LOCAL NEWS.

New Advertisements. MUNSON—Sept 1st. H. C. BROCK, Chief of Police—Notice.

Wood is scarce just now. No scuppernon grapes in market yet. This weather is suggestive of blue fishing.

Sweet potatoes are becoming plentiful and cheaper. We have had rain enough now to last us for weeks.

It is now said that the irrepressible Jim Heaton was in the city yesterday. A neat two story frame building is being erected on the south side of Red Cross, between Third and Fourth streets.

On and after Monday next all goats and kids running at large on the streets will be impounded and sold. See notice of Capt. Brock, Chief of Police, in this issue.

We understand that during the progress of a ball in the Gibben Lodge building last night, a colored man, whose name we could not learn, fell from the second story window and was severely injured.

His Honor Mayor S. H. Fishblade deposits for the north on Thursday or Saturday of this week and will be absent from the city about two weeks. During the Mayor's absence Alderman L. H. Bowden will act as Mayor pro tem.

The Supreme Council of the Friends of Temperance, composed of delegates from the State Councils of Virginia, North Carolina and South Carolina, and also the state council of North Carolina, will convene in Rockingham, N. C., on the 11th of September.

Depreciated Currency. Yesterday an old lady from Brunswick stepped into a Market street store and plumped her hand through an opening in her dress in the neighborhood of her neck and pulled therefrom a knot of stockings, which contained something.

The old lady's face was as red as a turkey gobbler's comb, and with one long look of disgust and rage at the clerk, she gobbled up her Mexican dollars, tucked the stocking under her arm, and left the store vowing vengeance on the head of the unfortunate clerk.

Vienna Rolls. To one quart of flour add two tea-spoonsful of DOOLEY'S YEAST POWDER, sit thoroughly, put in a little salt, and rub a tablespoonful of lard or butter through the flour; use enough sweet milk for a soft dough, roll out and cut with a round cutter; fold over like a turnover, wetting the edges with milk to make them adhere; wash over with milk to give them a gloss, place in a pan so they will not touch each other, and bake fifteen or twenty minutes. They are delicious.

Consumption Cured. An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail by addressing with stamp, naming this paper. W. W. Sherar, 149 Powers' Block, Rochester, New York. aug 12-4w

Charlotte Excursionists.

The excursion train which leaves Charlotte to-night is expected to arrive in this city to-morrow morning. Arrangements have been made with the Agent of the Passport to convey such of the excursionist who wish to go to Smithville.

Severe Storm. Capt. Worth, of the steamer A. P. Hurt, reports having encountered yesterday morning, while near Morehead Shoals, the severest storm he ever saw. He says had it lasted twenty minutes longer, in all probability his steamer would have been driven up in the woods.

Hog Cholera. We are reliably informed that cholera is playing sad havoc with hogs, turkeys and fowls on Hewlett's Creek, Masonboro Sound. One farmer alone has lost over one hundred hogs, turkeys and chickens, while others have suffered considerable loss but not to such an extent.

Good Curser. "The cussin' crazy 'oman" who perambulates up and down Water street, cursing out any and every thing she chooses, extended her walk up Front street this morning and tried to curse out a pile of grindstones. If there was to be a cursing bee, we would bet "the cussin' crazy 'oman" against the United States. She's an' fait in this little accomplishment, and no mistake.

The Eclipse Last Night. We presume that the ardently looked-for eclipse of the moon took place last night on schedule time and according to the announcement made in the bills and the almanacs but there was very little if seen in this latitude, the clouds interfering to prevent. About half-past 7 o'clock there was a slight momentary rift through which a glimpse was obtained which showed that the show was in progress, but the clouds again interfered and there was nothing more seen of the eclipse.

The Privilege License and the Purchase Tax. As there seems to be some misunderstanding in relation to the liability to indictment of merchants for failure to list purchases, the Raleigh Observer states that a privilege license has first to be obtained, which is good for one year from time of its issue, and on the first of July and first of January the amount of purchases has to be given in to the Register of Deeds, keeping liquors separate from merchandise. Merchants can give in now, but will not be required to pay for a few days to come.

The August Meteors. The earth ploughs her way through the August meteor zone on the 10th, and on that night and those before and after, myriads of meteors will descend through the atmosphere in fiery tears.

Is Croquet a Moral Game? As the game of croquet is quite popular in these parts, with many of our people, and especially with the young ladies and their devoted attendants, we copy the following article on the subject from a recent number of the Burlington Hawkeye, which considers croquet from a moral standpoint and seriously asks if the game is moral.

City Court.

James O'Reilly was called to the witness stand this morning and stated under oath that he had been having a bit of an evening with Mither and Mithress O'Brien on Sunday last, when after awhile Mither O'Brien, Martin W. O'Brien and his sister-in-law, Mithress John O'Brien fell to beating him, and the lady kicked him in the face while he was down. What they did for, O'Reilly declared he did not know, for they had been having a bit of a pleasant time together, taking on a few drops of the chrabatur. The witness' face was badly mulcted, and showed signs of severe blows.

Martin O'Brien, when asked what he had to say, replied that he would rather give the man ten dollars than to hurt him and stated to the court that he thought the man was a robber when he saw him coming through the window, and ended by saying that he had been drinking and did not know what he was doing. His Honor then bound Martin W. O'Brien and Maria O'Brien in a justified bond of \$100 over to the next term of the Criminal Court.

Handy Williams, a colored individual, who was arrested at the instigation of "Col." Tecumseh Cutlar for disorderly conduct, in that the defendant had abused and cursed the "Col" and Alderman Lowery on the street, was discharged upon the payment of costs, inasmuch as the defendant had apologized to the offended parties and thus made the amende honorable.

Two white butchers were arraigned for trying to get fresh steaks out of each other's checks in the Market House this morning, but as there seemed to be no serious damage done and no one hurt badly, the Mayor suspended judgment and the belligerents were discharged.

James Stokley, colored, for an assault upon Amelia Bradley, colored, was arrested last night at half past nine o'clock and this morning bound over in the sum of \$50 justified bond for his appearance at the next term of the Criminal Court.

The little colored boy who has been in the Guard House since Sunday on the charge of stealing peaches, was sent to his mother in charge of an officer with instructions to the officer to see that his mother gave the peacher a sound drubbing.

The case of John O'Brien, charged with firing a pistol in the street, was continued on account of the sickness of the defendant and that ended the chapter in the proceedings of the City Court for the 13th day of August, Anno Domini 1878.

A Big Fleet Coming. From the report of vessels from foreign ports bound for Wilmington, as published by us, there bids fair to be a busy time for our merchants in the no very distant future. The list embraces a fleet of 48 vessels, of which 46 are square-riggers, and at an average carrying capacity of 250 tons each, which we presume is a very low estimate, 12,000 tons or 24,000,000 pounds of freight will be required to load them. This fact removes the idea of mere idle conjecture, and brings a positive assurance of business, if not of better times. It must stimulate business, and many must receive material benefit from their arrival, and the expenditures which must be made on their account while in port.

Messrs. Cronly & Morris sold at auction yesterday shares Wilmington & Weldon R. R. stock at \$45.50, par value \$100, and North Carolina R. R. stock at \$38, par value of \$100.

Notice. NEW ORLEANS, August 6, 1878. To the Agent of the "American Cotton Tie Supply Company," and Dealers in Cotton Ties: WE DEEM IT PROPER, IN ORDER that you may answer probable inquiries, to inform you that the position of this Company in regard to the unlawful character of dealings in so-called second-hand Arrow Ties, has in no manner been modified or changed by the recent decisions of the late Circuit Judge in Rhode Island, and the District Judge of Alabama. Three different Judges of United States Courts have repeatedly decided the use of second-hand Arrow Ties without the license and consent of the owner of the Patent, to be unlawful. In view of this conflict of opinion, the reasoning of the Judges deciding adversely to the Company has been submitted to the most experienced Counsel, and we are advised that the judgments are manifestly erroneous. Both cases have been appealed to the Supreme Court, where, we are advised, the judgments will be reversed. It is the intention of this Company to hold all persons engaged in dealing in Arrow Ties without its authority strictly accountable for all profits and damages, and to vigorously enforce our rights as well under the Arrow Tie Patent as all other Patents owned or controlled by this Company. We are, yours truly, WM. ANDERTON, Sec'y. aug 12-law 4w
