The Tileston Normal School opened this morning.

A horse attached to a street car fell on Market street this noon.

The sun shines for all, but the moon for the midnight tax gatherers, chicken coop visitors and lovers.

Thursday next is the day appointed by the Greenback party to nominate a man to be beaten on the 5th of November.

The members of the Eureka Brass Band will give an entertainment at the City Hall to-night, the proceeds to be devoted to purchasing instruments.

A gentleman who was abroad this morning at 6 o'clock says that there was a good frost on the ground, and others say that there was frost yesterday morning.

The Whiting Rifles provided themselves with new cross-belts and nickel-plated buckles. The waist buckle has the monogram of the Company on it in raised brass letters. They are very handsome.

The huckster's barrels, boxes and chicken coops which are piled up on the sidewalks are no less a nuisance than the hucksters themselves. Is there not a city ordinance prohibiting such things?

Personal.

Col. John B. Starr, of Fayetteville, was in the city to-day and favored us with a call. He left on his return to Fayetteville on the steamer *North State*, at 2 o'clock.

Last Evening's Fire.

The alarm of fire last evening about 7 o'clock was caused by the burning out of a chimney on the corner of Fourth and Nun streets. The fire department turned out promptly but their services were not needed.

House of Entertainment.

Mr. W. M. Collins has removed to the building corner of Front and Red Cross streets, near the Union Depot, which he will open this week for the accommodation of guests. He is having the house thoroughly renovated and furnished and will not only present a good table but will have a number of nice sleeping rooms for the accommodation of the traveling public.

Death of Mr. McPherson.

We regret to learn of the death, at Rocky Point yesterday, of Mr. James B. McPherson, an esteemed and prominent citizen of that section, and one well known here in Wilmington. He had been sick for only about two weeks, with some disease of the bowels, and it was only within the last few days that any serious fears were felt as to the result. He was about 36 years old, we think, when he died. A number of relatives and friends went up on the train this morning to attend the funeral services. The remains will be interred at Rocky Point this afternoon.

Departure of the Military.

The Wilmington Light Infantry, Captain Walter Coney commanding, and the Whiting Rifles under the command of First Lieutenant Hardwicke, left here on the 8:50 W. & W. R. R., train this morning for Raleigh to attend the State Fair. The W. L. I. carried with them the champion flag which was awarded their company at the last State Fair for the best marksmanship.

We regretted exceedingly to see our gallant boys departing with such thin ranks, but we learn that a detachment will go to-night, and join the companies at Raleigh to-morrow.

Purity, strength and reliability stamp the character of DOOLEY'S YEAST POWDER as being *par excellence* the best of all preparations used to perfect and facilitate the process of baking. Less than two-thirds ordinary quantity suffices. So strong and pure is this admirable article the most skillful housekeepers have learned to discard all others.

The Nurses.

A letter received in this city from Mr. Geo. A. A. Poppe, states that he had been removed from Memphis to Brownsville. An advertisement has appeared in the *Memphis Appeal* calling on Mr. J. A. McCollum to make himself known to the Howard office.

City Court.

But one case for trial before the Mayor this morning—that of a Jack Tar who was arrested on Saturday night about half past seven on the charge of disorderly conduct.

The sentence of the Court was a fine of \$5 and costs which Jack ponied up and then departed.

The Thalian Amateurs.

At the Tileston Upper Room on Friday evening next the Thalian Amateurs will give another of their pleasant entertainments, presenting a beautiful drama, entitled "Bread on the Waters." As we have before stated some of the Amateurs possess real dramatic talent and act their parts with some life and spirit. The object they have in view is a laudable one and should be encouraged by our citizens. The proceeds will be for the Tileston Normal School. Cast thy bread upon the waters, for thou shalt find it after many days.

The Fire this Morning.

This morning, just after twelve o'clock, smoke was seen pouring out of the windows of an unoccupied building on Front street, near Dock, the property of the estate of the late C. Teinken. The alarm was given and the engines were soon on the spot and succeeded in outting the fire before much damage was done. The fire originated between the roof and ceiling and was no doubt the result of rats and loose matches. The stores beneath were occupied by Messrs. C. Klein and J. E. Stalter, whose stocks sustained some slight damage by water. The damage to the building was mostly by water, and was fully covered by insurance in companies represented by Messrs. Atkinson & Manning.

New Shoe Store.

Mr. Gus Rosenthal has returned from Boston and other Eastern markets, where he purchased an elegant assortment of boots, shoes &c., just such as is needed mostly in this market. He is now opening this stock in the store No. 32 Market street, where he will be ready in a day or two to exhibit the elegant assortment he purchased. He will be pleased to see all of his old friends and just as many new ones as can find it convenient to give him a call, and he will promise them an old-fashioned Wilmington welcome. Mr. Rosenthal will furnish further particulars as to this in a day or two, by advertisement in the REVIEW.

In Distress.

The schooner *Jno. A. Griffin*, Capt. Foster, 13 days out from Wilmington, put in here on Saturday last for medical aid and help. The vessel experienced heavy gales and head winds from the time she left Wilmington. Several of her crew were taken sick, in fact the Captain informs us that he was having chills himself. He says that he has been sailing on this coast for more than thirty years, and that he never before experienced such rough weather. One of the men was brought ashore with typhoid fever and we are pleased to learn is doing well. The *Griffin* is bound to Philadelphia, and is loaded with shingles and iron.—*Beaufort Atlantic*.

The Thermometer.

From the United States Signal Office at his place we obtain the following report of the thermometer, as taken this morning at 7:31 o'clock:

Memphis, Tenn.....60	Wilmington, N. C. 50

"Laugh and Grow Fat."

This ancient bit of advice is well enough for "spare" people but how about those that are already too fat? What is to become of them? Sit still, and I'll tell you. After many experiments, extending through months of patient investigation and toil the celebrated analytical chemist, J. C. Allan, has perfected and given to the world Allan's Anti-Fat. Thus far in several hundred cases this great remedy has never failed to reduce a corpulent person from three to six pounds per week. It is perfectly harmless and positively efficient. Sold by druggists.

More About the Murder in Columbus

From a person who was present on the occasion of the investigation by the Coroner's Jury on Saturday last of the recent murder in Columbus county, we glean the following additional facts in regard to this horrible affair: Mr. A. F. Toon, the rightful Coroner of the county, impanelled a jury on Saturday, the 12th inst. and proceeded to the scene of the murder where the body of the murdered man lay buried. The remains were disinterred and a post mortem examination made in the presence of the jury by Dr. A. B. Lucas, after which, the body was replaced in the coffin which had been furnished after the first discovery of the remains and decently buried again.

The testimony of seven or eight witnesses was then heard including the prisoner's brother and his brother's wife. All of which though purely circumstantial was overwhelming in its tendency to the conviction of George I. Littleton, as the author of the death of the stranger whose body was found within two hundred yards of Mac Littleton's house.

The testimony of several witnesses proved that George Littleton and the murdered man got off the train at Brinkley's on Tuesday, the 1st day of October, and left the depot together in the direction of Max Littleton's house, distant about seven miles—and other witnesses testified to having passed these two men together on the road; and the testimony of Littleton's sister-in-law proved that George Littleton arrived at her husband's house about 12 o'clock on the day above mentioned, with two hats and two coats on, with an overcoat thrown over his arm and a valise in his hand, all of which were proven to be the property of J. P. Randal.

The investigation lasted three hours, but the testimony was so overwhelming against the prisoner, that the jury only consulted about twenty minutes before they made up a verdict and reported through their foreman D. S. Cowan, Esq., that the body of the dead man was supposed to be that of J. P. Randal, who had come to his death from a pistol shot in his right temple at the hands of George I. Littleton, upon which the defendant, who is a young man of about twenty-four years of age, was taken into custody by an officer and conveyed to Whiteville jail. From the gentleman whom we obtained our information, we learn that there was not a plea that could be set up by the defence; the evidence was so overwhelming and crushing. The brother, Max Littleton, it was proven was sick in bed at the time of the occurrence, and therefore could have had no hand in the horrible and cold-blooded murder. The case will come up for trial at the next term of the Superior Court in Columbus county, which will commence on the 25th of March 1879.

Fashionable Hair.

Many ornaments are used for the hair. Silver filagree combs are very fashionable as are pins of red or pale yellow gold. The shell comb is seen in a variety of shapes. Dyed hair has had its day. So many persons are suffering from the effects of the various dyes that physicians are prohibiting the use of the different kinds of coloring matter. The French government makes a study of the preservation of life. When dyed hair became the fashion the government ordered a board of scientific men to analyze blonde and other kinds of dye. The result was a report that the use of these dyes impaired the eyesight and the complexion, and a perseverance in the use produced ill-health and shortened life. The French government then prohibited, by a legislative act, the use of hair dyes. The American women are the most profitable customers which the French chemists have. A weak-minded French lady for a series of years changed her dark hair to blonde. She was forced to discontinue its use, and now appears with dead gray hair and blue goggles. She has literally ruined her eyes, complexion, hair and health. Her handsome young husband carries around a wreck of the beauty he married six years ago.

Bishop Keane Expected Here.

We understand that Rt. Rev. John J. Keane, the newly ordained Roman Catholic Bishop of Richmond and vicar Apostolic of North Carolina, will visit this city on Friday, November 1st. On his arrival a public reception will be tendered him by the Young Catholic Friends' Society, at the school of the Sisters, corner of Fourth and Nun streets, on which occasion an address of welcome will be made by Frank H. Darby, Esq. On the Sunday following, the 3d of the month, the Bishop will preach at St. Thomas' Church.

A CARD.
OFFICE OF
CHESS, CARLEY & CO.,
WILMINGTON, N. C., Oct. 12, 1878.
To Whom it May Concern:

In the *Star* of the 11th inst. appeared an advertisement of "C. H. Nicholai," for a Baltimore Gasoline Street Lamp Company, which contains statements prejudicial to the bid put in by us for lighting the street lamps of Wilmington, and which we desire to correct. He claimed the *cheapest* bid by nearly Fifteen Hundred Dollars, which the facts in the case do not substantiate. Our bid is lower than the Gasoline bid, for the term of five years, by nearly Five Thousand Dollars! We offer, in substance, to supply our own lamps, put them up on the present posts, and furnish oil for lighting, &c., at a cost of only 5 cents each lamp per night, for the first year, and for 4 cents each lamp, per night, for the remaining four years, and then turn over the lamps to the city. This is cheaper, for the term, by nearly Five Thousand Dollars, than the bid so conspicuously flourished before the "TAXPAYERS OF WILMINGTON," in the advertisement above mentioned. We do not make this publication to forestall the action of the Board of Aldermen, or prejudice any of the other bids, but to set ourselves right before the community, to whom we are not entire strangers. We will be pardoned, we trust, for adding that our bid is, as above mentioned, cheaper than the Gasoline Lamp bid, by about Five Thousand Dollars for the term of five years, cheaper than the Gas Company's bid, so that if economy is the desire of those who foster the idea of changing the present lights, these figures certainly deserve their careful study. We will have a sample lamp here in a few days that will speak for itself as to the kind of light to be furnished. Besides this, we will give such references touching these lights, as will satisfy every one of their efficiency. We do not claim for them a better light than Gas, but we do claim that they will furnish a good and satisfactory light, standing all kinds of weather better than Gasoline, and much cheaper than any other light attainable.
