regulations of this port in deference to the Quarantine Officer, and to take such steps as are necessary to make the quarantine of the port efficient.

Wine for Invalids.

The Port Grape Wine of New Jersey is the best medicinal wine in the market, and it is stated that the vintage of A. Speer far exceeded any other produced. It is heavy in body, rich in flavor, and well adapted for sickly persons and for general family use.

Very Sick.

We regret to learn of the recent illness of Dr. W. J. H. Bellamy. A few days ago he was very ill and for a short time in an extremely critical condition.

Where Relief can be Found.

These warm days when people feet swell and blister, they are a source of great trouble and the question most frequently asked is what can be done to relieve them. In order to render them happy and give relief, Mr. Thos. H. Howey has reduced the price of his shoes and gaiters and invites persons to examine his stock get his prices and go and complain no more of sore feet.

A Sudden Squall.

About two o'clock this evening a squall struck a barque lying nearly opposite our office and for a few moments the most of her staysails, which had been loosed to dry from the effects of last night's rain, seemed in a fair way to leave for the swamps of Brunswick county.

Convicted.

The two outlaws, John and Neil Locklear, who murdered an Irish pedler by the name T. Bryce near the South Carolina last winter, and who were captured some month or so ago and confined in the Marion, S. C. jail, an account of which appeared in the REVIEW at the time, have just been convicted of murder in the first degree at Bennettsville, S. C.

Honors to a Wilmington Boy.

Dr. Homer A. Huntington, son of our former townsman, Wm. Huntington, Esq., now a resident of Amesbury, Mass., and a grandson of the late Thos. W. Brown, of this city, has secured the position of physician and surgeon on board of one of the royal mail steamships plying between Liverpool and Hong Kong.

False friendship is like the parasitic moss, which feeds on the life of the tree which it pretends to adorn.

A sour heart will never make a sweet life. Plant the crab-apple where you will it will never bear pippins.
