

NEWS SUMMARY.

The House Ways and Means Committee will investigate the sugar question. Old man Devins, it is now authoritatively stated, will not leave the fraudulent Cabinet. Burnside's army bill will be considered January 8th; it provides that the general officers shall be reduced to six, namely: two Major-Generals and four Brigadier-Generals for the permanent organization, instead of eleven, as at present, the reduction to take place by casualties; and that the present organization shall consist of not more than 25,000 enlisted men, inclusive of signal soldiers. The committee have not yet decided what course to take with regard to appropriations for the improvement of rivers and harbors. The disposition seems to be to make appropriations only for the principal ones. Action is delayed until detailed estimates are received. The National Council of the old rotten Union League had a bloody shirt talk in Philadelphia yesterday. Gustave Rosland, a French statesman, is dead. Sampson, Wallace & Co., organ makers, of St. John's, New Brunswick, have failed. Voluminous reports of the disasters by the floods in New York, New Jersey and New England continue to come in. The Ministry of New South Wales has resigned. Prince Gortschakoff has been received by the Czar, and has formally assumed the direction of the Foreign Office. The Passaic River is in a mighty flood and the falls are a glorious sight. There has been much destruction of property in the valley. Ira Paine undertook on Wednesday at Philadelphia the breaking of 100 glass balls thrown by James Devlin, a well-known base-ball pitcher. Of the 98 shot at 37 were struck and 41 missed. Gold has been as low as 100 1/2 during the past two days. Cotton, flour, wheat and corn further declined and general trade was very dull in New York on Wednesday. James H. Wright, Treasurer of Saratoga County, N. Y., has disappeared, having defaulted. Postmaster James O. New York is in Washington urging the retention of the postal car system upon the Post Office Department. It is announced that Mr. Bayard will support in a speech Mr. Edmunds' bill to regulate the count of the electoral vote as the best measure that can be obtained. Glover has protested against the reappointment of Dr. Linderman Director of the Mint. The statute of limitations has been pleaded in the suit brought in San Francisco by Burke and others, stockholders in the California and Virginia consolidated mines, against Flood, Mackay and others, for an accounting of \$35,000,000, said to have been misappropriated. Several cases of choice liquors, some of them addressed to naval officers, have been seized on the United States steamer Guard at Portsmouth, N. H., by the Collector. Suit has been brought in Chicago against the Ohio and Mississippi Railroad to set aside the purchase of the Springfield and Illinois Southern Railroad. Perry Belmont and C. W. Hassler, of New York, represented the plaintiffs. A temporary injunction has been granted the St. Paul and Sioux City Railroad restraining the Chicago and St. Paul Company from taking possession of the property claimed by both companies and seized by the latter.

THE TASK OF THE REPUBLICAN PARTY. The Philadelphia Evening Bulletin says: "The Republican party has now presented to it a task which it ought to set itself to do with all its might. That is to divide the South; to separate the Southern whites into two parties. An observant man will have little difficulty in persuading himself that the achievement of that feat is the one great hope of the party and the country." As the Macon Telegraph so truly says, the life of the Southern States depends upon preventing such a division. The public demoralization which must follow a divided white population struggling to capture the negro vote is frightful to contemplate.

LAST WEEK'S COTTON FIGURES. The New York Commercial and Financial Chronicle reports the cotton receipts of the seven days ending last Friday night, the 6th inst instant, at 220,748 bales, against 174,365 the corresponding week of last year. Total receipts of the current cotton year to that date, 1,950,982 bales, against 1,673,882 for the corresponding period of last year, showing an increase of 277,100 bales. The Cotton Exchange Statement for the same week was as follows: Receipts 220,346, against 178,187; total to Friday night, 1,942,610, against 1,659,682 to same date last year, showing an increase of 293,079 bales and a difference of 15,977 bales. The Chronicle's interior port record for the week is as follows: Receipts 112,631 bales, against 94,064 last year. Shipments 82,263, against 82,073 last year. Stock 236,280 against 169,073 at same date last year. The Chronicle's visible supply table showed 1,985,300 bales of cotton in sight

last Friday, against 1,953,074 bales at the corresponding date of last year—2,668,172 in 1876 at same date, and 2,470,479 at same date in 1875. The figures show an increase of 32,226 bales on the supply of last year at that date, and a decrease of 682,872 bales on the supply of 1876 at same date, and 489,174 bales on the supply of 1875.

THE SILVER CURRENCY. The Hillsboro Herald writes the whole thing into a nutshell when it says that the status of the silver currency is a disgrace to the government. Three classes of silver dollars are in circulation, nearly all of the same intrinsic value. Two of these are issued by the government. One with the object of thwarting the action of Congress to remonetize silver; that government turns its back on one of its bankings and brands it as a bastard. The effect is that the holders of silver who at first seized silver with avidity, now distrust it and, in reality, have suffered serious losses. Mexican dollars, lately at par, are now 25 per cent below. Trade dollars, once above par, are 10 per cent below. Congress should make it a point to regulate this at once, and check off nefarious speculators.

Face to Face With Disease. How often it happens that although we have witnessed the ravages of disease in the case of others, we disregard his warning signals in our own. It is only when we find him face to face with us that we really perceive how grim he is. Then, perchance, when it is too late, medical aid is sought. His avart courier, his forerunner, is physical weakness. Fortify the system, and you are armed against him. The finest tonic for this purpose is Hostetter's Stomach Bitters, which renders digestion easy and complete, nourishes the system, improves the appetite, gives strength yielding sleep, counteracts biliousness, and keeps the bowels in their regular order. Leanness, and unnatural weakness and sallowness of the face, are obviated by it, and so general and beneficial are its effects, that not only is the body invigorated and regulated by its use, but despondency banished from the mind.
