

THIS PAPER published every afternoon, Sundays excepted by JOSH. T. JAMES, EDITOR AND PROPRIETOR.

SUBSCRIPTIONS, POSTAGE PAID. One year, \$5 00 Six months, \$2 50; Three months, \$1 25; One month, 50 cents. The paper will be delivered by carriers, free of charge, in any part of the city, at the above rates, or 13 cents per week. Advertising rates low and liberal. Subscribers will please report any and all failures to receive their papers regularly.

THE DAILY REVIEW.

VOL. 3. WILMINGTON, N. C., WEDNESDAY, JULY 24, 1878. NO. 148

PLEASE NOTICE.

We will be glad to receive communication from our friends on any and all subjects of general interest but the name of the writer must always be furnished to the Editor.

Communications must be written on only one side of the paper.

Personalities must be avoided.

And it is especially and particularly understood that the editor does not always endorse the views of correspondents, unless so stated in the editorial columns.

(Special Correspondence of the Review.)

A buttermilk bath is good for a sun-burnt nose.
Do you want an inexhaustible judiciary? Then register.

A slice of lemon dropped into iced tea is a wonderful improvement.
And again yesterday a quantity of beef and fish was condemned and sent out of the market.
The "Garrell faction" orates in the Fifth Ward to-night and the "Manning faction" in "de g-alorious Fust."

Copperas, lime and carbolic acid will be given to persons for sanitary use, upon application to the Chief of Police.
To prevent mosquitoes from biting, wear heavy flannels at night; they have been known to fail to penetrate these garments.

Mr. L. M. Williams clerk of the market reports that within the past four days 24,677 watermelons and canteloupes have been sold in the vicinity of Mad Market.
Nearly all the vegetables and fruit which are brought to this city are bought up by hucksters who pay no taxes and are retailed to our citizens at double prices.

Dr. W. T. Ennett, of Pender county, who has been quite ill for the past week in this city, at the residence of his brother-in-law Capt. K. M. McIntire, is now, we are happy to state, convalescent, and hopes to be able to return to his practice the latter part of this week.

Third Ward.
Meeting of the Third Ward Democratic Club is called for to-night. Let every Democratic voter in the ward turn out and ensure a full meeting.

The First Cotton Bolls.
Messrs. Kerchner & Calder Bros. received this morning from Marion, S. C. by express a cotton stalk taken from the plantation of Mr. E. J. Moody, which contains fourteen bolls, thirteen of which are nearly matured and ready to open. The cotton seed was planted on the 20th of last April and the developments of this stalk are nearly one month in advance of the usual time—rather precocious stalk we should say, but who can beat it?

City Court.
William Thomas and Edward Hill, two colored boys, were arranged before His Honor this morning on the charge of fighting. As they had been confined for two days and the charge not being one of any magnitude they were discharged. It was a good lesson for them and an excellent warning to others of their ages not to fight in the streets to the annoyance of good citizens.
Stephen Richardson, for being drunk and resisting a police officer, was fined \$10 or ten days imprisonment in the city prison.

Capt. Galloway will speak.
We are informed by Mr. DuBrutz Cutlar, the Chairman of the City Executive Committee, that Captain Swift Galloway, the Democratic candidate for Solicitor of this Judicial District, is to speak in this city on Friday evening next, the 26th inst. The place where the speech is to be delivered, has not yet been determined upon, but timely notice will be given. We trust that all true Democrats will turn out and give Capt. Galloway a hearty, cordial Old Cape Fear welcome, for he is remembered that Capt. G., himself, hails from the Cape Fear country.

Brown Bread.
Three cups graham flour, one cup corn meal, two cups cold water, half cup molasses, two teaspoons DOOLEY'S YEAST POWDER, with salt to suit taste. Mix the powder with the flour and meal while dry. Bake an hour and a half in a slow oven, with paper over the top.

Wine for Invalids.
The Port Grape Wine of New Jersey is the best medicinal wine in the market, and it is stated that the vintage of A. Speer far exceeded any other produced. It is heavy in body, rich in flavor, and well adapted for sickly persons and for general family use. For sale at Green & Planer's drug store.

Supreme Court.

In the Supreme Court at Raleigh on Monday the following case was argued:
Henry Von Glabu et als, vs A. J. DeRosset et als. from Brunswick; argued by Daniel L. Ruse and W. S. & D. J. Devane for the plaintiffs, and Charles M. Stedman for the defendants.
Court adjourned until 9 o'clock (Tuesday) morning, when the consideration of appeals at the end of the docket were to be resumed.

Personal.
Never has a steamer's commander given more general satisfaction to owners, agents and traveling public, than has Capt. John W. Harper, of the steam yacht *Passport*. He is a polite and retiring gentleman, who takes a pride in the appearance of his craft, and does all in his power to make his passengers comfortable, and points out all places of interest on the river to the uninitiated. It was our misfortune to be ailing a few days ago while going to Smithville on business, but it was our good fortune to fall in with Capt. Harper at whose hands we received every attention and for which we now doff our hat in recognition of that kindness.

Handsome Prize.
The first prize won by the yacht *Rosa*, a handsome picture of the winning yacht, in the first race of the season of the Carolina Yacht which was sailed on the river last month, was delivered to Capt. John M. Cazaux this morning. The picture is 22 x 24 inches and is as handsome a piece of artistic skill as we have ever seen. In the negative of the picture were two or three timber rafts which did not add to the beauty of it, and Mr. VanOrsdel determined to get rid of them in some way, but how it was to be done was not definitely known. After trying several plans Mr. VanOrsdel hit upon one which after repeated copying and reprinting succeeded in obliterating the rafts from the picture. As the picture now is, the *Rosa* is sitting gracefully in a smooth broad bay with a few trees in the background.

A Good Time.
The Sumter company was met at the boat, yesterday afternoon, on their return from Smithville by General Taylor, Col. Gordon and the officers of the W. L. I., Cape Fear Light Artillery and the Whiting Rifles.

The fine drum corps of the Wilmington Light Infantry, Drum Major Griffith at the head, made the music for the occasion, and the party keeping step to the tap of Maj. Griffith's drums marched to the residence of Mr. F. W. Kerchner, on Front street where they were received in a neat and appropriate speech by Mr. Wm. Calder on behalf of Mr. Kerchner. The latter gentleman making a statement to the effect that not being a speaker himself he had requested his friend, Mr. Calder, to express his sentiments on this occasion, which he knew would be done in appropriate style. The party was then invited to refreshments. Several impromptu toasts were given and replied to, and among them one from Capt. A. L. DeRosset in reply to a toast to the W. L. I. which was done in his usual ornate style. After several bumpers had been tossed to the good health, good feeling and future prospects of guests, host and other friends, the military proceeded to take their departure.

The line was formed and the Sumter boys with the officers above mentioned preceded by the Drum Corps started for the W. C. & A. R. depot. On arriving at the depot Gen'l Taylor delivered himself of a happy little farewell speech which was responded to in good style by Captain Delgar. The locomotive whistled sounded, the time for departure and the visiting military boarded the cars amid cheers on the part of the Wilmington boys for the Sumter company, and the train moved out of the depot, amid cheers from the Sumter Light Infantry for Brigadier-General M. P. Taylor and the Wilmington military.

Do not misunderstand the true state of the case; you must register before to-morrow week if you wish to vote on the first Thursday in August.

For Upwards of Thirty Years
Mrs. WINN'S SYRUP has been used for children. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, cures dysentery and diarrhoea, whether arising from teething or other cause. An old and well-tried remedy. 25 cents a bottle. d & w.

The Charlotte Excursionists.

Quite a number of civilians arrived here on the Charlotte excursion train this morning, but very few of the military. Now and then a uniform of the Charlotte Grays was visible in the crowd, but not one of the Hornets Nest Riflemen put in an appearance.

The party will spend the day in the city, and to-morrow morning at 9 o'clock embark on board the steam yacht *Passport* for a trip to Smithville. Lieutenant Alexander informs us that the crowd is not quite made up yet and anyone who wants to enjoy a trip to Smithville to-morrow on the *Passport* can have an opportunity of doing so by calling at Mr. Stephen Jewett's book store on Front street and purchasing a ticket.

Quarantine Conference.
The Committee consisting of Drs. Anderson, Will Geo. Thomas, and Thomas F. Wood returned from their conference, but are not yet ready to report. At thorough examination was made of the Quarantine Hospital and the methods employed by Dr. Curtis, the efficient officer in charge, and a substantial plan was agreed upon, whereby all future risks will be avoided.

To accomplish effective disinfection the Station must be supplied with the necessary apparatus. Taking the same pains that Savannah and New Orleans take to keep away the pest. Savannah learned from her disaster of 1876 to spare no pains, and the epidemic of 1862 in our city should be fresh enough to warn us. Let our city show a becoming liberality in carrying out the plans proposed by these medical gentlemen, and it will be economy in the end.

A full report will be made as soon as can be done with deliberation; in the meantime the verbal agreement with all concerned in enforcing the quarantine is sufficient.

N. C. Medical Journal.
The July number of the above named periodical has been laid upon our table, and seems to contain more than the usual number of interesting papers. Its Paris and New York letters, the former from the eminent North Carolinian, now a practicing physician in Paris, who is permitted to sign himself Edward Warren (Bey) M. D. C. M., a distinction rarely attained by a foreigner in France, and the latter from the gifted pen of our worthy townsman, Dr. M. J. DeRosset, now a resident of New York, will no doubt be found full of interest. Among the other papers published in the July number of this journal is the very able address delivered by Dr. W. T. Ennett, of Pender, at the twenty-fifth meeting of the Medical Society of the State at Goldsboro last May.

The *Journal* seems to be in a flourishing condition, that is, if we are to judge from the number of new advertisements which it contains, and we know of no periodical more deserving of success. We think the indefatigable and untiring zeal and ability displayed by Dr. Wood, the resident editor in the management, together with the able contributions from its New York editor will tell in course of time, and in fact seems to have already had a very telling effect.

Cargo of Mexican Mustangs.

Yesterday afternoon, just after the five o'clock train, the schooner *Albatross*, from Matagorda Bay, Texas, with one hundred and eight Mexican mustangs, arrived at this port. The *Albatross* was out 25 days, and started with 110 mustangs. One died on the way from causes unknown to us and the other was so badly kicked that it died from the effects. The cargo of mustangs is the first importation to this city and the remarkable good luck in bringing the ponies here, may induce Messrs. Northrop & Cunningham to import another cargo of the Mexican ponies which are said to be the toughest kind of horse flesh.

Capture of a Deer.
A large four-year-old velvet-horned deer was run down near this city by five of Mr. George St. George's dogs on yesterday, and was killed by Owen Doy of this city with a pocket knife. Dove was en route for his farm, eight miles from this city on the *Sans Souci* road, about six o'clock in the morning, when he heard the dogs chasing a deer but thought nothing of it at the time and kept his course. He had not proceeded far when he saw one of his farm hands and gave such instructions as he wanted to, and retraced his way back to the city, when he found the dogs had run the deer down and was near the road. Alighting from his buggy he went to where the deer was, and after some little tussling he managed to cut its throat. The deer was brought to town and was found to weigh something over eighty pounds.

Hotel Arrivals.
EMPIRE HOUSE—Wilmington, N. C. July 24th.—I. L. Dolby proprietor— from 10:05 o'clock July 23rd. to 10:05 o'clock July 24th.—Kedar Bryan, Kenansville, N. C.; H. M. Nast, North Carolina; Jas W. Bladen, at Estabehem, Aug 17-18
Cokebury and Coharie Mission, at Bethel, Aug 24-25
Clinton, at Salem, Sept 1-2

The Crops.

Your correspondent took a trip over the Wilmington, Columbia & Augusta Railroad last week, returning yesterday. The crops were the particular subject of observation.

COLUMBIA COUNTY.—In most parts of this county there has been a dry season which is thought to have shortened the corn; but lately local rains in several sections have done great good. Around Fair Bluff there is still need of rain. About Whiteville both corn and cotton looks well, and the best cotton we saw on the route was a small piece of Col. Holt's in Whiteville. Wheat did not come in so well as expected, but a fair crop has been harvested. Some farmers are raising chufa for hogs, their experience having taught them the great value of these nuts in fattening. Do we owe the planting of chufasto the recommendations of Col. Leonidas J. Polk, of the Agricultural Bureau of North Carolina? If we do, the Colonel has done a real substantial service to the State, and this alone is worth all the expense of the Bureau. Altogether, Columbus will have plenty to eat and something to sell besides turpentine. Speaking of turpentine we saw some splendid cotton grown on the old turpentine lands where the trees having worn out had been burned and the land cleared for cotton. Our opinion is that there are no more reliable lands for cotton, and certainly none easier cultivated than the Columbus county worn out turpentine lands.

As you pass out of this State riding for eight miles very near the Lumber river, there is nothing to stop to look at in the way of crops. You may, if you choose, stop at Fair Bluff, and by going two miles or thereabouts in a private conveyance visit the noted duelling ground on the right of the railroad, within hearing but not in sight. We are glad to know that although many parties have met there to fight no one has been killed for about twenty-eight years, and we hope never will be again. The first South Carolina county is MARION. The crops here are an average we think, but the weather has been such that there is no uniformity in them; rains have been in small sections chiefly and you find one neighborhood with poor crops and in a few miles another in which they are splendid. After several days examination we came to the conclusion that the wheat and oats had not come in as well as last year; the corn was not quite as good as last year and cotton hardly up to an average. With good seasons the cotton may come forward and yield a full crop. It is now quite behind in size of weed, though full of squares and bolls.

DARLINGTON COUNTY, S. C.—The principalty as you know yields generally about one-seventh of the crop of the whole State. She has now standing the best crop of cotton which has been on the land since the war. Without accident and with fair seasons she will ship more cotton than ever, and is less in debt than at any previous season. Darlington is working out of her burden by the strength of pure muscle unadulterated. Query—Have her annual fairs helped her to this result?

SUMTER COUNTY.—The crops of all kinds are about an average. The west end of the county probably being the best. Wheat had much rust, corn is rather small; cotton will about average.

RICHLAND COUNTY.—Corn and cotton both looking well and people hopeful. The thieves who have been in the habit of raiding on the farmers of the eastern part of the county, coming out of Columbia in armed squads, stealing cattle, hogs, &c., have under the rule of Gov. Hampton been alarmed and this raiding has subsided. The farmers have hope now of raising some meat for their own use.

Labor has been steady, and the condition of things much improved. With favorable seasons the outlook, along the road, give fine promise. Still a week or two of unfavorable weather would change all this, but let us hope there will be enough for every body all along the route, and to keep the railroad busy with the transportation of the great thrush of the marketable crop.
