Burning chimneys are not only an annoyance, but they frequently cause destruction of property. The burning of a small quantity of sulphuret of carbon in a tin plate on the hearth is recommended as the best means for extinguishing burning chimneys. It produces a great volume of noxious sulphuric acid and gas, which extinguishes flame at once.

Toasted Oysters. "Angels on horseback" is the name given by an English paper to oysters cooked in the following way: Place a large cooking oyster in a piece of fat bacon, tie it up with cord, and just toast it for a moment before the fire. Serve on a piece of toast.

Pink Dominoes.

Our citizens are offered a rare dramatic entertainment in that which is to be given at the Opera House next Monday evening. The piece to be offered is a splendid one and it will be presented in a very attractive manner. The Madrigal Boys will add their quota to the entertainment and the musical play of Jenny Lind, which is to conclude the performances will be a fitting finale to the pleasures of the evening.

That Fat Person Cannot be Found

Not even Edison, with all his inventive genius and extensive research, can find a fat person that Allan's Anti-Fat will not re nce at the rate of from two to five pounds per week. Those having uselessly tried different anti-fat prescriptions, including "starvation," "horse-back" and "saw-horse" "riding," may be skeptical, but a fair trial will convince them that Allan's Anti-Fat is a genuine medicine, and that it will speedily fulfill all promises. Sold by druggists.

Bishop Keane's Lecture.

The lecture delivered last evening by Bishop Keane to the colored citizens of Wilmington was to a large audience there having been many white seats reserved persons present in especially for them. Bishop Keane spoke of his church in the past, present and future and his remarks were listened to throughout with absolute interest by all who were present. We would be glad to give his remarks in full but of course cannot, and we dare not attempt a synopsis.

Mr. Nutt, from his-long residence in Wilmington and the interest he has always manifested in the history of our city will present a paper that will prove one of the most interesting of the series yet read before the Society. There is no man among us better qualified for the task of lifting the heavy curtain and giving us all a glance of our unusually misty past than is Mr. Nutt. The President of the Society, Rev. Dr. Bernheim, will issue cards of invitation to such ladies and gentlemen as may apply to him for them.

Newspapers.

Newspaper law says if a person orders his paper discontinued he must pay all arrearages, or the publisher may continue to send it until payment is made; and collect the whole amount, if the paper is taken from the office. Also an action of fraud can be instituted against any person (whether he is responsible in financial view or not,) who refuses to pay a subscription.

There is a universal expression of sympathy here with Gov. Hampton in his affliction. The Governor was riding a mule at a deer hunt near Columbia on Thursday afternoon and in leaping from the saddle his right leg was broken in two places below the knee, the bones. protruding through the flesh. There are, we regret to learn, some fears as to the result but we trust that his life and strength may be spared as Wade Hampton's death at this time would be a national calamity.

Tricky Traders.

The attempt to establish a business by closely imitating the name and style of a favorite article has new illustration in W. F. Taylor's Labor Saving Detersive soap. For many years this brand of soap has been made solely by Colgate & Co., New York, which fact, together with its wide popularity, has made it a shining mark for the unscrupulous imitator. Buyers should remember that each genuine wrapper and bar bears the name of W. F. Taylor.
