# THE DAILY REVIEW.

VOL. 3. WILMINGTON, N. C., THURSDAY, SEPT. 12, 1878. NO. 191

## LOCAL NEWS.

New Advertisements. Read Newbury's new ad. A. DAVID—New Hats. MUMSON—Boys' School Suits. N. H. SPRUNT—They must be sold. P. HEINSBERGER—School Books, &c. S. JEWETT—Stationery and Fancy Goods. J. C. MUND—Druggist.

There was quite a nice frost in St. Louis last night. The young flood this morning washed out the hucksters.

As long as the high easterly winds prevail fish will be scarce. Residents of the Sound are killing marsh hens with fishing poles to-day.

The State Council, Friends of Temperance, met in regular session yesterday at Raleigh.

The temperature throughout the country was much lower last night, hence considerably cooler.

Eagle Island, opposite the city, is covered with water to-day. The tide is very high and is making over the caps of the wharves.

The storm at Charleston is abating. Very high winds, with a driving rain prevailed yesterday, but there was only 3.58 inches of rainfall.

The Government telegraph line from this city to Hatteras has stood the storm. It was erected by the employees of the Signal Service Bureau and not by contract, which accounts for it.

The young ladies expect every young man to do his duty to-night—double duty if he will. Be sure to go to the Festival, but don't go without having at least one young lady on your arm.

A white man by the name of James Wells, who was laboring under some temporary mania, jumped overboard last night at the foot of Market street, but was fished out and taken to the Guard House to dry off.

The lines of the Western Union Telegraph Co., out of the city, both North and South, were blown down during the night. Workmen were immediately put to work to erect them again. The line from here to Charlotte is in position.

Kissing the baby may result in deforming its nose and bringing on nearsightedness. The safest plan is, not to kiss a baby of the feminine persuasion until it attains the age of sixteen years. The cartilage of the nose is much stronger then; and, besides, the kisses taste better—so we've been told.

City Court. Fanny Gore, white, an old offender was up this morning before His Honor, but the charges not being of a very grave character, the Mayor released her upon payment of costs.

A young man who attempted to commit suicide was the next case brought before the court, but he seemed to have no recollection of attempting to drown himself, and attributed everything that happened to the vile *cratur*, so His Honor released him upon promise of good behaviour. This ended the day's proceedings.

An Appeal. A home for the destitute children left orphaned and friendless by the yellow fever has been opened in Memphis. The inmates all need clothing, and some of the little ones being forced for the safety of others to have all of their clothing destroyed to prevent infection spreading in this house of refuge, are particularly helpless. An appeal has been made in their behalf, and all contributions, whether of cloth or clothing, and the latter may be new or old, will be received and forwarded by Mrs. Geo. G. Thomas, corner Fourth and Market Streets. It is desirable that the articles be forwarded as soon as possible.

Our "Poet Laureate." If your bread you want to leaven, Light enough for royal feast, Sweet enough for saints in Heaven. Always ask for Dooley's Yeast.

The Wine for Consumptives. Consumptive persons are said to be greatly benefited by the use of Speer's Port Grape Wine. It seems to give nourishment when everything else fails, and Physicians are prescribing it as a rich nutritious wine.

No hotel in this country or Europe is more thoroughly comfortable for families and ladies traveling alone, than the well-known Colonnade Hotel in Philadelphia, Pa.

Hefty. Yesterday eight persons dined at the Empire House whose aggregate weight was two thousand and fifteen pounds. The chairs and tables literally groaned under the weight, etc., etc. A fat man's clam bake is now in order.

The Picnic. The weather last evening was so inclement that it was wisely concluded to postpone the picnic at Wilmington Gardens, under the auspices of Germania Lodge, K. of P., until this afternoon at 5 o'clock, when it is hoped that there will be a large number in attendance. The receipts, be it remembered, are for the benefit of the yellow fever sufferers.

County Commissioners. The Board of County Commissioners met yesterday afternoon, in adjourned session; present, J. G. Wagner, Chairman, and Commissioners B. G. Worth, D. S. Saunders and Duncan Holmes.

The official bond of Elijah Hewlett, County Treasurer, was presented and ordered accepted, and enrolled upon the records of official bonds.

Bids were received and opened for the repairing of the bridge over Toomer's Mill Creek, when the contract was ordered to be given to E. Hewlett, for \$100, subject to the approval of the Committee on Roads and Bridges.

The Tax Books were received. The Board then took a recess until this afternoon at 3 o'clock.

The County Commissioners, upon adjournment, met as a Board of Education, when the Chairman stated that Mr. A. R. Black's term as County Examiner had expired, whereupon a vote was taken and Mr. Black was unanimously re-elected to that position. The Board then adjourned.

To Leave Us. We regret to learn that our esteemed young friend, Mr. Geo. C. Kelley, for several years past in the Auditor's office at the W. & W. and W. C. & A headquarters in this city, is to leave us to-morrow evening for Montgomery, Ala., where he goes to embark in business, having purchased an interest with Hall & Co., a large hardware and crockery house in that city. He has our most cordial wishes for his success.

Capt. Jno. E. Leggett and his eldest son, Charly, have also migrated, both having scoured situations in wholesale houses in New York. Capt. Leggett's hosts of friends hereabouts wish them well, most emphatically.

We hear also of several others in this City, young men, who will leave here this Fall to embark in business at other points.

The Romance of Arithmetic. The most romantic of all numbers is figure nine, because it can't be multiplied away, or got rid of anyhow. What ever you do it is as sure to turn up again as was the baby of Eugene Aram's victim. One remarkable property of this figure (said to have been discovered by W. Green, who died in 1704) is that all through the multiplication table the products of nine come to nine. Multiply by what you like and give the same result. Begin with twice nine, 18; and the digits together; and 1 and 8 make 9. Three times 9 are 27; and 2 and 7 makes 9. So it goes on up to eleven times nine, which gives 99. Very good; add the digits; 9 and 9 are 18, add 1 and 8 are 9. Going on to any extent, it is impossible to get rid of the figure 9. Take a couple of instances at random. Three hundred and thirty-nine times nine are 3,051; add up the figures and they give 9. Five thousand and forty-one times nine are 45,369; the sum of the digits is 27; and 2 and 7 are 9. M. de Marvan found out another queer thing about this number, namely, that if you take any row of figures and, reversing their order, make a subtraction sum of it, the total is sure to make nine. For example:

Take 5,071  
Reverse figures 1,705  
3,366—18, and 1 and 8 are 9.  
Nothing is more dangerous, so far as your general health is concerned, than to overwork your tongue.

For Upwards of Thirty Years Mrs. WINSLOW'S SYRUP has been used for children. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, cures dysentery and diarrhoea, whether arising from teething or other cause. An old and well-tried remedy. 25 cents a bottle. d & w.

The Storm King and his Fury. NO DAMAGE TO SHIPPING IN PORT.

The Falling of an Immense Wall—Telegraphic Reports from Smithville and Sloop Point—Telephonic Reports From Masonboro Sound.

To-day will, we imagine, be long remembered by our people as one wherein the god of the tempest held high carnival. The equinoctial storm which had been threatening us for several days, broke upon us last night with the wind almost a hurricane in its fury, and the rain falling in such torrents as to deluge the streets and make the gutters like a mountain cascade. Trees and fences were blown down in various parts of the city. It blew big guns last night and floods of rain fell during the night and this morning.

MARKET STREET was one sheet of water, the flood running down to the river with much impetus, carrying every thing before it. A couple of large dry goods boxes were washed from the sidewalk into the gutter when they were rapidly carried as far as Front street. Colored boys mounted the boxes and seemed to enjoy the fun of sailing down the gutter. Stores in the vicinity of "mud market" were flooded, but no damage was done to stocks as all articles which could have been injured were placed on skids above water. The heaviest and most serious damage done by the storm was

THE FALLING OF A BRICK WALL on Front street about 8 o'clock this morning. At about this time, there was a severe clap of thunder and a terrible lightning flash, followed by a violent gust of wind, and in a few minutes thereafter persons in the neighborhood of Mr. Donald McRae's new building were startled by a heavy thud, which proved to be the falling of the Southern wall and immense timbers of the building. The wall was forty feet high and about one hundred feet in length and was entirely unprotected, because of the delay in getting the iron front, which has been expected for some weeks past, but which arrived only a day or two ago. Of late there has been but very little sunshine to dry the mortar, and the wall has been subjected to a great deal of rain. The owners and builders have been anticipating some damage on this account. The iron workmen who came here for the purpose of erecting the front, were at the building this morning prepared to go to work, when they were forced out by the rain and took refuge on the portico of the Western Union Telegraph Company. They had hardly gotten under shelter when the flash of lightning came, which they say nearly stunned them. It is the opinion of some persons that the electric fluid struck the wall, shattering it, and the wind finished the [work]. Workmen were immediately put to work clearing away the debris. The loss is all in labor and will amount to not more than \$500.

AN IMMENSE TREE, near the corner of Fifth and Princess streets was torn up by the roots and thrown against a house but we could not ascertain the damages because of the fact that the house was almost entirely covered by the branches and leaves of the tree. A tree in the old colored cemetery on the corner of Fifth and Red Cross streets was blown down but it had hardly touched the ground before persons living in the neighborhood commenced to lay in their winter supply of fuel.

AT POINT PETER the tide rose over the wharf but did no damage. The smokestack of Messrs. Aldeman & Bro's. still was blown off with but little damage. SMITHVILLE. The maximum velocity of the wind at Smithville, up to 8 o'clock, was forty-five miles, but at 11 o'clock to-day the wind was flowing in gusts and sometimes at the rate of sixty miles an hour. The shipping was securely anchored in the stream and was bravely breasting the storm. The pilot boats came in yesterday as soon as the storm signal was raised and now we are happy to state we have no horrible suspense hanging over us as to the fate of any of the party. Trees and fences were blown down but beyond this was no damage at Smithville, so far as reported.

MASONBORO SOUND. A REVIEW reporter conversed with Capt. Cazaux at Masonboro Sound through the Telephone this morning, in reference to the storm. He described it

as being magnificent and stated that no damage had been done further than the washing away of gangways and destruction of fences. All the yachts were securely housed and none of them sustained any damages in consequence of the storm.

SLOOP POINT. Telegraphic advices from Sloop Point states that the storm is one of the severest ever known. The seas are breaking over the beach, and the sound and ocean is one continuous sheet. The officer in charge of the signal service is going to the beach as soon as the storm abates to look out for wrecks and will promptly report them. The maximum VELOCITY OF THE WIND at this city was thirty miles, and the rain-fall about two inches. We have heard of no damage to shipping in port as the masters of vessels were notified of the coming of the storm and securely moored their vessels.

The News from Maine. We publish on the fourth page of this issue full reports of the result of the election in Maine—fuller reports, in fact, that have thus far been presented to readers in this city. The Greenbackers and Democrats have carried the day and Hamlin, Blaine and Eugene Hale have met their Waterloo. It was a disastrous day for the Republicans and one from which they will never recover. The New York World calls it a cataclysm and exults as follows:

A Congressman lived in Bangor whose features are livid with anger: His eyes are scratched, so let him jump, His eyes and nose are slain. Oh, have you heard the news from Maine—Don't things look rather blue for Blaine—Blaine—Blaine?

It is to be hoped that Gen. Woodford will do the Democratic party a further "civil service" by stumping other States than Maine? The Hon. Eugene is a "Hale fellow well met."

A Complaint. We hear much complaint from the people in Brooklyn of the late hours at which services are held by the colored people in their places of worship, and the noisy manner in which those services are conducted, depriving hard-working people of their necessary sleep, and causing great annoyance to those who have sickness in their families. We feel confident, from the sources from which the complaints come, that they have a foundation in fact, and real annoyances, of the character described, do exist. No one wishes to rob the colored people of any of their right; and we would earnestly uphold them in their acts of worship but when these acts of worship are carried to unreasonable hours and are conducted with the earnestness with which they are generally characterized they become simply a nuisance to others. We advocate "the largest liberty compatible with the public good," but no person, or number of persons, has either a moral or legal right so to act as to cause continued disturbance to the community. There are reasonable hours and reasonable ways in which to conduct religious as well as any other services—hours and ways at which no one can justly complain—but when they are carried on until after midnight, and in a boisterous manner, as these complaints indicate, they cease to be worthy efforts, and ought to receive the denunciations of every order-loving citizen. We write in the spirit of kindness, and hope that the colored people will see that in the future everything may be done "decently and in order."

A fool never admires himself so much as when he has committed some folly. We may joke when we please, if we are always careful to please when we joke.

The Thermometer. From the United States Signal Office at this place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock: Augusta, Ga.....75
