WILMINGTON, N. C. PRIDAY, AUGUST 16, 1878.

FOR CONGRESS

ALFRED M. WADDELL

OF NEW HANOVER.

After holding Varna for 434 years the Turks give up this, the strongest fortress

and the best harbor on the Black Sea.

VIEWS AND REVIEWS.

The Germans are coming over in droves, 12,650 landed in New York during July, an increase of 3,050 over the same month last year. They are chiefly peasants with money, and are going West to buy prise is paralyzed, property deprecia-

The indications are that many of the Greenback Republicans in Maine will ac with the old party. The Greenback Club of Newport has disbanded, and its President has gone back to the Republicans, 80 says the Chicago Inter-Occur.

The Chinese Embassy will remain in Hartford, Conn , until September, when they will present themselves in Washington. They will permit no public demonstrations until they have shaken hands with the Fraud in the White House.

Democratic State Convention in Texas has revived the old proposition of dividing the State. The Dallas and San Aptonio papers, representing Northern Texas, enter the campaign with the cry, "Let the State be divided."

The New York Times blames the Democracy for opposing Hayes since "he has done everything which the Democracy could ask of him." The Times appears to have forgotten that the Democracy elected a Democrat for President in 1876, and that Mr. Hayes is merely his locum

Chalmers, Democrat, received 15,788 votes, and Lynch, Republican, 11,185, majority of 4,600 for Chalmers. There is a scheme this year to put ex-Senator Alcorn forward as an Independent Republ. can candidate and secure the defeat of Chalmers. Alcorn, it is stated, will ac-\*cept the nomination and make a vigorous

Paris green is in disfavor in Connecticut The recent heavy rains, it is claimed, have carried from the valley farms so much of the poison used to kill potato bugs into the rivers as to cause the death of millions of fish. Certain it is that thousands o carp, young shad, pickerel, and perchare dying every day, and the above is the theory on which the wholesale destruction is accounted for.

An unpleasant sensation exists in East Hartford, Connecticut, caused by the disappearance of Leonard T. Pitkin, town treasurer, and a much respected citizen. He disappeared five weeks ago, ostensibly to sell some land in Wisconsin. On Saturday, he wrote to triends that he was unable to meet his liabilities, that he could not face his creditors, and that he had determined to ship for sea at Philadelphia and leave the country.

Mr. David E. Cook, of Mansfield, Ohio, promises greater things than Keeley. He claims to have discovered a means of utilizing the tremendous force known among electricians as compound heliacs. He is now constructing a flying machine which of territory. he claims will make the trip from New York to San Francisco in six or eight hours. He claims that it will entirely supersede horse or steam power for purposes of locomotion, as every man can have his own flying machine at very slight expense.

Blaine and Conkling are compelled to cherish their hostility for Hayes, because each has a personal following which would not countenance a surrender. cases. Now that the title thieves are all says: provided for, some good use ought to be made of the Government patronage, and perhaps Bristow can coax it out of Hayes just to punish the Radical "sore-heads"those fellows that originated the appella-

## STOP IT!

The Raleigh press is giving Jo. Turner too great notoriety. Stop it, brethren. You are advertising him too much .-Goldsboro Messenger.

Just what we say. Mr. Turner's pride and boast is that he is working outside of the Democratic caucus-or "ring," as he calls it, and that therefore he cares nothing for the Democratic newspapers who, he claims, are with the bondholders. Therefore the Democratic press should let Mr. Turner severely alone and leave him to his new friends and allies, the Radicals, to announce what he thinks, what he says and where he will next speak. In longer for nothing.

#### ABOUT REFORM PARTIES.

To get an idea or rather an approximate idea, perhaps, we should say, of the confusion that is likely to result should the class of people known as the Nationals in some sections and as the Greenbackers here gain the ascendancy, we refer our readers to the subjoined extract from a California letter to the Hon. A.S. Hewitt, of New York, which the intelligent New York correspondent H., of the Raleigh Observer, says was read by that gentleman in the course of a speech which he delivered in New York City re-

The extract of the letter referred to is as follows:

"We are in the very winter of universas discontent, and Dennis Kearney has been able to bring about the present chaos. Business is at a standstill, all improvements arrested, enterted, domestic capital hidden and foreign capital withdrawing or going. We are to have a constitutional convention in September and every demagogue in the State is already hourse with crying out for reform that means destruction of every material interest. I don't know what we are coming to. The Chinese are debited with all our misfortunes and the agitators are now publicly proposing to drive them out by sword and fire. I may be an alarmist, but when the lower order of soci- rity. ety in this city can accomplish by the pailot the election of thirty-two delegates to the Constitutional Convention, many of whom can neither read The long-winded quarrel in the recent | nor write, some of whom cannot speak a word of the English language, and of whom nineteen were naturalized within a fortnight or three weeks of their election, and quite as many of whom are not qualified under the law to sit on a petitjury-when such things can be no man can declare any fears unreasonable."

The Observer's correspondent very

This is e rtainly not a pleasant prespeet. It is about as bad as what the Senthern States experienced under bayonet rule, when the Legislatures and Conventions were made up of carpet-bag thieves and corn field negroes. Let me suggest to Democrats In the Sixth Mississippi District in 1876 at home, that with such results it is no time to abandon their own Conservative party for any other, under whatsoever name it may be called.

And we might add here, par parenhesis, that in this locality we are still suffering to a certain extent from the same evils that afflicted us during the reign and rule of military satraps and carpetbaggers. At every term of the Criminal Court the character of the men who, are summoned for tales jurors is such that it is almost impossible to get an intelligentjury to consider day. Capt. W. B. Shepard is in comany case. No longer than the last term of the Criminal Court in this city, we saw men sitting on the jury in an important case who could neither read nor write, and one whom we know had at one term been indicted for felony. Let us then instead of plunging deeper into the morass and mire of new parties rather try to extricate ourselves from our present unfortunate predicament by clinging to the only true party; the party which has brought the suffering people of the South thus far out of the wilderness, and thus near unto the goal for which we are striving, to wit, honest government. But in order to achieve this, we must elect honest men to office and the only chance of securing this is by remaining and voting with the great Democratic party of the country, the only true reform party that can be found throughout this vast domain

## STAND ALONE.

The Hillsboro Recorder has a very able article on the attitude of the Democracy in the next State Legisla. ture which we fully and cordially endorse. It is relative to the firm, independent party stand which should be taken by the Democratic members of the next Legislature. No coquetting should be allowed with any of Bristow has no following, and can court the oppositionists, either Independ-Hayes as much as he likes. He has just ents or Radicals; as well with one as The Large Stock and Low Prices offered by accepted an appointment as Government with the other, but better still with counsel in the South Carolina revenue neither. Hear what Capt. Cameron

> It is an abuse of terms by the latter observed; and it were pitlable weakness in the majority to accept such protestations of fidelity as Independents choose to make. That claim to fidelity was forfeited the moment these men looked outside of their own ranks for support; in fact, that moment, they were guilty of party treason, and can no more be trusted. What right have men who have trafficked with the opposition, who appealed to them for aid to defeat the regular nominations of their party, who have earnestly and disgracefully courted and used the negro vote, to ask, not pardon only for their offences, but full equality with 500 Packages Canned Goods, the representatives of the party they have wounded and would have des-

troyed? In all party consultations, in the origination and conduct of all party measures, there is a degree of confidence implied which can only be reposed upon honorable men Can faith be put in those who violated those prinother words, don't advertise him any ciples they themselves aided to establish? who appealed from decrees

they themselves had promulgated? who turned against the breast of their own party the very weapons they themselves had taught to be most deadly or offensive? For all such purposese, let \$425. Superb Grand Square Pianos, price offensive? For all such purposese, let the Independent take the color of the associates by whose help Pianos \$112.50. Organs \$35. Organs 12 \$700 he has brought defeat upon his old friends. Let him such comfort and support as he may from his new alliance. But under no conditions let him have part nor lot in shaping the policy or the measures of the coming session of the Legislature or the future policy of the Democratic party. Treason carries its taint to everything it touches. If the Democratic party is to regain its prestige. and to recover what it has lost, it can do so only by retaining its purity and preserving its integrity. It cannot with safety to itself condone treason. It must make itself feared if it would make itself respected. It must assert person who will take 1 pill each night from its right to punish as well as to reward. It forfeits its claim to respect if mail for 8 letter stamps. I. S. JOHNSON & it tolerates the idea that the plotters CO., Banger, Me. and workers against its life, can when the battle is over, swagger back into its line to demand an equal footing with ihose whose power they have

Turn away from them, and cut off the Independents as political Parialis. It is better that the party should go down, if need be, in fair and open fight with its known foes before it, than to live on weakened by the presence of false friends, finally to perish an object of contempt because it had not the courage to maintain its party integ-

About the most sensational, lying tale, erected upon small foundation, is the New York Herald's telegram from Virginia White Sulphur, giving an account of the 'mysterious midnight maraudings" of the Chapel Hill burglars. Among the "incidents," so-called, was the struggle of one lady who seized the burglar and beat his nose into a jelly. Another young lady seized his beard, but her hold broke. Names and circumstances are stated in a

very false and annoying manner. P. S. But the Herald's liar is not much ington Capital, of a "scholarly female 50 Bbls. Refined Sugars. Jarolina acrobat who is quite an Amazon in muscle, while she might be regarded as a Verus in point of beauty, a Mine va ders and Pork, Beef Tongues, New Cheese, for mind and a Diana for modesty," who practiced on a trapeze, and became so acive that when the robber approached expecting her to howl, she vaulted over his head, kicked him on the nape of the neck, tied him-"with a pair of garters"-says the parrator, "and was pummeling him with the chair, while he yelled murder, when numerous professors in night gowns rushed on the scene and rescued the tarheel Tarquin from his proposed victim.

Serve an Injunction on Disease By invigorating a feeble constitution, renevating a debilitated physique, and enriching a thin and innutritious circulation with Hostetter's Stomach Bitters, the finest, the most highly sanctioned, and the most popular tonic and preventive in existence. It strengthens the stomarch, remedies torpor of the liver and bowels, and gives a healthful impulse to the secretive and discharging functions of the kidneys and bladder. Not only does it arrest and prevent the recurrence of malarial fevers, but it furnishes the only adequate safeguard against them to person's who have never been afflicted with those maladies, but would be liable to incur them if medicinally unprotected. It elimi-nates from the blood certain impurities which the most skillful pathologists assign as the exciting causes of those agonizing complaints, rheumatism and gout, and it is, moreover, an excellent remedy for an en-feebled or overwrought state of the nerves, and for mental despondency.
