on our own hook. We assure him that there is not now, and has not been this season, a case of yellow fever any where near us and that we do not anticipate

any. Our city is in an excellent sanitary condition and we are all well satisfied with the precautions which have been taken.

An Ox Stolen.

Captain Paddison, of the steamer North East, brought a fine ox down on his steamer from Point Caswell last night and hitched him to a stake on the wharf in front of his boat after the steamer had been tied up alongside. But some prowling thief, having neither the fear of God nor man before him, untied the ox and led him away. Officer Williams, of the night force, saw a darkey leading an ox up street in the wee sma hours this morning but thought nothing of it. After that the ox was found tied to a tree near the suburbs of the city and taken in charge by the police. The thief, it is supposed, had stepped over to a neighbor's

house to get some one to help him slaughter the beef, and when he came back the ox was gone.

Serious Accident.

We regret to learn of a serious and perhaps a fatal accident yesterday afternoon, to little Johnnie Cranmer, aged 4 years, a son of Capt. Cranmer, pilot of the Revenue Cutter Crawford. Little Johnnie and his brother, who is about 6 years old, were on the second story piazza of Mrs. Stewart's house at Smithville watching the departure of the Cutter to sea. Johnnie was standing on a bench leaning over the banister rail and turned to speak to his brother when the beach slipped and the little fellow lost his balance and fell to the ground, a distance of about twenty-five feet. He was picked up by Mr. Daggett, of this city, and carried into the house and Dr. W. G. Curtis sent for. It was at first thought the child's back was broken but after a careful examination, Dr. Curtis concluded it was not. Our informant did not ascertain whether the child sustained any internal injuries but thinks it more than likely, as he complained of an intense pain in his abdomen and side.

cases yellow toyer and 421 deaths, making a total of 902 cases and 239 deaths, of which 108 cases and 29 deaths occurred during 24 hours to noon yesterday.

Port Eads-33 cases of yellow fever and five deaths during the week to yesterday evening.

Grenada, Miss.-The [first case of yellow fever occurred July 25. To noon yesterday there had been 125 cases and 47 deaths.

Mobile-One death from yellow fever, a colored woman, who, it is reported, had been on an excursion to Bilexi. Miss. July 24.

Cincinnati-Since last report a young woman living in a house where baggage believed to be from New Orleans was stored, died of a fever resembling yellow fever. Another case of fever of similar character has since developed in the same neighborhood. Steamer John A. Porter, from New Orleans, had 4 deaths from yellow fever before arriving at Cincinnati, which city she passed on Friday bound for Pittsburg with several cases on board. One man who left the John Porter at Louisville proceeded to Cincinnati by rail where he was sent to the hospital on the 13th inst. with fever. The steamer Golden Rule passed Cairo yesterday evening for Cincinnati with 2 cases yellow fever on board. Two deaths occurred on board that vessel on Thursday.

Several people from New Orlreans and Port Eads have sickened or died of yellow fever on their journey northward; one case at Covington, Ky., one at Cairo and 3 deaths at St. Louis.

Memphis-The first case of yellow fever occurred Aug 13 in the person of a woman whose eating house was frequented by river boatmen. The disease has tention. spread rapidly but has not yet assumed a malignant type.

Vicksburg-Yellow fever has appeared since last report; the first death occurred Aug. 12. Advices to noon to-day report the outbreak of the disease near river front within the last fifteen hours, from whence it is spreading rapidly.

The Cape Fear.

The water in the Northwest Cape Fear s falling off slowly, but very surely. The crops in the rich low-lands along the river have not suffered from the flood, although at one time they were seriously threatened They may be considered as safe, unless there comes an unusually big freshet, which does not seem to be apprehended. These lands are among the best in the State and yield huge crops of corn.

Going North.

Passing along on Markes street this morning we noticed an anusual commotion in Mr. A Shrier's clothing house
